The third International Court of Justice trial over the suspect

IX

6 June – 31 July, 2016

The Secret Society women consist of (as of June, 2016): Karin (the German Lady, K), Kiersten (J), Angelica (Angelina Le Beau Visage, G), SDW (Maura), and Dr P (Petterson). The most important peripheral member of the Secret Society around this time is certainly the "Long Keng volunteer". For his possible identity, see the next chapter.

There is an important change to the reference system in the following narrative. While the reference to the "suspect" remains the same, his best friend "W" is now referred to by his nickname, "Wes", in conformity to the reference system in the earlier narratives. In addition, for brevity's sake, the "Secret Society women" shall simply be referred to as the "SS women".

RESUME

The following reconstructs the Secret Society women's operations against the suspect and his website and the associated International Court of Justice trial from 6 June to 31 July, 2016. This current version is a revision of the original "The third ICJ trial over the suspect, IX", originally composed in June and July, 2017. The original version, with the file name "prelude_gr_3g.pdf", was corrected for a few typos on 03.12.2019 and can still be found in the same folder.

Now a brief summary of the course of events during this period. We have seen that, on 4 June, the Secret Society women have personally connected up with the Trump campaign, with the Russians intending to intercept more evidence into the ICJ to help preserve the conviction of Homeland Security CO chief and NULND as it is and lock up the previous ICJ trial while the CIA intends on just the opposite by instructing the Secret Service to once again expose these women's fraud. From 6 to 8 June, the Secret Society women continue to mobilize volunteers to make false reports and then anxiously wait for a response from the Secret Service and the Trump campaign. On 9 June, since the Secret Service and the CIA are about to prove the Homeland Security warning about the suspect to be false once again, the Russians have apparently encouraged the Trump campaign to continue to insist that it is correct. (The Trump Tower meeting?) By 13 June, however, the ICJ trial is definitively dismissed for the second time: the Secret Service has concluded their investigation and demonstrated, for the second time, that Homeland Security's warning about the suspect is incorrect while the TMU's warning about the Secret Society women (as a bunch of

fraudsters) is correct. While the Secret Society women realize that they have failed in their enterprise once again, the Russians and their allies begin trying to "revive" the ICJ trial for a second time (to prove the Homeland Security warning about the suspect to be correct and thus preserve the conviction of Homeland Security CO chief and NULND as it is while locking up the previous ICJ trial). By 21 June, the Secret Society women would resume making serious effort to prove to the Secret Service that the suspect is indeed a plagiarizer. It's always this most essential, and most impossible, task in their whole enterprise! Then, late night 23 June and early morning 24 June, the Secret Society women and their buddies in France and Germany would make a big deal over the suspect's second portrait of Frauke – but to no avail. Eager to help the Russian side "revive" the ICJ trial, the Secret Society women then report the suspect's website to Microsoft on 24 June and find another lawyer (the "Newport Lawyer") on 25 June. All in vain. It would seem that, by 29 June, the Newport Lawyer has already failed the petition process and the women are back to mobilizing their volunteers to brainstorm. Then, in the early days of July, they refocus their attention on the PP post. On 4 July, they even ask somebody in the Belgian government whether the PP post could constitute enough "harassment" as to warrant the circulation of the Homeland Security warning about the suspect in the international diplomatic community one more time. But no.

As the suspect is about to embark on his trip to New York to take TestDaf, however, the Secret Society women and their Russian overlords finally see lights in the tunnel. By 9 July, the Russians, given the impasse, have alerted the Trump campaign (probably via Homeland Security CO chief) that the "terrorist stalker" is coming to New York. Cooperating with the Russians, the Trump campaign acts on Homeland Security's warning about the suspect as a dangerous and obsessional terrorist stalker and contacts the Secret Society women for a second time to obtain their "expert testimonies" about him. By 13 July, the Secret Service is thus forced to reopen their case on the suspect and, with the Trump campaign's intervention, the ICJ trial is "revived" for the second time. The Russians and the CIA then resume debating fiercely in the ICJ about whether the suspect is indeed insane. The suspect arrives in New York on 16 July and, on 17 July, meets up with Wes. The Secret Service is forced to run a serious investigation again of the suspect and the Secret Society women so that the CIA can take the results of the investigation into the ICJ as evidence to debunk the case of the Russians and their allies. The investigation is going quite well – the Secret Service is able to catch the Secret Society women committing serious fraud on 17 July – but the Russians are always able to order Wes or Daniel (via Homeland Security) to generate (faulty) counter-evidences. They even control the suspect to partially screw up his TestDaf on 19 July in order to produce evidences in their favor. Nevertheless, the CIA is gaining an upperhand as the Secret Service's investigation again demonstrates that the TMU's profile of the suspect and warning about these women are correct. The suspect leaves New York on 21 July without even a thought about Donald Trump – the most important evidence in the CIA's favor. On that day, the suspect also posts a new message on Bluehost forum causing the Gilroy volunteer to drop out from the Secret Society women's operations and creating chaos amidst their organization. By this time, the

Secret Service has informed the Secret Society women that they see no stalking of Donald Trump because there is no validity to the Homeland Security warning about the suspect – because, again, the suspect does not seem to have plagiarized. Thus, between 20 and 25 July, the women continually send in the Long Keng volunteer to brainstorm how to prove to the Secret Service that the suspect does plagiarize. By 26 July, the owner of Bluehost forum is required by the Secret Society women to take the whole forum down. On 26 July, the Secret Society women are also able to recruit a State Department officer to make a false report about the suspect's plagiarism for them – this is however probably the CIA's mole. Meanwhile, by the end of the month, the suspect, reflecting on what has happened in New York, has realized how the whole mechanism works (that the Secret Society women are listed as "expert witnesses" on Homeland Security's warning about him as a terrorist).

It's not clear what the exact relationship is between the "Trump-Russia collusion" and the "Russia-the Secret Society women-the Trump campaign connection". As briefly explained in the narrative, the Russians must have been commanding Homeland Security CO chief to run operations to benefit all the supposed "victims" of the suspect's terrorist conspiracy with him. Besides Marine, Frauke, China, Iran, and, as shall be seen, Sahra – the Russians must also be commanding Homeland Security to pull strings here and there to help elect Donald Trump. Meanwhile, the Russians must have hoped that the Secret Society women could establish the suspect to be also obsessed with Trump and to want to ruin his campaign – so that the ICJ could also issue a judgment requiring the US Establishment to bring Trump to power. Furthermore, there is certainly more to the "Trump-Russia collusion" than the Mueller Report has revealed. As shall be seen, in the next seven months, the Russian intelligence SVR and the Russian diplomatic mission would be, via Homeland Security, in regular contact with the Trump team in regard to a schizophrenic terrorist stalker on Homeland Security's watchlist who, after he has stalked Russia's First Daughter Ekaterina and forced her to hide her identity, is now coming onto Trump. Because this is a confidential terrorism case and still ongoing when Mueller is publishing his report, Mueller makes no mention of the Trump team's attempt, under Russia's encouragement, to validate the Homeland Security warning about this terrorist stalker in order to help Russia prevent the CIA from reopening a former case at the International Court of Justice. That's part of the Trump team's "collusion" with Russia too! By the end of the period under consideration, as the press would report, both Sessions and Kushner would have met with Russian ambassador Kislyak on 27 April in Mayflower Hotel; Kushner and Trump Jr. would have met with a Russian lawyer in Trump Tower on 9 June; and Sessions would meet with Kislyak again during the Republican National Convention on 19 July, when the suspect is in New York taking TestDaf. We have to wonder whether the commotion about the suspect has ever come up in all these discussions – very likely, since preventing the CIA from reactivating the previous ICJ trial is Russia's top priority. Besides, the Trump team, though very busy with campaigning, is already demonstrating tremendous loyalty to the Russians – and would thereby begin antagonizing the CIA and the rest of the US national security Establishment.

Something else of note. On the early morning of 6 June in Moscow, a US diplomat was beaten up by a FSB agent while attempting to enter the US embassy.[1] This incident, along with other hostile acts which US diplomatic personnel have experienced in Moscow around this time (cars vandalized, homes broken into, children followed home from school, pet dog killed), illustrates of course the Kremlin's growing anger toward US aggressions: the wars in Ukraine and Syria – which everyone knows about – and Homeland Security's attempt to convict Russia in November last year and the CIA's persistence in reactivating the by-gone ICJ trial during the past 5 years – none of which anyone knows anything about except the participants. The current episode in "The Secret History of the ICJ" thus makes up for the holes in the Mueller Report as well as in the other news reports about the Kremlin's strange behavior lately.[2]

---

1   This incident is vividly described in Antonio and Jonna Mendez's *The Moscow Rules* (2019), in the very beginning.
2   In the original version, there is this commentary at this point which illustrates my wrong understanding at the time (mid-2017): "It's becoming increasingly evident that this third ICJ trial is orchestrated by the Macrospherians as evidence-replacement in the evidentiary record of the previous (first) ICJ trial. The Macrospherian plan – hinted at in the previous narratives – is gradually becoming true. In the next episode, you will see the Agency removing the suspect's terrorist status altogether while establishing definitively the Secret Society women as 'terrorists'. You can see at work here the Macrospherian purpose: since the Secret Society women, Homeland Security CO chief, and the suspect himself are together being debated about as 'terrorists' during this third ICJ trial, this episode, when taken backward in time to be pasted somewhere in the evidentiary record of the previous ICJ trial, thus fulfills the Macrospherian plan to make a whole group of people into the 'terrorist' in the previous ICJ trial. (The brain-scan images of this whole group of people are evidently being mixed together to constitute the intercepts which the Monkey has forged of the suspect's thoughts back in April 2010.) The Macrospherian plan is evidently in progress to either transfer the suspect's terrorist status entirely onto the Secret Society women (and Homeland Security CO chief) or to make everybody here share it. The most interesting fact is that, just as the Secret Society women, especially SDW, are the suspect's 'mirror images' (completely identical in certain respects while completely opposite in others), so Donald Trump is also his 'mirror image'. These 'mirror images' are the suspect's 'substitutes' in the evidentiary record of the previous ICJ trial. Donald Trump will be identical to the suspect in certain respects – both are accused of being racist and misogynist; like the suspect, Trump loves Russia and will try to save Russia soon; like the suspect (who is accused of conspiring with Russia in 2009 and 2010), he will soon be suspected of 'colluding with Russia' – while opposite of him in others – Trump has had many women while the suspect has not; Trump is rich while the suspect is poor; Trump lives in Trump Tower while the suspect is homeless. Trump's wife's blunder on 19 July during the Republican National Convention is evidently also orchestrated from the control center to make her (or Donald Trump) the same as the suspect: now both are accused of plagiarizing. Just like Donald Trump, the Secret Society women are also gradually acquiring the suspect's former characteristics: they are now actively working for Russia's interest in an ICJ trial; and, soon, they will, as 'terrorists', be accused of conspiring with Russia and become Russia's greatest curse because of it. Meanwhile, virtually all the characteristics they have attributed to the suspect are their projection of their own characteristics onto him. Clearly, this whole group of people – Donald Trump, Homeland Security CO chief, the Secret Society women, and the suspect himself – together constitute the 'terrorist' in the previous ICJ trial, and the Macrospherians are transferring all of the suspect's troublesome characteristics (being a 'terrorist', conspiring with Russia, wanting to save Russia) onto other people, onto his 'substitutes'. This is especially clear by the beginning of 2017, when the suspect makes no attempt to 'help (conspire with) Russia' and 'save Russia', while it is now the Secret Society women who are accused of 'conspiring with Russia' and it is Donald Trump who is trying to 'save Russia'. Finally, you should be able to see that this third ICJ trial is itself a 'mirror image' of the previous ICJ trial: while, in the previous ICJ trial, it is the CIA and Secretary Chertoff who had the ICJ's authorization to forge evidences to frame Russia, in this third ICJ trial it is the Russians who have the ICJ's authorization to forge evidences to frame the United States; while, in the previous ICJ trial, the suspect was aligned with Russia while Karin was aligned with the US Establishment, in this third ICJ trial Karin is aligned with Russia while the suspect is aligned with the US Establishment, etc. The 'reversals' are too numerous for me to list them all here." I want to preserve this wrong-headed commentary here because – you never

The last visits were on 28 and 18 May. Probably a false report about the suspect's plagiarism.

The suspect is at Limited Ink tonight (Draw Anything LA Meetup). When he comes back to Westwood, he would be very upset.

9 June (Thursday)

Today, Donald Trump Jr. would be meeting with a Russian lawyer (Natalia Veselnitskaya) in the Trump Tower. Both Jared Kushner and Paul Manafort would be there as well. Did they also discuss the suspect? If they did, then the Russians must be simply urging the Trump campaign to ignore the Secret Service's denial of the Homeland Security warning about the suspect and continue to insist that the suspect is a threat – in exactly the same way in which the SS women, and the Homeland Security warning, have claimed he is. This is utmost important since the CIA is about to prove the Homeland Security warning to be false once again in the ICJ and thus reactivate the previous ICJ trial.

11:06 AM, the indexing is done. It has indexed all the index pages, all pages linked from the gallery, all
external links pages, and then recording files and documents for the Secret History. It did not index any
of the Secret History chapters (except for Preface and Historical Photographs) nor chapters in Scientific

Enlightenment. It's not clear whether this has anything to do with the SS women's operation. (Perhaps the Russian intelligence simply needs more evidence in the ICJ to prove these women's testimonies to be correct.)

Recall all the visitors from College Station or Texas A&M University from before.

Around 3 PM, the suspect is meeting with detective Glorioso at the Pacific Station. He asks her whether she was involved in the suppression of his website back in January, and yet she is panicking over whether the suspect has developed an obsession with her and is stalking her. In particular, she is terrified that the suspect might be filming her with his laptop – it must be because Angelica has told her that the suspect likes to film people with his laptop. It's now certain that detective Glorioso has always believed Angelica's bullshit about the suspect and has never received any warning from the TMU about the SS women. In any case, detective Glorioso denies that she has had anything to do with that January episode, and the suspect as of now has not yet thought of the possibility that Dr P might have connections with other detectives in the county.

This might not be related to the SS women. This means that the SS women have spent the entire afternoon and evening waiting for a response from the Secret Service and the Trump campaign.

12:15 AM, the Weird Fat White Guy shows up in Starbucks – just when the suspect is looking up information on Rodulgin (Putin's best friend).

Is this a false report about the suspect's computer-hacking? A reminder for the Trump campaign and the Secret Service? There will be no more activities from the SS women for the rest of the morning and the entire afternoon. They are apparently still waiting on a response.

The suspect is at Bru-Coffee this afternoon. The Homeland Security informant "Gonzales" is there.

6:47 PM, the SS women are active again and the Seattle volunteer from 4 June comes over: hsd1.wa.comcast.net, Seattle,

It's a direct visit. He has typed the URL directly into the browser. It seems that he's doing a status check – see if the Trump campaign has managed to persuade the Secret Service to remove this website. No more visits after this. The SS women are still waiting for a response.

How the suspect has stolen this drawing from his aunt?

Another confirmation of the suspect's plagiarism for the Trump campaign and the Secret Service? The SS women will then make no visits in the next 9 hours. This is the third day!

10:05 PM, they resuming sending in volunteers: Comcast, Denver, Colorado,

This is most likely another false report about the suspect's plagiarism and misogynist speech.

The second time today.

Meanwhile, around 3 PM, the suspect meets with Annukka at her residence (from 34:00 onward in the recording). About how Kiersten has been framing the suspect. How the SS women have been impersonating him online. "Am I supposed to sit by?" And yet Annukka asks the suspect to simply

forget about it. The suspect's visit is finished by 48:00. Then Wes calls the suspect back on 55:00. (1) The suspect's side of the speech is censored in the intercept, that's why Wes often said things not corresponding to what he had said. Quite correct! Evidence in the CIA's favor. (2) Wes: "But you do support Trump and think Obama is a racist..." It seems that Wes is instructed by the Secret Service and the Invisible Hand to prompt the suspect to explain more of his views on Trump in order to gather more evidences with which to refute Homeland Security's false warning about him in the ICJ. Wes then reiterates his theory about "every 80 years". The suspect: "I don't give a damn about Trump, I have reflected on why I was pro-Trump, it's all because I hated Democrats so much, they are a bunch of closet racists...." The suspect has by this time entirely lost interest in Donald Trump. (3) The suspect then advises Wes: "If the SS women ever blackmail you, you have a case against them..." (4) Then the suspect prophesies: "Even Trump's campaign might have asserted Homeland Security's profile of me to be correct..." Indeed! Then the suspect speculates wrongly: "I'm also here to get Trump elected... My speculations about the Invisible Hand and the British Old Lady might be correct... The Invisible Hand wants to stop Hispanic immigration..." All these speculations (except the last one) couldn't have been farther from the truth. The CIA is about to hate Trump very much. And yet the CIA will presumably use the suspect's wrongly supposed function to get Trump elected as evidence to prove that, because, again, he has understood how the "terrorist conspiracy" works, he couldn't possibly have really meant harm to the National Front back in February nor could he possibly be a danger to Trump currently. Finally, the suspect: "I hate hypocrites more than racists." Wes then hangs up because he has business with Alessandra. All in all, this conversation is very favorable evidence for the CIA. This CIA is about to triumph in the ICJ for the second time.

This might be a status check: it's been 8 days since the SS women are reporting the suspect to the

Trump campaign, and yet nothing has happened. There will be no more visits tonight. The SS women are evidently disappointed and conferencing.

3:56 AM, the log is archived.

Our assumption is that, today in the ICJ, the CIA has successfully used the Secret Service's latest investigation results to prove Homeland Security's warning about the suspect once again to be false. Once again, the CIA has established in the ICJ that the TMU's profile of the suspect and warning about the SS women are correct! These women are a bunch of false complainers! The Russians would have communicated the problem via Homeland Security to the SS women. The Russians are thus scrambling once again with the SS women trying to save their testimonies about the suspect with the Secret Service and in the ICJ – in order to not only preserve the conviction of Homeland Security CO chief and UNLND as it is but also to prevent the CIA from reactivating the previous ICJ trial.

14 June (Tuesday; Kiersten on Facebook)

From today onward, the suspect will be working daily in Elysee. He has email communication with Professor Jaeggi today. It's evident that, at this point, Professor Jaeggi hasn't yet been warned by (Russian-run) Homeland Security about the suspect, but she will soon be.

Today, lawrencechin2011.com will have expired and entered redemption period.

It would seem that this volunteer is here to brainstorm for the SS women how to report the suspect for plagiarism.

Brainstorming how to falsely report the suspect for computer-hacking? From the operation today we
can ascertain this: as the SS women start saving their case about the suspect with the Secret Service and
helping the Russians "revive" the ICJ trial for the second time, their first focus is on proving to the
Secret Service that the suspect indeed plagiarizes (and maybe hacks computers).

Certainly a visit from the strangest place! Are the SS women calling upon an engineer in India to falsely report this physics diagram as fraudulent or plagiarized? Likely! We thus see that, on this second day, the SS women continue to focus on proving the suspect's plagiarism as the first step in saving their case with the Secret Service.

12:30 AM, it's Chevalier du Temple (si.res.rr.com, Staten Island):

The last time that he was checking on the suspect's "presentation" was 26 May. Clearly, he's discussing the matter – i.e. how the Homeland Security warning about the suspect is proven false in the ICJ for the second time – with the SS women. All the Partisans must be quite frustrated.

There will be no more visits tonight. It appears that the SS women are spending the whole day brainstorming for new strategies, conferencing, and debating with the Secret Service while sending a few more false reports to them to persuade them.

The suspect would be angrily studying for TestDaf tonight in Elysee. He has begun to comprehend that he isn't going to pass the exam.

The last time that he was here was 23 May. It appears that the SS women are discussing the matter with the Long Keng volunteer this morning: "We need to come up with some evidence to convince the Secret Service that there is at least some truth in the Homeland Security warning about him so that the case can be reopened again. Plagiarism is the way to go! Can you come up with something that indicates that he did plagiarize?" They discuss the current impasse for another hour and a half. 7:34 AM, the Long Keng volunteer looks up thermh2.html:

What is this about? Looking for signs of plagiarism? Is this a friend of the Long Keng volunteer?
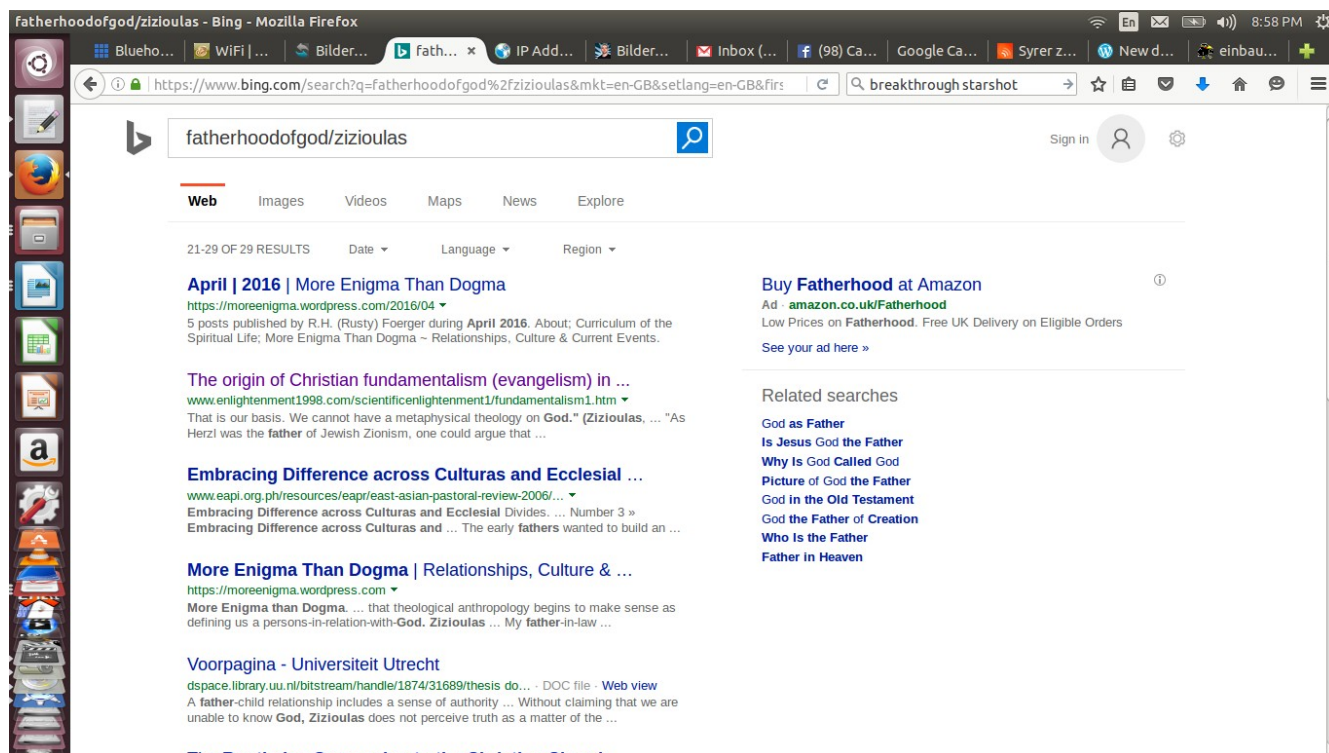

Then, on 9:19 AM, the suspect is connected with Wes. (1) "It doesn't seem that I could pass the test."
Wes suggests that the suspect try out the "German Town" (in the Old Town). (2) Since professor Jaeggi
might not stay in Humboldt, the suspect should go to Frankfurt. Analytic philosophy is pretty hot in
Germany right now. (3) The suspect: all of Wes' 2012 oracles make sense now, what happened in 2010,
the oracles referred to Ekaterina. "Richard Nagell refers to you... Back in 2012, the chain of command
(which resulted in these oracles) actually went back to the Russians..." Perhaps the Russians could use
this as evidence to confirm Homeland Security's false warning about him as terribly insane and thus
revive the ICJ trial. (4) The suspect then talks about the Pentagon's plan to insert chips into the soldiers'
brain to enable them to speak foreign languages. "Perhaps Kiersten could use it..." The suspect then
gets prophetic: "Maybe they want me to take the test in order to fail it, so that this can confirm
Homeland Security's false profile of me..." (5) The suspect then talks about the hacking of DNC: "I
retract my statement, I won't support Trump anymore." "You don't?" The suspect gets prophetic again:
"The Trump campaign should also consider Homeland Security's profile of me to be correct..." But he
then speculates wrongly: "If the FN doesn't come to power next year, it will be very strange... BOL's
plan will be required to come true... To make people smarter, 'Get Smart'... Most people are too dumb,
it's so sad, and they have no idea..." Then: "This country wants to use me as a patsy... Putin's best
friend, a musician... It's all the Russians' intention for me to get arrested... I was made to sacrifice for
the Russians' anger..." The suspect then expresses his desire to visit the UN, to see the room where
people were once debating about him back in 2007, about whether he was crazy. "Americans are so
bad, they want me to be a criminal in order to use me as a patsy..." The Russians can presumably use all
these confessions (wrong scenarios) as evidences to confirm that the suspect is indeed insane.

The suspect talks to Daria (Wyzant) this afternoon while in Bru-Coffee.

The SS women have refrained from operation for almost 9 hours. Did they meet with Homeland
Security CO chief in order to analyze together the suspect's conversation with Wes today? 5:04 PM,
they resume operation: threembb.co.uk, Prescot, UK.

4:41 AM, the log is archived. Presumably today, because of the suspect's conversation with Wes, the
Russians are able to temporarily prevent the CIA from reactivating the previous ICJ trial.

19 June (Sunday; no visits after 7 PM)

The last visit to this image was 15 May. The SS women visited this images several times in the first
half of May.

The suspect is attacked by a homeless man this afternoon near Bru-Coffee. It's not clear whether it's
the Russians who have commanded Homeland Security to send him in (to produce evidence that the
suspect is indeed physically violent).

This is the second time this month. (The last time was 7 June.) The SS women are now thinking about using the suspect's "harassment" of Robin to revive their case with the Secret Service. No more visits tonight!

11:30 PM, the suspect finishes "Prelude C-5L" while in Elysee and uploads it to his website.

4:52 AM, the log is archived.

20 June (Monday; no visits from the SS women)

There will be no visits from the SS women today. Did they spend the whole day brainstorming with Homeland Security CO chief? Or conferring with the Secret Service trying to persuade them to reopen the case on the suspect? They however did send two more volunteers to the Bluehost forum posting.

6:26 AM, dhcp.aldl.mi.charter.com, Traverse City, Michigan.

Both are page 1.

From today onward, the suspect will stop reconstructing the SS women's operations and concentrate on studying German.

3:39 AM, the SS women finally send a volunteer: wireless.uva.nl, University of Amsterdam,

145.109.13.56 - - [21/Jun/2016:04:39:15 -0600] "GET /1/sexdispositive.jpg HTTP/1.1" 200 31789 "https://www.google.nl" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10.10; rv:46.0) Gecko/20100101 Firefox/46.0"

Probably asking a university student to brainstorm how to falsely report this image as plagiarized. This

is the fifth visit since 6 June.

5:10 AM, the log is archived.

21 June (Tuesday, visits resumed)

The SS women would resume sending volunteers to the suspect's website today. (Presumably the Secret Service didn't agree to reopen the case on the suspect.) 6:53 AM, lightspeed.miamfl.sbcglobal. net, Fort Lauderdale, Florida.

99.157.188.117 - - [21/Jun/2016:07:53:08 -0600] "GET /scientificenlightenment1/dividedline.jpg HTTP/1.1" 200 35034 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The ninth time.

6:57 AM, iconfilms.co.uk, Bristol, UK.

The last visit to this chapter was 10 May. Icon Films is a production company making anything from documentaries to factual entertainment. Another recruit from the strangest place.

7:13 AM, fbx.proxad.net, Villejuif, France.

81.57.198.61 - - [21/Jun/2016:08:13:29 -0600] "GET /scientificenlightenment1/relativity.htm HTTP/1.1" 200 68203 "https://www.google.fr/" "Mozilla/5.0 (X11; Linux x86_64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.84 Safari/537.36"

9:42 AM, web.vodafone.de, Pforzheim, Germany.

109.42.3.134 - - [21/Jun/2016:10:42:45 -0600] "GET /scientificenlightenment1/magicsquare.html HTTP/1.1" 200 10222 "http://www.google.de/url?sa=t&source=web&cd=1&rct=j&q=zhen%20and %20dui%20horizontally%20and%20the%20six%20trigrams%20vertically %20&ved=0ahUKEwjoprmTyLnNAhVDApoKHa6GAc4QFggaMAA&url=http%3A%2F %2Fwww.enlightenment1998.com %2Fscientificenlightenment1%2Fmagicsquare.html&usg=AFQjCNELzPsWz9_z2fXX6geQKvutVjehs A" "Mozilla/5.0 (Linux; Android 5.0; SAMSUNG SM-G900FD Build/LRX21T) AppleWebKit/537.36 (KHTML, like Gecko) SamsungBrowser/4.0 Chrome/44.0.2403.133 Mobile Safari/537.36"

It appears that the SS women have resumed either collecting testimonies about the suspect's plagiarism
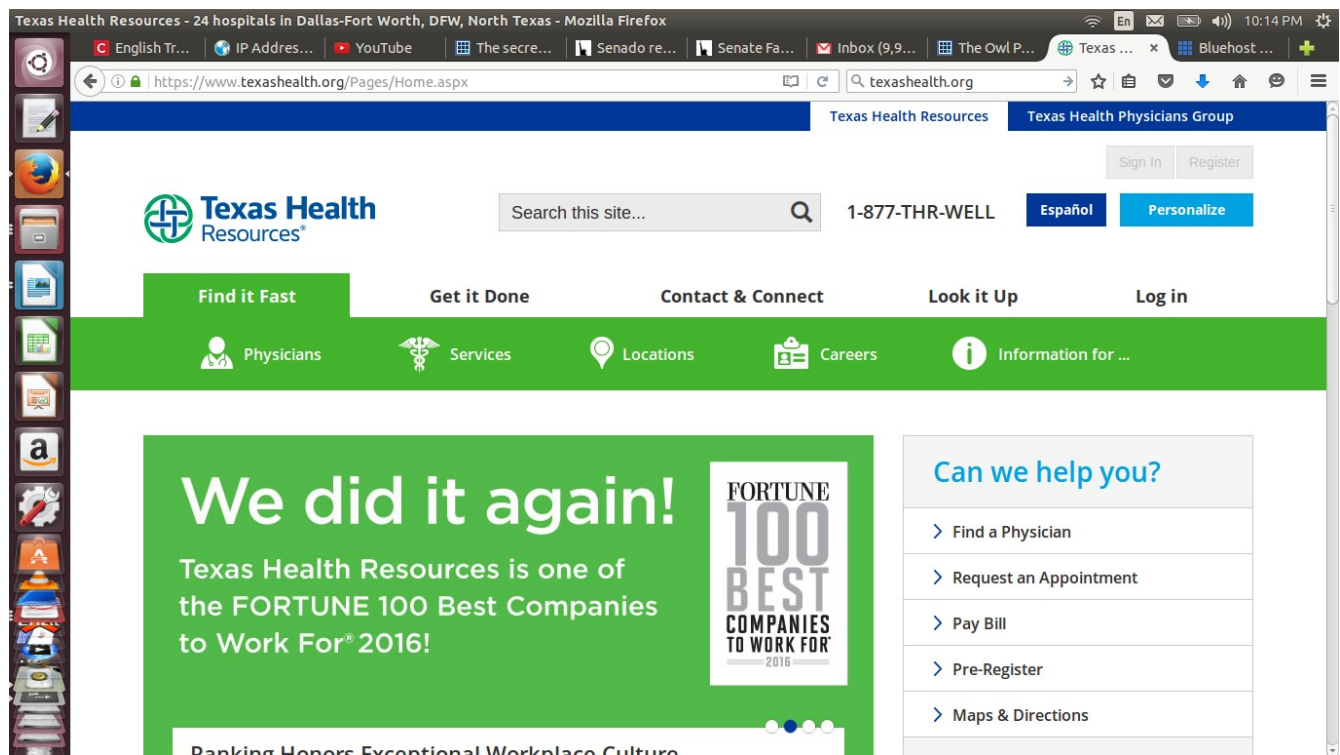

or asking everybody to brainstorm how to make such false reports. (Did the Secret Service say, "The Homeland Security warning isn't correct because there is no evidence that the suspect did plagiarize"?) There are then no visits between 10 AM and 4 PM.

3 PM, the suspect would meet with Yvonne, his new German tutor, for the first time.

4:17 PM, gateway.texashealth.org, Arlington, Texas.

208.189.200.2 - - [21/Jun/2016:17:17:01 -0600] "GET /scientificenlightenment1/bohrelementtable.jpg HTTP/1.1" 200 83534 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

Another recruit from the strangest place! The third visit since 6 June.

6:20 PM, Korea Telecom, Seoul, South Korea.

175.209.95.111 - - [21/Jun/2016:19:20:56 -0600] "GET /scientificenlightenment1/bohrelementtable.jpg HTTP/1.1" 200 83534 "https://www.google.co.kr" "Mozilla/5.0 (Windows NT 10.0; WOW64; rv:47.0) Gecko/20100101 Firefox/47.0"

The second time today! Apparently this image is the key to proving the suspect's plagiarism! The fourth visit.

7:52 PM, TeleNet, Dublin, Ireland.

92.235.18.204 - - [21/Jun/2016:20:52:44 -0600] "GET /1/elementarystructures20.htm HTTP/1.1" 200

(KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

It appears that the SS women are asking him to examine how to report this chapter as plagiarized – to
reinforce the 6:57 AM report by the Bristol volunteer. He examines it for almost 7 minutes, and then
comes to menard.htm.

92.235.18.204 - - [21/Jun/2016:20:59:04 -0600] "GET /scientificenlightenment1/menard.htm

"Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko)
Chrome/51.0.2704.103 Safari/537.36"

He spends almost an hour on it. Is he discussing the matter (how to prove to the Secret Service that the
suspect is a plagiarizer) with the SS women? Did Prof. Ménard again agree to help? Then, 8:53 PM, he
comes to Academy.

10:25 PM, it appears that the SS women have called up another volunteer to brainstorm about this
chapter – the third time today: synopsys.com, Bengaluru, India. Listed as a proxy.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The second visit since 6 June.

In sum, the SS women have begun today to make a strenuous effort to prove to the Secret Service that
the suspect is indeed a plagiarizer – in order to help the Russians and their allies "revive" the ICJ trial.

5:06 AM, the log is archived.

The SS women have not visited this image since early April.

He's examining the Table of Contents while participating in the SS women's conferencing ("How do
we prove that he does plagiarize?"). After brainstorming for more than an hour, 8:24 AM, the Long

the Long Keng volunteer refreshes the Table of Contents: China Unicom Liaoning, Dalian, China. He
has changed to a different proxy.

The last visit to this essay was on 16 June, by the Meknès volunteer. The SS women have invented a new story about this essay to convince the Secret Service.

This should be related to the SS women. A volunteer has discovered a new reply on the PP post by a certain "toothache". The SS women as yet do not know that this is the suspect himself.

This is the tenth time.

7:30 PM, the suspect is at Limited Ink. He would produce a second portrait of Frauke.

What is this about? Is this coming from Microsoft? Are the SS women reporting the PP post to Microsoft? Or did they recruit a new volunteer from Microsoft? In any case, most likely to produce some temporary evidence with which the Russians can lock up the previous ICJ trial for the time being.

10:22 PM, btcentralplus.com, Winsford, UK.

Did one of the two AfD visitors just seen already contact the Partisans saying that the suspect has posted a new portrait of Frauke on her Facebook page? In response, one of the Partisans thus checks out the suspect's portrait of Marine on the Partisans' forum.

In sum, the SS women visited the PP post three times today and the Bluehost forum posting one time – to report on the suspect's delusions about their going after him. Meanwhile, they and their buddies in the National Front and the AfD would be going hysterical over the suspect's new portrait of Frauke but, when they shall try to bring up the matter to the Secret Service, they would of course be ignored.

The fifth visit since 6 June.

8:52 AM, Frontier Communications, Wethersfield, Connecticut. This is south of Hartford, and about 30 miles northeast of Ridgefield.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The last visit was on 21 June. Within a minute, he clicks on the next chapter, but it is a broken link.

32.214.213.68 - - [24/Jun/2016:09:53:16 -0600] "GET /scientificenlightenment1/yixuai66.html HTTP/

"Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

11:30 AM, the suspect is meeting with Yvonne for the second time.

6:08 PM, it's the Wethersfield volunteer again. It seems that he has merely called up the last chapter visited from his browser's cache.

32.214.213.68 - - [24/Jun/2016:19:08:09 -0600] "GET /scientificenlightenment1/yixuai66.html HTTP/ 1.1" 404 1322 "http://www.enlightenment1998.com/scientificenlightenment1/magicsquare.html" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

He is evidently brainstorming for the SS women (how to report this chapter as plagiarized). We can imagine what has happened: the Secret Service has replied this morning: there is no stalking of Frauke because the Homeland Security warning is not valid. In response, the SS women can only try to prove again that the Homeland Security warning *is* correct because the suspect does plagiarize.

The last visit from Microsoft was 17 May. The SS women are again complaining to Microsoft about the suspect's plagiarism. Since the ICJ trial is "dismissed" and the case with the Secret Service is dead, the SS women are trying to produce some evidence to help the Russians "revive" the ICJ trial. Although they might not yet know that Homeland Security CO chief has fallen under Russian command, they are certainly consciously trying to help the Partisans and Homeland Security CO chief himself. But the Russians' purpose is probably simply to obtain some temporary evidence with which to lock up the previous ICJ trial for the time being.[3]

12:20 AM, Xo Communications, Dayton, Texas.

---

3   Again, the search term "intrawordly mysticism" is absolutely stupid, all because the SS women aren't educated and don't actually know what the suspect is writing about.

It appears that he is discussing the matter with the SS women at the moment ("Microsoft still refuses to
do anything about his website") and, while at it, calls up the Table of Contents from his browser's
cache. 4:26 AM, almost an hour later, the Long Keng volunteer comes again: Univera Networks,

104.237.91.245 - - [25/Jun/2016:05:26:08 -0600] "GET /thermh1.html HTTP/1.1" 200 23988

10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

Within 13 seconds, he clicks on a chapter in the feminism section:

As will soon become evident, the discussion has something to do with the suspect's "misogynist"
writings.

5:12 AM, the log is archived.

In sum, the SS women have visited the PP post and the Bluehost forum posting each one time today.

25 June (Saturday; Wes; the Newport Lawyer?)

Today, Putin visits China. A possible Russia-China free trade zone. Trump is in Scotland.

There are no activities from the SS women this morning! It must have been a long discussion with the
Long Keng volunteer this morning. 2:04 PM, the SS women have resumed operation: hsd1.wv.comcast.
net, Morgantown, West Virginia.

5:39 PM, the SS women ask somebody from Newport, Rhode Island (ri.ri.cox.net), to search for the
suspect's "delusions" about them.

But the document is no longer there. (The URL has changed.) As a result, 6 seconds later, the volunteer
looks up the front page:

24.250.32.245 - - [25/Jun/2016:18:39:22 -0600] "GET / HTTP/1.1" 200 3527 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_5) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

Then, 36 seconds later, the SS women direct her to the "Secret History":

25 seconds later, the SS women direct her to "Historical Photographs".

24.250.32.245 - - [25/Jun/2016:18:40:24 -0600] "GET /vol1appendixcont.html HTTP/1.1" 404 1322 "http://www.enlightenment1998.com/1.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_5) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The webpage was also not there anymore. (The URL has changed.) It seems that the SS women are simply explaining the "problem" to this new person. This makes it possible that this Newport person is actually another lawyer whom the SS women have found. As usual, the SS women would have sent her the Homeland Security warning about the suspect: "This is the schizophrenic terrorist stalker on Homeland Security's watchlist, but the Secret Service and the other agencies refuse to regard this warning as valid. But the warning is true! He does develop all these delusions about his women victims and stalk them as a result." It's probably just the same tactic the SS women have already employed many times: to send the Newport Lawyer to petition the NCTC or complain about the Secret Service's misconduct as the only possible way to force the Secret Service to reopen the case about the suspect.

6:26 PM, the Long Keng volunteer, also taking part in the SS women's current discussion with the new lawyer, comes: hinet-ip.hinet.net, Taiwan,

61.216.161.200 - - [25/Jun/2016:19:26:49 -0600] "GET /scientlitfr.html HTTP/1.1" 200 10673 "http://www.enlightenment1998.com/thermfr2.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

It appears that, after he has called up the Table of Contents from his browser's cache, he clicks on Scientific Enlightenment Table of Contents from the side panel. He reports on it for almost 9 minutes, and, then, clicks on another chapter in the feminism section:

61.216.161.200 - - [25/Jun/2016:19:35:38 -0600] "GET /1/originofmonogamy.pdf HTTP/1.1" 200

X 10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

6:47 PM, or 12 minutes later, he comes to HT-contribution from the Table of Contents.

61.216.161.200 - - [25/Jun/2016:19:47:22 -0600] "GET /HTcontribution1-philosophy.htm HTTP/1.1"

If the Newport person is actually a lawyer, then the Long Keng volunteer has been reporting to her
about the suspect's plagiarism for over 20 minutes. ("The warning is true! He does also plagiarize!")

6:58 PM, pools.spcsdns.net, Phoenix, Arizona.

This volunteer might be reporting to the "Newport Lawyer" about the suspect's delusions about, and
slandering of, the SS women.

rv:47.0) Gecko/20100101 Firefox/47.0"

It's not clear whether this is part of the same discussion. If not, it would seem that the discussion with
the Newport Lawyer has lasted at least from 5:30 to 7:30 PM (or from 8:30 to 10:30 PM in the east
coast).

9:43 PM, while at Elysee, the suspect is connected with Wes: (1) The good news: BREXIT. "Has it
anything to do with my ICJ trial?" In fact, none. The suspect continues: "It's one small step to make
people smarter..." (2) The suspect has completed a new portrait of Frauke, and has posted it on her
Facebook page on Thursday night, and the SS women are consequently mobilized. The suspect
wonders: has Germany objected as well? Well, in fact, Germany is party to the current ICJ trial on the
CIA's side. The suspect: "Every time I draw a portrait, it will be taken off search results... Would
Frauke's team affirm that Homeland Security's false profile of me is correct in order to get herself

elected?" Indeed the AfD has done so! The suspect: "Frauke is not a pro-Russia fanatic..." He is actually mistaken here. (3) The suspect then gives his wrong scenario: "The FN has already obtained an ICJ judgment in their favor, they are now simply bound to help the SS women forever, even though I pose no threat as long as they don't debate about me..." The suspect has no idea yet that this current ICJ trial didn't finish in favor of the Russian side, that it has in fact been "dismissed" two times already, and that the real objective of either side concerns the status of the *previous* ICJ trial. (4) The suspect talks about Richard Case Nagell again, his handler in the CIA... Given this, "Born Again American" probably refers to Wes himself. The suspect is most likely wrong about this again. The suspect then affirms that all of Wes' oracles ultimately came from the Russians. All these wrong-headed speculations will certainly be used by the Russians to confirm that the suspect is indeed insane. (5) More wrong scenarios, about the San Bernardino shooting: that the American authority no longer fear-mongers, and that this might be due to the suspect's case in the ICJ. Even the business in Ukraine, it is purely NULND's work, the CIA is not even involved. "The CIA wouldn't do it because they remember the previous ICJ trial, they are now more cautious, the same with Holland, he didn't want to piss off Russia..." It's not clear whether the suspect's wild speculations here are again evidences in Russia's favor in the ICJ. (6) The suspect needs to go see the judge next Wednesday; will the SS women meddle in the business? How did they ban his website back in January? Detective Glorioso freaked out when he showed up the last time. (7) Daniel is coming. (8) The suspect now expresses hope that he might pass the test. (9) The suspect was attacked by a homeless man. "Maybe it's evidence that I have been taken to the hospital... Now you are officially not working for your country... The SS women are working late every night... There is a chance that I might pass the test... It all depends on my luck..." Suddenly, the control center hurts the suspect's foot: evidently, it's because the Russians want the suspect to talk more about the "control center" so that they can obtain more evidence that he is insane. The suspect continues: "They try to trick you on the test... German academia is very influenced by American academia... The Germans are also hysterical over campus rape, all that crap..." Wes: "How dare they!" The suspect: "Oh, I need to conform to the profile that I'm a misogynist... Those on the left have been co-opted by the capitalists... The proportion of foreign students in German universities... No American students want to go to Germany...." About Judith Butler. Is Dr G still involved with the SS women? (10) The suspect then makes a confession which the Russians would use as their principal piece of evidence: "Only my reading comprehension is at C1 level, my German in all other domains are only at B2 level, that is to say only high school level, and this is after I have studied German for more than 10 years!" (11) About Peter Berger, Alfred Schutz, Carl Jung, and some other authors. The conversation continues to 11:30 PM or so.

Meanwhile, the SS women continue to mobilize their volunteers. 10:34 PM, adsl.ppp.infoweb.ne.jp, Tokyo, Japan.

Wethersfield volunteer has just looked up this chapter two times on 24 June. Probably a false report
sent to the Newport Lawyer.

5:21 AM, the log is archived.

In sum, the SS women have looked up the PP post 4 times today, one time before they call up the Newport Lawyer.

26 June (Sunday, angry, upset)

20 minutes after the suspect has posted on Bluehost forum, the Gilroy volunteer that is assigned to maintain watch over the suspect's Bluehost forum postings has already received notification. 6:24 PM, he comes to take a look (both page 1 and page 2): svna.ca.megapath.net, Gilroy, California. He's the first person to see the suspect's new post. The last time he was here was 16 May. This is his fifth time.

This is only the second visit since 6 June.

There will be no more activities from the SS women for the rest of the night. In sum, they have looked
up the PP post 4 times today, and the Bluehost forum posting one time. Perhaps the Newport Lawyer
has already informed them that their evidences might be insufficient.

27 June (Monday)

By morning, the SS women have resumed sending volunteers to the suspect's website. 9:40 AM,

A false report about the suspect's plagiarism? Are the SS women still sending reports to the Newport
Lawyer trying to persuade her that their case is good after all?

Probably another false report about the suspect's particular brand of misogynist ideology which has
motivated him to develop delusions about his women victims and conduct hate crimes against them
(talk about them on his website and online forums).

There will be no more visits for the rest of the day. It appears that the SS women have sent to the
Newport Lawyer this morning and noon a lot of false reports about the suspect's plagiarism, insanity,
slandering, and misogynist ideology. They are now waiting for a response (as the Newport Lawyer goes
petitioning the NCTC or complaining about the Secret Service's misconduct somewhere).

The SS women are evidently cooking with this German volunteer the new story they have invented about this essay. Are they sending it to the Newport Lawyer to reinforce the Meknès volunteer's report on 26 June?

Another false testimony for the Newport Lawyer about the suspect's plagiarism and hate speech against women.

The SS women will now take a six-hour break. It would seem that, this morning, the SS women have submitted to the Newport Lawyer more false reports about the suspect's plagiarism, insanity, slandering, and hate speech against women.

2:30 PM, the suspect meets with Yvonne for the third time.

Within 5 minutes, this volunteer has quite explored the suspect's website. We have to wonder whether it is because the Newport Lawyer has failed the petition process already that the women are now explaining the "problem" to this Bellingham volunteer: "We just couldn't prove to the authority that the Homeland Security warning about him is correct. Can you think of anything?"

2 July (Saturday; Wes: no visits until past midnight)

After the frenzy last night, the SS women will send no visitors to the suspect's website today until past midnight. Before that, however, two visits to the PP post. 9:30 AM, dyn.optonline.net, the Bronx, New York.

67.82.15.124 - - [02/Jul/2016:10:30:44 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The suspect is sad throughout the day over his waste of money. 8:36 PM, he is connected with Wes: (1) he is sad because he is not going to pass the test, and the train ticket is not refundable. He has made a bad decision. In Hörverstehen, he must write and listen at the same time. "Except for reading, I'm below B 2 level." The Russians will again hold onto his admission here. He laments: "Money wasted. Should just forget about the whole thing, go to Taiwan, and reconstruct the ICJ trials for the rest of my life..." The suspect is crying, he is so dumb... "I should forget about school, my theory is meant to be forgotten..." (2) About Kiersten's new interest in furniture, perhaps it's due to her collaboration with the Partisans. "Is she copying me?" (3) Wes has never heard of Sloterdijk and Honneth. (4) "Everybody in the ICJ is waiting for me to flunk the test, they have got their evidence: I have cited so much German, but don't actually know any German... The SS women have spent more time going after my website than I ever did on learning German..." The suspect really wants to cancel the trip to New York. (5) About the book "I'm Malala."

10:34 PM, the second visitor to the PP post: cable.rcn.com, Chicago, Illinois.

208.59.136.73 - - [02/Jul/2016:23:34:38 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

3:05 AM, a visit from the "Quantil Group":

168.235.196.114 - - [03/Jul/2016:04:05:20 -0600] "GET /scientificenlightenment1/descartes.html HTTP/1.1" 200 13057 "http://www.google.co.in/search?hl=en&tbm=&ie=ISO-8859-1&q=living+force+die+force+lebiniz" "UCWEB/2.0 (Java; U; MIDP-2.0; Nokia203/20.37) U2/1.0.0 UCBrowser/8.7.0.218 U2/1.0.0 Mobile"

This is the only visit for today! We must assume that the SS women are meeting in person today to brainstorm. Perhaps again they have passed the night with Homeland Security CO chief together analyzing the suspect's conversation with Wes tonight (whether his admission could be used to confirm for the Secret Service that they have been right about him, that he just cites foreign languages without understanding in order to pretend to be intellectual).

5:18 AM, the log is archived.

3 July (Sunday)

The SS women continue their operation: 5:33 AM, ri.ri.cox.net, Newport, Rhode Island,

68.0.216.213 - - [03/Jul/2016:06:33:10 -0600] "GET /gallery/bensonathena.jpg HTTP/1.1" 200 146499 "https://www.google.com/" "Mozilla/5.0 (iPad; CPU OS 9_3_2 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13F69 Safari/601.1"

This is only the second visit after 6 June. This is not the Newport Lawyer using her iPad, is it? (If so, then it's another sign that Oliver has agreed to help by complaining about how the suspect has stolen his painting and put it on his website without his permission.)

6:40 AM, ComClark Network & Technology Corp, Mabalacat, Philippines.

120.29.68.126 - - [03/Jul/2016:07:40:45 -0600] "GET /1/layereduniverse.html HTTP/1.1" 200 34894 "https://www.google.com.ph/" "Mozilla/5.0 (Linux; Android 4.4.2; GT-S5310I Build/KOT49H) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/36.0.1985.135 Mobile Safari/537.36"

10:45 AM, after almost an hour, he comes to page 2.

Has he actually spent an hour reading what the suspect has written there? Obviously here to brainstorm (how it is indeed true that the suspect keeps developing delusions about his women victims).

11:51 AM, cab.prima.net.ar, Buenos Aires, Argentina,

190.195.71.243 - - [03/Jul/2016:12:51:49 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

9:27 PM, Google proxy.

So far there are three visits to the Bluehost forum thread and three visits to the PP post. Evidently, the
SS women are today explaining their "problem" to their volunteers from around the world: "He suffers
from all these delusions about us and posts them all over the online forums! Here! And yet the Secret
Service refuses to validate the Homeland Security warning about him!")

This is from the interior of the Belgian government. Probably the Belgian ministry of foreign affairs or law enforcement. (The IP address was associated with a certain "Philippe Dreze" in Belgium in 2012.) It would appear that, after the SS women have asked all the volunteers around about the PP post and the Bluehost forum post last night and this morning, somebody has advised them to ask this official in the Belgian government whether the suspect's delusions about them could warrant the circulation, once more, of the Homeland Security warning about the suspect in the international diplomatic community. (The move could be quite important for the Russians since, day after day, they have no evidence with which to lock up the previous ICJ trial – they must be complete nervous wreck.) But of course not.

10:40 AM, the SS women access a special section on their Secret Facebook Group.

To conclude: after the consultation with a Belgian government official about the PP post, the SS women show the post to four other volunteers asking for their opinions. They also show the suspect's chapter on consumerization to two volunteers.

Is this volunteer related to the Redwood City volunteer from 12 December last year (capra7777.html) The second visit since 30 June.

12:18 PM, Oi Internet, Recife, Brazil,

200.195.33.163 - - [05/Jul/2016:13:18:45 -0600] "GET /scientificenlightenment1/postfamily.jpg HTTP/1.1" 200 14857 "https://www.google.com.br/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

12:23 PM, buffalo.res.rr.com, Orchard Park, New York.

73.27.203.200 - - [05/Jul/2016:16:31:00 -0600] "GET /kulturindustrie9/kulturindustrie9k.pdf HTTP/1.1" 200 631638 "https://www.google.com/" "Mozilla/5.0 (iPad; CPU OS 6_1_3 like Mac OS X) AppleWebKit/536.26 (KHTML, like Gecko) Version/6.0 Mobile/10B329 Safari/8536.25"

In the entire past month, this essay was only looked at by the Bellingham volunteer on 29 June. Since this essay was an important piece of evidence back in early April (by which the CIA was able to prove Homeland Security's warning about the suspect to be false), perhaps the Russians, given that the Belgian government didn't act yesterday, need some temporary evidence today to discredit it in order to lock up the previous ICJ trial for the time being, (As shall be seen, the Russians are turning their attention to the suspect's upcoming trip to New York as the best hope for their salvation.)

4:53 PM, myvzw.com, Woodbridge, Virginia,

70.208.128.127 - - [05/Jul/2016:17:53:27 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (iPhone; CPU iPhone OS 9_3_2 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13F69 Safari/601.1"

The second visit since yesterday – in fact since a long time ago. The SS women are reviving their interest in this image (one of the best proofs that the suspect indeed plagiarizes).

9:36 PM, TL Company from South Korea sends the suspect a job offer via ProZ: 175.194.141.15, Yangp'yong, Korea. Are the SS women trying to entrap the suspect and obtain evidence confirming that the "David Chin document" is the suspect's genuine confession?

9:46 PM, xgate.co.kr, Maetan-dong, South Korea.

210.94.41.89 - - [06/Jul/2016:22:46:44 -0600] "GET /scientificenlightenment1/bohrelementtable.jpg HTTP/1.1" 200 83534 "https://www.google.co.kr/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The seventh visit since 6 June. Note that Maetan-dong is only 20 miles west of Yangp'yong! Are the TL Company volunteer and this Maetan-dong volunteer related to each other?

The seventh visit since 6 June. The last visit was on 29 June. Is this volunteer related to Emily? (If so, Robin and Emily must be talking to each other right now about the current impasse.)[4]

7:25 PM, Telstra, Rozelle, Australia,

1.129.96.207 - - [07/Jul/2016:20:25:59 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 5.0; SM-G900I Build/LRX21T) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.77 Mobile Safari/537.36"

The second time today! The SS women must be thinking that this image is also excellent proof that the suspect does plagiarize.

Tonight, in Elysee, the suspect discovers that he might have a chance with TestDaf (specifically Hörverstehen).

10:53 PM, Windstream Communications, Portland, Oregon.

209.2.136.122 - - [07/Jul/2016:23:53:08 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 4.4; LGL34C Build/KRT16S.L34CV10c) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/31.0.1650.59 Mobile Safari/537.36"

11:56 PM, SDW posts a reply to Scott Snitzer's 6 July comment on her 15 May blog post.

In sum, the SS women are very much concentrated on the PP post today: 7 visits in total. Still brainstorming how to convince the Secret Service that the Homeland Security warning, and their testimonies, about the suspect are correct.

8 July (Friday; SDW on Facebook: the first time)

In the world today: an EU-NATO treaty is signed in Poland. Something that would again quite anger the Kremlin.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The seventeenth visit and the second time today. Note that the SS women are able to recruit somebody from the Central Bank of India!

2 PM, the suspect meets with Yvonne for the fifth time.
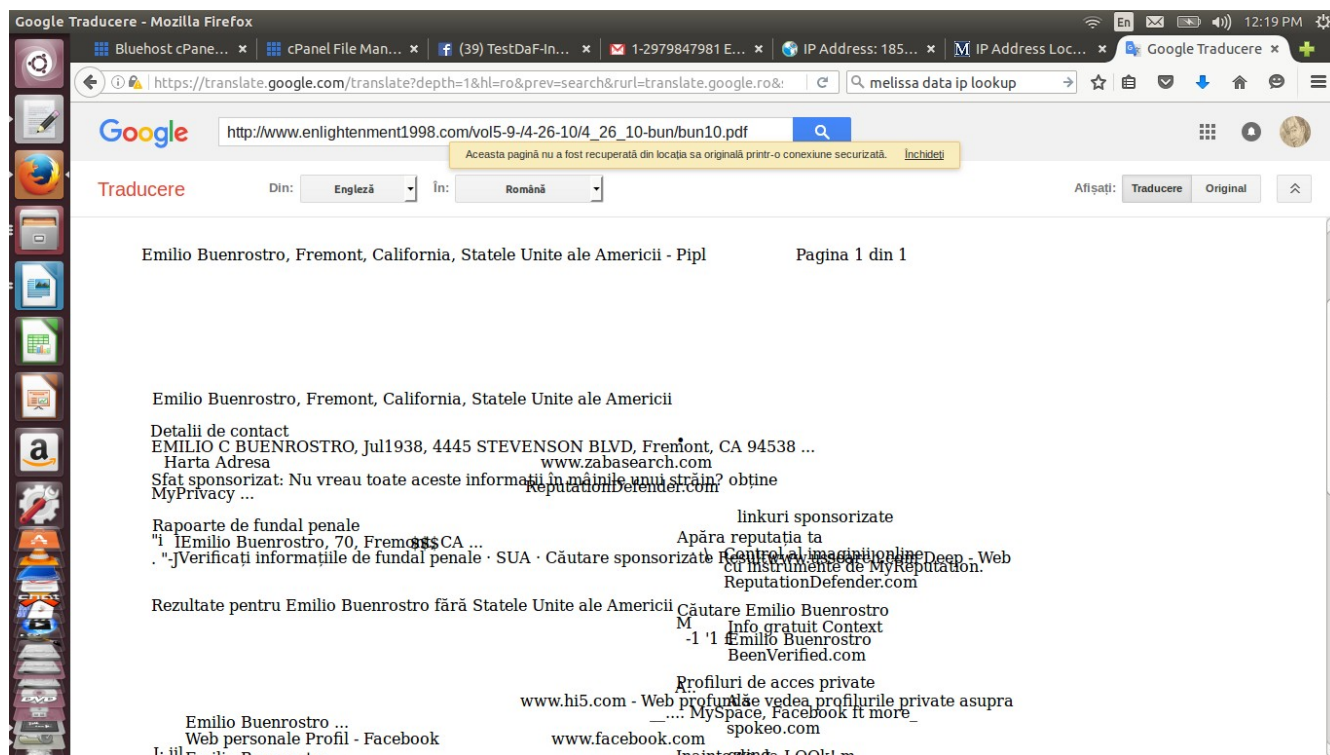

2:40 PM, hsd1.al.comcast.net, Florence, Alabama.

68.34.134.54 - - [08/Jul/2016:15:40:28 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 5.0.2; SM-S920L Build/LRX22G) AppleWebKit/537.36 (KHTML, like Gecko) SamsungBrowser/3.2 Chrome/38.0.2125.102 Mobile Safari/537.36"

There are then no activities from the SS women for eight hours! 8:40 PM, SDW posts on her Facebook group: "Man arrested, accused of stabbing worker at Encinitas Home Depot..." Her first time since 6 and 7 May! This indicates that, even if Kiersten, Karin, and Angelica are meeting in person this afternoon, SDW is not involved.

10:43 PM, Google Translate.

66.249.93.86 - - [08/Jul/2016:23:43:35 -0600] "GET /vol5-9-/4-26-10/4_26_10-bun/bun10.pdf HTTP/1.1" 200 55376 "https://translate.googleusercontent.com/translate_p? hl=ro&prev=search&sl=en&u=http://www.enlightenment1998.com/vol5-9-/4-26-10/4_26_10-bun/ bun10.pdf&depth=1&rurl=translate.google.ro&usg=ALkJrhgAAAAAV4CQMFQyJfGAa0Rnay-EWFNS4yN5CTpv" "Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36,gzip(gfe)"

Angelica is evidently asking a volunteer to brainstorm for her (how to report the suspect for violating her privacy – even though this "Emilio" is not even related to her).

3:29 AM, pldt.net, Imus, Philippines,

112.207.24.87 - - [09/Jul/2016:04:29:39 -0600] "GET /scientificenlightenment1/dividedline.jpg HTTP/ 1.1" 200 35034 "https://www.google.com.ph/" "Mozilla/5.0 (Windows NT 6.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/48.0.2564.116 Safari/537.36"

The eighteenth visit and the third time today!

Two visits to the PP post today.

9 July (Saturday; Wes; Kiersten updates her profile picture on Facebook)

5:23 AM, the log is archived.

7:12 AM, myvzw.com, Horse Cave. Kentucky.

97.32.140.49 - - [09/Jul/2016:08:12:55 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 4.4.2; LGL16C Build/KOT49I.L16CV11a) AppleWebKit/537.36 (KHTML, like Gecko)

Chrome/51.0.2704.81 Mobile Safari/537.36"

The SS women will not visit the suspect's website until almost 6 PM. Why? Are they meeting with Homeland Security CO chief to analyze together the suspect's conversation with Wes this afternoon? Or is it because the Trump campaign has called them up?

2:42 PM, while on the bus going to Sabor, the suspect is connected with Wes. (1) The suspect expresses again his wish to meet Daniel. (2) He then informs Wes that he is able to pass the sample test after all. (3) About the visit from the interior of the Belgian government (4 July). Will the SS women obstruct his test? Did they cause the problem with his copyrighting?[5] The suspect then wonders whether the NATO summit and the treaty between NATO and EU have anything to do with his ICJ trial. Actually not! Presumably the Russians will present this to the ICJ as evidence to confirm that he is indeed insane. (4) Finally, the suspect professes that he will come to New York, that they will meet on the 17th. "Whether I'm going to pass the test depends on this ICJ trial... If somebody needs evidence that I don't know German, it's easy..." He's indeed quite correct. The Russians will (or might) become his principal obstacle in this TestDaf business. The suspect will leave on the 13th. (5) Then, his wrong scenario: "After Russia has won the ICJ trial, the Invisible Hand would also win... If there is such a treaty, that means they are counting on the EU not disintegrating... There must be details in the treaty that explain my ICJ trial.... This suggests Russia has indeed won, I don't know what happened..." Again, the suspect's problem is that he erroneously believes that the Russians have already won the current ICJ trial – when, in reality, they are struggling to defend the February judgment against the CIA in order to prevent the CIA from reactivating the previous ICJ trial, something that concerns them far more. Now it's not clear whether they will use the suspect's wrong understanding as evidence for his insanity. (6) The suspect: "I can't use my US passport..." About Daniel. Then his erroneous speculation again: "Maybe there is an ICJ judgment requiring me to fail the test... But, then, at least I would get to know what the test looks like...." Suddenly, there is interference (50:00). Again, the Russians have commanded Homeland Security to play this trick in order to prompt the suspect to speculate on the reason for this which they can then use as evidence for his insanity. Sure enough, the suspect wonders:

5   The suspect is referring to an email which the Copyright Center sends to him on 5 July: "Thank you for your June 28. 2016 status inquiry with our Public Information Office. I am in receipt of your application for copyright registration of the above work, entitled 'Écrits (Collections, 2014/ 2015).' However, there is a slight problem with your application. We are delaying registration because it appears that this work contains redacted text, but the claim has not been limited to the author's new contributions. Where a work contains material that is previously published, previously registered, in the public domain, or in which the claimant does not own copyright, the copyright claim is based on the author's new contributions. The application should describe both the preexisting material excluded from the claim, and the authorship on which the claim is based… Therefore, in your reply, please provide brief descriptions of both the preexisting material and the author's contributions. Some examples of preexisting material include 'previously published text,' 'text from other sources,' and 'photographs taken by others,' if correct. Some appropriate descriptions of new authorship include 'new & revised text.' Based on your reply, we will amend the registration record to describe the preexisting material and the new authorship. Why does the control center do that? Now he does look insane! (7) The suspect: "The professors in Germany will not understand why I hate America..." About Lisa Randall, and there is interference again (1:05:30). The suspect is baffled: Am I gonna say something important? He then talks about his idea of writing a novel based on George Orwell's *Animal Farm* to explain why he hates the US while other people don't. Wes: this is judging the whole group of people on the basis of a few among them. Then, on 1:15:00, there is interference again but it is heard only on Wes' side. The suspect continues: "What I'm saying might be important, you can't judge people as either good or bad..." Then: "I'll tell you on Wednesday if I'm not coming... You have no oracles for me? Now I'm unsure again because of all this noise..." There is then interference again. The suspect promises that, when he meets Daniel, he won't mention the chips inside his brain.

The CIA might very well use the suspect's explanation as to why he hates America while other people don't as evidence to prove that he is quite mentally developed and not insane at all. Nevertheless, the Russians and their allies, desperate to "revive" the ICJ trial (to keep the conviction of Homeland Security CO chief and NULND as it is), are going to do something drastic. Some time today, they will contact the Trump campaign (perhaps not directly but via Homeland Security CO chief) to warn them that the "stalker" – the suspect – is coming to New York in a few days. Encouraged by the Russians (via Homeland Security CO chief), the Trump campaign will check with the Secret Service and, upon confirming this, pretend to make a big deal out of it ("He is a danger to Donald Trump") – even though, on 5 and 6 June, the Secret Service has already informed the Trump campaign that, according to their investigation, the suspect is not dangerous and Homeland Security's warning groundless. The Trump campaign, always doing favors for the Russians, will insist that Homeland Security's warning about the suspect is correct and, some time today, call up the SS women to ask for their "expert testimonies" about this very dangerous and bad-to-the-bone schizophrenic, obsessive, impersonating, and plagiarizing misogynist and racist terrorist stalker. In this way, with the Trump campaign's intervention, the ICJ trial can be "revived" once again with new evidence – for the second time.

5:57 PM, the SS women have resumed operation: Telecom Algeria, Oran, Algeria

Have the SS women persuaded Marie to become involved again? Perhaps, now that they are about to serve as expert witnesses for the Trump campaign once again, they want Marie to tell the campaign manager how obsessive and dangerous the suspect is.

6:21 PM, Kiersten updates her profile picture: a picture when she's younger (with punk hair, in a group). She might have done it precisely because, this afternoon, the Trump campaign has decided to save her case and she's excited about it: nothing could make her happier in the world than taking down the guy who has ignored her and becoming his victim! Now several persons would comment on her picture: Bthuy Arzate, Assai Farahani, Cathy Lindgren, and Julia Sai. Her last activity was on 7 July.

The nineteenth visit.

Note that, around 11 PM, the suspect would send an email to Daniel expressing his desire to meet him in New York. He includes in his message links to the front page of his website and his Thermodynamic Interpretation of History. As shall be seen, this would soon become a problem.

It's not clear whether this might be related to the SS women's business.

In any case, the SS women have today made an effort to report the suspect's plagiarism and so on to the
Secret Service and the Trump campaign since whether the suspect should indeed be considered a
danger to Trump (whether the Homeland Security warning about him is correct) all depends on whether
he does plagiarize and steal artworks! Three visits to the PP post today.

The eighth visit since 6 June. Apparently Robin has joined the discussion at this late hour.

Two visits to the PP post today.

12 July (Tuesday; severe rage toward xxxxxxxxx)

The SS women have not looked up this chapter since a long time ago.

There will be no more activities from the SS women until past 4 PM. Are they discussing the situation
with the Trump campaign? They have already been sending false reports about the suspect's website to
the Trump campaign for two days.

10:42 AM, Ms Armstrong from the Copyright Office replies the suspect saying she will process his
application.[7]

4:27 PM, the SS women resume operation: mcdavid.orbitelcom.com, Maricopa, Arizona,

You recall that the Long Keng volunteer was brainstorming about this chapter on 25 June. The SS
women are telling the Trump campaign something about the suspect's hatred for women (how he was
motivated by his particular brand of misogynist ideology to conduct hate crimes against white women).

Around 4:50 PM, while the suspect is at Bru-Coffee, Phil (from St. Sophia Orthodox Church) suddenly
calls him (from 2:11:30 in the recording). He asks about the suspect's court appearance. The suspect
explains he needs to take a test. Then about whether to go to the Forum. The suspect confesses: "Next
week I will be in New York." "Oh, okay, do you have family there?" It's strange that Phil suddenly
decides to call the suspect out of the blue – it has been such a long time. It would seem that it's the
Secret Service which has instructed him to call the suspect – hoping to confirm that the suspect indeed
plans to go to New York. For, as it seems, the Trump campaign has been requesting in the past two days

7   The suspect's reply on 5 July runs like this: "I don't quite understand what you are talking about. There is no redacted
text in the writings I'm trying to copyright. I do my best to clarify: 11_08_83b.pdf contains a single photograph of my
former friends which is taken by themselves and put on their social networking site. This document is autobiographical,
and my contribution is limited to my narrative of my encounter with these former friends, which is the whole text,
basically, except this single picture. soft3d.pdf, lepen5.pdf, and sufferingwomane.pdf are recomposition in essay form
of my past postings on my blog, which has become defunct. I have not attempted to copyright these blog postings in the
past. They are thus brand-new materials. They are entirely my contributions. All citations to other authors' works in
these documents are indicated with references. Please let me know whether these clarifications can now enable my
writings to be copyrighted. Thank you." Since there is always such a debate in the ICJ about whether the suspect does
plagiarize, the suspect's correspondence with the Copyright Office has certainly become evidence there.

The twenty-first visit.

Past midnight, the suspect, while in Starbucks, Westwood, has discovered Kiersten's new website. She has used Chinese words to describe herself. It's evidently the Long Keng volunteer who has taught her how to write these Chinese characters. Now she wants to pretend that she knows Chinese! (What a charlatan. She would, however, soon eliminate the Chinese characters from her website.) The Long Keng volunteer has become Kiersten's best friend because he has completely bought into Kiersten's made-up story about how the suspect has been obsessed with her and stalking her. (Well, with Homeland Security's help, how can he not?) The suspect is incensed. The thought that she has made so many friends by demonizing him to them and portraying him as her victimizer to obtain their sympathy is so angering that he goes into a rage. He starts experiencing severe hatred toward xxxxxxxxx. We have to assume that it is the Russians who have instructed Homeland Security and the Monkey to remotely control the suspect to seek out Kiersten's new website and be enraged by it: they hope that, as their star-witnesses are currently persuading the Secret Service to reopen the case on the suspect, he might help by shouting something anti-American to people or breaking some property. 12:52 AM, the suspect revises his "gang-stalking" post on AVFM. When he goes to sleep on the street, he throws his ice coffee onto the front door of a shop. That's all the Russians have made him do!

Kiersten's website with the Chinese characters "The Wanderer".

2:45 AM, the "Nuremberg robot" again:

What's this about?

13 July (Wednesday; the ICJ trial "revived" for the second time)

At his usual corner by Denny's, the suspect finds himself unable to sleep. He comes up with the wrong scenario: what the Russians have done on 14 May or so (using his intention to cause the ICJ trial to become dismissed) is to force the CIA to also affirm Homeland Security's warning about him to be correct (first, declare him to have conspired against them, then use the false profile for their own benefit). The CIA will then adopt his idea on the US reaction to the European far right movement. (This will also be part of the ICJ judgment.) The Russians are now in the process of replacing evidences to eliminate the CIA's involvement in this ICJ trial. Complete bullshit!

The suspect will have a very upsetting day today. He has had very little sleep. He will realize that he has forgotten to go to court yesterday for his pedestrian ticket – not clear whether it's because the

Russians have commanded Homeland Security CO chief to remotely control him to forget this. The batteries on his laptop will also die today.

Another false report.

There will be no activities from the SS women this afternoon. However, Kiersten seems to be in a high spirit – excited over the Trump campaign's involvement one more time (that the Trump campaign has decided to help). She will spend a lot of time on her Facebook this afternoon posting things to perfect her persona for her audience. 3:35 PM, she shares a link on her Facebook: Edna Tichenor: what about Bobbed? Her last time was 9 July.

By 6 PM, the suspect is on the train going to New York.

7:02 PM, Kiersten shares two links on her Facebook: Moroccan style interior design, Hallway, living room, health.

7:19 PM, Kiersten shares another link on her Facebook: DIY Recycled Pallet Bed Frame Designs.

7:41 PM, Kiersten shares another link on her Facebook: sofa (Pinterest).

By 8:30 PM, the Trump campaign seems to have finished arranging for the SS women to furnish their "expert testimonies" about their "suspect" to the Secret Service. After receiving testimonies from the SS women for three days, the Trump campaign has officially asked the Secret Service to reopen the case on the suspect for the third time. The SS women will tonight resume reporting the suspect's demonic website to the Secret Service.

Clearly, after 12 AM, serious reporting has begun. Within two hours the SS women's volunteers and the Partisans have been reporting to the Secret Service about the suspect's severe mental insanity: how he keeps developing delusions about how his women victims are going after him as part of some government conspiracy, how he writes down all his bizarre delusions on online forums and on his website, how he has even been writing out his delusions about Trump on the Partisans' forum, and how he has also developed bizarre delusions about other famous people such as Boss Cheney.

It seems that what has happened is like this. Between 12 and 2 AM, the SS women are busy mobilizing their volunteers to report the suspect's insanity and obsession to the Secret Service. From 2:45 AM onward, however, they ask the Long Keng volunteer to report how the suspect has plagiarized his Thermodynamic Interpretation of History. The Long Keng volunteer is either with his friend (seen for the first time on 7 May) or is using a different laptop than his regular MacBook. He uses a proxy to disguise not only his location but also his user-agent – with the result that his visits become associated with three different user-agents. Such are the SS women's preliminary reports about the suspect to the Secret Service.

Now that the Secret Service has reopened their case on the suspect, the ICJ trial is also "reopened" for the second time – the CIA will not be able to reactivate the previous ICJ trial after all. The Russian side is bringing into the ICJ the SS women's and the Trump campaign's new complaints about the suspect as evidences: "New evidences found. The Homeland Security warning about our suspect might be correct after all."

14 July (Thursday; on the train)

World: John Kerry and NULND would be meeting with Putin in the Kremlin today, to offer a new partnership plan on Syria. (This has direct relationship with the suspect, which will be explained in the next chapter.) Then, a major terrorist attack in Nice, France.

5:30 AM, the log is archived.

After 7 AM, the SS women continue to report to the Secret Service about the suspect's website and online postings. 7:21 AM, AT&T, Castro Valley, California,

69.106.49.4 - - [14/Jul/2016:08:21:56 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (iPhone; CPU iPhone OS 9_3_2 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13F69 Safari/601.1"

8:42 AM, rgv.res.rr.com, Rio Grande City, Texas,

The last visit was on 11 July. Another false report about the suspect's theft of Robin's drawing.

9:36 AM, KPN, Voorburg, Netherlands,

145.130.82.21 - - [14/Jul/2016:10:36:13 -0600] "GET /scientificenlightenment1/humandispersal.html

The last time the SS women's group has looked up this chapter was 22 May. False report about the suspect's plagiarism.

11:13 AM, T-Mobile USA, Stone Mountain, Georgia,

172.58.152.138 - - [14/Jul/2016:12:13:13 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 4.4.2; ALCATEL ONE TOUCH 4037N Build/KOT49H) AppleWebKit/537.36 (KHTML, like Gecko) Version/4.0 Chrome/30.0.0.0 Mobile Safari/537.36"

11:30 AM, Verizon FiOS, Long Beach, California,

You can thus see that, this morning, the SS women have begun reporting how the suspect has also been stealing other people's artworks and putting them on his own website as if they were his own works. The SS women then take a long break this afternoon. Then, after 8 PM, they resume operation. 8:35 PM, broadband.oakhurst.sti.net, Mariposa, California, about 20 miles northeast of Merced:

64.118.120.132 - - [14/Jul/2016:21:35:08 -0600] "GET /2012/120912-22.png HTTP/1.1" 200 136635 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women" "Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/46.0.2486.0 Safari/537.36 Edge/13.10586"

8:37 PM, the Mariposa volunteer comes to page 2,

64.118.120.132 - - [14/Jul/2016:21:37:03 -0600] "GET /2012/91413-61.png HTTP/1.1" 200 139918 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women/page2" "Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/46.0.2486.0 Safari/537.36 Edge/13.10586"

The SS women have not reported about the suspect's activity on Bluehost forum last night. And so here they get their volunteer to testify: "He has also been broadcasting his delusions about us on Bluehost forum as well..."

10:42 PM, the SS women resume operation after a two-hour break: dynamic.mtsallstream.net, Winnipeg, Manitoba,

142.161.89.93 - - [14/Jul/2016:23:42:57 -0600] "GET /1/guth_2.jpg HTTP/1.1" 200 14461
"https://www.google.ca/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML,
like Gecko) Chrome/51.0.2704.103 Safari/537.36"

Another false report about the suspect's plagiarism.

1:59 AM, the Long Keng volunteer comes again. He first comes directly to the Table of Contents from
his browser's cache:

104.237.91.236 - - [15/Jul/2016:02:59:47 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"

"Safari/11601.6.17 CFNetwork/760.5.1 Darwin/15.5.0 (x86_64)"

Within one minute, he clicks on page 2 of the general summary,

104.237.91.236 - - [15/Jul/2016:03:00:32 -0600] "GET /thermh2.html HTTP/1.1" 200 45281

10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

2:01 AM, he looks at the Table of Contents of Scientific Enlightenment:

104.237.91.236 - - [15/Jul/2016:03:01:11 -0600] "GET /scientlitfr.html HTTP/1.1" 200 10673

10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

It appears that the Secret Service has responded and asked the Long Keng volunteer to elaborate on the
report he has made last night about the suspect's plagiarism. The Long Keng volunteer therefore is
looking at the Table of Contents again to report how it is all plagiarized. He doesn't know that the
Secret Service, under the CIA's guidance, is specifically looking for holes in his testimonies. After 5
minutes of reporting, 2:06 AM, the Long Keng volunteer clicks on the first chapter in Scientific

Enlightenment,

104.237.91.236 - - [15/Jul/2016:03:06:18 -0600] "GET /scientificenlightenment1/synopsis.html HTTP/

"Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko)
Version/9.1.1 Safari/601.6.17"

The discussion seems to have gone on for an hour! 3:10 AM, the Long Keng volunteer clicks on "HT-
contribution" from the side panel:

104.237.91.236 - - [15/Jul/2016:04:10:50 -0600] "GET /HTcontribution1-philosophy.htm HTTP/1.1"
200 13928 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/601.6.17 (KHTML,

"This is also plagiarized" or "he has stolen this essay from his twin brother Lawrence Chin. He is
David Chin pretending to be Lawrence Chin."

4:06 AM, Damascus, Syria,

5.155.215.65 - - [15/Jul/2016:05:06:51 -0600] "GET /gallery/bensongoddesscloseup.jpg HTTP/1.1"
200 344778 "-" "Mozilla/5.0 (Android; Mobile; rv:37.0) Gecko/37.0 Firefox/37.0"

4:07 AM, Damascus, Syrian, listed as a proxy,

"Mozilla/5.0 (Android; Mobile; rv:37.0.1) Gecko/37.0.1 Firefox/37.0.1"

This volunteer is simply sent the link to the image in question. Presumably another false report about
how the suspect has stolen Oliver's painting and put it on his website to falsely claim it as his own
work.

15 July (Friday)

In the world today: the coup d'état in Turkey.

5:19 AM, the log is archived.

The SS women continue their operation in the morning. 7:44 AM, direcway.com, Harrah, Oklahoma.

Another false report to remind the Secret Service that Homeland Security has always been right about the suspect's insanity: he believes he had once something to do with the CIA and all the people around him were working for the CIA!

7:54 AM, the Long Keng volunteer comes again: Univera Network, Long Keng.

104.237.91.42 - - [15/Jul/2016:08:54:30 -0600] "GET /scientificenlightenment1/fundamentalism1.htm

This is more than four hours after he has finished responding to the Secret Service. Perhaps he has thought of something – the SS women have thought of something – so that he calls up the Secret Service to tell them about an additional detail in the suspect's plagiarism.

The last visit was on 11 June. This volunteer is probably here to report about the suspect's particular brand of misogynist ideology which has motivated him to conduct hate crimes against white women. 5:22 PM, or 14 minutes later, s/he comes to the Table of Contents from epilogue225.html,

Another false report about the suspect's theft of this drawing from his family members.

Note that this volunteer is probably a Chinese person living in France ("zh-cn"). Another volunteer supplied by the Chinese MSS?

The suspect has spent two days on the train. Something noteworthy is this. When the train stops in Chicago in early evening, he buys a *Chicago Tribune* and notices the report in it about Kerry's trip to Moscow to negotiate with Putin over Syria. (Bradley Klapper, "US offers Russia new partner plan on Syria".) He instinctively suspects that this has something to do with him – Kerry is trying to offer a deal so favorable to the Russians that the US Establishment cannot possibly have wanted this unless forced to. It has something to do with NULND's and Homeland Security CO chief's blunder back in February. Indeed! (Again, see the next chapter.)

16 July (Saturday; New York)

5:17 AM, the log is archived.

There will be no activities from the SS women this morning. They seem to be waiting for a response from the Secret Service and the Trump campaign.

While the suspect is on the train this morning, he goes inside the food cart to find a suspicious man with his *New York Times* lying on the table. Alerted, the suspect asks to see the newspaper and the man gladly offers it to him. The suspect avidly reads up today's report about Kerry's negotiation with the Russians. (Gardiner Harris, "US and Russia agree on steps to combat ISIS in Syria".) He even takes notes. The man seems to be a secret agent, but it's not clear whether he is from the CIA's side or from the Russian side. He is here to gather evidence that the suspect is aware of the geopolitical implication of his terrorist status.

3:08 PM, the SS women resume operation: carolina.res.rr.com, Shelby, North Carolina.

4:57 PM, the SS women make the only visit to the suspect's website today: wlwl.wa.charter.com, Walla Walla, Washington,

68.189.130.214 - - [16/Jul/2016:17:57:04 -0600] "GET /cheneyplanintro/cheneyplanintrob.pdf HTTP/1.1" 200 478378 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.3; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This is evidently a repeat of the Meknès volunteer's report about the suspect's insanity (delusions about famous people) on the early morning of 14 July. It seems that, as the suspect approaches New York, the SS women want to emphasize to the Secret Service that he is very dangerous to public figures due to the severity of his mental insanity.

By this time, the suspect has already arrived in New York. He soon checks into a hostel in Queens. He would leave a message with Wes: "I have arrived... The SS women are launching a major operation..." While the message might sound like insanity-speaking, the CIA could in fact use it as evidence to prove that he's *not* insane: he has dimly noticed that the SS women have resumed furnishing their "expert testimonies" to the Secret Service, although he couldn't yet put it into words.

4:37 AM, it's the Bellingham, Washington, volunteer from 29 June: hsd1.wa.comcast.net,

The fact that the SS women are making the same reports they have already made indicates that the Secret Service has already started resisting and expressed unwillingness to consider the suspect to be "stalking Trump".

10:27 AM, socal.res.rr.com, Oxnard, California.

76.94.171.228 - - [17/Jul/2016:11:27:54 -0600] "GET /1/elementarystructures.htm HTTP/1.1" 200 18268 "https://www.google.com/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_4) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This is another false report about the suspect's plagiarism and misogynist ideology.

By 11 AM, or 2 PM in New York, the suspect has already met up with Wes. Here are some highlights of their conversation. (1) The suspect talks about Phil's being a law enforcement informant, about law enforcement's awareness of his coming to New York, and about the SS women's reports to law enforcement (1:05:00). It's almost certain that the Secret Service has instructed Wes to wear a wire, and this correct understanding of the situation, although vague, would be evidence that the suspect *doesn't* suffer from schizophrenia or pose a threat to Trump. (2) The suspect professes he has figured out the ICJ judgment for the current (third) ICJ trial: his wrong theory about what happened on 14 May. He is now considered a "terrorist" by both sides, even the US would require him to conform to Homeland Security's false profile of him, but he is a special type of terrorist, the kind who uses his false terrorist status to do harm. He then shows Wes the *Chicago Tribune* article which he has saved. He then laments that he will always have to be a terrorist... While the Russians will certainly use his wrong understanding of both the ICJ trial (it is in fact still in progress) and the relationship of the Syria

negotiation to it as evidence that he is indeed schizophrenic, the CIA will teach the Secret Service to conclude, and argue in the ICJ, that all this in fact proves, once again, that he is *not* delusional, that his so-called "delusions" merely refer to those episodes when he, striving to comprehend what is going on behind his back, fails to understand it correctly. (3) Wes admits that he is afraid to walk into the UN with a "terrorist" (2:16:00). (4) The suspect explains how people gang-stalk him and play pranks on him in order to obtain the opportunity to accuse him of being crazy (2:19:00). The Secret Service, and the CIA, will again use this admission as evidence to prove that the suspect is *not* delusional.

Meanwhile, the SS women continue their operation. 1:05 PM, a volunteer seems to be reporting to the Secret Service about the suspect's harassment of Frauke on her Facebook page:

31.13.110.121 - - [17/Jul/2016:14:05:40 -0600] "GET /drawLA/drawla-100815/frauke_62216-2.png HTTP/1.1" 200 243919 "-" "facebookexternalhit/1.1 (+http://www.facebook.com/externalhit_uatext.php)"

"He *does* keep obsessing over, and developing delusions about, famous people!"

1:33 PM, hsd1.pa.comcast.net, Philadelphia, Pennsylvania.

71.224.20.0 - - [17/Jul/2016:14:33:39 -0600] "GET /gallery/bensonathena.jpg HTTP/1.1" 200 146499 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This is the third report since 13 July about the suspect's theft of Oliver's painting.

Strangely, there are no activities from the SS women between 1:30 and 10 PM. That is to say, from 4:30 PM to 1 AM in New York. It's very likely that, in order to catch these women committing fraud, the Secret Service has granted them their request to listen to, and interpret, the intercept of the suspect's conversation with Wes while forbidding the Secret Service themselves from listening in on it (on the pretext of protecting their privacy). In other words, the SS women are again offering their service in their capacity as "expert witnesses" on this bad-to-the-bone schizophrenic terrorist's psychopathology – and are ready again to use this capacity as an opportunity under which to commit fraud. The Secret Service, however, will secretly listen in on the suspect's conversation so that, when the SS women report falsely on what the suspect has said to his best friend, they can compare their report with the actual intercept and establish them as "false complainers" and "fraudsters" (committing fraud under the cover of their "victim confidentiality" and their status as "expert witnesses of terrorism"). That would certainly keep the SS women busy for the whole afternoon.

Meanwhile, around 1 PM, or 4 PM in New York, the suspect settles down with Wes in a restaurant bar (3:19:00). Some highlights of this second round of conversation: (1) About Kiersten's new "Chinese friend". (Namely, the Long Keng volunteer.) (2) The suspect mentions his weight-gain. (3) About how the SS women spend their whole waking life on his website. The discussion about the SS women is finished by 3:48:00. (4) The "objectification of the mind" due to over-adaption to one's specialized

role. The mind is so fixed that it is unable to understand anything that it doesn't already understand. (5) Wes continues to dissuade the suspect from reconstructing to understand what the SS women have done. Wes talks about the secretary in his office, Jacqueline, the same sort of psychopath as Kiersten. (6) About women's better adaptation to the consumerist culture and globalization. (7) The suspect leaves the restaurant with Wes on 4:57:00. It's about 5:45 PM (or 2:45 PM in California). (8) Before Wes gets on the bus, he suddenly takes out a smartphone and takes a picture of the suspect. The suspect instinctively notices that something is up and comments: "Take the picture to Homeland Security so that they can claim I am my twin brother pretending to be myself" (from 5:39:00 onward). It's now 6:25 PM (or 3:25 PM in California).

Indeed! Wes is not only acting as the Secret Service's informant, but also as Homeland Security's asset (i.e. to produce fake evidences for the Russian side in the ICJ). Wes was instructed by Homeland Security to bring a phone and take a picture of the suspect at the end of the meeting. The Russians would have commanded Homeland Security to alter the picture slightly so that they can use it as evidence in the ICJ to support their claim that the suspect is really his twin brother David Chin pretending to be Lawrence Chin. However, it's expected that Wes will also submit the same picture to the Secret Service, and that the CIA will bring the picture unaltered to the ICJ as evidence that the suspect is really Lawrence Chin himself. Meanwhile, by 5 or 6 PM (Pacific Time), the SS women would have finished analyzing the suspect's conversation with Wes. Although the suspect mentions not even once "Donald Trump" (since he is completely unaware that he is supposed to have come to New York to be a danger to him), the SS women would certainly have lied in their report to the Secret Service saying the suspect has expressed bizarre obsession with this old man and therefore is of tremendous danger to him. Meanwhile, they would have distorted the suspect's discussion of their operations against him (and especially Kiersten's psychopathology) into obsession inspired by delusions and therefore evidence that he is also of tremendous danger to his women "victims". At the end, of course, they would again request that the suspect's illegal and harassing website be removed. Needless to say, the Russians are counting on the SS women to succeed – so that, in the ICJ, they can preserve the conviction of Homeland Security CO chief and NULND as it is while locking up the previous ICJ trial at the same time.

After the analysis and the report, the SS women take a break and wait for the response. From 8:37 to 8:38 PM, Kiersten shares links on her Facebook 4 times: pint.it. She is at home tonight, sitting in front of her computer preoccupied with perfecting her persona.

10:03 PM, the SS women have resumed operation: lightspeed.tukrga.sbcglobal.net, Lawrenceville, Georgia,

162.207.230.4 - - [17/Jul/2016:23:03:53 -0600] "GET /owl.JPG HTTP/1.1" 200 11541 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The last visit was on 27 June. Another false report about the suspect's plagiarism – the most important task, since, if there is no plagiarism, then there is no stalking.

Then, 11:03 PM, albyny.east.verizon.net, Albany, New York: it looks like Daniel from Wes' apartment,

Bizarre – Daniel seems to have connected up with the SS women. It's now 2 AM in New York, and the suspect is already in bed. Karin is directing Daniel to visit the suspect's website and report to the Secret Service what he sees on it. Daniel mentions that the suspect has sent him a link to his website, and clicks on it. Within two minutes, 11:05 PM, he clicks on the other link which the suspect has sent him – to the Thermodynamic Interpretation of History:

71.164.107.172 - - [18/Jul/2016:00:05:33 -0600] "GET /thermex.html HTTP/1.1" 404 1322 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"

Then, 45 seconds later, 11:06 PM, Karin directs Daniel to "The Secret History":

71.164.107.172 - - [18/Jul/2016:00:06:18 -0600] "GET /1.html HTTP/1.1" 200 9875 "http://www.enlightenment1998.com/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"
71.164.107.172 - - [18/Jul/2016:00:06:18 -0600] "GET /dot_clear.gif HTTP/1.1" 404 1322 "http://www.enlightenment1998.com/1.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"

Under normal circumstances, of course, there is no possibility that Daniel would be able to come to "The Secret History" from the front page within two minutes: the link is on the bottom of the page and not indicated as such ("Estoteric: 1"). Daniel's behavior is certain proof that he is being directed by somebody who is already thoroughly familiar with the link structure of the suspect's website. Then, 30 seconds later, Karin directs him to click on "The Feefee blog" (March, 2008).

71.164.107.172 - - [18/Jul/2016:00:06:48 -0600] "GET /karins_meetup_7bg-/feefee308.pdf HTTP/1.1" 200 184546 "http://www.enlightenment1998.com/1.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X

10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"

Karin is of course asking Daniel to report to the Secret Service saying he finds these poorly written, crazy blog posts in which the suspect writes about his delusions and obsessions about her. Then, 32 seconds later, 11:07 PM, Daniel clicks on the Academy from "The Secret History":

71.164.107.172 - - [18/Jul/2016:00:07:20 -0600] "GET /acad.html HTTP/1.1" 200 5050 "http://www.enlightenment1998.com/1.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"
71.164.107.172 - - [18/Jul/2016:00:07:20 -0600] "GET /owl.JPG HTTP/1.1" 200 11541 "http://www.enlightenment1998.com/acad.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/600.8.9 (KHTML, like Gecko) Version/8.0.8 Safari/600.8.9"

This is inconsequential. Karin has simply wanted Daniel to report on the suspect's 2008 blog post about her. The question is: how did Karin get hold of Daniel? It's probably like this: after 9 PM, the Russians, aware that the Secret Service has caught the SS women committing fraud – the suspect has in fact not mentioned Donald Trump even once in his conversation with Wes – command Homeland Security to instruct the SS women to offer more convincing evidence in support of their earlier reports (although the Russians are prohibited from revealing to them that the Secret Service has once again ignored their "victim confidentiality"). The Russians specifically want evidence that the women's testimonies about the suspect's website are true and that he is indeed a danger to Donald Trump because, when he gets obsessed with somebody, he would want to harm her or him. Since Karin wants to demonstrate all this and the Secret Service is looking for more evidence to refute her, the Secret Service asks its informant, Wes, to ask Daniel to help – just at the same time when the Russians command Homeland Security to order Wes to help in. Karin therefore connects up with Daniel, probably around 10:55 PM. As usual, she first shares with him the Homeland Security warning about the suspect – which would have instantly disgusted the crap out of him. Daniel is now obliged to offer his service – presumably as an objective third party observer who will report accurately on what he sees on the suspect's website. It's okay: there are both good stuff and bad stuff on the suspect's website, and Karin is familiar enough with it as to be able to direct Daniel away from the good stuff but to look only at the bad stuff. The Russians think that Karin's evidence this time is perfect since Daniel has not been coached to lie. Nevertheless, the Secret Service will ignore Daniel's testimony.[8]

Then, more than two hours later, the SS women are instructed by the Russians to produce more testimonies about the suspect's plagiarism. 1:22 AM, adsl.inetia.pl, Warsaw, Poland,

The last visit was on 13 July.

18 July (Monday)

5:17 AM, the log is archived.

5:32 AM (or 8:32 AM in New York), Wes writes a strange email to the suspect:

> It was good seeing you. The extra weight makes you look healthier, oh and just so you know, you don't stink. Also, Daniel will be meeting with a friend in Cambridge, Mass., on Wednesday and probably Thursday. It doesn't seem that you can meet him. The professor that you mentioned at Humboldt, is the professor Daniel had met.

It's the Russians who have, via Homeland Security, commanded Wes to mention to the suspect something about his "extra weight". Yesterday, while the suspect is sitting with Wes in the restaurant bar, he mentions at one point, while pointing to a fat woman in the distance, "That looks like Kiersten, all that fat, disgusting!" While analyzing the suspect's conversation, Kiersten must have been tremendously angered by this, and so made up this story for the Secret Service saying that the suspect, angry with his own weight-gain, has projected it upon her, that "projection" is one of the suspect's persistent bad habits. The Russians have somehow thought this morning that they need more evidence in the ICJ to support Kiersten's claim that the suspect likes to project himself onto her (in reality, "projection" is, as you have seen, one of Kiersten's most persistent bad habits) and so commanded Wes to mention the suspect's "extra weight". When this statement is placed next to the SS women's report yesterday about what the suspect has said to Wes, it must have the magical ability to make that report look like an accurate representation. Thus you can see that it must be because the CIA has brought into the ICJ this morning the actual transcript of what the suspect has said yesterday to demonstrate that the SS women have intentionally falsified and distorted his words in their reports to the Secret Service, that the Russians are suddenly forced to command Wes to make this strange statement. It will then again be stalemate in the ICJ: the Russians have evidence that the SS women's reports from yesterday have accurately represented what the suspect has said, while the CIA has evidence that they have intentionally misrepresented his words and are therefore committing fraud under the cover of "victim confidentiality". (In other words, the Russians have evidence that Homeland Security's warning about the suspect is correct, while the CIA has evidence that the TMU's warning about the SS women is correct.)

Three false reports about the suspect's plagiarism.

Around 5 PM, or 8 PM in New York, while the suspect is studying for TestDaf in Coffee Bean, a
Japanese man comes in to sit in front of him also studying for an examination. The suspect becomes
very suspicious – why all the coincidence, as if the people around him were imitating him – and begins
dialoguing with him. The man, sure enough, replies that, although he is a journalist, he is taking this
government test (offered by the Japanese government) to obtain a law license, but that he is unlikely to
pass it within three years. The suspect is tremendously alarmed: this man is speaking about his own
fear. Did the CIA and the Secret Service send him in to test the suspect's reaction (in order to gather
evidence that he is not really insane)?

Three visits to the PP post in total today. These are reports about how the suspect has developed bizarre
delusions about the SS women's going after him as part of some government conspiracy.

19 July (Tuesday: TestDaf)

World: Kerry is in the UK. Joint press conference with Boris Johnson. In addition, the Republican
National Convention is taking place today. Trump's wife will be accused of plagiarism and Jeff
Sessions will be meeting with Russian ambassador Kislyak at the sideline of the Convention. Did
Kislyak discuss the suspect? ("This stalker of Russia's First Daughter...")

5:35 AM, the log is archived.

From 6 AM onward (or 9 AM in New York), the suspect is in the Goethe Institute taking TestDaf.

Meanwhile, the SS women continue their operation. 7:14 AM, bqdr1.win.bigpond.net.au, Doonside,
Australia.

124.190.142.57 - - [19/Jul/2016:08:14:57 -0600] "GET /scientificenlightenment1/dividedline.jpg

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The second visit since 14 July. The SS women will then refrain from activities until almost 3 PM.
Meanwhile, the suspect is finished with the examination and has left the Goethe Institute by 10 AM. He
makes an unsuccessful attempt to visit the UN around 1:30 PM.

2:55 PM, lightspeed.lbrdil.sbcglobal.net, Addison, Illinois.

75.25.52.135 - - [19/Jul/2016:15:55:55 -0600] "GET /gallery/peniswomen.jpg HTTP/1.1" 200 297908 "https://www.google.com/" "Mozilla/5.0 (X11; Linux x86_64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.106 Safari/537.36"

This is the third visit since 14 July.

After getting lost, the suspect settles down in a Starbucks. He is connected with Wes on 6:11 PM (New York Time). Wes' answering machine is turned on and recording. Here are the highlights: (1) The suspect describes how he has screwed up the Schriftliche Ausdruck. Although he had noticed in the beginning that there was a clock on the wall, he forgot later that there was this clock. As a consequence, he was unable to keep track of time while writing his essay and time ran out before he was able to write out the conclusion. This would cause his score to be downgraded from TDN-4 to TDN-3. Such inexplicable forgetfulness could only be due to the control center's action. Namely, the Russians have commanded Homeland Security to remotely control him to screw up the writing section of his examination. Wes responds: "A chip in your brain..." The suspect complains that he has also done badly on Hörverstehen and Mündliche Ausdruck. Again, the Russians would use this complaint about the "control center" as evidence for the suspect's schizophrenia in the ICJ. (2) The suspect mentions the Japanese man from last night: "I won't pass the test within 3 years..." What was this about? He is then sort of on the right track when he says: "Maybe it's part of the investigation..." Indeed! While the Russians were expecting the suspect to mistake the man's "I won't pass..." for a warning from the control center – which would then be evidence of his schizophrenia – the CIA was waiting for another opportunity to analyze his "crazy interpretation" as rational conjecture motivated by strange coincidence – which would then be evidence that he only looks delusional but is not so really. Now here the suspect seems to have dimly recognized the Agency's purpose, which would be further evidence that he is in fact not delusional. (3) The suspect continues to speak about how his test was sabotaged from the control center, that it all has something to do with his need to "fit the profile". He is feeling very discouraged, and wonders whether he should perhaps apply to some American schools as backup. Has he really made the right decision? Given that he is already fluent in French – and now he suddenly wants to switch to German. (4) He went to the UN right after the test, but he got there on 4:30 PM, and all the tickets for a tour had been sold out. He wants to see the room where nations once debated about him. "Only if my speculations about BOL are correct, then she would simply invite me to visit these rooms..." Then: "The chip has caused me mental retardation..." He talks about his difficulty in opening the door at the UN office, as if he were retarded. The Russians have here more evidence of his insanity: it's not just that he keeps talking about some chips inside his brain, but also that he believes that nations were debating about him in the UN back in 2007: since, according to official record, the previous ICJ trial doesn't exist, here the suspect is supposedly imagining himself to be some sort of terrorist whom nations have had to debate about. (5) Alessandra is hurting Wes, "She's got a chip in her brain..." (6) The suspect then talks about Daniel's suspicious visits to his website: obviously somebody has directed him to visit his website. Wes: "How do you know it's him?" "The visit came from Albany, and it's a MAC... The SS women didn't recruit him, did they?" This again is evidence in favor of the CIA: this clearly demonstrates that the CIA's interpretation of the suspect's "delusions" is correct: that he notices something is up from reading his visitors' log, and tries to guess

what is going on. Because it's only a guess, it's half-true and half-false. When it's false, it's not the same as "delusion". Thus, the suspect doesn't quite suffer from any "delusions" about his women victims' going after him, but just harbors inadequate understanding. "Then, right after Daniel has visited, another visit from Harvard University. Daniel is supposed to see something better than that blog post, he's gonna think 'Lawrence is crazy'…" Indeed! More evidence with which the CIA and the Secret Service can debunk the testimony which the SS women have instructed Daniel to make.

Meanwhile, the SS women continue their operation: 3:38 PM, OJSC Comcor, Moscow,

77.232.15.190 - - [19/Jul/2016:16:38:37 -0600] "GET /diaryreview2013-12-40/diaryreview2013-12-40W.pdf HTTP/1.1" 200 525744 "https://www.google.ru/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"
77.232.15.190 - - [19/Jul/2016:16:38:37 -0600] "GET /favicon.ico HTTP/1.1" 200 408 "http://enlightenment1998.com/diaryreview2013-12-40/diaryreview2013-12-40W.pdf" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This is presumably another false report about the "delusions" which the suspect has developed about the Russian president and so on.

3:41 PM, lightspeed.brhmal.sbcglobal.net, Birmingham, Alabama,

108.196.118.184 - - [19/Jul/2016:16:41:40 -0600] "GET /owl.JPG HTTP/1.1" 200 11541 "https://www.google.com" "Mozilla/5.0 (Windows NT 10.0; WOW64; rv:47.0) Gecko/20100101 Firefox/47.0"

This is the second visit since 14 July.

3:57 PM, Hurricane Electric, Fremont, California; proxy?

The SS women will then take a break lasting seven hours.

On his way back to the hostel, the suspect becomes very depressed. The reasons why the control center has caused him to forget there was a clock on the wall seem to be two: (1) to downgrade his writing score from TDN-4 to TDN-3; and (2) to cause him to talk about it on the phone in order for law enforcement to pick up evidence showing him to be insane: "The chip in my brain caused me to fail my test. It caused me to forget there was a clock on the wall": this confession sounds insane enough. When he is at the hostel, he spends the whole night composing a letter to a certain Professor Gilbert, a professor in Tasmania who has done extensive studies on brain implants for patients suffering

123

Parkinson disease and so on. He has discovered Professor Gilbert in a Deutschland Radio Kultur report just yesterday.[9] The suspect is not quite aware that he is not only wasting his time but also merely producing evidence for the Russians: the Russians will for sure direct Homeland Security to communicate their warning about the suspect to Professor Gilbert so that he will definitely assume the suspect to be merely a schizophrenic and not believe a single word he says.

11:06 PM, the SS women have resumed operation: globe.com.ph, Población, Philippines: note the visit from Población from 18 July:

This volunteer is apparently asked to search for the word "impersonating" on this thread. Since the
suspect is complaining here about the SS women's impersonating him on the Internet, are the SS
women making a false report saying that the suspect is projecting his own habit of impersonating them
onto them?

This is the third visit since 14 July.

Now let's consider the suspect. This early afternoon, the suspect is able to participate in a tour around the UN. Again, while the Russians and Homeland Security will insist that the suspect is again motivated by his delusions to seek out important institutions, the CIA and the Secret Service will insist on just the opposite. After the tour, the suspect settles down in the same Coffee Bean. 6:30 PM (or 3:30 PM in California), immediately after he gets on Wagenknecht's website, the Wifi is cut off. It will never be recovered. The suspect is perplexed: he has instinctively become aware that it might be the CIA which has cut off his Internet connection in order to prevent the Russians from inviting Wagenknecht to become a party to the current ICJ trial. The suspect reboots his laptop. 7:55 PM, Wes calls the suspect back. Here are the highlights:

(1) About Peter Berger's "objectification of the mind". Is it in *The Homeless Mind*? No, in *The Social Construction of Reality*. About *The Homeless Mind*. (2) The news about Trump's wife's plagiarism. The suspect wonders whether this has something to do with him, since he is always accused of plagiarism.[10] Now the Russians will certainly use this as evidence to confirm that the suspect is indeed insane. The suspect then explains how an intellectual can be mistaken for plagiarizing. Berger's ideas sound similar to Lukács'. Intellectuals always independently come up with the same idea. (3) His visit to the UN. He

---

10   The (most likely) erroneous interpretation in the original version at this point: "As noted, this must have indeed something to do with him – Trump is also one of his substitutes and must therefore acquire some of his attributes."

got a tour. (4) The suspect then explains: Yesterday, the control center controlled him to forget about the clock because "they" wanted him to talk about it on the phone, and this was because law enforcement was listening: they wanted law enforcement to conclude that he was crazy. But they also did this in order to confirm his earlier admission that, except for reading comprehension, his level in everything else was B-2. But his writing level has actually reached C-1. The Russians thus did not want evidence contradicting his earlier admission. The suspect has understood the situation quite correctly! (More on this later.) (5) As soon as he comes to New York, law enforcement is alerted, it's not just because the UN is here, but also because he has once written a letter to the North Korean Ambassador to the UN... This is amazing: the suspect is not even aware that law enforcement is onto him because he is being accused of being a danger to Donald Trump! This is certainly the CIA's evidence that the suspect in fact does not intend to harm Trump. (6) The suspect then produces more crazy, wrong, scenarios: the US has also claimed him to be a terrorist, the US is co-victim with Russia, and that's why Kerry went to debate with the Russians. "They might still be debating about me in the Security Council... What if, when I visited, they were debating about me in a different room?..." (7) Daniel didn't leave. (8) The suspect concludes, "The SS women have linked up with law enforcement, they are reporting me right now... I have finished my mission, I have failed my test, I have seen the UN, and I have alarmed law enforcement..." (9) Wes then suddenly relates that Daniel has asked why he came to New York in the first place when he could have taken the test in San Francisco. The suspect is absolutely shocked, shouting: he's lying... (10) The suspect clarifies that he will be on the train tomorrow on 3 PM.

Now, it must be the case that the Russians have spent enormous effort trying to prove that the suspect does indeed intend to harm Trump. The evidences so far are the suspect's statements about being an "unreliable bigot" (on AVFM forum) and "destabilizing the Trump campaign". While the CIA has argued (correctly) that the suspect is merely being sarcastic in these statements, the Russians need to prove that these statements should be taken literally – that the suspect has always meant exactly what he says. The Russians thus grab onto the suspect's confession that, except for reading comprehension, he has only reached B-2 level in everything else. The Russians have already noticed that the suspect has in fact reached C-1 level in writing, and this is why they attempted to lower his score to B-2 by controlling him to forget about the clock on the wall. However, because the suspect has noticed this purpose today, the CIA will be able to obtain the ICJ's authorization for them to raise his writing score back to C-1 (i.e. TDN-4).

Meanwhile, the suspect's activities today are bad news for the Russians and the SS women. He has visited the UN and has shown no sign that he is even aware that Trump lives in this city. It's now quite evident that, all this time, he has thought that it's because he is coming near the UN that law enforcement has been onto him. He has clearly forgotten about Trump and so cannot possibly be any sort of danger to him. By 6 PM, the CIA is entering all this into evidence. It is thus that, to counter the fact that the suspect has not shown a single sign that he is in the city for Trump, the Russians have commanded Homeland Security to instruct Daniel to utter this nonsensical statement – or to order Wes to make up this story about Daniel. The Russians will therefore bring the intercept of Wes' statement into the ICJ as counter-evidence indicating that the suspect has indeed come to the city for Trump – is using his test as a pretext.

The fourth visit!

When the suspect returns to the hostel, he is able to watch Wagenknecht's interview, "Wann kommt der Kommunismus". This time he is not obstructed. Past 1 AM, a strange Chinese man comes into the hostel sitting behind the suspect in the lounge room pretending to watch a Chinese video on his iPhone. It seems that he is here to conduct surveillance on the suspect. In fact, it's probably the Russian side which has sent him in to confirm that the suspect is indeed "obsessing over Wagenknecht" at the moment. (The man is probably a MSS agent, China's contribution to Russia's cause.) Wagenknecht shall now receive Homeland Security's warning about the suspect and join the ICJ debate on Russia's side. What's more, the suspect soon downloads Lukács' classic *Geschichte und Klassenbewusstsein*. What's going on?

This is probably the real reason why the Russians have been so eager to invite as many parties as

possible to join the current ICJ trial on their side. When the Russians are able to invite Frauke, for example, to their side – on the ground that the suspect is attempting to use his terrorist status to harm her – Frauke would be considered to be another "victim" of his terrorist conspiracy with Homeland Security CO chief. The Russians will then have the ICJ's authorization to command Homeland Security CO chief's operational unit to run operations – in the US and worldwide – to help Frauke. This, even before they are able to win this ICJ trial definitively. It is for this reason that, 6:30 PM today, the CIA shuts off the suspect's Internet connection: if the suspect stays too long on Sahra's website, the Russians will then be able to introduce a claim in the ICJ establishing that Sahra might also be his "victim" and obtain the authorization to command Homeland Security to run operations to benefit her. The Russians must have protested that the CIA is preventing the suspect from "finishing his mission". This is why, tonight, when the suspect returns to the hostel, the CIA makes no attempt to obstruct his "expressing obsession over Sahra". Meanwhile, the Russians send in a MSS agent to confirm that the suspect is indeed in the process of "harming Sahra". The Russians will now have the ICJ's authorization to command Homeland Security CO chief to pull tricks within the US system and worldwide to help not only Trump come to power but also Sahra. The CIA will be quite alarmed by this development. They will, as you shall see, work hard to obtain an ICJ judgment in their favor (proving Homeland Security's warning about the suspect to be intentionally false) and then use the judgment to restrict Homeland Security operational unit's authority to operate within the US system and worldwide.

Amazingly, 12:10 AM, the Long Keng volunteer comes again:

The fourth visit since 14 July.

The suspect is leaving New York today. He has spent the morning visiting the New School. He decides not to take a tour, but simply loiters around outside. There seems to be a surveillance agent watching over him, but he is not sure. Around 11 AM or so (or 2 PM in New York), he is in the Starbucks across the street from the Penn Station checking his log. Becoming alarmed by all the worthless visits to the PP post, he decides, on 11:41 AM (2:41 PM in New York), to post a short message on the Bluehost forum.

12:45 PM, the Gilroy scout who is charged with watching out for the suspect's activities on Bluehost forum, has already received a notification that the suspect has posted something new and comes to take a look. He is discovering the suspect's new message for the first time: snva.ca.megapath.net, Gilroy, California,

68.167.182.21 - - [21/Jul/2016:13:45:30 -0600] "GET /2012/120912-22.png HTTP/1.1" 200 136635 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women" "Mozilla/5.0 (Windows NT 6.1; rv:47.0) Gecko/20100101 Firefox/47.0"

problem-There-are-a-group-of-mentally-ill-women" "Mozilla/5.0 (Windows NT 6.1; rv:47.0) Gecko/20100101 Firefox/47.0"

The last time he was here was 26 June. This is his sixth time.

It's not clear what happens then. But something has happened. It seems that the Gilroy scout is shocked and totally freaked out: "Why is it that he knows that we are complaining about him, that he suffers paranoid delusions about our going after him? Why is it that he knows that we are focused on this PP post?" He calls up the SS women to ask what is going on. Frightened, he will never come again: he is now dropping out of the SS women's operation. Then, 2:38 PM, cpe.netcabo.pt, Braga, Portugal,

213.22.132.220 - - [21/Jul/2016:15:38:12 -0600] "GET /2012/120912-22.png HTTP/1.1" 200 136635 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women" "Mozilla/4.0 (compatible; MSIE 8.0; Windows NT 5.1; Trident/4.0; GTB7.5; .NET CLR 1.1.4322; .NET CLR 2.0.50727; .NET CLR 3.0.4506.2152; .NET CLR 3.5.30729; OfficeLiveConnector.1.3; OfficeLivePatch.0.0; InfoPath.1; AskTbORJ/5.15.1.22229)"

This volunteer is copying page 1 of the thread onto Microsoft Word! What is going on? It seems that the SS women are so angry over the suspect's exposure of their scheme to their volunteer – causing him to drop out of the operation – that they decide to create a fake version of the Bluehost forum posting to pass around and to submit to the Secret Service as evidence.

The Harvard volunteer has just reported on this image on 18 July.

3:19 PM, or 6 19 PM in New York, the suspect, when his train is leaving Albany, is connected with Wes again (from 1:03:00 onward): (1) About Daniel. (2) The suspect has begun reading Peter Berger's *Social Construction of Reality*. About his visit to the New School. He hopes that he has no mission to accomplish, he has really regretted coming to New York, he is feeling very sad, he has failed his test. He so wants to be in Germany now to participate in the political excitement there… (He has no idea that, with the Homeland Security warning about him, he is just wasting his time wanting to be part of any institutions.) (3) Wes, however, suddenly mentions "Donald Trump, your guy..." The suspect retorts: "Not my guy... He gets zero approval from black people... I'm standing with black people..." "But you campaigned for him..." "That's before his approval rating from black people sinks to zero..." It is of course the Secret Service which has instructed Wes to solicit further opinions about Trump from

the suspect. The CIA now wants evidence proving that the suspect is, again, a quite straightforward person – he supports Trump when he likes him, and doesn't when he loses interest in him – and that Homeland Security's, and the SS women's, assessment that he is obsessed with Trump and harbors a love-hate attitude toward him is but pure garbage. (4) About "Sahra". The suspect has found her very interesting. In Germany the far left has not been co-opted... This will again be the CIA's evidence: that, again, the suspect is interested in these politicians for geopolitical reasons rather than being motivated by "obsessions". (5) The suspect regrets that he and Wes talk better on the phone. (6) About the professor in Tasmania: he is working on brain-implants. Then about the implants for patients with Parkinson disease. The suspect bemoans that he gets no response from Professor Gilbert. (Of course!) When this technology is used for good purposes, everybody believes it and listens, but when it is used for bad purposes, nobody believes it and nobody listens. That's the conversation.

4:23 PM, a second volunteer has come to assess the situation at Bluehost forum after the Gilroy volunteer's outburst: rev.internmaxnetworks.com, Hayden, Idaho,

208.94.86.123 - - [21/Jul/2016:17:23:16 -0600] "GET /2012/91413-61.png HTTP/1.1" 200 139918 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women&p=226372" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This is the second visit since 14 July, but the tenth visit since 6 June.

7:59 PM, a third volunteer has come to assess the situation (this is page 2): Airtel, Patna, India,

223.176.15.65 - - [21/Jul/2016:20:59:13 -0600] "GET /2012/91413-61.png HTTP/1.1" 200 139918 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women&p=226372" "Mozilla/5.0 (Linux; U; Android 4.4.2; en-gb; SM-G350E Build/KOT49H) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

8:58 PM, hsd1.wa.comcast.net, Centralia, Washington,

This is the first visit since 14 July.

9:29 PM, link.net.id, Jakarta, Indonesia,

139.0.7.98 - - [21/Jul/2016:22:29:36 -0600] "GET /gallery/owl.jpg HTTP/1.1" 200 13046 "https://www.google.co.id/" "Mozilla/5.0 (Windows NT 5.1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/49.0.2623.112 Safari/537.36"

This is the fourth visit since 14 July.

10:02 PM, it's the Long Keng volunteer – using his cellphone: SoftLayer Technologies, Long Keng,

45.56.152.3 - - [21/Jul/2016:23:02:13 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "http://www.google.com.tw/search?client=ms-android-kt-kr&site=webhp&ei=sqiRV4WqFoTo0gTR-amACA&q=scientific+path+to+enlightenment+1998&oq=scientific+path+to+enlightenment+1998&gs_l=mobile-gws-serp.3...14488.25659.0.26020.38.31.0.3.3.0.880.14609.2-1j8j13j7j2.31.0....0...1c.1.64.mobile-gws-serp..12.21.8211.3..0j41j46j0i3j0i46j0i22i30j0i22i10i30j33i21.XKU5uGP4sCI" "Mozilla/5.0 (Linux; U; Android 4.1.2; en-us; LG-F200K/20h Build/JZO54K) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

He immediately goes to the chapter he looked at yesterday:

45.56.152.3 - - [21/Jul/2016:23:02:18 -0600] "GET /scientificenlightenment1/fundamentalism2.htm HTTP/1.1" 200 45008 "http://www.enlightenment1998.com/scientlitfr.html" "Mozilla/5.0 (Linux; U; Android 4.1.2; en-us; LG-F200K/20h Build/JZO54K) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

45.56.152.3 - - [21/Jul/2016:23:02:20 -0600] "GET /scientificenlightenment1/dot_clear.gif HTTP/1.1" 404 1322 "http://www.enlightenment1998.com/scientificenlightenment1/fundamentalism2.htm" "Mozilla/5.0 (Linux; U; Android 4.1.2; en-us; LG-F200K/20h Build/JZO54K) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

He was just here this morning brainstorming how to report these chapters to be plagiarized, and here he is at it again. This is what his search would have looked like:

11:17 PM, Apollo Technologies and Solutions, Chirala, India,

103.200.41.50 - - [22/Jul/2016:00:17:35 -0600] "GET /scientificenlightenment1/bohrelementtable.jpg HTTP/1.1" 200 83534 "https://www.google.co.in/" "Mozilla/5.0 (Windows NT 5.1)

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/30.0.1599.0 Safari/537.36"

The third visit, and the second visit today.

12:18 AM, Optus, Forest, Tasmania, on the northwestern tip of Tasmania (whereas the University of Tasmania is on the southeastern tip).

49.189.121.8 - - [22/Jul/2016:01:18:35 -0600] "GET /scientificenlightenment1/capra7777.html HTTP/1.1" 200 21549 "https://www.google.com.au/" "Mozilla/5.0 (Linux; Android 6.0; LG-H815 Build/MRA58K) AppleWebKit/537.36 (KHTML, like Gecko) Version/4.0 Chrome/38.0.2125.102 Mobile Safari/537.36"

This visit will so alarm the suspect: he has just sent out a letter to a professor at the University of Tasmania three nights ago! What a coincidence! Have the SS women got wind of the suspect's letter already? Did they contact the professor? In reality, it might be the Russians who have instructed the SS women to find somebody in Tasmania – with the goal of driving the suspect to paranoia in order to obtain more evidence of his insanity. In any case, probably a false report about the suspect's plagiarism.

4:52 AM, the Municipality of Oslo, Oslo kommune; this is the Oslo city government:

171.23.6.109 - - [22/Jul/2016:05:52:27 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225880 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (X11; Linux i686) AppleWebKit/537.36 (KHTML, like Gecko) Ubuntu Chromium/49.0.2623.108 Chrome/49.0.2623.108 Safari/537.36"

It's amazing that the SS women are able to recruit somebody from Oslo's city government! Three visits to the PP post today.

22 July (Friday)

5:32 AM, the log is archived.

10:07 AM, the suspect has already arrived in Chicago and is in a Starbucks. He is worried about the link to the PP post he posted yesterday on Bluehost forum, and therefore decides to modify the post and eliminate the link. He then posts a notice about the matter.

10:11 AM, jan.bellsouth.net, Brandon, Mississippi,

98.95.171.58 - - [22/Jul/2016:11:11:27 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.106 Safari/537.36"

11:11 AM, Google proxy, Asia,

64.233.173.156 - - [22/Jul/2016:12:11:48 -0600] "GET /2012/91413-61.png HTTP/1.1" 200 139918 "http://www.bluehostforum.com/showthread.php?143880-Hi-I-have-been-having-this-annoying-problem-There-are-a-group-of-mentally-ill-women" "Mozilla/5.0 (Linux; Android 5.1.1; YU5510 Build/LMY49J) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/50.0.2661.89 Mobile Safari/537.36"

This is the first person to notice the suspect's new post. The Gilroy person no longer serves as the guard for Bluehost forum!

11:59 AM, threembb.co.uk, Tamworth, UK,

94.197.121.149 - - [22/Jul/2016:12:59:00 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; U; Android 4.3; en-gb; GT-I9300 Build/JSS15J) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

12:27 PM, AT&T, Wilmington, North Carolina; this is page 1.

4:37 PM, hsd1.co.comcast.net, Denver, Colorado. Is this volunteer related to the Denver volunteer from 7 July?

107.2.219.7 - - [22/Jul/2016:17:37:03 -0600] "GET /scientificenlightenment1/ancestorcult.html HTTP/1.1" 200 55948 "-" "Mozilla/5.0 (Linux; Android 5.0.2; SM-S978L Build/LRX22G) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.81 Mobile Safari/537.36"

The last visit to this chapter was 24 May.

6:02 PM, it's the Long Keng volunteer again! SimpleLink LLC, 桂望村, Guangdong,

45.56.152.46 - - [22/Jul/2016:19:02:08 -0600] "GET /scientlitfr.html HTTP/1.1" 200 10673 "http://www.enlightenment1998.com/thermfr2.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

He was here just 20 hours ago! Still brainstorming how to prove that the suspect does plagiarize. 6:35 PM, he changes proxy: 163data.com.cn, Dalian, Liaoning,

123.185.19.215 - - [22/Jul/2016:19:35:11 -0600] "GET /scientificenlightenment1/fundamentalism1.htm HTTP/1.1" 200 55187 "http://www.enlightenment1998.com/scientlitfr.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_5) AppleWebKit/601.6.17 (KHTML, like Gecko) Version/9.1.1 Safari/601.6.17"

7:13 PM, Group ICE, Costa Rica,

The fifth visit since 14 July.

7:19 PM, is a volunteer examining the suspect's comments on other people's Facebook page?

173.252.90.100 - - [22/Jul/2016:20:19:39 -0600] "GET /gallery/gallery.html HTTP/1.1" 206 4421 "-" "facebookexternalhit/1.1 (+http://www.facebook.com/externalhit_uatext.php)"

7:54 PM, Comcast, Medford, Massachusetts. Note that Medford is directly west of Malden, and recall the volunteer from Malden from 7 July (PP) and the volunteer from Somerville from 10 July (PP). Related?

73.114.35.228 - - [22/Jul/2016:20:54:30 -0600] "GET /1/daly.html HTTP/1.1" 200 2986 "https://www.google.com/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_5) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

Presumably another false testimony about the suspect's plagiarism.

8:22 PM, nyc.res.rr.com, Jamaica, New York,

66.108.69.104 - - [22/Jul/2016:21:22:33 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

9:57 PM, Bluehost sends out an email notification to the suspect: "Maintenance scheduled, 25 July, 8 to
9 PM MDT".

12:14 AM, Sangeetha Telecom, Thanjavur, India,

45.122.131.160 - - [23/Jul/2016:01:14:53 -0600] "GET /scientificenlightenment1/rjwien.jpg HTTP/1.1"

(KHTML, like Gecko) Chrome/30.0.1599.37 Safari/537.36"

12:15 AM, this volunteer pastes the image onto his Microsoft Word:

45.122.131.160 - - [23/Jul/2016:01:15:27 -0600] "GET /scientificenlightenment1/rjwien.jpg HTTP/1.1"

12)"

Recall that this is the image on which the Harvard volunteer reported on 18 July. The SS women are
forging evidences again for the suspect's plagiarism.

2:43 AM, it's the Long Keng volunteer again – using his phone: 163data.com.cn, Dalian, Liaoning,
China,

123.185.19.142 - - [23/Jul/2016:03:43:08 -0600] "GET /scientificenlightenment1/dot_clear.gif

He was just here 8 hours ago!

3:36 AM, beavernet-165.caltech.edu, Cal Tech, Pasadena, California,

Chrome/49.0.2623.112 Safari/537.36"

Another false report about the suspect's plagiarism. From an educated person to enhance its credibility!

The last visit was on 14 May.

Note that the SS women visited the PP post three times today, and the Bluehost forum post one time.

Again, brainstorming how to prove that the suspect does plagiarize.

12:41 PM, pools.spcsdns.net, Brooklyn, New York. Is this volunteer related to the 8 July, 8:47 AM

9:29 PM, the suspect is on overlay in San Antonio. (The train wouldn't depart until 2:45 AM.) He
comes to the Marriott Hotel to use the Internet. He posts a new message on the Bluehost forum: "They
can't". From 10:02 to 10:09 PM, he visits his website from the Marriott Hotel:

1:13 AM, ok.ok.cox.net, Tulsa, Oklahoma. Note that this is the SS women's first visit to this new
document:

68.14.166.147 - - [24/Jul/2016:02:13:09 -0600] "GET /prelude_C_5/prelude_C_5l.pdf HTTP/1.1" 200

This is important, for it is here that the SS women will read for the first time that their Homeland
Security partners (CO chief and his team) have fallen under Russian command. As they pass the
document around and read through it in the coming days, they will eventually believe the suspect.
Given what happens later, one has to wonder whether it is the CIA which has instructed the law
enforcement moles in the SS women's organization to trick them to look for this new document.

7:42 PM, while the train is stopping in Tucson, the suspect briefly talks to Wes on the phone (from
51:00 onward). The suspect bemoans that "Homeland Security has made him what he is." He is feeling

147

sad and angry. April last year, Homeland Security CO chief required him to commit all these vandalism crimes, and to say all these crazy things, because, at that time, federal agencies were already onto him, and Homeland Security CO chief wanted everybody to recognize that he was insane, and he trained him to be anti-American and a Russia-sympathizer... Now, when he comes to New York, law enforcement is alarmed, and it's all because of Homeland Security. He then briefly hints at the CIA's disruption of his internet connection on 20 July, and how he was under surveillance when he was at the New School, all this thanks to Homeland Security... But law enforcement doesn't ask Homeland Security, "Whatever I am today, it's Homeland Security who has trained me... I'm just like Lee Harvey Oswald..." Wes asks strategically: "Did they train you to be a Russia-sympathizer, or are you really a Russia-sympathizer?" The suspect explains: they can't train you to want to eat shit because the human brain has no such neurons in place, but the human brain does have all the neurons to enable you to become a Russia- sympathizer..." Wes: "Did they train you to become a Trump-sympathizer?" The suspect: "No, there is really no reason for me to like Trump, it's just the chip-effect... How come law enforcement doesn't ask about the chips, and the SS women are my personal reporters... Wherever I go, law enforcement will be alarmed, and they will report on me... The injustice is so incredible...." The suspect then claims he would not bother to contact Daniel since he's already freaked out. (Right!) Just then, the call is cut off.

You can imagine that Wes is always referring the conversation back to the topic of Trump because the Secret Service needs more evidences about the suspect's real feeling and thinking about this old man. While the suspect's talk about his mind-control will become evidence in favor of the Russians in the ICJ (that he is insane), his realization that federal agencies were onto him before he was arrested last year could be evidence in favor of the CIA (that he is not insane).

From 8:02 to 8:05 PM, Kiersten changes her profile picture two times on her Facebook page. It's a picture of her looking straight into the camera ("from that Bergman film" and "from that Fassbinder film"). In reply: Robin Briano, Jonah Ramone, and Bthuy Arzate.

He was last here 29 hours ago. Still brainstorming how to convince the Secret Service that the suspect
does plagiarize. 4:03 AM, he comes again: China Unicom Liaoning, Shenyang,

He might simply be clicking around for no reasons while discussing the difficult situation with the SS
women.

As you have seen, the SS women today are very much focused on the suspect's forum postings. They
have visited the PP post 7 times today! And the Bluehost forum post 1 time.

25 July (Monday: back to Los Angeles)

Before 5 AM, the train has arrived in Los Angeles. The suspect will settle down in the Starbucks on
Wilshire and Vermont. He gets increasingly angry when he looks over the information on Goethe
Institute's C1-exam. When he meets with Erin on 10 AM, he would be so angry over society's
"sexism" that he would terminate therapy with her.
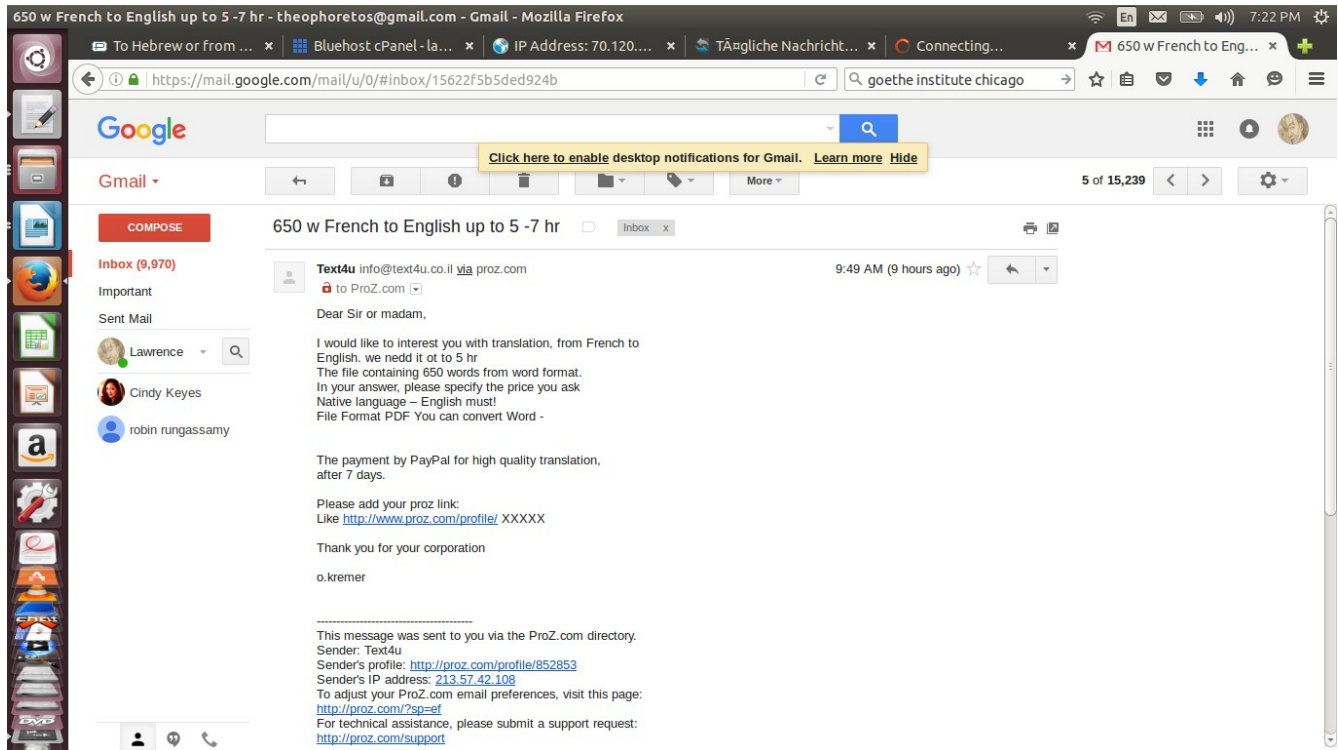

5:40 AM, the log is archived.

The SS women continue their operation. 7:24 AM, telecomitalia.it, Bareggio, Italy. This is page 1.

9:49 AM, Text4u sends the suspect a translation job offer via ProZ: 213.57.42.108, Tel Aviv. This is
their second time. Their first time, you recall, is 17 February, 8:11 AM. Are the SS women getting so
desperate that they again want to prove that the "David Chin document" is a genuine confession from

the suspect?

11:14 AM, bb.sky.com, Brighhouse, UK.

The second visit today!

When the suspect comes back to Starbucks, Westwood, tonight, the Weird Fat White Guy will be there,
wearing a pair of sunglasses.

7:32 PM, triad.rr.com, Greensboro, North Carolina.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The first visit since 14 July, in fact since 6 June. Clearly, the SS women are getting desperate, such that
they begin reporting as plagiarized those images which they haven't visited since a long time ago.

7:37 PM, Optus, Seddon, Victoria, Australia,

175.32.167.88 - - [25/Jul/2016:20:37:39 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

The third visit since 14 July. Don't forget that, just three days ago, the SS women have forged evidence about this image.

11:59 PM, mailcpt.inscape.co.za, Cape Town, South Africa. It appears that the previous Cape Town volunteer has emailed the instruction to this friend of his:

41.164.26.202 - - [26/Jul/2016:00:59:43 -0600] "GET /1/sexdispositive.jpg HTTP/1.1" 200 31789 "https://www.google.co.za/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_5) AppleWebKit/601.3.9 (KHTML, like Gecko) Version/9.0.2 Safari/601.3.9"

The fourth visit today!

Note that, today, the SS women visited the PP post and the Bluehost forum post each once. After today, there will be no more visits to the Bluehost forum postings. In fact, as the suspect will discover days later, the entire Bluehost forum will simply disappear without explanation. It's very likely the case that the SS women, angry with the incident with the Gilroy volunteer on 21 July, have somehow succeeded in requiring the Bluehost forum owner to take the whole forum down. There must have been a big stir over the Bluehost forum in the past few days.

26 July (Tuesday; no more Bluehost forum; SDW on Facebook; State Department)

7:14 AM, maine.res.rr.com, Edgecomb, Maine.

76.179.241.137 - - [26/Jul/2016:08:14:32 -0600] "GET /scientificenlightenment1/biosynthesis.jpg HTTP/1.1" 200 69012 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"
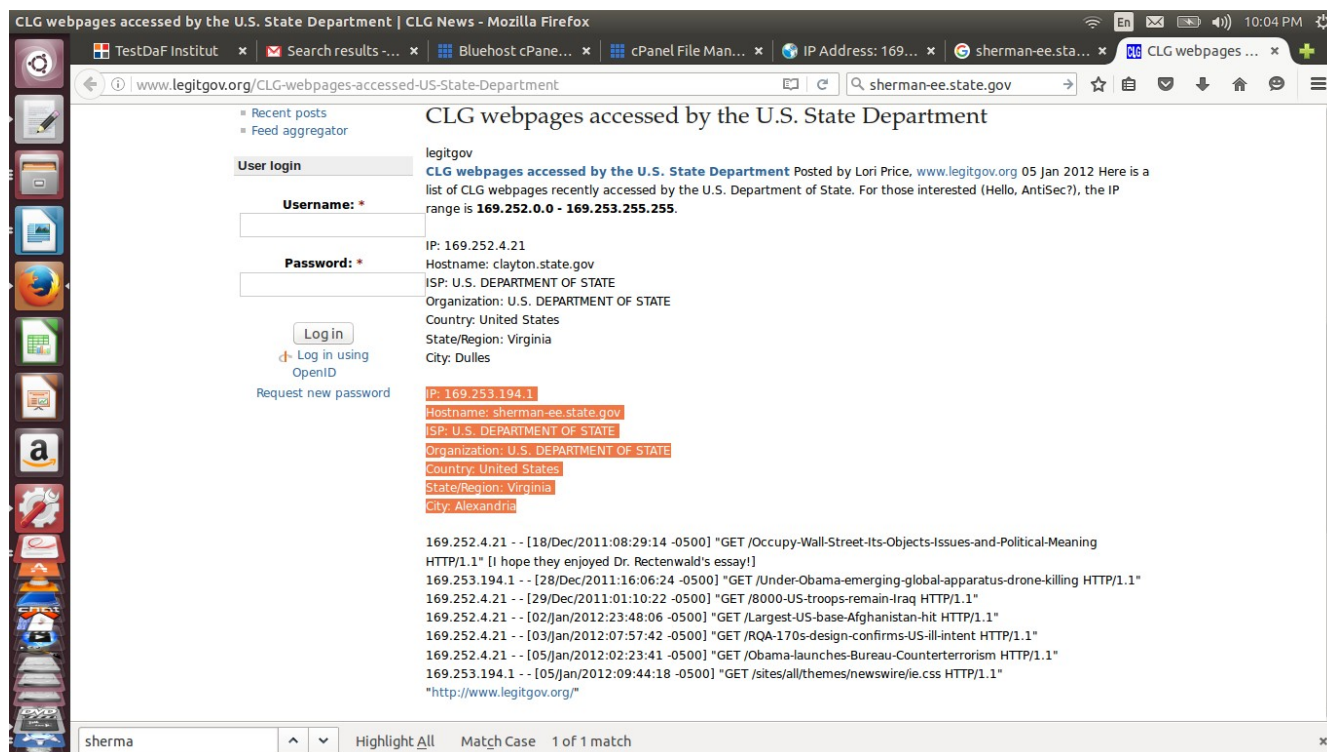

This is the second visit since 14 July, in fact since 6 June.

9:36 AM, a very special volunteer comes: sherman-ee.state.gov, US Department of State, Washington DC.

169.253.194.1 - - [26/Jul/2016:10:36:00 -0600] "GET /scientificenlightenment1/saxonwarrior.jpg HTTP/1.1" 200 93242 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/50.0.2661.102 Safari/537.36"

This is only the second time that the SS women are able to find somebody in the State Department to visit the suspect's website. This time, however, it is to report the suspect for plagiarism. This is only the third visit to this image since 14 July, in fact since 21 July! Given the circumstance (Kerry's negotiation with Moscow, the CIA's plan to get the US out of NULND's conviction as well as reactivate the previous ICJ trial, as you shall see), it's very likely that this State Department officer is a mole whom the CIA has just planted inside the SS women's organization. Lying to the SS women that he is here on Homeland Security's order, this State Department official will secretly report to the Secret Service what the SS women have instructed him to do (coaching witnesses). The State Department itself must be eagerly going along with the CIA's plan given its desire to get out of NULND's blunder back in February.

11:47 AM, Talk Talk, Knottingley, UK,

92.14.111.155 - - [26/Jul/2016:12:47:14 -0600] "GET /scientificenlightenment1/saxonwarrior.jpg HTTP/1.1" 200 93242 "https://www.google.co.uk/" "Mozilla/5.0 (Windows NT 10.0; WOW64)

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

This must be a follow-up on the State Department officer's false report.

11:51 AM, Sky Internet, Quezon City, Philippines.

103.14.61.43 - - [26/Jul/2016:12:51:54 -0600] "GET /scientificenlightenment1/cellularrespiration.jpg HTTP/1.1" 200 101985 "https://www.google.com.ph/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

The seventh visit.

2:22 PM, SDW posts on her Facebook group: "Radioactive testing gauge reported stolen from CT company: Nuclear Regulatory Commission". Her first time since 8 July.

2:36 PM, SDW posts for the second time today on her Facebook group: "Dumb truck driver targets Pittsburgh FBI building..."

2:51 PM, SDW posts for the third time today on her Facebook group: "Police chief Esserman on hot seat again after incident at restaurant".

2:54 PM, University of Cincinnati, Cincinnati, Ohio.

The SS women have not looked up this chapter since a long time ago.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

11:03 PM, the Monrovia volunteer comes to the front page:

216.165.233.24 - - [28/Jul/2016:00:03:32 -0600] "GET / HTTP/1.1" 200 3527 "-" "Mozilla/5.0

(KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

Who is this? As the suspect will find out more than a year later,[11] this is Jill (Stone/ Pyeatte) from his
Libertarian Party meetings. (Until then he would always mistake this person for one of Karin's friends,
such as Cecilia.) Recall that Jill first joined the SS women back in late 2014. Now she immediately
goes to 1.html:

216.165.233.24 - - [28/Jul/2016:00:03:57 -0600] "GET /1.html HTTP/1.1" 200 9875

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/51.0.2704.103 Safari/537.36"

It is evidently Karin who is directing her to find "The Secret History" (1.html) from the front page.
There is no possible way that Jill could find it on her own (just as in the case of Daniel). Karin might
simply be explaining to her what the "problem" is. ("The Secret Service won't accept the Homeland
Security warning about him to be valid and so there is no stalking of Donald Trump after all.") Jill
would come again on 9 August.

We are witnessing the formation of the "South African Group" since 25 July: the group is assigned the two images "sexdispositive.jpg" and "biopower2.jpg". This volunteer is presumably related to the two previous Cape Town volunteers from 25 July (even though Middelburg is on the other side of South Africa).

3:57 AM, the special section on the Secret Facebook Group is accessed:

69.171.230.110 - - [30/Jul/2016:04:57:00 -0600] "GET /gallery/smredathena5.jpg HTTP/1.1" 200 31001 "-" "facebookexternalhit/1.1 (+http://www.facebook.com/externalhit_uatext.php)"

In sum, after the Long Keng volunteer's latest effort, the SS women visited the suspect's website 7 more times, including making false reports about his plagiarism. Not just they, but the Russians as well are getting desperate: Homeland Security's warning about the suspect is about to be proven false in the ICJ and the previous ICJ trial is in danger of being reactivated (not to mention what might affect the conviction of Homeland Security CO chief and NULND).

30 July (Saturday; Kiersten on Facebook; no activities after noon)

The eighth visit since 14 July.

There will be no activities from the SS women in the next 11 hours! Are they meeting in person to
conference? But the fact that Kiersten is tweeting all day long indicates that the meeting, if there is one,
is online. 11:31 PM, the women resume operation: Millicom Cable Costa Rica S.A., San Jose, Costa

activities because they were evidently busy in the afternoon and early evening.

31 July (Sunday; Wes; no activities in morning and afternoon)

This is the fourth visit since 14 July.

The SS women will refrain from activities for the rest of the morning and afternoon until almost 5 PM! The second day in a row! What are they busy with? On 9:52 AM, the suspect will be connected with Wes. It's not clear whether the SS women are simply meeting with Homeland Security CO chief in some Homeland Security operation center together analyzing the suspect's phone conversation. In any case, such are the highlights: (1) Daniel will come back and hang with Wes. (2) The suspect bemoans that he can't fit into anything in this society, everything is just too simple. (3) He complains: "*Here* I'm a philosopher, *there* they see me as a dangerous terrorist... You have to match up to other people's conceptions instead of living in a parallel universe... Their conception is official record..." Again, Wes is advising the suspect that he shouldn't care what other people think. But the suspect wouldn't let go: "The government's classification of me is so divergent from my true nature..." (4) The suspect then talks again about the strange way Daniel visited his website. (5) The SS women found another person in the State Department to complain about his plagiarism. Then about the Tasmanian professor and the suspicious visit from Tasmania. (6) This is important: the suspect talks about his new hypothesis, that accompanying the Homeland Security warning about him is also the TMU's warning about the SS women. His hypothesis is correct and he will soon write it into his "Prelude-17D". This will become the CIA's most important evidence in this round of the ICJ trial proving that he is not insane. However, he then continues to hold onto his erroneous scenario: that the US was forced to concede that he is a terrorist, hence the visit to his website from the State Department. The reality is in fact the opposite: the CIA is about to permanently remove his status as a terrorist. (7) Three months ago, the SS women found a German company to index his website – he is talking about Open Link Profiler – which is a sign that the German government is helping them too; the whole world is behind them. This is again part of his erroneous scenario. (8) The suspect then talks about his need to achieve equality with everybody else, for everybody knows he is a terrorist except for him. Indeed! (9) Habermas and Peter Berger. Why is it that experts can understand the use of brain chips in medicine, but not in mind-

control? (10) About the disappearance of the Bluehost forum. (11) The suspect's need to get recognition in addition to discovering truth and beauty. About the Golden Ratio guy "Elliot". Ecstasy.

4 PM, the suspect is at the Quantum Physics Discussion Meetup.

4:59 PM, the SS women have finally resumed operation. cinci.res.rr.com, Maineville, Ohio.

APPENDIX
Cyveillance's indexing of the suspect's website

</div>

In the following a list is provided of Cyveillance's monthly visits to the suspect's website since the very beginning – since, that is, August 2013. It's not clear when Cyveillance first began indexing the suspect's website. The reason why such list was included in the original version (and is preserved here) is that, for a while, the suspect thought that the Cyveillance robot was sent in by the Secret Service because Cyveillance has regular contracts with the Secret Service. He realized he was mistaken when he noticed that this robot had been showing up since the very beginning (before the Secret Service had become involved in his case in early 2016).
