L - I have been meaning to write since I saw you a week ago. You looked very good and I was happy to see that. Right at the top, I have NEVER reported to the police about you. Totally mistaken. People at CGI did say to me that you had been around the day before I actually saw you, yet I have never heard from anyone there that they have ever called the police. It is true that workers come and leave the front office fairly regularly. I am very sorry for these kinds of misunderstandings and the pain you are feeling. I'm in my usual rush now so I must go. Thank you for writing. DW

hi deborah,

your reporting me to the police last year -- and half of what you reported aren't even true -- has proved so destructive of my life, the only comfort i get in life, my little group, has been so destroyed since, and yet i have never blamed you.

i'm so completely isolated right now, no group, no friends, no family, and i only wish to see you some time, i wish to see some of the old people in my life who wouldn't be affected by the devastating alert that's going around about me. i cannot meet people, everyone i meet would have to report me to the police behind my back and then hide this from me but give me a fake smile in front. the prison of deception is so hard to bear.

that's what's going on with me. i wish to see you of course not as a patient, but only to chat, as you have long ago specified. so i wish you wouldn't have to twist what i'm saying to you around and report to the police. i did know you for 12 years...

Lawrence, I am trying to find reasonable referrals, but it's not in a timely manner. I apologize for that and please know that I have made phone calls but I am waiting for call backs. Organizations are usually the best bet. A few people have referred me to Didi Hirsch but I don't believe you can go there and go to Edelman also. I'm just so far away from the people I used to know who could help me with these questions. I will keep at it. DW

hi deborah,

i guess the alcott center is over. there is no need to ask them anymore. perhaps you'd know any other low cost therapists?

Nothing to report yet. I am out of town a lot these days - this weekend to Bay area. Next week should be easier. Hang in there, DW

Lawrence, the early part of Passover is finished and I will be able to work on these things this coming week. I hope you are well. DW

When you say take me back, does that mean that you were actually seeing someone there at one time?

I
would

I
