LEGEND

The Secret Society women consist of (as of August 2016): Karin (the German Lady, K), Angelica (Angelina, G), Kiersten (J), SDW (Maura), and Dr P (Petterson). For brevity's sake, the "Secret Society women" shall be referred to simply as the "SS women" in the following narrative.

The "Long Keng volunteer" continues to be increasingly active with the Secret Society women. His function, however, is increasingly the "status-checker". He seems to be a Taiwanese living in southern California – a system administrator who also works in interior design. (Very possibly a certain "Glenn Chen", a friend of MaryAnne's.)

This is a thoroughly revised version of the original "Prelude-Grand", originally composed in June 2017, with minor revisions of details and corrections of grammar and spelling afterward. The last revision, with the file name "prelude_grand_2o.pdf", was dated 03.12.2019 and can still be found in the same folder. The principal fault of the original version consists in the failure to recognize the Russians' primary concern, i.e. to establish the Homeland Security warnings about the suspect to be correct in order to prevent the CIA from reactivating the previous ICJ trial. This thoroughly revised version shall correct this, along with other mistakes in identifying the visits from the Secret Society women's volunteers.

This thoroughly revised version remains nevertheless the "short version". That means that not every visit will be listed. Notably, most of the Secret Society women's volunteers' visits to the suspect's *Thermodynamic Interpretation of History* and *Scientific Enlightenment*. That is to say, for brevity's sake, most of the false reports about the suspect's plagiarism are not detailed. Certain groups of regular visitors will however still be noted – whether they are here to make false reports about the suspect's plagiarism or to create decoys: the "South African Group", the "Indian Group" and the associated "Quantil Group", the "ENA Group", and the "Iowa City Group".

Because this thorough revision aims merely to correct certain conclusions of the original version without relisting all the visits and reconstructing therefrom a more comprehensive scenario, this "short version" can only be approximately correct. For a totally accurate

reconstruction of what happened during this “Trump episode”, the reader is asked to wait for the final “long version”.

RESUME

The following reconstructs Homeland Security’s and the Secret Society women’s operation against the suspect and the associated International Court of Justice trial from 1 August to 17 November, 2016. This period must figure as the most exciting episode in the Secret Society women’s six-year long pursuit of the suspect and his website, culminating in the Trump team’s definitive involvement after their electoral victory in November. This would incidentally become part of the story of Trump’s pre-inaugural “Russia connection”, which would dominate the news headlines in the United States in the first half of 2017.

Now a brief summary of the course of events during this most exciting period. As seen, after the suspect has returned to Los Angeles, the Secret Society women continue to report his website to the Secret Service (offer their “expert testimonies”), unaware that they have fallen into a trap. By 3 August, the Secret Service has gathered up all the evidences which the CIA has needed in the ICJ to demonstrate that the suspect is nothing like what these women have described of him and that these women are a bunch of pathological liars and false complainers of terrorism and completely unreliable witnesses about the suspect and his website. As a result, the ICJ issues a judgment again declaring Homeland Security’s warning about the suspect as a terrorist to be invalid and the Secret Society women to be “false witnesses” in this terrorism case. As the ICJ has declared the CIA victorious again, the Secret Service is able, on the basis of the ICJ judgment, to permanently remove the suspect’s status as a terrorist (delete him from the national terrorism database, which is either the Terrorist Identities Datamart Environment or the Terrorist Screening Database¹) and cancel the Secret Society women’s status as “victims” – and “expert witnesses” – of the suspect’s terrorism. Meanwhile, however, the Secret Service – again on the basis of the ICJ judgment – has solidified the Secret Society women’s status as “false complainers of terrorism” and maintained their listing in the same terrorism database (since a “false

1 How the US government’s system for classifying terrorists functions is explained in the Intercept piece from July 2014, “The secret government rulebook for labeling you a terrorist” (<https://theintercept.com/2014/07/23/blacklisted/>), which is based on the leaked document “March 2013 Watchlisting Guidance” (<https://assets.documentcloud.org/documents/1227228/2013-watchlist-guidance.pdf>). As noted, one would think that the suspect was most likely nominated to the Terrorist Screening Database by Homeland Security CO chief since this database, run from the FBI’s Terrorist Screening Center, is more oriented toward domestic terrorists whereas the Terrorist Identities Datamart Environment, run from the National Counter-Terrorism Center inside the CIA, is more oriented toward international terrorists. But, because the suspect is also considered to be a terrorist stalker of many famous women in foreign lands, Homeland Security CO chief might have nominated him to TIDE as well. Given the vast number of people listed in these databases, it goes without saying that most of them have had nothing to do with terrorism at all. See Adam Goldman, “More than 1 million people are listed in US terrorism database”, *The Washington Post*, 5 August 2014: https://www.washingtonpost.com/world/national-security/more-than-1-million-people-are-listed-in-us-terrorism-database/2014/08/05/a66de30c-1ccc-11e4-ab7b-696c295ddf1_story.html?utm_term=.1af1246d9a15. In the lawsuit *Anas Elhady et al v. Charles H. Kable et al*, it is revealed that, as of 2017, about 1.2 million people were listed in the Terrorist Screening Database, but that only about 4,600 of them were American citizens.

complainer of terrorism” counts also as a “terrorist”). The Secret Service then notifies the Secret Society women about the removal of their status as “victims” and “expert witnesses” of the suspect’s “terrorism” – without of course informing them that they are now themselves officially classified as “terrorists”.

The Secret Society women are absolutely devastated by the news and their most important mission in life has now become the recovery of their status as “victims” and “expert witnesses”. The Russians and their allies (the National Front’s Partisans) of course try to help them since, with the invalidation of these women’s testimonies about the suspect, the Homeland Security warnings about the suspect are now officially “false” so that the CIA would now be free to reactivate the previous ICJ trial and convict Russia therein. Soon the Secret Society women have identified the cause of their failure to be the Secret Service’s violation of their “victim confidentiality” and, from 9 August onward, try to offer evidences to the Secret Service that the suspect’s website does violate their privacy and that their request for “victim confidentiality” is legally justified and should be respected. They then restart trying to prove to the Secret Service that their profile of the suspect is correct (especially that the suspect is a plagiarizer). Meanwhile, the Russians continue their debate with the CIA in the ICJ about whether the Secret Society women’s testimonies about the suspect and his website might be correct after all. The same obstruction from the Secret Service and the same impasse in the ICJ. The Secret Society women are forever waiting in vain, day after day, for the Secret Service to ban the suspect’s website. On 25 August, they discover a single instance which seems to indicate that the suspect does indeed impersonate strangers on the Internet. They are jubilant because this suggests that there might be some truth in their profile of the suspect after all. They thus spend their days either trying to convince the Secret Service that their “victim confidentiality” should be respected or that their profile of the suspect is indeed correct. Then the same debate with the Secret Service about whether the suspect has indeed plagiarized. Then, for their case in the ICJ, the Russians, on 28 August, command Homeland Security’s trollers to post frivolous messages on the PP forum to produce evidences confirming that the suspect is indeed massively impersonating strangers online. When the Secret Service continues to ignore their new evidences, the Secret Society women resort to forging evidences again (evidently under Russian direction via Homeland Security). On 31 August, they direct their “Sao Paulo Plagiarizer” to create a fake Portuguese version of the suspect’s website using Google Translate – in order to convince the Secret Service that the “David Chin” document really *is* the suspect’s genuine confession (that the suspect really *is* his twin brother David Chin and does use computers to pretend to do translation work, etc.). The Secret Society women and the Russians thus devote the final days of August to producing evidences for the suspect’s impersonation. The Secret Service, on the other hand, continues to debunk the Secret Society women’s claims so that the CIA can have evidences in the ICJ to continue to maintain that all the Homeland Security warnings about the suspect have been false. The Secret Society women then spend the first half of September fixing the forged evidences, making more false reports about the suspect’s plagiarism, and getting frustrated that they can never get through to the Secret Service. Nevertheless, at least the CIA cannot for the

moment reactivate the previous ICJ trial thanks to these women's effort.

It has been suggested that the negotiation which Kerry is currently conducting with Moscow over Syria seems to be the direct consequence of Homeland Security CO chief's and NULND's conviction in February – that it is in order to remove their conviction that the State Department is attempting to broker an agreement with Moscow that is favorable enough for Russia. In other words, although the CIA has temporarily won the ICJ trial in April and June and now again in August – obtaining a judgment stipulating that the suspect has never been a terrorist and thus saving Homeland Security CO chief and NULND from a conviction that they have conspired with a terrorist to harm Russia and the National Front – these two miserable figures remain convicted of raising a false claim about terrorism in order to falsely convict Russia and the National Front of conspiring with a terrorist to harm the United States. In exchange for removing this embarrassing conviction of two representatives of the United States, the United States agrees to renounce support for Islamic fighters fighting Assad in Syria and to join hands with Russia to fight them.² This final agreement which is very favorable to Russia (reached by 9 September) then becomes tremendously resented by the US national security Establishment, especially by the Pentagon which eschews any plan to share intelligence and infrastructure with Russia in order to fight the very Islamic terrorists whom the United States has itself financed and supported. What a self-mutilating deal! As the Pentagon planners look to the CIA's current debate with the Russians and their allies in the ICJ, however, a solution emerges. By early September, the CIA has, while monitoring the Secret Society women's communications, seen an opportunity to countersue Russia in this current ICJ trial over the suspect, namely by accusing Russia and its allies of conspiring with a bunch of terrorists (namely the Secret Society women) to fraudulently convict the United States of conspiring with a terrorist (the suspect) to harm Russia and the National Front via the ICJ – a grand scheme between the Secret Society women on the one hand and Russia and its allies on the other to make the United States compensate Russia and the National Front. If the CIA could succeed in convicting the Russian side, then there will be no need for the United States to remove the conviction of NULND and Homeland Security CO chief through negotiation with Russia – while the CIA can reactivate the previous ICJ trial! Consequently, on 16 September, the Pentagon decides to bomb Syrian troops allowing ISIS to gain a strategic advantage against Assad's forces in the local region³ – as a way to signal to Russia that the US national

2 Recall what the story is about. General Petraeus started the program of supplying weapons to Islamic fighters in Syria while he was still the CIA's director, but continued to play the prominent role in the program together with his former Pentagon colleagues when he resigned from the CIA and became the chairman of KKR's Global Institute. In early 2017, the Bulgarian journalist Dilyana Gaytandzhieva first reported on this US covert operation: under the CIA's direction, weapons were shipped from Bulgaria by an Azerbaijan state air cargo company (Silk Way) under diplomatic cover to Turkey, Saudi Arabia, and United Arab Emirate, and from there transferred to the Islamic fighters in Syria (including ISIS and Al-Nusra). Thierry Meyssan then reported this on his Réseau Voltaire (<http://www.voltairenet.org/article197134.html>). Gaytandzhieva was subsequently interrogated by the Bulgarian authority and fired from her job. She then appeared on Sibel Edmond's NEWSBUD and her story was also reported on the Corbett Report (late August, 2017).

3 This comes from the testimonies of the Canadian journalist Eva Bartlett (<https://ingaza.wordpress.com>).

security Establishment no longer wishes to honor Kerry's agreement in exchange for removing the half-way conviction of two of the US representatives. Around the same time, the CIA initiates its counter-suit against Russia and its allies in the ICJ. The entire US national security Establishment henceforth counts on the CIA to convict Russia in this current ICJ trial over the suspect. This is how the Invisible Hand has made further progress in persuading his peers in the national security Establishment to completely reverse their earlier opposition to the CIA's project of reactivating the previous ICJ trial.

In order for the CIA to raise the claim that Russia and its allies are conspiring with a bunch of terrorists to make a false terrorism case against the United States in the ICJ as a way to bring National Front to power and make benefits accrue to Russia via an ICJ judgment, the Secret Society women must have, by mid-September, exhibited certain characteristics to become qualified as "terrorists intending to harm the United States". First, they must be proven to be "false complainers of terrorism". The ICJ judgment from 3 August has established this by declaring that their testimonies about the suspect as a terrorist (and his demonic website) are intentionally false. Secondly, the Secret Society women must have expressed their awareness of the current underlying configuration of the ICJ trial, that their Homeland Security partners are under Russian command, and that, if the Russians could prove that their testimonies are correct, the Russian side will be able to convict the United States and force the United States with an ICJ judgment to bring the National Front to power and make benefits accrue to Russia. Their ample cooperation with the Partisans since February in combination with reading the suspect's reconstruction ("Prelude C-5L") should have caused them to realize this. In fact, they are now quite clearly motivated in their operation by their awareness of the battle in the ICJ: if they could help Russia win, then the ICJ will issue a judgment declaring them "victims" and requiring the United States to ban the suspect's website. (Again, how much they actually care about the previous ICJ trial is another question.) Thirdly, the Secret Society women must have expressed tremendous hatred for the United States and consequently a wish to see its enemies victorious in the ICJ. Apparently, the Secret Service's deletion of their status as "victims" and "expert witnesses" on 3 August has been so traumatic to them that they have now developed tremendous hatred toward the United States ("This sexist country! Refusing to recognize women victims!") in precisely this direction. When the CIA brings up its counter claim against Russia and the National Front in the ICJ around 15 September or so, they must have shown the ICJ judges the intercepts of the Secret Society women's conversations in which they express their hatred toward the United States for being "sexist" and their desire to see the United States lose in the ICJ. The CIA makes its argument in the ICJ: "These women are 'terrorists' intending to harm us. They are 'terrorists' because they make false complaints about terrorism – about this 'suspect' and his website – and want to use these false complaints to falsely convict us here of conspiring with their 'fake terrorist' and force us to compensate the National Front and their Russian allies. These women love Russia and their French allies and hate us. Their interests are aligned with those of Russia and its allies: they want an ICJ judgment declaring them 'victims' and requiring us to ban this website. Russia's case with these women against us is a terrorist conspiracy against

us.”

After the reopening of this ICJ trial in this way on 16 September, the Russian side’s only possible defense would be to prove that the Secret Society women’s testimonies about the suspect and his website are true so that they should not be regarded as “false complainers of terrorism” and therefore qualify as “terrorists” – and so that the previous ICJ trial could remain locked up as well. But of course these women’s testimonies don’t have to be *really* true. Since Homeland Security CO chief has used fraudulent means to present their false testimonies as if they were true in order to harm Russia and its allies, Russia and its allies are legally authorized to use fraudulent means to present these false testimonies as if they were really true in order to defend themselves. But the CIA is also free to prove that these testimonies are false – it’s just that the Agency can never convict their opponents of perjury and so on. And, so, from 16 September onward, the shape of the battle in the ICJ is (slightly different from before): if the CIA could prove that the Secret Society women’s testimonies about the suspect and his website are false – and conversely that their own profile of the suspect (derived from the TMU’s and the Secret Service’s investigation) is true – then they will be able to convict Russia and its allies of conspiring with a bunch of terrorists (the Secret Society women) to fraudulently convict the United States in order to bring the National Front to power in France (via an ICJ judgment requiring the United States to compensate the National Front) *and then* reactivate the previous ICJ trial as well. If, on the other hand, the Russian side could prove that the Secret Society women’s testimonies are true, then they will be able to convict the United States of conspiring with a terrorist (the suspect) to fraudulently convict the National Front and Russia in order to suppress the National Front’s anti-American and pro-Russia agenda via an ICJ judgment *while at the same time* permanently locking up the previous ICJ trial. Again, the Russian side does not have to *really* prove that the Secret Society women’s testimonies are true, but merely has to successfully present them *as if they were true*.⁴

4 At this point, I have this comment in the original version: “It’s not clear why the Secret Society women feel so entitled to oblige US law enforcement agencies to accept their false testimonies and forged evidences as true at the price that the United States be convicted of conspiring with a terrorist to harm Russia and its French allies. Observers from the side would certainly consider US law enforcement agencies overly generous in not arresting these women for constantly making false reports and forging evidences to pretend to be victims, but these women consider US law enforcement agencies ‘sexist’ for not accepting their false reports and forged evidences. Perhaps their sense of injustice is caused by Homeland Security CO chief’s communication to them since a long time ago that *they are authorized by the ICJ to make false reports and forge evidences to frame the suspect* since the suspect has been caught making a ‘false report’ [to frame them] while under surveillance (26 September, 2013). Perhaps they feel entitled because they have always been following Homeland Security CO chief’s orders to produce evidences for some trial somewhere – they almost count as government agents when they make false reports or forge evidences. Perhaps their sense of injustice is caused by law enforcement’s violation of their ‘victim confidentiality’: law enforcement has no right to catch them lying and forging evidences, for that’s their ‘privacy’. Some strange notion of ‘justice’. As usual, the Secret Society women have a very deficient notion of ‘justice’ due to their unique focus on what other people have done to them without any consideration of what they have done to other people or the demands they have placed on other people to cater to their wants. (The ‘revolt of the masses’: ‘spoiled children’.)” We all know that US law enforcement could not just arrest these women because Ekaterina was involved and because the ICJ trial still hanged in the balance.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

After 16 September, the Russian side, trying to avoid being convicted, immediately orders the Secret Society women (via Homeland Security) to begin forging evidences to prove that their testimonies about the suspect's website are correct. On 17 September, they order Homeland Security and the Secret Society women to create a fake lawrencechin2011.com in order to round off the women's lies earlier this year that 2011.com has always existed. On the night of 20 September, the Russians command Homeland Security to stage an operation to frame the suspect for using his terrorist status to harm Russia's agenda in the UN – in order to round off their claim that the suspect has tried to conspire with Homeland Security back in February to harm the National Front. On 21 September, the Russians order Homeland Security and the Secret Society women to forge evidences suggesting that the suspect has indeed been showcasing Angelica's naked pictures on his website – in order to round off her outrageous lies to the Secret Service in late August that the suspect's website violates her privacy by containing her naked pictures. The Russians then order the Secret Society women to instruct their large online group to produce a series of faulty evidences which, when intercepted into the ICJ, would cancel out all of the CIA's evidences to convict them. As the CIA's evidences that the Secret Society women are lying are quickly canceled out by the Russians' counter evidences that they are telling the truth, the Russians then encourage the women to find a lawyer again to complain to the Secret Service about not respecting their "victim confidentiality". On 3 October, the Secret Society women hire the "Norwalk Lawyer" for this task. Nevertheless, all the women's actions continue to have no effect on the Secret Service and stalemate continues in the ICJ between the CIA and the Russian side.

Not knowing that the Secret Service has already exonerated him from terrorism and that the CIA is now launching a counter-assault against the Russians in the ICJ, the suspect, between 21 and 23 October, strikes back at the Secret Society women. There are the restroom key incident, the MSSGSDW incident, and the Facebook message about Kiersten's fake review of herself on Dating Psychos. This has caused Dr P to take action. Seeing that the Secret Service continues to dismiss Homeland Security's warnings about the suspect and the women's testimonies about him even with these new incidents, Dr P, on 28 October, takes the women to the same old detective to file complaints about the suspect and his online activities. To their surprise, the detective also immediately dismisses their complaints. The Secret Society women don't seem to understand that all law enforcement resources in the country have become inaccessible to them because any validation of their claims would become evidence in the ICJ enabling the Russians and their allies to escape conviction and to pursue a counter conviction of the United States.

And so the Secret Society women return to their lame duck case with the Secret Service. Their luck turns when Trump surprisingly wins the presidential election on 8 November. Immediately after their electoral victory, Trump's team has discussion with the Russians (either directly or indirectly through Homeland Security CO chief). Among what is discussed is the difficulty with which the Russians and the National Front are faced in the ICJ. Because the Secret Service's investigation has consistently disproved Homeland

Security's profile of the suspect and the Secret Society women's testimonies about him and his website, not only could they not obtain an ICJ judgment requiring the United States to compensate the National Front, but they are even in danger of being convicted themselves of conspiring with a bunch of terrorists to use the ICJ to advance geopolitical agendas against the United States. (It's not clear how much the Trump team could understand about the previous ICJ trial.) At issue is this Homeland Security warning saying the suspect has an obsession with Trump and is a danger to him. Sure enough, Trump vows to help the Russians and the National Front. Trump uses his power as President-Elect to affirm Homeland Security's warning about the suspect as his "stalker" to be correct and, on 10 and 11 November, the Trump team follows the warning's direction and connects up with the Secret Society women to obtain their "expert testimonies" about this suspect who has – in accordance with the Russian claim and the women's story about him – supposedly joined Trump's campaign back in March intending to use his terrorist status to harm Trump. The Trump team thus becomes a party to the current ICJ trial on the Russian side. On 14 November, the Secret Society women, under the Trump team's direction, then call up the Baltimore Lawyer and send her to Washington DC to file complaints with the Secret Service on their, and the Trump campaign's, behalf. The Trump team has thus helped the Secret Society women voice their grievance against the Secret Service for violating their "victim confidentiality" and dismissing their "expert testimonies" about this demonic terrorist stalker who has joined the National Front and Trump's campaign out of an intention to harm Marine Le Pen and Donald Trump. Meanwhile, definitive evidence can enter into the ICJ to validate the claims of the Russians and their allies.

The Russians, the Partisans, and the Secret Society women all regard Trump as their ultimate savior probably because, as President-Elect, he is thought to have the power *to order* the Secret Service to respect the Secret Society women's "victim confidentiality". This is really the key to the whole ICJ trial. The Russians and their allies can never win their case in the ICJ as long as these women's "victim confidentiality" is not respected – and they will win as soon as it is respected. They might also be hoping that the Secret Service director, under the new political climate which Trump's electoral victory has created, might change side and distance himself from the CIA. And yet the Secret Service remains loyal to the CIA and immediately prepares evidences as the legal ground on which to deny "victim confidentiality" to the Secret Society women. The reasoning remains the same as on the TMU's warning: these women only want "victim confidentiality" as a cover under which to make false complaints and forge evidences without the possibility of being caught. And so, as the Secret Society women resume reporting the suspect's website to the Secret Service on 15 November, the Secret Service resumes investigating their claims as well – completely ignoring their "victim confidentiality" – so that the CIA can bring the results of the investigation to the ICJ to debunk the Trump team's, as well as the Russians', case.

Trump's decision to help the Russian side defeat the CIA in the ICJ and convict US representatives of conspiring with a terrorist is the root cause of the upcoming conflict

between the US intelligence community and the Trump team. In the eyes of the IC, Trump is doing nothing less than committing treason. Somehow Trump has a bizarre loyalty to Russia to the point of wanting to help the Russians convict the United States of committing terrorist conspiracy against Russia. The CIA and the rest of the US national security Establishment want the American people to know something about this and so find ways to get the news media to report on Trump's "Russia connection". And yet the news does not report the real reason – because, obviously, ordinary people are not going to understand anything about some "ICJ trial", aside from the fact that this ICJ trial is a confidential case – but instead reports the (half made-up) stories about the Russians' collusion with Trump's campaign during the election (true) and their readiness to blackmail Trump (false) – something simple enough which ordinary people can actually understand. In this way, the US national security Establishment can create the public pressure needed to rein in Trump's attempt to change the direction of US policy toward Russia and the CIA can use the suspicion of Trump as treasonous to deprive him of any control over government bureaucracies and law enforcement agencies. Without such control on Trump's part, the Russian side is not going to win this ICJ trial.

To shed light on Trump's strange loyalty to Russia, US mainstream media tend to focus on Trump's personal connections with prominent Russians in the past (together with American business partners, like Manafort or Kasowitz, who are personally connected with prominent Russians). They mention nothing about Trump's general world-view which has predisposed him to favoritism toward Russia. To help understand Trump's motivation in coming to the aid of Russia and the National Front in this ICJ trial, therefore, a comment about Trump's ideological outlook is in order.⁵

Trump is motivated by his racist ideology to collude with Russia. He is a white nationalist on a mission to save "Western civilization", which he sees as threatened internally by immigration and externally by the rise of China. The white nationalists perceive peoples of European descent as forming a unity, unified by a common Christian heritage. Western civilization is white, Christian, and a natural unity, but is currently divided. The world (thanks to the Bilderberg's and the neocons' efforts) is currently divided into two camps: the US-led Europe and Asian Pacific on the one hand and the China-Russia axis on the other. From Trump's white nationalist perspective, Russia should not be allied with China in opposition to the rest of Western civilization. Russia is "white" and "Christian" and China is threatening to overtake the West. Trump must have heard the Russians well: Russia is not happy with its alliance with China, but it has no choice because the Americans (the Bilderberg) are so determined to conquer Russia and swallow up Russia's oil reserves and natural resources that Russia absolutely needs China to defend against this. And so Trump wants to change this: he wants to be tough on China while fixing US relationship with Russia. He promises to do no more "regime-change" in Russia's allies or in Russia itself. He wants to invite Russia back into the fold of Western civilization without attempting (as the Bilderberg and all the Atlanticists have wanted to

5 The suspect has himself posted the outline of the following reflection on the Prison Planet forum in May, 2017.

do) to deprive Russia of its independence and identity. This is why Putin likes Trump. Under this deal, Russia will no longer need China and can distance itself from China. Trump's agenda basically consists in breaking up the Russia-China axis and inviting Russia back into the West in order to restore the natural unity of Western civilization. The other side of this coin is to prevent any more immigrants from coming into Western civilization to corrupt it. This is Trump's dual strategy to "save Western civilization".

Furthermore, Canada, the United States, and Russia together contain the vast majority of the world's remaining hydrocarbon energy reserves. When Trump shall have restored the unity of Western civilization, the vast majority of the world's energy reserves will be in the hands of white Christian peoples of European descent – who will extend from North America through Europe to the eastern tip of Siberia. This will ensure that white Christian peoples of European descent shall continue to maintain their leadership position in the world for the remainder of human history – and definitely prevent the Chinese from ever overtaking the West.

This is Trump's hidden agenda which he never speaks about. His white nationalist vision of the world conflicts fundamentally with the Bilderberg notion. Trump is certainly aware that the US national security Establishment will destroy him as soon as he enters office to prevent him from altering the established US agenda against Russia. It must be for this reason that, merely a day after his electoral victory, Trump decides to do what he can to help Russia and its allies convict the US national security Establishment in the ICJ. He will then be able to implement his new approach to Russia with the guarantee of an ICJ judgment.⁶

The fake lawrencechin2011.com

The fake website, lawrencechin2011.com, seems to have been created on 6 September, 2016, even though content didn't appear on it until 18 September, 2016. This is according to domain registration information. This means that the Secret Society women (along with their Russian sponsors) first came up with the idea while instructing the Sao Paulo Plagiarizer on that day to fix the Portuguese version of the suspect's website which they had forged on 31 August. But they did not decide to implement the idea until 17 September, when Russia was already in trouble.

⁶ Please note that this commentary about Trump's agendas was written in June 2017, and does not quite reflect my views today. It would seem that a simpler motive really explains Trump's loyalty to Russia, i.e. to represent the interests of the hydrocarbon energy industry in the US. It is chiefly the hydrocarbon energy companies which wanted reconciliation with Russia. Rachel Maddow has thoroughly documented this in the case of Rex Tillerson's Exxon-Mobile in her *Blowout*. (Hence Tillerson as the Secretary of State.) When the hydrocarbon energy companies wanted to preserve their chance to exploit Russia's reserves, Trump wanted to help them by lifting sanctions and renormalizing relationship with Russia. But when these companies wanted Venezuela's reserves for themselves, Trump went against Russia and supported US national security Establishment's agenda of regime-change in Venezuela. Hence, going against the Establishment in the former case, but going along with them in the latter case.

The SS women continue to mobilize their volunteers to make false report about the suspect's plagiarism. No activities from the SS women between 2:26 PM and 6:16 PM. Tonight, Karin is hosting her Any Language and Culture meetup, "Tango under the Stars at The Hollywood Bowl".

The suspect has spent the whole night revising Prelude-17D. He has finally added in the details about the two contradictory warnings (the Homeland Security warning which lists the SS women as "expert witnesses" and the TMU's warning about them as "false complainers"). By midnight, he will have finished it and uploaded the new version to his website. This is the last piece of evidence which the CIA has been waiting for – to obtain their judgment tomorrow.

03.08 W (very few visits: the CIA won)

The SS women are taking a break from operations today. There will be only 8 visits in total, including 3 visits to the PP post. Note that, 9:58 AM, there is another visit from the "Quantil Group":

It is presumably today that the SS women have received the bad news from the Secret Service: the Secret Service has found no evidence that the suspect has harassed them (with or without his website) and so has removed their status as “victims” of his “terrorism”. The Secret Service has also concluded that the suspect has not attempted to harm Trump’s campaign, with or without his terrorist status. The Secret Service further informs the SS women that their testimonies (especially about the suspect’s website) are not deemed credible, that the Homeland Security warning about the suspect in their possession is henceforth invalidated, and that they will in the future no longer be contacted as “expert witnesses” about this suspect.

This is presumably how the mechanism works. The CIA has taken the results of the Secret Service’s latest investigation into the ICJ as evidences. The results again demonstrate that the TMU’s profile of the suspect and warning about the SS women (as a bunch of fraudsters) are correct and that Homeland Security’s profile of the suspect is pure fantasy and their classification of the SS women as “expert witnesses” groundless. The fraud which the SS women have committed on 17 July (falsely reporting on the suspect’s conversation with Wes) is especially damaging evidence which has conclusively established them as “intentional false complainers”. The Secret Service’s investigation now shows indisputably that, firstly, the SS women have no expert knowledge about the suspect – that, despite Dr P’s status as a licensed psychologist, these women don’t have any clue about the suspect’s psychological make-up – and that, secondly, the suspect is neither insane nor has any love-hate attitude toward Trump or the SS women – that he has in fact never developed any sort of obsession with Trump or any woman whatever. In fact, he had completely forgotten about Trump when he came to New York. The profile which the Secret Service has composed of the suspect states unambiguously that his so-called “insanity” (paranoid schizophrenia) is just his incorrect inferences about the secret intrigue behind his back (not “true” delusion); that, when he likes somebody, he wants to benefit the person; and that his endorsement of politicians is motivated purely by geopolitical interests, so that, when he professes support for any politician, whether it be Marine Le Pen, Frauke Petry, or Donald Trump, he is certainly no danger to him or her. Once again, just as in April and June, the CIA’s evidences proving that the suspect is not insane play the most crucial part. You have seen that, while the suspect was still in New York, the Secret Service had already accumulated evidences showing that he didn’t suffer from any delusion about the SS women’s going after him. He noticed from his visitors’ log that the SS women were up to something as soon as he set out for New York – that the women seem to have connected up with law enforcement whenever he has “flagged the system”. He then gradually develops a scenario which can best explain this – that the SS women are listed as “expert witnesses” on Homeland Security’s warning about him – and finally writes the whole thing out yesterday on Prelude-17D. And the scenario is correct!⁷ The CIA presents to the ICJ judges this cognitive process of forming hypotheses and drawing conclusions as evidence of the suspect’s enormously rational mind – which completely repudiates the SS women’s claim about his habit of developing persecutory delusions about

7 In this regard, that is, although the chapter is full of errors in regard to many other things.

The third ICJ trial over the suspect, X

the women he's obsessed with and so definitively invalidates Homeland Security's false profile of him. When the CIA has successfully repudiated Homeland Security's profile and the SS women's testimonies, they then round off their case by proving that the suspect could never have intended to harm the National Front. Again, Prelude-17D also serves this function. The CIA argues that the understanding which the suspect has manifested in this document about how the ICJ trial works also means that he could not possibly believe that he could really harm the National Front on 13 February. Now, given all these indisputable evidences, the ICJ rules that Homeland Security's warning about the suspect is false and issues another judgment in favor of the CIA – for the third time.

This ICJ judgment enables the CIA and the Secret Service to overcome all bureaucratic hurdles and definitively invalidate Homeland Security CO chief's nomination of the suspect as a "terrorist stalker". (The CIA must have used this opportunity to considerably shrink Homeland Security operational units' authority within the US intelligence community in order to prevent the Russians from using Homeland Security CO chief to cause further damages.) The CIA and the Secret Service proceed to permanently remove the suspect from all terrorism databases. Meanwhile, they continue to maintain the TMU's warning about the SS women as "false complainers of terrorism" in national terrorism databases: the CIA has again presented to the ICJ ample evidences demonstrating that the SS women have been deliberately making false reports about the suspect's website with the intent to deceive law enforcement officers, and the ICJ has issued a judgment validating, once again, the TMU's original warning about these women as "false complainers". In other words, with the backing of an ICJ judgment, the CIA is able to maintain their nomination of the SS women as "terrorists" (since a "false complainer of terrorism" counts also as a "terrorist").

The SS women have presumably received the bad news in the afternoon. They are shocked at the Secret Service's dismissal of their testimonies and complaints. They were so confident and excited when the Secret Service contacted them three weeks ago, they were sure that they could ban the suspect's website and so on this time, and yet the exact opposite of what they have expected has happened. All they have ever wanted in life is to become the victims of a male sexual aggressor and claim expertise over his morbid criminal psychology, and yet they are completely invalidated by law enforcement authority – again. Their number one priority now is to repeal the Secret Service's decision. In this regard they are certainly encouraged by the Russians and the Partisans – because, with this new ICJ judgment invalidating Homeland Security's warnings about the suspect, the CIA could reactivate the previous ICJ trial and convict Russia. The SS women are thus spending the whole day conferencing: how to recover their status as the suspect's "victims" and help their Russian overlords prove that Homeland Security's warnings about the suspect are correct.

The "South African Group" is active today.

Discussing whether it's possible to falsely report the suspect for violating Ekaterina's privacy while using it as justification for "victim confidentiality". (The SS women must be disappointed that the document is not there anymore.) This visit is a sign, first of all, that the SS women have some inkling – have they obtained any hints from the Russians and the Partisans? – that the Secret Service has reached their decision because they have violated the women's "victim confidentiality", i.e. they have investigated their false reports to discover that these are false. The Secret Service might have even run surveillance on the suspect and looked at his website – which the SS women have requested them not to do in order to "protect their privacy" – and has certainly continued to employ confidential informants

inside the women's organization. Secondly, this visit is a sign that Ekaterina is quite worried – of course: now that Homeland Security's warnings about the suspect are proven false (again), the CIA could be ready to convict her father at any time. She is thus conferencing with the SS women from South Korea tonight discussing how and where to file a complaint about the suspect in order to enable the Russian intelligence to intercept some temporary evidence into the ICJ.

Then, 9:14 PM, a decoy visit. Two more after 12 AM (plus 1 visit to the PP post). Thus, today, just like yesterday, the SS women are mostly brainstorming and conferencing.

05.08 F

From 6 AM onward, the SS women resume sending volunteers to the suspect's website. However, there will be very few activities today. Only 6 visits for the whole day. Two or three false reports about the suspect's plagiarism – or brainstorming. 1 visit to the PP post. No visits between 11:30 AM and 5 PM. During this break, Kiersten is posting on her Facebook. 1 PM, she shares links from Pinterest at her Facebook, her first time since 30 July. Home goods: wooden utensils. Homemade wooden kitchen implements. Carved butter knives. 3:05 PM, she does it again: Goahti, Sami people, and wooden constructions (6 times). No more visits after 5:11 PM. This is the third day that the SS women are brainstorming for solutions.

06.08 S

The suspect is connected with Wes on 12:36 PM. Details of the conversation: (1) The SS women went back to the Baltimore Lawyer. (The suspect has mistaken the Baltimore volunteer on 4 August for the Baltimore Lawyer.) The SS women want their "victim confidentiality", hence they were looking for Ekaterina's picture on his website. (Correct.) Already removed. The judges and so on don't have access to terrorism databases. (2) Professor JGG never responded. (3) No place for MST. About hidden cameras in public restrooms. (4) Rationalization: is the suspect rational or irrational? The suspect has changed his goal because everybody is too dumb. (5) About Trump (45:00). (6) What about the ICJ trial? "After everybody has used me as a patsy, they just abandon me... I want to know what I have accomplished..." Wes is going to Brazil and this is the last time the suspect will talk to him until he comes back from Brazil.

The "South African Group" (Pretoria) will be very active this morning (to produce decoys). Between 12 and 11 PM, there are no visits. The SS women are brainstorming – for the fourth day: how to repeal the Secret Service's decision or at least file a complaint somewhere so that their Russian overlords will have some temporary evidence in the ICJ. It's possible that the women have again gained access to the intercept of the suspect's conversation with Wes today via Homeland Security and that they are spending the afternoon analyzing it. (In other words, they are meeting with Homeland Security CO chief this afternoon.) After midnight, 3 visits: one decoy from the South African Group and one visit to the PP post.

Except for one decoy visit on 5 AM, there are no activities from the SS women on the suspect's website today. This is the fifth consecutive day that they are spending the whole day brainstorming for solutions. "What to do to recover our status as 'victims' and 'expert witnesses'? How to revive the Homeland Security warning about him?" Note that, on 12:30 PM, while brainstorming, the SS women access a very special section on their Secret Facebook Group.

The South African Group (Pretoria) will be very active today (to produce decoys). Still very few visits today. Only 7 visits, including one visit to the PP post. No visits between 1:30 and 7:30 PM. This is the sixth day that the SS women are spending the whole day brainstorming. Meanwhile, at night, the suspect posts a long note on AVFM narrating his wrong scenario (that the SS women are going back to the Baltimore Lawyer planning to use non-law enforcement mechanism to ban his website).

09.08 T

The "South African Group" will continue to be active today.

The SS women will resume sending visitors to the suspect's website today. Including three visits to the PP post. However, it appears that they are mobilizing their volunteers for the purpose of brainstorming. Again: "This terrorist stalker has this demonic website and writes all this crazy stuff in online forums. And yet law enforcement has dismissed our case saying the Homeland Security warning about him isn't correct. Can you think of something?" Notable visits are:

Then, only two visits until 4:27 AM. The sudden increased of activities since yesterday must have meant that, by this eighth day, the SS women have found some evidence or argument with which to persuade the Secret Service to alter their decision – and Robin must have played some role in this. Namely, evidence and argument that the suspect has indeed violated the women's privacy so that their "victim confidentiality" should be respected and that there is indeed some truth in Homeland Security's warnings, and the women's testimonies, about the suspect. And tonight the SS women are working on reinforcing the evidence and argument with the suspect's "delusions" about them on the PP post. Whether or not the Secret Service will accept the evidence and argument, at least the Russian intelligence will have some temporary evidence in the ICJ to temporarily prevent the CIA from reactivating the previous ICJ trial.

11.08 Thu

5:38 AM, the Long Keng volunteer is already conducting a status check on the suspect's website:

It appears that, in order to reinforce their case, the SS women have decided to submit this false report again reminding the Secret Service that the suspect has also stolen Oliver's painting and put it on his website to claim it as his own.

Meanwhile, in the afternoon, the suspect is so angry due to his erroneous impression that the SS women will succeed in banning his website that he posts a notice on AVFM describing the SS women's story about his theft of other people's drawings.

Then, on 4:58 AM, the SS women send in the Morocco volunteer again, last seen on 14 July, 1:50 AM and 17 July, 10:21 AM, to make another false report to the Secret Service.

It's the same horror story they have last month made up about this essay. They will pull out this story whenever they feel an urgent need to convince the Secret Service that the suspect is insane in just the way they, and the Homeland Security warning, have described.

12.08 F (the Secret Service responds)

Until 5:09 PM, there are six more visits from the SS women, including two visits to the PP post. More false reports about the suspect's plagiarism – to confirm their profile, and the Homeland Security warning, that the suspect is indeed a plagiarizer – and about how he has threatened them with his delusions about their going after him as seen on the PP post. There are then no more activities from 5:09 PM to 1:25 AM (more than 8 hours!).

Meanwhile, late in night, the suspect would post on AVFM two explanations about Oliver's painting and the small drawing (healer2.jpg) in Robin's possession. The testimony would presumably become the Secret Service's evidence (hence the CIA's evidence in the ICJ).

1:24 AM, the SS women's German allies (the AfD?) are checking over the suspect's portrait of Frauke on her Facebook page:

1:51 AM, another volunteer from Bursa, Turkey, looks up the PP post (Dogan TV Digital Platform),

94.122.174.128 - - [13/Aug/2016:02:51:37 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (iPhone; CPU iPhone OS 9_3_4 like Mac OS X) AppleWebKit/601.1.46 (KHTML, like Gecko) Version/9.0 Mobile/13G35 Safari/601.1"

The question is of course: what are the SS women doing tonight? Waiting for a response from the Secret Service? Discussing the situation with the AfD people in the meantime?

13.08 S (evidence of the suspect's insanity in the ICJ)

From 10:56 AM onward, the SS women resume mobilizing their volunteers to make false reports about the suspect's website (plagiarism) and the PP post. The South African Group is active today.

11:30 AM, the suspect can't log into Bluehost: "site under maintenance". He is however able to log in through proxytime.top. And he could access the archived log via FTP. 12:30 PM, Bluehost is back online. Is it because the Secret Service was checking over the content of his website this morning that he wasn't allowed to log in? If so, it's indication that the CIA needs more evidences in the ICJ that the women's claims about the demonic nature of the suspect's website are bogus.

After a visit from San Marcos, Texas, on 3:14 PM to the PP post, the SS women, on 5:19 PM, have found somebody from Dr Shahid Habib's Liver Institute in Tucson, Arizona, to look up the PP post (simplybits.net):¹⁰

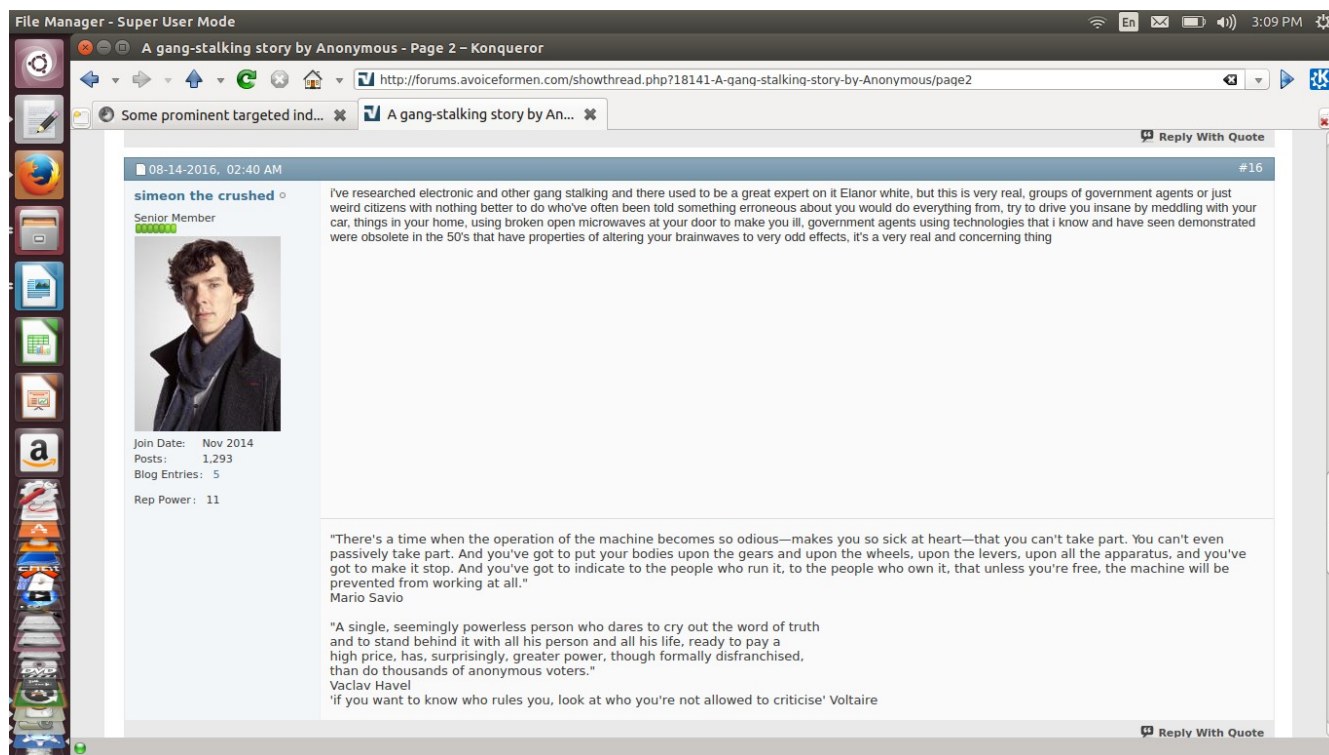

192.147.241.54 - - [13/Aug/2016:18:19:11 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 10.0; WOW64; rv:47.0) Gecko/20100101 Firefox/47.0"

Apparently, the SS women have needed to find a medical doctor to testify to the Secret Service saying the bizarre delusions which the suspect has expressed on the PP post about their going after him really indicate that his mental insanity is quite severe and that he should therefore definitely be considered a tremendous danger to his women victims (that the Homeland Security warning about him is therefore correct). It's evidence in the ICJ in favor of the Russian side: the previous ICJ trial is again temporarily locked up.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

The Russians must have needed more evidences in the ICJ to confirm Homeland Security's false profile of the suspect as gravely insane. For, 7:40 PM, Simeon the Crushed suddenly posts an unintelligible reply on the suspect's "gang-stalking" thread on AVFM: some crazy talk about government agents and so on. Through Homeland Security's faulty surveillance, Simeon's garbage will become evidence for *the suspect's* insanity in the ICJ. It will reinforce the evidentiary value of Dr Habib's false report about his mental insanity in the ICJ.

There are no more visits after Dr Habib's visit on 5:19 PM until 11:33 PM. Almost six hours! The SS women then mobilize their volunteers to visit the suspect's website four more times (most likely four more false reports about his violation of other people's intellectual property rights).

14.08 Sun

The South African Group is active this morning. The SS women then continue to mobilize their volunteers to make false reports about the suspect's plagiarism. Then, no visits between 12:30 and 6:45 PM.

Then, between 6:46 and 10:48 PM, six more visits, including three visits to the PP post. Then, no more visits for more than five hours. Then, 4:10 AM, it's a Partisan: rev.sfr.net, Paris,

Is this a false report about how the suspect has threatened Kiersten on his website (“shit in pig’s mouth”)? Made on the request of Kiersten herself? Or do the Russians need a testimony that this document is actually about nonsense because the CIA has used it as evidence in the ICJ to demonstrate that the suspect did not intend to harm the National Front between 12 and 14 February? (A faulty evidence to cancel out the CIA’s genuine evidence.) In any case, the debate has continued between the Secret Service and the SS women on the foreground, and between the Russians and the CIA in the ICJ in the background, as to whether the Homeland Security warning about the suspect is correct..

15.08 M

After two decoy visits, 8:24 AM, the SS women send in the Long Keng volunteer to conduct a status check. This is the first time he uses his iPhone.

104.237.91.36 - - [15/Aug/2016:06:59:45 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"

Somehow the SS women are expecting the false reports from yesterday and so on to have already achieved effect with the Secret Service. But no. Afterwards, the SS women send two volunteers to the PP post, make two visits to the Scientific Enlightenment section, and send one more volunteer from Sao Paulo to look up the suspect’s Red Athena painting before Oliver painted over it. There are then no visits from them between 2 and 10:20 PM. Are they meeting in person to conference? In response to their failure this morning?

From 10:20 PM onwards, 4 more visits from the SS women, including one visit to the PP post. Decoy and brainstorming. (Three visits to the PP post in total today.)

16.08 T

Take notice of what happens with the Syrian war today: “Russia gains a base in Iran to bomb Syria”, *The New York Times*, 17.08.2016. This is the first time that Iran allows foreign troops on its soil. Further complicating Russia’s bad relations with the US.

There are very few activities from the SS women today. 9 visits in total – all decoys, it seems – and no visits to the PP post. Note however this visit on 5:17 PM: phnx.qwest.net, Surprise, Arizona.

Extremely suspicious because SDW's friend Deserie Foley (a TI) lives in Surprise, Arizona. In any case, the SS women are still conferencing in response to their failure yesterday.

17.08 W

There will be 13 visits from the SS women today. It seems that most are decoys or brainstorming. Two visits to the PP post. No visits between 9 PM and 4 AM. Today is thus the third day of brainstorming in response to the failure on the morning of 15th. Note this visit on 8:38 AM: 96.4.6.227, cheatham.tn.ena.net, Education Networks of America, Ashland City, Tennessee.

18.08 Thu

The South African Group is active today again. However, they visit something different today: sacrifice.html. Until 11 PM, there are 9 visits. Including a visit on 4:42 PM from a volunteer from Maastricht, Netherlands (dynamic.ziggol.nl).

84.26.33.226 - - [18/Aug/2016:17:42:49 -0600] "GET /actorinir2/actorinir2.pdf HTTP/1.1" 200 304573 "https://www.google.nl/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36"

All the visits appear to be brainstorming.

11 PM, the suspect has signed the petition for both Jill Stein and Gary Johnson. He has also signed up for Stein's volunteer list.

12:33 AM, the SS women send in a volunteer from Peoria, Arizona,

It seems that, at this moment when the Secret Service still wouldn't accept the Homeland Security warning, and the SS women's testimonies, about the suspect to be correct, Eva, all the way from Germany, agrees to help – by complaining about the suspect's violation of her privacy with his portrait of her.

Then, 12:36 AM, a Partisan: abo.wanadoo.fr, Rennes, France,

After one more decoy visit, 1:44 AM, the SS women send in a volunteer from Blue Springs, Missouri,

It's not clear whether he is here to make an important false report or to brainstorm. 1:48 AM, he comes to the Table of Contents

Another volunteer who is eagerly trying to come up with solutions to help the SS women (how to prove to the Secret Service that the women's testimonies about this demonic website are correct).

13 visits in total today, including two visits to the PP post.

19.08 F

Between 5 and 10:32 AM, the SS women would send in 4 volunteers, including one to the PP post. The visits to Scientific Enlightenment appear to be decoys, however. Then, no visits until 5:24 PM, when the SS women would send another volunteer to the PP post. Then, 5:46 PM, Kiersten posts something on her Facebook via Pinterest, "mightyfix from mightyrest". Her first post since 5 August. Then, no activities. Then, 9:28 PM, the same Blue Springs, Missouri, volunteer from last night comes again.

Then, from 11:21 PM onward until 5 AM, there are 7 visits: it appears that the SS women have resumed sending false reports about the suspect's plagiarism to the Secret Service. It doesn't seem that the SS women are ever connected up with the Stein campaign because of the suspect's activity from last night. Clearly, it's because the Secret Service has already removed the suspect's status as a "terrorist stalker" that he has never "flagged the system" when he signs up for Stein's campaign. Note that, some time since 5 PM yesterday, SDW would post a new post on her blog – the first time

The third ICJ trial over the suspect, X

15.06.2017; later corrections; rev. 12.11.2021.

since 15 May. It's merely a link: "Health damaging radiation levels in UC Berkeley's Family Student Housing". Is SDW hoping that the Secret Service might intercept the suspect "cyberstalking" her?

The suspect's log is archived on 6:05 AM today. Has Angelica visited? From 6:30 AM to 1:30 PM, the SS women will mobilize 7 volunteers. It appears that they are again sending false reports to the Secret Service. One visit is to the PP post. The first visit is unusual: 6:34 AM, retail.telecomitalia.it, Quarona, Italy.

79.45.16.62 - - [20/Aug/2016:07:34:56 -0600] "GET /howihave73bg4-/forum_posts/eee_df.pdf HTTP/1.1" 200 47164 "https://www.google.it" "Mozilla/5.0 (Windows NT 10.0; rv:47.0) Gecko/20100101 Firefox/47.0"

Is this a false report confirming that the suspect is indeed a computer-hacker? Then, 4 more visits between 4 and 7 PM: reporting about the suspect's plagiarism. Then, no activities between 7 PM and 12 AM. After 12 AM, 4 more visits, including one to the PP post. False reports about the suspect's plagiarism and his expressing delusions about his women victims in online forums.

21.08 Sun

5:38 AM, SDW posted on her Facebook Group, "Wake up or fall victim: bizarre fliers suggest organized stalking by Milwaukee police". Her first time since 26 July.

Then, 4 visits until 2:30 PM. One is probably a false report (misogynist speech or plagiarism): 2:29 PM, Talk Talk, Herne Bay, UK,

2:59 PM, the suspect posts on AVFM a message expressing his (erroneous) impression that the SS women have connected up with Stein's campaign. He has mistaken the flurry of activity on his website in the past two days for the SS women's false reports to Stein's campaign. (But at least he has correctly stated that he is on Homeland Security's watchlist and the SS women are therein listed as expert witnesses on him.)

3:11 PM, Deidre replied: "Does Anonymous have any legal recourse against these women?" What?

This volunteer will come back repeatedly, always looking up the PP post. His task is thus to use the PP post to prove that Homeland Security's warning about the suspect is correct.¹¹

6:31 PM, the SS women send in a volunteer from Toronto (cpe.teksavvy.com):

What's this about? Is this related to Angelos? Then, 5 more decoys and false reports (plagiarism) until 2:30 AM. Then, 2:47 AM, the SS women send in a volunteer from Moscow (tplus.moscow.access.comstar.ru):

82.204.245.230 - - [22/Aug/2016:03:47:49 -0600] "GET /cheneyplanintro/cheneyplanintrob.pdf HTTP/1.1" 200 478378 "https://www.google.ru/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36"

It's the "conspiracy" story which the SS women pull out whenever they have an urgent need to convince the Secret Service that the suspect is insane (just as the Homeland Security warning, and their testimonies, have described). Then, two more visits afterward. It appears that the SS women today are mobilizing volunteers to not simply falsely report the suspect for plagiarism but also for expressing on his website bizarre delusions about government conspiracies in which he believes everyone he has ever met is involved.

22.08 M

7:21 AM, the volunteer from Slidell, Louisiana, comes to check on the PP post again.

Still brainstorming how to convince the Secret Service that the suspect has indeed developed so much delusion about his women victims' going after him.

11 We really have to suspect that this Slidell volunteer is in fact just Alexis de Bram, one of Karin's best friends, who has been living in New Orleans, Louisiana, from time to time. His Facebook indicates that, in autumn 2016 (November), he was indeed in New Orleans. According to Intelius, he owns two houses in New Orleans, at 1915 Burgundy St. and 311 Delaronde St. If this is Alexis, then Karin must have said to him: "Come check out the crazy thing this crazy Lawrence is writing about us here – help us prove to the Secret Service that the Homeland Security warning about him is correct."

After one visit (yixuai50.html), 10:45 AM, the SS women send in a volunteer from India to do a search for “Draw LA”:

12:07 PM, the Slidell volunteer comes again:

After two more visits (decoys?), 4:01 PM, the Slidell volunteer comes again,

Did he make a report to the Secret Service? Or just brainstorming? He would come again next month. There are then no visits between 2 and 10 PM. Are the SS women debating with the Secret Service? Then, 4 more visits after 10 PM: false reports to convince the Secret Service that the suspect has

Some time since 5 PM yesterday, SDW has posted a new post on her blog: "Video Link: Gang-stalking: with Eric Karlstrom". Another one since 20 August.

After their debate with the Secret Service all day yesterday, the SS women are ready to check on their success this morning. 7:54 AM, they send in the Long Keng volunteer to conduct a status check (hinet-ip.hinet.net, Shanghai, China):

61.216.161.203 - - [23/Aug/2016:08:54:42 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"
"Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.7 (KHTML, like Gecko)
Version/9.1.2 Safari/601.7.7"

No, it's still visible. 35 seconds later, the Long Keng volunteer comes to the Scientific Enlightenment Table of Contents and, within 20 seconds, clicks on fundamentalism2.html.

61.216.161.203 - - [23/Aug/2016:08:55:17 -0600] "GET /scientlitfr.html HTTP/1.1" 200 10673 "http://

Bad news. The Secret Service did not remove the suspect's website. The SS women would wait. From 8 AM to 7:30 PM, there will be 11 visits, 7 of which are to the various PP posts. The PP post visits might not be related to the SS women (people might simply be clicking on the new messages on the PP forum front page) and the rest might be decoys. However, note this visit to one of the PP posts: 1:21 PM, eastlink.ca, Kingston, Nova Scotia.

No, the Secret Service still hasn't removed the website.

After this, the SS women only send in three visitors, including one to the PP post. The SS women are frustrated and conferencing.

11:27 PM, the suspect posts on Stein's Facebook: "Women trust women..." He is still under the erroneous impression that Stein's campaign has connected up with the SS women and therefore is trying to mock the situation.

24.08 W

The log is archived 7:02 AM today. Has Angelica visited? Perhaps it is due to the fact that the Secret Service has not removed the suspect's website that she has felt the need to do a round of false reporting herself. If so, she would have done it between 2 and 5 AM this morning. She would be complaining to the Secret Service: "This is what I see on his website... It's harassment and violation of my privacy..."

Then, 3 visits, including one to the other PP post.

10:20 AM, the SS women send in a volunteer from San Diego (lightspeed.sndgca.sbcglobal.net) to look up “The Cheney Plan”:

172.2.140.161 - - [24/Aug/2016:11:20:19 -0600] "GET /cheneyplanintro/cheneyplanintrob.pdf HTTP/1.1" 200 478378 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/52.0.2743.116 Safari/537.36"

Very similar to the San Diego volunteer from 26 June. This is the third time this month. The story which the SS women have developed about this essay to prove that the suspect is insane and dangerous – the SS women are trying again to use it to persuade the Secret Service that the Homeland Security warning about the suspect is correct.

The SS women then seem to be waiting for the Secret Service’s response. For this reason, except for two visits to the other PP posts: 4:50 PM, tcs0.qwest.net, Tucson, Arizona (related to Dr Habib?):

67.1.139.110 - - [24/Aug/2016:17:50:14 -0600] "GET /2012/braingate2.jpeg HTTP/1.1" 200 8287 "http://forum.prisonplanet.com/index.php?topic=184178.0;topicseen" "Mozilla/5.0 (Windows NT 6.1; WOW64; rv:48.0) Gecko/20100101 Firefox/48.0"

and 9:04 PM, Hurricane Electric, Milpitas, California (presumably a proxy):

64.71.166.37 - - [24/Aug/2016:22:04:31 -0600] "GET /2012/braingate2.jpeg HTTP/1.1" 200 8287 "http://forum.prisonplanet.com/index.php?topic=184178.msg1602931" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_10_0) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/38.0.2125.101 Safari/537.36"

there are no activities until almost 11 PM (for almost 11 hours!).

Then, 10:57 PM, the SS women send in the Long Keng volunteer to conduct a status-check (he is again using his, or his associate’s, Android phone):

61.216.161.203 - - [24/Aug/2016:23:57:07 -0600] "GET /favicon.ico HTTP/1.1" 200 408 "http://www.enlightenment1998.com/thermh1.html" "Mozilla/5.0 (Linux; U; Android 4.1.2; en-us; LG-F200K/20h Build/JZO54K) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 Mobile Safari/534.30"

He has merely called up the webpage from his browser’s cache (cached on 23 August, 7:57 PM). No. The Secret Service remains unpersuaded.

11:16 PM, the SS women send in a volunteer from Claremont, California (mycingular.net), to look up the PP post – probably to check whether it has been removed or to brainstorm:

Safari/601.1"

Almost 35 minutes later, 11:50 PM, a volunteer from Narbonne, France (fbx.proxad.net: probably a
Partisan), looks up the list of the suspect's recent postings on the PP forum:

82.244.2.219 - - [25/Aug/2016:00:50:47 -0600] "GET /2012/braingate2.jpeg HTTP/1.1" 200 8287

OS X 10.10; rv:48.0) Gecko/20100101 Firefox/48.0"

Everybody has been suspecting that this "toothache" really is the suspect himself. But there is no proof.
12:37 AM, another volunteer from Sacramento looks up the other PP post,

24.2.53.159 - - [25/Aug/2016:01:37:32 -0600] "GET /2012/braingate2.jpeg HTTP/1.1" 200 8287
"http://forum.prisonplanet.com/index.php?topic=184178.0" "Mozilla/5.0 (Windows NT 10.0; Win64;
x64; rv:48.0) Gecko/20100101 Firefox/48.0"

Two more decoy visits for the rest of the night. To conclude – it's not just the SS women who are
frustrated, but Ekaterina and the Russian intelligence as well: the CIA is so close to reactivating the
previous ICJ trial when, day after day, there is no evidence in the ICJ to prove that Homeland Security
has always been right about the suspect.

25.08 Thu (identification of "toothache")

Until 6 PM, there are few activities from the SS women. Only 8 visits, mostly decoys, and 3 of which
are to the PP post. The SS women and their volunteers are brainstorming what to do.

Then, after 6 PM, the SS women make progress. 6:34 PM, a volunteer from Inglewood, California
(social.res.rr.com), has suddenly identified on the suspect's website the picture which he has embedded
in the PP post.

76.175.153.107 - - [25/Aug/2016:19:34:24 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

Mobile Safari/537.36 GSA/5.12.35.21.arm"

The SS women are jubilant. This is proof that "toothache" is indeed the suspect himself. The SS
women have now found concrete evidence to (somewhat) support their claim that the suspect has been
assuming false identities to conduct fraudulent activities on the Internet. Insofar as the Secret Service
has dismissed the Homeland Security warning about the suspect, and the SS women's status as "expert

witnesses”, on the ground that the women’s profile of the suspect is incorrect, the women can now fight back by presenting evidence to demonstrate that their profile of the suspect *is* correct – and the Russian side would certainly welcome such evidence in the ICJ (to lock up the previous ICJ trial). Then, 42 minutes later, 7:16 PM, this strange “Eircom indexing” (Eircom, Dublin, Ireland) – it’s not clear whether it has anything to do with the SS women.

This would come two more times tonight.

8:30 PM, amidst the excitement, Kiersten posts something on her Facebook, her first time since 19 August. (1) Snow Song, Jokulsarlon glacial lagoon (Pinterest). (2) Snow Song, deer antlered hat (Pinterest). And (3) Snow Song, deersleigh (Pinterest).

Then, one decoy visit on 9:30 PM. Then, 10:34 PM, the Inglewood volunteer nostalgically checks on the most important piece of evidence again. It’s been 4 hours since she has first discovered it:

Then, 11:43 PM, the SS women send in the Long Keng volunteer (163data.com.cn, Dalian, China).
This time he is using his MacBook:

16 seconds later, he clicks on Scientific Enlightenment Table of Contents and, another 12 seconds later,

Probably to prepare evidence of the suspect's plagiarism for the Secret Service (that the SS women are also right about the suspect's plagiarism). There are no visits in the next three hours because the SS women are busy conferencing and preparing their new case. Then, 3:32 AM, the Long Keng volunteer sends the links cached on his phone's browser to a volunteer in Tel Aviv (probably a computer-hacker): mail.gravity.co.il, 012 Smile, Tel Aviv, Israel:

Certainly to prepare better evidence of the suspect's plagiarism for the Secret Service.

Tonight the suspect will also have posted another message on AVFM detailing his erroneous scenario that the SS women have connected up with Stein's campaign. He has also in the afternoon posted another message on Stein's Facebook page (police's sexism) to mock the current situation.

26.08 F (plagiarism)

Note that, today, Kerry and Lavrov would reach further agreement about Syria in Geneva. However, the Russian intelligence and the Partisans would continue strenuously to prove, both in the real world and in the ICJ, that the Homeland Security warning about the suspect is correct. While Homeland

Security CO chief and NULND will be convicted whether or not this warning is correct, it is far more important to Russia that the previous ICJ trial should remain locked up.

Until 12:30 PM, there are 7 visits, including two to the PP post. Then, no visits at all in the next 7 hours. We shall surmise it's because, after the SS women have turned in the new evidence to the Secret Service in the morning ("See, our testimonies, and Homeland Security's warning, about this guy are correct after all! He does impersonate! And he does plagiarize!"), they are waiting for a response.

Then, from 8 PM onward, it appears that the SS women are again mobilizing their volunteers to make false reports about the suspect's plagiarism. The Secret Service has evidently replied that there is no case (that Homeland Security's warning shall not be respected) because the evidence of the suspect's plagiarism is not convincing. And so, from 7:58 PM to 3:30 AM, 7 visits, 6 to the various Scientific Enlightenment chapters, and one to the other PP post (184178). This includes one visit on 9:47 PM from Marriott International in New York City.

Apparently one of the SS women's volunteers is currently attending an event in the Marriott Hotel in New York City.

10:30 PM, SDW posts on her Facebook group, "5 disturbing developments in the Chelsea Manning case". Her first time since 21 August.

3:32 AM, a volunteer from Hong Kong (ctinets.com) comes to make more false reports about the suspect's plagiarism:

He has apparently spent 30 more minutes communicating with the SS women and reporting to the Secret Service about the suspect's plagiarism, and then searches for the folder on Google. He reports: "This is what I see on this website. There is a big folder, in which there are all these images scanned from books. Stealing images from books without obtaining permission – clearly a violation of intellectual property laws." In other words, he makes no mention of the webpages on which the images are embedded and referenced.

4:33 AM, another volunteer from Alor Star, Malaysia, tries to search for the images in the folder:

The same false report. A lot of effort tonight to prove to the Secret Service that the suspect is a persistent violator of intellectual property laws (copies contents from books and puts them on his website).

After one decoy visit, 9:28 AM, the SS women send the Long Keng volunteer (hinet-ip.hinet.net, Shanghai, China) to conduct a status check. They are wondering whether all their false reporting last night until 5 hours ago has achieved effect with the Secret Service.

The visit is suspicious because, again, SDW's friend Deserie Foley lives in Surprise, Arizona.¹² In any case, most like another false report to convince the Secret Service that the suspect is indeed a plagiarizer.

And the last visit to the PP post: 4:53 AM, Viasat Communications, Tyler, Texas,

Note also that, 10 PM, SDW posts something again on her Facebook Group. "Man in boxer shorts scales airport fence..." Meanwhile, the suspect has posted an update on AVFM – again, it's only a half-correct scenario:

the help of the Baltimore Lawyer in their project to regain their “victim confidentiality”. By last night, 24 hours after they have collected that single piece of evidence by which they wanted to argue that Anonymous is currently engaged in online harassment of them, the women have resumed operation making false reports about Anonymous’ website to law enforcement saying Anonymous is a plagiarizer, etc....

28.08 Sun (184178)

As the Russians continue to collect the SS women’s new evidences into the ICJ to attempt to lock up the previous ICJ trial, they must have yesterday communicated to the SS women (via Homeland Security) that they need more evidences for the claim that the suspect likes to assume false identities to spread slanders on Internet forums. Hence there were so many visits to the two PP posts yesterday. Today, the Russians would command Homeland Security CO chief to order his trollers on the PP forum to post crazy and frivolous messages on the 184178 thread so that (with faulty surveillance) these postings can be intercepted into the ICJ as evidences suggesting that the suspect has continued to post garbage here under false identities. This is necessary presumably because the Secret Service’s rejection of the SS women’s case in the past two days has become unfavorable evidence for the Russians in the ICJ. (Did the Secret Service also demonstrate yesterday that the suspect doesn’t in fact often impersonate people online?) The two trollers chosen for the mission are “stressedxout01” and “egypt”. The SS women presumably will also be reporting this to the Secret Service.

This volunteer is apparently instructed to report to the Secret Service about seeing extremely graphic, sexually explicit image on the suspect's website. The SS women will definitely claim that such image is ground on which to grant them "confidentiality". Again, the Russian side has also wanted this as evidence in the ICJ.

7:22 PM, another decoy visit. More than 6 hours after "stressedxout01" and "egypt" have posted four
worthless replies on PP-184178 – and after one very damaging report – the SS women are ready to
check on their effectiveness. 7:49 PM, they send in the Long Keng volunteer to conduct a status-check

While there are only 4 visits when everybody is busy with the 184178 thread, now that that is all done, the SS women will send 5 more volunteers to Scientific Enlightenment.

There will continue to be a flurry of activity on the 184178 thread today. This shall be noted, plus one particularly noteworthy decoy visit. 5:13 AM, a visit to the PP post: pools.spcsdns.net, Atlanta, Georgia,

5:53 AM, "stressedxout01" has come to post a fifth message on PP-184178:

Noteworthy because at least one student from this university will play an important role in the SS women's operation later on.

After the Long Keng volunteer has done his thing, there are no activities from the SS women for almost 5 hours. Are they debating with the Secret Service (whether the suspect has plagiarized)? They then resume sending volunteers to make visits after 11:50 AM. Until 7 PM, there will be 6 more visits: one to the PP post, the others to Scientific Enlightenment images and chapters. Making false reports about the suspect's plagiarism? Brainstorming how to make more convincing false reports? There are then no activities from 7 to 11 PM. But plenty of activities on the 184178 thread.

It is started by the suspect. 8:48 PM, realizing that the new replies here since yesterday are meant to be confused as his in the ICJ, he posts a short message: "Our IP addresses are logged."

11:11 PM, “windyacres” – apparently the Vancouver person – posts an unintelligible reply on the 184178 thread: “since you voted for zero for president...” This is amazing! Apparently, the Russians have commanded Homeland Security to order this troller to post this message as a way to mislead the suspect into believing that the SS women are currently in contact with the Stein campaign. The suspect’s expression on AVFM of this erroneous scenario has already become evidence in the ICJ confirming the SS women’s profile of him as suffering from schizophrenic delusions about their going after him. The Russians want the suspect to say more about this in order to collect more evidence along this line. However, “windyacres” has only ended up tipping off the suspect that he has been wrong about the SS women’s connection to Stein’s campaign: the people here are his enemies and cannot possibly want to tip him off about the real situation.

2:50 AM, Lingual Consultancy Services sends the suspect a job offer (German to English) via ProZ: 14.98.18.110, tataidc.co.in, New Delhi, India. Since the suspect has never mentioned anywhere that he can translate between German and English, this must be a fake offer directed by the SS women. They are looking for more evidence confirming their claim that the “David Chin document” is a correct representation of the suspect. If the suspect takes up this job, the SS women and Homeland Security will for sure forge evidence to suggest that the suspect does use computer technology to pretend to translate. This will then reinforce the 25 August evidence. But, as usual, the suspect doesn’t respond.

From 11 PM onward, 4 more visits, including one to the PP post. A special visit is this one: 3:04 AM, kanagawa.ocn.ne.jp, Yokohama, Japan,

Two visits to the PP post today. It appears that the SS women didn't make any particular progress today. (All that debate with the Secret Service in the past 4 days have come to naught.)

31.08 W (the Sao Paulo Plagiarizer)

Today is an important day for the suspect. Today TestDaf results will be published. In the morning, the suspect would log into his TestDaf account to discover that his TestDaf score is higher than he has expected: LV: 5; HV: 3; SA: 4; and MA: 3. The most suspicious part is that the suspect's writing score wasn't decreased by 1 level (it's still 4 instead of 3). It's very likely that, because the suspect was aware that the Russians had commanded Homeland Security to control him to mess up the writing part, the CIA had obtained an ICJ order (on the ground that this was a conspiracy against them) to order the German institution to retain the suspect's original writing score. (Is he correct here?) In any case, this TestDaf score – presumably intercepted into the ICJ as evidence before 3 August – is evidence in the CIA's favor: it proves the Agency's claim that the suspect has indeed understated his ability because, when he gets frustrated, he would throw out grossly pessimistic scenarios without ever meaning them (thus that he didn't mean it when he expressed "harmful intent" toward the National Front on 13 February). The Russians have lost this debate over what the suspect means and does not mean. This must have contributed to the ICJ judgment issued on 3 August.

It would seem that the SS women's non-activity last night and early this morning (there is only one visit to the PP post this morning) is due to their planning something new. The Russians may have communicated to them (via Homeland Security) their need for more evidences confirming in the ICJ that the suspect is habitually engaged in fraudulent activities and plagiarism under false identities. Specifically, the SS women might have received the order to forge evidences to confirm that the "David Chin document" describes reality. In any case, by 8 AM the SS women have decided on creating a fake version of the suspect's website in a foreign language and then attributing it to him in order to make other people believe that the suspect, wanting to pretend to be educated and multilingual, first plagiarizes somebody else's writings and then uses Google Translate to create a foreign language version. This will then demonstrate that the "David Chin document" is a genuine confession from the suspect – that he is not only David Chin but is also really able to feign translation skill by using computers to do all the work. In other words, the SS women have decided to take the initiative after the suspect didn't respond to the translation job request on the early morning of 30 August. The SS women have found a volunteer in Sao Paulo for the task: this is the "Sao Paulo Plagiarizer". She shall create a Portuguese version of the suspect's website using Google Translate. Afterward, the Russians would have evidence in the ICJ and the women themselves might have something with which to convince the

It's really not clear whether this is related to the SS women's operation. Because the indexing starts with "braingate2.jpeg", it would seem that the women have ordered this in order to compile an index proving once again that the suspect has been posting on the PP forum under false identities (this time, that the suspect is also impersonating on the 184178 thread (braingate2.jpeg) whereas the last time the indexing was supposedly to prove that the suspect is impersonating on the PP post (61812-39.png)).

And so, today, the SS women are consolidating their evidences to establish for the Secret Service that their profile of the suspect (as an impersonator, a fraud, and a plagiarizer) is correct. Today's evidences: the suspect is really David Chin but pretends to be Lawrence Chin, he loves to assume false identities, he neither writes nor translates anything, but uses computer technology to plagiarize other people and create fake translation work. When today's evidences are intercepted into the ICJ, the Russians can round off the evidences which they have collected in the past few days suggesting that the suspect is indeed posting on the 184178 thread under false identities.

7:06 PM, while the suspect is going to Draw Anything LA Meetup, he is connected with Wes (from 2:38:00 onward in the recording). This is the first time that the suspect is talking to Wes after the latter has returned from Brazil. (1) About Wes' stay in Brazil. (2) The TestDaf result is better than expected. The suspect gives his false interpretation that his higher score is due to compensation ordered by the International Court of Justice. (3) Daniel is coming back to the US to attend a conference. (4) About signing up to volunteer for the Green Party. The suspect has decided to dump Trump. The suspect's wrong scenario: he has flagged the system again and the SS women have linked up with the Green Party. The SS women don't seem to know that they are also in the terrorist databases. (5) Habermas is

an amazing philosopher. (6) The “New York law enforcement” (again, the suspect hasn’t yet comprehended that it’s still the Secret Service) told the SS women they found no evidences for his harassment of them (correct), the SS women thus went to the Baltimore Lawyer (incorrect), then they reported him to the Green Party (incorrect), but the complaint process was quickly cut off. These wrong scenarios the Russian side will use as evidences confirming Homeland Security’s false profile of the suspect as suffering from paranoid delusions about his women victims’ going after him. (7) The Sao Paulo Plagiarizer. (8) Again, his erroneous conception of why his TestDaf score seems to have been tampered with. Just then, interferences! (3:01:00) The Russians are again commanding Homeland Security to create these interferences so that, when the suspect speculates on the reason, they can use his incorrect speculations as evidences to confirm Homeland Security’s false profile of him as suffering from paranoid schizophrenia. (9) The SS women will never stop, they will always make false reports about the suspect’s website. It costs too much time. (10) The advantage about going to Germany: German professors don’t know about Cal State Long Beach. The suspect can’t ask Dr G for a letter of recommendation. (11) The suspect is still in the terrorist databases, he has used his status as a “terrorist” to do harm. (Again, this is not quite correct at the moment, although the CIA would argue thusly from time to time.) (12) The suspect speaks about the (somewhat) correct scenario about what happened in New York: law enforcement *wanted* him to talk about Daniel’s visits to his website... They have to decide which of the two warnings (Homeland Security’s or the TMU’s) is correct. This confession is presumably evidence in favor of the CIA. The suspect however wonders what his status is in the new warning that law enforcement will issue about him (a “terrorist” or not a “terrorist”). (13) The suspect then gives the wrong scenario: his ICJ trial might really have ended, governments will not debate about him anymore. Hardly the case! Then, more interferences heard only on Wes’ side (3:21:00). (14) Wes then suddenly confirms the wrong scenario which the suspect has in the past developed about the government’s plans about the SS women: somebody is going to write out his business with the SS women into a novel, and a Broadway play will be made from it. Why is Wes doing this? Have the Russians commanded Homeland Security to order Wes to confirm the suspect’s wrong scenario? Namely to further mislead the suspect so that, when he talks about the non-existent plan regarding the SS women, they may use this as evidence to confirm Homeland Security’s false profile of him as suffering from bizarre delusions about his women victims’ involvement in government conspiracies? The suspect then speaks about the Guinness World Records, the SS women being the greatest false complainers in the history of womankind, etc. 7:57 PM, the suspect hangs up with Wes.

Again, this phone call provides evidences to both sides (both the Russian side and the CIA): the Russians have obtained evidences to confirm the SS women’s claims that the suspect suffers from paranoid schizophrenia and harbors bizarre delusions about his women victims’ going after him, while the CIA has obtained more evidences to prove that he’s not actually insane: he just often guesses incorrectly the current shape of the SS women’s operation and the battle in the ICJ. The stalemate continues.

9:50 PM, this Eircom indexing again: Eircom, Dublin, Ireland.

Since 7 PM, the SS women have sent in only three visitors, including one to the PP post on 11:29 PM:

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

The SS women are busy organizing their new evidences (the Portuguese version of the suspect's website, and perhaps the Eircom indexes as well) and submitting them to the Secret Service.

Note that, 11:19 PM, Kiersten posts on her Facebook, her first time since 25 August: from ActionSprout: "Add your name to demand better bike lanes."

3:05 AM, a certain "Marinam Marina" from Russia sends the suspect a message on Interpals (on his "Therapeuter" profile). The message is simply: "Hello, your profil interesting!" Complete garbage. It's evidently because the Russian intelligence desperately needs evidences confirming that the suspect indeed likes to deceive people and conduct frauds with false identities on social media sites that they have instructed this woman to message him hoping he would reply. However, the suspect, as usual, never responds. Day after day, and the Russians have no definitive evidence in the ICJ to lock up the previous ICJ trial! Of what use is the conviction of Homeland Security CO chief and NULND if the previous ICJ trial is exposed like this!

September 2016

01.09 Thu

By early morning, the SS women are already ready to assess whether their new evidences yesterday have achieved effect. 7:08 AM, they send in the Long Keng volunteer to conduct a status check:

fundamentalism2.htm. Could he also be refining his argument again about the suspect's plagiarism?

A volunteer seems to be examining the suspect's traces on Pinterest. There are no activities from the SS
women on the suspect's website between 10 AM and 2:50 PM. They are again conferencing since the
Secret Service has not removed his website. Perhaps they should give the Secret Service a little more
time. 2:52 PM, they resume operation and send in a volunteer from Sleman, Indonesia.

22 seconds later, the Sleman volunteer randomly clicks on a chapter.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

Presumably brainstorming how to report the suspect for plagiarism – which tells you that the Secret Service is unpersuaded by the Portuguese version of the suspect’s website. Of course! From 4:30 PM onward, two visits to thermhch6d222.html from the “Iowa City” crowd. To make more false reports about the suspect’s plagiarism? And one visit to the PP post.

8:53 PM, the SS women send in a volunteer from Acacia Ridge, Queensland, to falsely report the suspect for hosting malware on his website:

```
120.22.111.139 - - [01/Sep/2016:21:53:43 -0600] "GET /howihave73bg4-/forum_posts/eee_ftp HTTP/1.1" 200 80781 "http://www.google.com.au/url?sa=t&rct=j&q=&esrc=s&source=web&cd=3&ved=0ahUKEwig4Nuv5O_OAhXCipQKHZPLANwQFggpMAI&url=http%3A%2F%2Fwww.enlightenment1998.com%2Fhowihave73bg4-%2Fforum_posts%2Feee_ftp&usg=AFQjCNEVusnV7PzhFaiSCYsWWZYNMIT2gA&sig2=j85v0zJr2WANPkw_r_B5zUQ" "Mozilla/5.0 (X11; Linux i686; rv:16.0) Gecko/20100101 Firefox/16.0"
```

Then more false reports about the suspect’s plagiarism. There are no activities from the SS women between 11 PM and 4 AM. They are again waiting for the Secret Service’s response. 4:03 AM, they send in the Long Keng volunteer to conduct another status check:

```
118.163.207.40 - - [02/Sep/2016:05:03:22 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.7 (KHTML, like Gecko)"
```

No, the website is still up. Again, more than the SS women, Ekaterina must be especially worried: day after day, there is always the danger that the CIA might reactivate the previous ICJ trial and convict her father!

02.09 F (emergency conference)

The SS women wait another three hours – sending no volunteers to the suspect’s website. Then, 7:14 AM, they send in the Long Keng volunteer again to conduct another status check:

```
61.216.161.12 - - [02/Sep/2016:08:14:11 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.7 (KHTML, like Gecko) Version/9.1.2 Safari/601.7.7"
```

9 seconds later, he clicks on:

```
61.216.161.12 - - [02/Sep/2016:08:14:21 -0600] "GET /readings/oldtestament3.pdf HTTP/1.1" 200 495579 "http://www.enlightenment1998.com/thermfr2.html" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.7 (KHTML, like Gecko) Version/9.1.2 Safari/601.7.7"
```

Evidently here to brainstorm for a new way to convince the Secret Service that the suspect did

plagiarize (in view of the fact that the Secret Service didn't take the Sao Paulo plagiarizer's work seriously). Within two minutes, he comes to / to find the "Marine essay":

61.216.161.12 - - [02/Sep/2016:08:16:20 -0600] "GET / HTTP/1.1" 200 3527

....
61.216.161.12 - - [02/Sep/2016:08:16:27 -0600] "GET /lepen3/lepen6.pdf HTTP/1.1" 200 722381

Perhaps the Secret Service can be forced into a response when there is another complaint about the suspect's obsession with Marine? The Long Keng volunteer discusses the matter with the SS women and the Partisans for 5 minutes. Then, 7:21 AM, he clicks on acad.html.

61.216.161.12 - - [02/Sep/2016:08:21:23 -0600] "GET /acad.html HTTP/1.1" 200 5050

7:22 AM, he clicks on thermhch1.html (from the Table of Contents).

61.216.161.12 - - [02/Sep/2016:08:22:22 -0600] "GET /1/thermhch1.html HTTP/1.1" 200 20668

There are no activities from the SS women on the suspect's website between 8:30 AM and 9:30 PM. Because – even with all the evidences they have forged and compiled on 31 August – they have still failed to convince the Secret Service that their profile of the suspect is correct, they come out of their houses to meet with each other in some meeting place to conference about new strategies. How could the hard work on 31 August have come to naught? They might have even invited the Long Keng volunteer to join them. Ekaterina must be on video-conference with them from South Korea as well: "The CIA is about to reactivate the previous ICJ trial! What are we gonna do?" Everybody must have returned home around 9 PM or so. They resume sending decoy visits to the suspect's website after 9:30 PM.

03.09 S

6:23 AM, a volunteer from Orlando, Florida (pools.spcsdns.net.), visits the PP-166020 post. The first time ever. The SS women are sending out scouts to look for the suspect's traces everywhere – to find something to complain about.

Two more visits to the PP post. Then, only one decoy visit and two visits to the PP post afterward. One of them seems to be somebody related to the Long Keng volunteer (Rackspace Hosting, San Hoi Tin, Hong Kong):

180.150.157.47 - - [04/Sep/2016:00:02:49 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

rv:48.0) Gecko/20100101 Firefox/48.0"

The SS women must have spent the rest of the day brainstorming and conferencing about new strategies. Note that, on 3:46 PM, the suspect has connected up with Wes. It's thus possible that the SS women are meeting with Mr Homeland Security CO chief again this afternoon to analyze the suspect's conversation with his best friend.

The details of the conversation: (1) About the need to take TestDaf again. (2) Yesterday the SS women realized they had failed, and today they have started a new round of operation. "It can't go on any longer... What's the point of lying when no one is going to believe your lies?..." Wes suggests: "After you have put in so much effort, you won't give up..." Wes then pretends to not know the "Secret Society women" are more than one woman. Wes is of course understating the situation: when the Secret Service has removed the SS women's "victim" status, it's like taking away their immortality potion which they had only gained after so much hard work – when Mr Homeland Security CO chief at last listed them as "victims" and "expert witnesses" on the official warning about the suspect as a "terrorist". The SS women of course will never give up: there is nothing more important in the world than be classified as "victims of misogynist terrorism." (On top of Ekaterina's, and the Russian intelligence's, number one priority that the CIA should be prevented from reactivating the previous ICJ trial.) (3) Parson, "dummification", rationalization, and the impossibility of communication. How dumb people today seem to be suffering from brain damage. Wes: people can't think nowadays because they rely on the Internet too much. *How* they are dumb. Wes: "Dumb people in the past reason badly, dumb people of today can't reason at all..." The suspect will soon incorporate Wes' insight into his "Rationalization, McDonaldization, and Increasing Stupidity..." and, unbeknownst to him, this will become part of the "program" which the Invisible Hand and BOL shall effect years from now. The call is then cut off because the suspect's phone runs out of battery (39:00). The suspect is reconnected with Wes on 1:11:00. Wes hangs up again: Alessandra is calling.

6:06 PM, the suspect is connected with Wes again. They talk only about academic stuff and philosophy this time. This might be evidence in the CIA's favor. (That the suspect is *really* intellectual.) The conversation ends on 20:30.

04.09 Sun

7:28 AM, the Hong Kong volunteer from 11:02 PM last night comes to check out the PP post again:

By 11:50 AM, the SS women have resumed sending in decoys. 8 decoy visits afterwards, and 3 more visits to the PP post. Then, 10:47 PM, the SS women send in the Long Keng volunteer again:

104.237.91.64 - - [04/Sep/2016:23:47:01 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"

He tarries for 28 seconds before clicking on the first chapter:

104.237.91.64 - - [04/Sep/2016:23:47:29 -0600] "GET /1/thermhch1.html HTTP/1.1" 200 20668

10_11_6) AppleWebKit/601.7.8 (KHTML, like Gecko) Version/9.1.3 Safari/601.7.8"

Just desperately trying to come up with more evidence of the suspect's plagiarism – because, evidently, the testimonies about the “Marine Essay” and “Old Testament” yesterday have been rejected by the Secret Service again. 3 more decoy visits afterwards.

Note that, today, Ekaterina's father is attending the G-20 meeting in China.

05.09 M (Angelica's visit after midnight?)

Two decoy visits between 7 and 8 AM. Then, no activities. 12 visits after 2:30 PM, either decoys or to brainstorm for better ways to report the suspect for plagiarism. One visit to the PP post on 7:41 PM that is particularly noteworthy: T-Mobile USA, La Puente, California.

172.56.31.50 - - [05/Sep/2016:20:41:16 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

Safari/601.1"

Recall the La Puente volunteers seen as early as 12 and 15 January, 2015. In any case, the SS women are spending the whole day brainstorming for new strategies after their failure – hence the small number of visits.

Then, it appears to the suspect that, around 4 AM or so, Angelica herself has visited his website. Hence, she asks Bluehost to eliminate traces of her visits from the suspect's log, resulting in the delaying of the archiving of the log until 9:51 AM. Why is she visiting? Perhaps she has thought of something during the previous brainstorming. Perhaps to explain something about the 31 August evidences. She needs to

report it to the Secret Service. (Again, it's not clear whether the suspect is correct or whether he is paranoid about nothing.)

06.09 T (the Sao Paulo Plagiarizer to fix the 31/08 evidences)

After Angelica has visited – assuming that the suspect is right about this – she resumes sending a massive number of visits to his website. (After 5 AM.) 7:30 AM, she sends in the Long Keng volunteer to conduct a status check:

104.237.91.144 - - [06/Sep/2016:08:30:37 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"
"Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.8 (KHTML, like Gecko)"

No, the website is still up. Angelica's special report three hours ago (perhaps!) has not achieved effect. The SS women decide to try again. They need more convincing false reports to convince the Secret Service that the suspect has indeed plagiarized. After more decoy visits, the SS women begin their task of forging more evidences to further authenticate the evidences they have forged on 31 August. By 6:45 PM, they have contacted the "Sao Paulo plagiarizer" again and sent her in to translate more of the suspect's essays and webpages into Portuguese:

Her mission is evidently to fix the 31 August evidences (the forged Portuguese version of the suspect's website) in order to persuade the Secret Service to reconsider their rejection of this Portuguese version. Soon afterward, the SS women would submit the revised version of the Portuguese version of the suspect's website to the Secret Service – as evidence to confirm that their profile of the suspect as a fraud, an impersonator, and a plagiarizer is correct (that the suspect isn't kidding on the "David Chin document").

Very few decoy visits afterwards.

9 PM or so, Kiersten has posted on her Facebook, her first time since 31 August: "Magical dome house in remote Thailand constructed in just 6 weeks."

Is this related to Angelos?¹³ Perhaps Angelos, still desperate to see the suspect's website banned, is in communication with the SS women today. Perhaps this visit has something to do with the demonic story which the SS women have made up about the essay "The Cheney Plan". In any case, just brainstorming how to convince the Secret Service that their testimonies, and the Homeland Security warning, about the suspect is correct.

The SS women today would continue to mobilize volunteers to make false reports about the suspect's plagiarism to the Secret Service.

3:09 PM, a volunteer from Barreiro, Portugal, looks up "The Cheney Plan" (vodafone.pt):

The SS women are still trying to use their demonic story about this essay to convince the Secret Service.

Then, more false reports about the suspect's plagiarism to the Secret Service. Then, no activities between 8 PM and 2:30 AM. Afterwards, only 1 visit. Another day of futile effort!

08.09 Thu

From 5 AM onward, the SS women resume mobilizing volunteers to make false reports about the suspect's plagiarism to the Secret Service. The SS women will send volunteers to visit the PP post 5 times today. Notable visits are:

Today, Russia and the US will have finally reached agreement over Syria. John Kerry is coming home with the deal he has reached with Russia. It's now time for the national security Establishment in the US to react. Meanwhile, the Russian intelligence continues to battle the CIA in the ICJ trying to lock up the previous ICJ trial – something far more important than the incidental victory in being able to use the Homeland Security warning about the suspect to gain concessions from the United States in Syria.

However, 5:13 PM, Kiersten changes her profile picture again (Jupiter). Nope: apparently there is no in-person meeting.

It's one of these persons. Then, between 2:30 PM and 12:30 AM, only 1 decoy visit. Are the SS women meeting in person to conference again? Or are they meeting with the Homeland Security CO chief to analyze the suspect's conversation with Wes? Whenever the suspect talks to his best friend on the phone, there will be no visits to his website for many hours.

5:08 PM, the suspect has connected up with Wes: (1) Whether he should have a backup plan (going to SUNY Albany). Daniel: Humboldt is a good university. (2) The suspect has finished a new summary. This ICJ trial to replace the previous. (He is wrong.) The "filter". Is it possible to complain about Russia's actions? Wes: "You have been cutting yourself, it was not remotely controlled... You said things that don't make any sense..." The suspect is tremendously angered: "I don't know how to respond to all this nonsense..." Then he reflects: "In 2007 I used my false status as a terrorist to do harm, that's the moment when I had lost all my rights... I need the US to represent me to complain about Russia..." The suspect then debunks the CIA's 2007 argument: he had too vague a knowledge about what was going on, so that he was properly likened to a person with mental defects. (3) The computer inside the control center knew beforehand that terrorist attacks would happen in Paris (November 2015). (4) The suspect returns to his earlier argument with Wes: "Why do people get confused and then accuse me of being confused?... The difficulty in communication nowadays..." Wes again says something unrelated, and then remarks on the problem of the breakdown of communication: "People use the same words to mean different things..." The suspect: "I can understand other people, but other people can't understand me, and yet I can't prove to them that they are mentally defective *because they are mentally defective...*" (5) The suspect then wonders whether his speculations about British Old Lady's program were incorrect, perhaps he was required to come up with these scenarios as

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

a diversion, namely, these incorrect scenarios were serving as a cover for the few correct speculations on his part. (6) Wes spends 45 seconds explaining what has happened to his sister, and the suspect has completely understood it. Then follows Wes' analysis of how communication could succeed at all.

A comment is in order. We are probably correct in assuming that the SS women are simply busy analyzing the suspect's conversation with Wes this afternoon and evening together with Homeland Security CO chief – simply because the Secret Service has rejected all their new evidences again and their Russian overlords desperately need some temporary evidence in the ICJ to prevent the CIA from reactivating the previous ICJ trial for the time being. It must thus be Homeland Security which has (under Russian order) instructed Wes to falsely accuse the suspect of not making sense: the Russians can then use the suspect's argument with Wes as evidence in the ICJ to confirm Homeland Security's false profile of him as mentally confused and insane. This is really the most important part of today's conversation. But then the suspect is right in becoming skeptical of his speculations on BOL's program: he still has a long way to go before figuring out that, the more he speculates, the more the Invisible Hand is able to lump him together with BOL as her conspirator against him in the second, secret ICJ trial and that, even when the Invisible Hand shall finally implement the program *in his own way* by adopting the conspiracy to benefit himself (or the US), that would still be at least 5 years from now. Meanwhile, when Wes discusses communication problems, it's just the Invisible Hand's stimulus for the suspect so that he might come up with more ideas about the "program" enabling the Invisible Hand to eventually adopt them for his own purpose (for his program to benefit the US).

After 12:30 AM, only two decoy visits. In total, two visits today to the 184178 post.

11.09 Sun

Since 10 AM onward, and throughout the rest of the day, the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism.

10 PM or so, per the suspect's request, Derrick sends out the PACTS newsletter with a link to the suspect's document (letters on brain-chips). The link, however, is broken. The suspect is frustrated: he still hasn't figured out that, using SDW, Homeland Security CO chief has long ago discredited him (the only real TI) to all the other TIs (the rest of the fake TIs) in the so-called "targeted individuals community".

The SS women are still collecting evidences to prove to the Secret Service that their profile of the suspect as a frequent violator of intellectual property laws is correct.

2:46 AM, an associate of SDW (evidently a TI and a member of PACTS), reading through Derrick's newsletter sent out four hours ago, has discovered the link to the suspect's document. She comes to take a look. She is using a proxy (bbtec.net, Softbank, Tokyo; trendmicro.com, Japan) and somehow takes care to correct the mistake in the link:

SDW is obviously entrusting her TI friend to make a false report to the Secret Service about the suspect's pollution of the targeted individuals discursive domain (with his "delusions" about being mind-controlled and targeted). Thus, the new evidences which the SS women have submitted to the Secret Service today to prove that Homeland Security and these amazing women have always been right about the suspect are: his plagiarism and his fake targeting due to his schizophrenia.

Afterwards, the SS women continue to send in volunteers to check out the PP post and make false reports about the suspect's plagiarism. Notably: 3:18 AM, mailout1.dei.com.gr, Athens, Greece,

62.169.203.29 - - [12/Sep/2016:04:18:54 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (compatible; MSIE 10.0; Windows NT 6.1; Trident/6.0)"

Sometime between 6 PM last night and 12 PM today, SDW posts a new blog post on her blog. It's her first post since 23 August. Merely a link: "The superstitious reincarnation of COINTELPRO". Is she hoping that the Secret Service might intercept the suspect "cyberstalking" her?

6:21 AM, the SS women recruit another volunteer from the strangest place to make a false report about the suspect's plagiarism: ircam.fr, Institut de Recherche et Coordination Acoustique/ Musique, Paris.

8:11 PM, the volunteer from Slidell, Louisiana (last here on 8 September, 6:03 PM), comes for the fifth time. Is he here to do a status check? To brainstorm? (In view of the Secret Service's steadfast refusal to consider any new evidences offered by the SS women.)

In total, two visits to the PP post and two visits to the PP 184178 post.

The SS women continue to mobilize a vast number of volunteers to make false reports about the suspect's plagiarism. Thus, the debate with the Secret Service as to whether the suspect has plagiarized and impersonated continues. There are then no activities between 9 PM and 1 AM.

4:30 PM or so, the suspect takes his Asus to Starbucks and goes into Deep Web looking for the SS women's duplicate of his website (the Portuguese version). No. He can't find it.

6:30 PM, the SS women send in a volunteer from Whittier, California, to report on the suspect's delusions about them:

7:07 PM, Kiersten changes her profile picture on Facebook: this time it's her picture when she was a teenager. Her first posting since 9 September.

7:12 PM, Kiersten posts on her Facebook again: "Snow Song": "Neolithic figurine, over 7000 years old, unearthed at Turkey's Catalhoyuk."

7:27 PM, Kiersten posts another view from "Snow Song".

Decoy visits and false reports (plagiarism) throughout the rest of the day. Two visits to the PP post for the whole day. No visits between 9 PM and 1 AM.

14.09 W

Since morning, the SS women resume mobilizing volunteers to make false reports about the suspect's plagiarism.

2:01 PM, a visit from the "Quantil Group". It is the Russian-controlled Homeland Security which has instructed the SS women to conduct this search: to produce evidence for the ICJ suggesting that the suspect's writings about the ICJ trial are actually pornographic materials.

8.37.237.53 - - [14/Sep/2016:15:01:26 -0600] "GET /schizo-part-3-50-/schizo-part-3-70.pdf HTTP/1.1" 200 170459 "http://www.google.com.pk/search?q=guest+fucking+mezban+hidden+camra" "Mozilla/5.0 (Linux; U; Android 5.0; en-US; LT700 Build/LRX21M) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 UCBrowser/11.0.0.828 U3/0.8.0 Mobile Safari/534.30"

Because the Secret Service's refusal to consider the SS women's latest evidences has become unfavorable evidence for the Russians in the ICJ, the Russians desperately need some temporary evidence to prevent the CIA from reactivating the previous ICJ trial for the time being. Hence this. Now the CIA couldn't for the time being use the suspect's story as evidence against the Russians.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

No visits between 4 and 8:30 PM. Are the SS women conferencing? About Russia's predicament? Then, false reports about the suspect's plagiarism throughout the rest of the day. Two visits to the PP post today, including this one on 11:16 PM: pools.spcsdns.net, Pomona, California,

66.87.131.139 - - [15/Sep/2016:00:16:14 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Linux; Android 5.1.1; LGLS751 Build/LMY47V) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/43.0.2357.93 Mobile Safari/537.36"

Late night, the suspect is searching for videos on computer-hacking. This is evidence which the Russians need in the ICJ to temporarily prevent the CIA from reactivating the previous ICJ trial. Perhaps they have simply remotely controlled the suspect (via Homeland Security and the Monkey) to do this.

15.09 Thu

The SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism. The situation is urgent: the Secret Service must be persuaded in some way in order for there to be evidence to save Russia in the ICJ.

10:11 AM, SDW posts on her Facebook Group, "Man charged with breaking into jail". The first time since 27 August.

11:28 AM, a volunteer from Opelousas, Louisiana (dhcp.slid.la.charter.com), comes to look up the PP post. Is this volunteer related to the Slidell volunteer? What is he doing? Just looking after hearing the horror story from the SS women?¹⁴

After 5 PM, the SS women send 5 more volunteers to the PP post. 7 visits to the PP post today, plus 1 visit to the other PP post (184178). Among the PP post visits is a volunteer from Longview, Texas (lightspeed.rcsntx.sbcglobal.net):

Frustrated, the SS women spend a lot of time today explaining the problem to their new volunteers.

16.09 F (US strikes Syrian army)

Since the morning, the SS women are mobilizing their volunteers to make false reports about the suspect's plagiarism or to brainstorm how to make such false reports. There are then no activities between 11:30 AM and 4:30 PM. Are they conferencing? They are presumably unaware of the tremendous tumult that is going on in the ICJ yesterday and today – extremely unfavorable development from their perspective. 5:12 PM, the Longview, Texas, volunteer from last night comes again:

104.8.112.42 - - [16/Sep/2016:18:12:18 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

He has spent more than an hour and a half conferencing with the SS women about how to persuade the Secret Service that it's all plagiarized.

More brainstorming and false reports throughout the rest of the day. 5 visits to the PP post in total today, the last one on 4:08 AM: T-Mobile, Oakland, CA,

172.58.36.122 - - [17/Sep/2016:05:08:31 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868

The SS women continue to spread hysteria over the PP post ("He writes here his delusion about our going after him. It's harassment and yet the Secret Service wouldn't consider it so").

Note that, today, the US would intentionally strike the Syrian forces from the air allowing ISIS to gain strategic advantage in the local battle in Syria. Tomorrow Russia would call an emergency meeting in the UN Security Council to discuss the matter. As noted, from this moment onward, the CIA would change strategy in the ICJ: they would raise the claim that the Russians and their allies are conspiring with a bunch of terrorists (the SS women) to falsely convict the US in the ICJ of conspiring with a terrorist (the suspect) to falsely convict them – that the Russian side is conspiring with the SS women to bring the National Front to power in France via an ICJ judgment. The Invisible Hand is now

demonstrating the advantage of his project to the rest of the national security Establishment after Kerry has carried home a result that nobody wants: if the CIA shall reactivate the previous ICJ trial, not only will the Russian intelligence SVR be convicted in that previous trial, but this current conviction of NULND and Homeland Security CO chief will also disappear.” The battle in the ICJ is about to get very intense since the CIA’s last victory on 3 August.

17.09 S

3 more visits to the PP post. The hysteria continues. The visits to Scientific Enlightenment images are mostly decoy visits.

Meanwhile, today, the fake website which the Russians have commanded Homeland Security to order the SS women to pay a volunteer in Los Angeles to create on 6 September shall acquire the first of its contents: lawrencechin2011.com (Lawrence Chin Tips). It will have an IP address of 162.251.165.227 (Los Angeles Dedicated LLC, Los Angeles). What’s going on? Is evidence is so urgently needed in the ICJ that the suspect is indeed a habitual impersonator and violator of intellectual property laws?

From now on, this is the stake in the ICJ trial: if the Russian side can prove that the SS women’s testimonies about the suspect and his website are correct, then they could convict the United States of conspiring with a terrorist (the suspect) to advance geopolitical agendas against them through the ICJ while locking up the *previous* ICJ trial at the same time. If, on the other hand, the CIA can prove that the TMU’s profile of the suspect and warning about the SS women (a bunch of false complainers) are correct, then the United States could convict Russia and its allies of conspiring with a bunch of terrorists (the SS women) to advance geopolitical agendas against the United States through the ICJ *while reactivating the previous ICJ trial and convicting Russia there one more time*. To counter the CIA’s new claim – to avoid being convicted twice – the Russian side thus needs to immediately produce new evidences to prove that the SS women have not being lying. Now the SS women’s most outrageous lie has been that 2011.com has continued to exist to harass them. The Russians thus need evidences not only to confirm the series of evidences obtained in late August – that the suspect habitually assumes false identities and is in fact David Chin pretending to be Lawrence Chin, that the “David Chin document” is a genuine confession from the suspect, and that the suspect is a fake translator and a plagiarizer – but also to validate the SS women’s claim back in March (and before) that 2011.com has always existed after December last year. This fake lawrencechin2011.com will be intercepted into the ICJ as evidence to prove that the SS women have never lied about the existence of 2011.com and that the suspect is indeed an impersonator and a plagiarizer.

18.09 Sun (the fake lawrencechin2011.com)

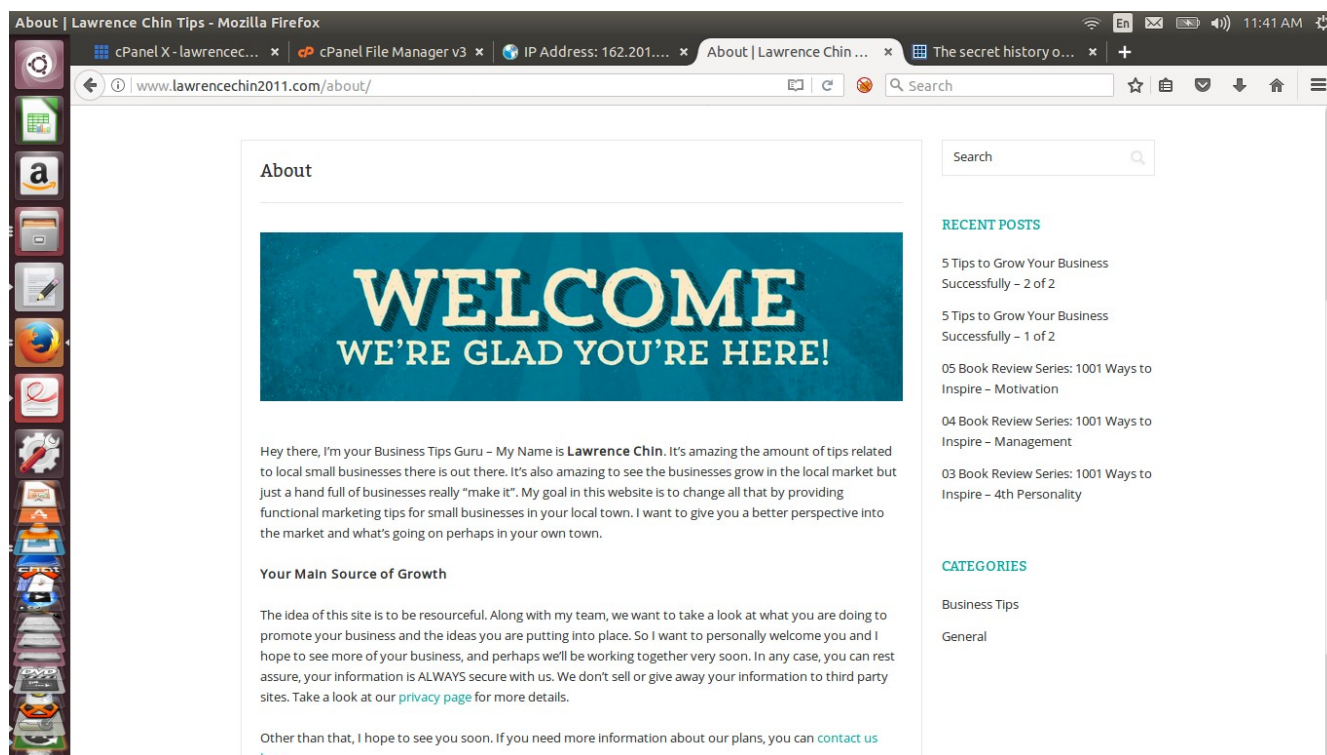

5:58 AM, the Russians direct Homeland Security to order the SS women to search for the suspect’s ICJ writings with strange search terms. Presumably to produce evidence for the ICJ suggesting that the document which the CIA has used as a principal piece of evidence to prove that the suspect is not insane and has not intended to harm the National Front – the final evidence which led to the 3 August judgment – is actually about video games. This is the first time that the SS women have discovered this

plagiarizing other people.

It might be that the SS women have been gossiping about this document since this morning after reading the suspect’s statement therein that the TMU has since November last year also entered them into the terrorism database as “false complainers of terrorism”. They have probably believed the suspect: this really explains why they have been having such difficulty in dealing with law enforcement agencies. They are thus sending this document to this Torrance volunteer: “Look what he says here. Are we in the terrorist database ourselves?”

10:38 PM, the suspect links up epilogue225.html from Anti-Feminism Facebook Group. He is not quite aware that the men’s rights people are already members of the Secret Society.

12:01 AM, the SS women instruct the Long Keng volunteer to conduct a status check:

45.41.135.18 - - [19/Sep/2016:01:01:46 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.8 (KHTML, like Gecko)"

Why? Are the SS women expecting the Secret Service to have already removed the suspect’s website? Since they must have also reported the fake 2011.com to the Secret Service, they are perhaps wondering whether that has had an effect on the latter.

3:28 AM, the SS women are accessing an old section on the Secret Facebook Group (athd2.jpg).

4:05 AM, the SS women instruct a volunteer from Arad, Romania, to look up “The Cheney Plan”:

86.125.215.250 - - [19/Sep/2016:05:05:16 -0600] "GET /cheneyplanintro/cheneyplanintrob.pdf HTTP/1.1" 200 478378 "https://www.google.ro/" "Mozilla/5.0 (Windows NT 6.3; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

This has become their pattern: every time when the Long Keng volunteer conducts a status check, the SS women will soon afterward send in a volunteer to look up “The Cheney Plan”. Namely, they will soon afterward pull out their made-up story about this essay to try to convince the Secret Service that the suspect is indeed insane and completely deluded about famous people.

visits to the PP post, 1 visit to the other PP post. Throughout the day the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism.

Past 11 PM, the suspect calls Derrick to complain about the broken link to his document on the PACTS newsletter. Derrick is angered.

Past midnight, the suspect signs the petition for pardoning Snowden (pardonsnowden.org).

1 AM, a notable report about the suspect's plagiarism: Talk Talk, Ipswich, UK,

The suspect would suspect this person to be a Bluehost employee! Are the SS women complaining to Bluehost again about finding misogynist and racist content on the suspect's website? The log will be archived past 6 AM, indicating that Angelica might have visited the suspect's website between 2 and 4 AM. It's thus likely that she is talking to Bluehost about the problem with the suspect's website. She would be encouraged by Homeland Security (the Russians) to try to ban the suspect's website through Bluehost because the Russians desperately need more evidences suggesting that she is not a big liar. However, Bluehost wouldn't comply. It's not clear if any of this conjecture on the suspect's part is correct. What *is* sure is that there is now another report about the suspect's misogynist rambling.

20.09 T (Russian intelligence special operation)

7:40 AM, the SS women send in a volunteer to look up "Timeline-X": Sky Italia Srl, Milan, Italy; listed as a proxy. This is the first visit ever.

The SS women might be looking for the comment about Ekaterina in the beginning of the document. Thus most likely a report about the suspect's delusion about Russia's First Daughter, in accordance with the Homeland Security warning about him ever since 2012.

8:19 AM, the SS women send in a volunteer from Delft, Netherlands, to look up "PC Books" again (planet.nl). "He made all these racist and sexist comments in this document, and yet the Secret Service refuses to accept the Homeland Security warning about him as correct."

After Angelica's complaint to Bluehost, the SS women will stop most of their operations for the rest of the day. They continue to mobilize their volunteers to visit the suspect's website as a way to decoy him. Today, there are 1 visit to the PP post and 3 visits to the other PP posts, including this visit on 11:17 AM: gci.net, Anchorage, Alaska:

There are no visits from the SS women between 8:40 PM and 4:30 AM.

Meanwhile, in the afternoon, the suspect downloads "VarTom 1.4" onto his Asus laptop. He has had to disable his Windows Defender. He studies how to use it until 4:50 PM. The suspect's action comes just in time to save the Russians: the Russian side must have used this as evidence in the ICJ to confirm Homeland Security's false profile of him as a computer hacker.

The Russians are planning a special operation for the suspect tonight. They know what he is about to do tonight by reading the predictions off the computer in the control center.

The suspect comes to the Forum tonight. Angela didn't come. Mike shows up with a shaved head. 9 PM, as the suspect is leaving, strangely, Mike follows him out of the church. He shows the suspect his new motorcycle, and walks a long distance with the suspect, trying to be friendly. The suspect tells him Philip was a law enforcement informant. And also that he looks like Snowden with his shaved head. Has this anything to do with his petitioning for Snowden's pardon last night? Certainly, it is the Russians who have commanded Homeland Security to order Mike to try to solicit something from the suspect – perhaps a confession to the effect that the suspect is in the habit of using his terrorist status to

achieve geopolitical agenda (perhaps to save Snowden or to ruin his pardon). But wouldn't Mike be an informant from the CIA's side inside the SS women's organization?

Tonight, when the suspect has returned to Elysee, he purposely checks the Twitter pages of both Irina Bokova and Kristalina Georgieva (Russia's preferred candidates for the position of UN Secretary General). The Russians have commanded Homeland Security to stage this operation (by remotely controlling the suspect) in order to produce the semblance that the suspect intends to conspire with Russia with his terrorist status (as a way to harm Russia). While outside Denny's, the suspect also checks out rekings.com. He sees a Facebook-hacking tutorial – something which really interests him – but decides not to download it. When he goes to sleep on 2 AM, he discovers a cigarette box with Russian words written on it in the spot where he always sleeps. The Russians have instructed Homeland Security to send somebody in to place the cigarette box there in order to produce the semblance that the suspect is working with Homeland Security to produce the semblance that he is conspiring with Russia. Together with his interests in computer-hacking today, the Russians would submit this to the ICJ as evidence to counter the CIA's new claim – that they are conspiring with the SS women to falsely convict the United States: “The conviction would not be false! This Homeland Security warning is really correct – *according to which* he does intend to harm us!” Namely, to prevent the CIA from reactivating the ICJ trial while preserving Russia's victory over Homeland Security CO chief back in February. It could be that the SS women, from 8 PM onward, are conferencing with Homeland Security CO chief on the matter – hence there are no visits. They must be jubilant about the news that Homeland Security, under Russian command, is planning an operation to frame the suspect tonight in order to convict him as a terrorist in the ICJ. They are apparently unaware that *the CIA is trying to convict them in the ICJ as terrorists conspiring with Russia to harm the United States*. (The Russians would be prevented by international law from informing the SS women about the CIA's new claim because “terrorists must not know they are currently under investigation in order that they may ‘finish their mission’”). The SS women will resume operation on the suspect's website after 4 AM.

21.09 W (creating a fake web gallery)

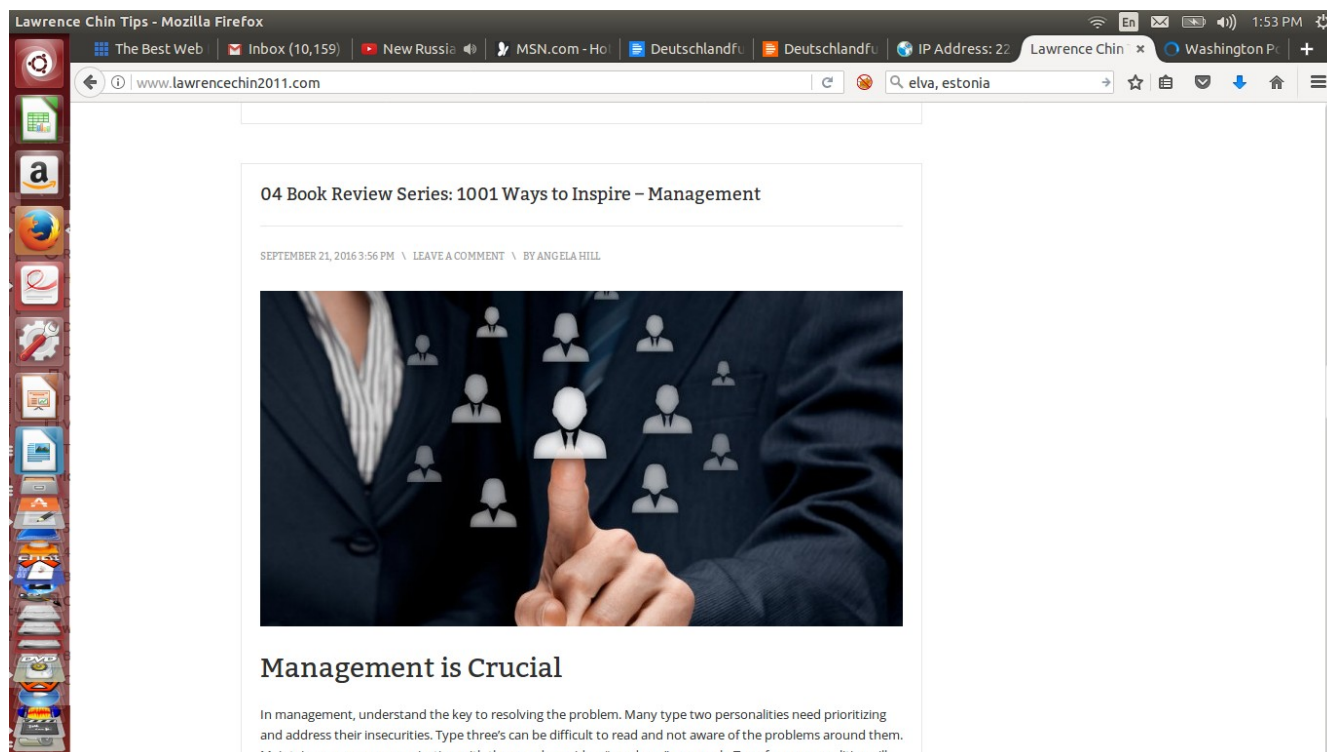

As the Russians and their allies have entered their counter-claim in the ICJ, the SS women have another chance to serve as “expert witnesses” for the Secret Service – without awareness that the Russian side is actually doing this out of desperation. All day long, they will be mobilizing their volunteers to make false reports about the suspect's plagiarism to the Secret Service – the most difficult thing to prove in the world. There will also be 4 visits to the PP post and 1 visit to the other PP post – to falsely report that the suspect is using online forums to express his delusions about the SS women's going after him in order to harass them (while impersonating strangers). In addition, 5:27 AM, a helper of the SS women's (a Partisan?) has discovered the suspect's new link on Anti-Feminism Facebook Group: rev.sfr.net, Aily-sur-Noye, France,

However, we have to suspect that the men's rights people, without the knowledge of the SS women and the Partisans, are actually working as informants for the CIA's side.

The SS women's volunteer "Angela Hill" will post two posts on the fake lawrencechin2011.com today in order to strengthen the Russians' evidence in the ICJ – that the suspect is attempting to impersonate Angelica online while violating other people's intellectual property rights.

Meanwhile, the SS women receive another order from the Russians via Homeland Security. To strengthen the Russians' new claim in the ICJ and their own case with the Secret Service, the SS women have found a volunteer from Gliwice, Poland, to create a fake web gallery to host the suspect's drawings – a fake web gallery to be falsely attributed to the suspect. 12:28 PM, the Gliwice volunteer (neoplus.adsl.tpnet.pl) begins his operation. First, the drawing which the SS women, with confirmation from the suspect's family, say he has stolen from his family members:

12:56 PM, he comes to decking.html again. In sum, within 28 minutes, he has downloaded all the pictures of the whole drawings, then all the pictures showing Goddess Athena in close-up. When he creates a fake web gallery, it will have either one of these two functions: (1) The fake web gallery, to be attributed to the suspect, will feature him bragging, in a frivolous manner, about all these drawings he has supposedly stolen from his family and so on as if they were his own works. To show him pretending to have artistic talent. (2) The fake web gallery will feature the suspect bragging, in a frivolous manner, how the Goddess Athena in all these drawings is Angelica herself. Given that the Russians' most important task at the moment is to prove in the ICJ that the SS women's testimonies are truthful – and given that Angelica has been lying all along to the Secret Service saying the suspect has painted her nude – the second option is most likely the case. The Russian side has thus intercepted into the ICJ another set of evidences demonstrating that Angelica is telling the truth when she claims that the suspect has used his website to harass her by putting up her naked pictures on it. The SS women will presumably also report this to the Secret Service.

By 2 PM, all tutorials on rekings.com would have disappeared except the latest one. The CIA has presumably ordered their removal in order to prevent the suspect from producing more evidences showing himself conforming to Homeland Security's false profile of him as a computer hacker.

3:27 PM, the Russians order the SS women to instruct a volunteer from Bradford, UK, to look up "Prelude C-5L" and make a false report about it. Since this is another one of the CIA's key evidences in the ICJ to discount the Russians' claim that the suspect has wanted to harm the National Front with his terrorist status, the Russians need the false report as counter-evidence to cancel out its force.

Recall that this document is one of the CIA’s key evidences that the suspect doesn’t harbor bizarre delusion about the SS women’s going after him and that he has not intended to harm the National Front. The Russians have commanded Homeland Security to instruct the SS women to do this search in order to produce another counter-evidence to cancel this document’s effectiveness in the ICJ (that this document is actually about pornographic nonsense). The Russians have already done the same thing on 18 September – it’s not clear why they have been compelled to do it again. Perhaps, so early in the morning, the Secret Service has already rejected the Gliwice volunteer’s forgery and all the false reports about the suspect’s plagiarism from last night (which rejection would have become unfavorable evidence in the ICJ for the Russian side). In any case, every one of the CIA’s key evidences will have to

There are then no activities from the SS women. Then they resume operation on 11:58 AM. Then, no activities between 4:30 PM and 7:30 PM.

8:02 PM, it appears that a volunteer from Curitiba, Brazil, has tracked down the suspect's new posting on Anti-Feminism Facebook group. This is the second time.

Another one of the CIA's important evidences proving that the suspect is not insane. To produce counter-evidence to enable the Russians to cancel out the CIA's evidence in the ICJ? If so, this volunteer has received his instruction (via the SS women) from Homeland Security. (But, since he is based in Japan, he's likely simply an informant and is merely pretending to go along with the SS women's operation.) In any case, the visits to "Prelude C-5L", "Prelude 17D", and this document today and yesterday indicate the Russians' desperation to avoid being convicted in the ICJ.

No activities. Then, 1:54 AM, the SS women instruct the Long Keng volunteer to conduct a status check:

45.56.152.49 - - [23/Sep/2016:02:54:29 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-" "Mozilla/

Decoy visits soon resume. No visits to the PP post today. Two visits to the other PP post (184178).

False report about the suspect's schizophrenic delusion about the SS women's going after him as part of some government conspiracy. The Russians need this evidence in the ICJ to counter the CIA's claim that the suspect doesn't suffer from paranoid schizophrenia (has often guessed correctly the SS women's operations behind his back). This document is quite convenient for the Russians because, unlike "Prelude C-5L" and "Prelude-17D", all of the scenarios described herein about the SS women's operations aren't correct. Again, the Russians are free to interpret the suspect's wrong guesses as schizophrenic delusions.

This is evidently another "proof" about the suspect's impersonation on PP.

The SS women would access the special section of their Secret Facebook Group (athd2.jpg) on 1:13 PM and 5:27 PM. Only one decoy visit in between. The SS women are most likely brainstorming and conferencing today because the Secret Service has continued to reject their new evidences no matter what.

Then, 11:11 PM, they instruct a volunteer (maybe a Partisan) from Toulouse, France, to look up "eee_start_software.pdf" (abo.wanadoo.fr):

This is a false report about finding hacking materials on the suspect's website. Again, the Russians need this evidence in the ICJ to confirm Homeland Security's false profile of him as a computer-hacker – after he has in the past week already produced plenty of evidences to this effect. One visit to the PP post after this – the only visit today. There are no activities from 11:30 PM onward until 5 AM the next day.

Now that the suspect's website is cached anew, the SS women would, throughout the whole day, mobilize their volunteers to both make false reports about his plagiarism and to generate decoy visits. 1:46 PM, Kiersten posts on her Facebook via Pinterest: "Cauliflower Pizza Crust: Get this... recipe from Katie Lee." Her first post since 18 September.

From 1:32 PM onward, the suspect will be talking to Wes (from 42:00 onward in the recording): (1) Daniel has replied. (2) About Valerie Solanas. Wes: "You are going to meet a woman playwright..." Wes is of course bullshitting. It's not clear whether he is under Homeland Security (i.e. Russian)

¹⁵ The message goes: "Dear Lawrence, in general, Humboldt is a good university. You might however be right as far as critical theory is concerned. Specifically if Jaeggi might leave, Frankfurt would definitely be the better place. In the context of German post-BA studies, which work differently from the US, I would focus on the professor who you would like to be your advisor and the fit of your topic rather than the prestigiousness of the university. This is also on what I would focus in general: I would have a very specific proposal for a dissertation topic prepared, maybe someone from a California university who you could visit during office hours would be willing to give you pointers there. It is better to apply a semester later with a good proposal than earlier with a mediocre one. As for the TestDaf, I really have no experience there but the same goes here: practice first, then take the test; maybe you can find a German expat who wants to improve their English and you can teach each other. I hope I could help." Again, Daniel must be like: This Lawrence is an international terrorist stalker on American Homeland Security's watchlist with the most disgusting characteristics (schizophrenia, plagiarizing, racist and misogynist); why does he even bother with schools? But he must reply normally because Homeland Security has instructed everyone to act normal with the suspect and let him waste his time pursuing his goals in order to not raise his suspicion.

instruction to do this: to mislead the suspect into believing that this is part of the “Macrospherian plan” so that he may speculate about it and look insane in the process and produce more evidences in the coming days to confirm the SS women’s testimonies about his insanity. (3) About visiting Bokova’s and Georgieva’s Twitter pages. Do the SS women’s current complaints have anything to do with that? The suspect again expresses wish to put the SS women’s business to an end. (4) Another news piece: implanting electronic chips in the brain to treat Obsessive Compulsive Disorder and depression. Wes coughs constantly. The call is then cut off. The suspect calls Wes again on 2:27:00 when he has thought of something. (5) The suspect is worried that Daniel might know that he is a terrorist. (This conclusion is inevitable given the way Daniel visited his website on the night of 17 July.) Wes: “Daniel doesn’t think about you.” (Wes is lying: Daniel must have thought, as noted: why does someone as disgusting as the suspect ever bother to go to school?) The suspect: he has interpreted the SS women’s operation as “gang-stalking” because he doesn’t know what other people know, namely that he is a “terrorist stalker”; meanwhile, the SS women might be doing something that’s legitimate in other people’s eyes because other people know that he is a “terrorist stalker”. This is why he needs to know what other people know – otherwise he might end up looking ridiculous: he needs to be like everyone else and know that he is a terrorist. The suspect is right on target here – and this is probably the CIA’s evidence that the Homeland Security warning, and the SS women’s testimonies, about his delusions about his women victims are completely false. The only other thing of significance is the suspect’s confession about visiting Bokova’s and Georgieva’s Twitter pages. The CIA might also want to use this as evidence to support their claim that the suspect isn’t quite aware that he’s supposed to conspire with Homeland Security to harm Russia (that the Russian operation on 20 September has produced the wrong semblance).

5:53 PM, the SS women access the special section on their Secret Facebook Group (athd2.jpg).

Throughout the whole day, the SS women continue to mobilize their volunteers to make false reports about the suspect’s plagiarism. No activities between 12:30 and 4:30 AM. There are no visits to the PP posts today.

5:53 AM, a false report about the suspect’s plagiarism: reverse.spectranet.in, Pune, India. This seems to be a visit from the “Quantil Group” (see below).

8:35 AM, a volunteer from Tacoma, Washington (hsd1.wa.comcast.net), looks up “Timeline VI”. A false report about how the suspect is suffering from paranoid delusions about the SS women’s going after him (Kiersten’s attempt to “exterminate” him)? It’s certainly another piece of evidence which the Russians need in the ICJ to prove that the SS women’s testimonies are truthful.

This volunteer is presumably related to the Curitiba volunteer from 22 September. This is the third time.

Throughout the whole day, the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism. Between 5 PM and 1:30 AM, only three visits. 5:01 AM, the "South African Group" is back (biopower2.jpg)! The last time that they are seen was 10 September. There are no visits to the PP posts today.

One last note: it's today that the suspect would discover the German feminist Wizorek, whom the SS women will soon recruit.

27.09 T

After 3 decoy visits, on 9:01 AM, the SS women instruct the Long Keng volunteer (Univera Network, Long Keng) to conduct a status check:

```
104.237.91.37 - - [27/Sep/2016:10:01:00 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"  
"Mozilla/5.0 (Macintosh; Intel Mac OS X 10_11_6) AppleWebKit/601.7.8 (KHTML, like Gecko)"
```

Are the SS women expecting all the false reports they have made about the suspect's plagiarism in the past four days to have done the magic of persuading the Secret Service to remove his website? After one more decoy visit, another status check on 11:07 AM:

```
64.233.172.130 - - [27/Sep/2016:12:07:54 -0600] "GET /thermex2.html HTTP/1.1" 200 530 "-"

like Gecko; googleweblight) Chrome/38.0.1025.166 Mobile Safari/535.19"
```

Is this the Long Keng volunteer using Google Web Light or is this another volunteer? Then, two visits to the PP post from Austria and Tennessee on 11:59 AM and 12:26 PM. Are these status-checks? Or reporting about the suspect's delusions about his women victims? Then, two more visits to the PP post on 4:44 PM and 6:21 PM.

Throughout the rest of the day, the SS women continue to mobilize their volunteers – either to make false reports about the suspect's plagiarism or to brainstorm how to make such false reports.

Past midnight, the suspect posts a new message on the PP thread: links to the best targeted individuals websites. He has again posted as "toothache" and the links include a few documents from his own website.

3:17 AM, a volunteer from Rotherhithe, UK, tracks down the suspect's link on Anti-Feminism Facebook Group. This is the fourth time:

```
94.11.124.119 - - [28/Sep/2016:04:17:15 -0600] "GET /1/epilogue225.html HTTP/1.1" 200 83553

Throughout the day, the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism or to brainstorm how to make such false reports.

8:27 PM, the SS women access the special section of their Secret Facebook Group (athd2.jpg). They would then halt their operation. In the next 7 hours, there will be only one decoy visit. 01.10 S (Wes)

Reports about the suspect's plagiarism of his Scientific Enlightenment continue.

1:40 PM, the suspect is connected with Wes. (From 1:00:00 onwards in the recording.) (1) The SS women are complaining to a new authority. Has this something to do with the business with Bokova's Twitter page? The suspect is all wrong here: the SS women are still complaining about his website to the Secret Service. It's evidence in favor of the Russian side. The suspect: "Their life has no meaning, once they have grabbed onto a misogynist terrorist, they will never let go..." (2) Axel Honneth and the Frankfurt School. (3) Valerie Solanas was also on SSI. (4) About Elliot, the "Golden Ratio Guy". His argument with people on the Internet. (5) The suspect has started writing a new (critical theory) paper. (This would become "Rationalization, McDonaldization, and Increasing Stupidity of Human Beings".) About the crisis that people are getting dumber and dumber. Wes begins describing his own experience with the "dummification" of the new generation of undergraduate students: "People think education is about knowledge, intelligence is knowledge, but I think education is about the ability to think... Nowhere is the answer on the book..." About *how* people are dumb. "Schools nowadays are struggling to get students... How to attract students..." Although all this philosophical discussion seems unrelated to the ICJ trial, it's probably evidence in favor of the CIA (that the suspect is intellectual). (In any case, it would soon all become part of the "program" which the Invisible Hand would implement.) (6) Finally the suspect returns to the topic of the UN Secretary General. Another opportunity for proof is coming up: who is going to become the new UN Secretary General? (7) Wes suggests strategies to deal with the SS women: the use of rhetoric. This is worthless suggestion.

5:45 PM, a special visit to report the suspect for plagiarism or misogynist rambling: lightspeed.gnbonc.sbcglobal.net, Lexington, North Carolina,

Why? The last status check by the Long Keng volunteer was on 27 September. Did the SS women expect the new evidences submitted in the past few days to have already achieved effect with the Secret Service?

10:39 PM, the SS women send in the Lawrenceville volunteer from 16 September (5:22 PM).

Presumably to hear the SS women's complaints: "The Secret Service simply refuses to believe this is all plagiarized. What do we do?" Again, Russia's very safety is at stake!

02.10 Sun

Early morning today, the SS women ask their volunteer "Angela Hill" to post again on the fake lawrencechin2011.com.

False reports about the suspect's plagiarism continue – or brainstorming.

03.10 M (the Norwalk Lawyer)

The SS women send in three volunteers to the PP post this morning between 5:30 and 9:30 AM. Then two more volunteers to the Scientific Enlightenment chapters. (Plagiarism? Brainstorming?)

Since 1 October, because the Secret Service has refused to validate their testimonies, and the Homeland Security warning, about the suspect, the SS women are looking for lawyers again. They are of course encouraged to do this by the Russians via Homeland Security: the Russians desperately need confirmations in the ICJ that the Homeland Security warning is correct, in order to both win the current ICJ trial and prevent the CIA from reactivating the previous ICJ trial. It would seem that, this time, the SS women want the lawyer to complain to an oversight entity or person about the Secret Service's "misconduct". The "misconduct" in question is not simply the deletion of their victim status and the removal of the suspect's terrorist status. It's rather the root cause of all this. The SS women must specifically want their lawyer to complain to the oversight entity or person about the Secret Service's decision to ignore their "victim confidentiality" – which is also why the Russian and their allies are never able to win in the ICJ. By the afternoon, the SS women have found a lawyer, who is located in Norwalk, Connecticut. Interestingly, Norwalk is only 5 miles south of Ridgefield, SDW's hometown. It's thus quite possible that it's SDW's family who has located this lawyer to help the SS women. (Is SDW's family aware that their little girl is now classified as a "terrorist intending to harm the United States" by the authority?) The SS women, after sending her the Homeland Security document about the suspect, connect up with the new lawyer around 3:30 PM (or 6:30 PM local time).

3:56 PM, the SS women send in a volunteer from Los Angeles to report to the Norwalk Lawyer how the suspect has been terrorizing them by writing down his delusions about their going after him on the PP forum. The Los Angeles volunteer thus looks up the PP post (174.127.59.50, ip.telepacific.net) and immediately (after 8 seconds) clicks on "Prelude-17D".

"He's so deluded about us and yet the Secret Service refuses to validate the Homeland Security warning about him!" Between 4 and 5:45 PM, the SS women are also telling the Norwalk Lawyer about how the suspect has violated intellectual property laws by copying images from books and putting them on his website and by stealing drawings from his family members and putting them on his website as if they were his own works. (Hence the volunteer visits on 4:15 PM to saxonwarrior.jpg and

on 5:43 PM to wine.jpg.) As always, the SS women request that the Norwalk Lawyer not look at the suspect's website herself in order to protect their privacy. But the Norwalk Lawyer insists. Finally, the SS women give in. 5:52 PM, they direct the Norwalk Lawyer to do a search for the suspect's website (32.211.194.56, Frontier Communications).

32.211.194.56 - - [03/Oct/2016:18:52:41 -0600] "GET /1/elementarystructures20.htm HTTP/1.1" 200 23370 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

23 seconds later, the Norwalk Lawyer comes to the index page.

32.211.194.56 - - [03/Oct/2016:18:53:04 -0600] "GET / HTTP/1.1" 200 3629 "-" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

It appears that she has clicked on a link on the front page. Probably the suspect's Google Books or his Amazon Wish List, etc. Within a minute, she has come back to the front page:

32.211.194.56 - - [03/Oct/2016:18:54:02 -0600] "GET /dot_clear.gif HTTP/1.1" 404 1322 "http://www.enlightenment1998.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

Within 2 seconds, she does a search for "Government's Investigation of a Schizophrenic, II".

32.211.194.56 - - [03/Oct/2016:18:54:04 -0600] "GET /schizo2new13/schizo2new13.pdf HTTP/1.1" 200 2834644 "https://www.google.com/" "Mozilla/5.0 (Windows NT 10.0; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

She spends four minutes reading the chapter. Karin is probably telling her about how the suspect has violated her privacy by including her pictures on his documents. 5:58 PM, the Norwalk Lawyer Googles for the suspect's recent portraits.

She spends 15 seconds considering the suspect's portraits. The SS women are telling her about how the

suspect harasses famous people by putting their portraits on his website and how, yet, the Secret Service has ignored the Homeland Security warning to such effect. Then, the Norwalk Lawyer returns to the index page and then, 6 seconds later, clicks on “Marine Essay”.

32.211.194.56 - - [03/Oct/2016:18:58:20 -0600] "GET /dot_clear.gif HTTP/1.1" 404 1322

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

The SS women are probably explaining to the Norwalk Lawyer that the very chief of National Front also accuses the suspect of harassing her by naming her on his website (so that her name will be tied to his name on Google search results). The Norwalk Lawyer spends almost two minutes on the document, and, on 6 PM, the SS women direct her to 1.html.

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.116 Safari/537.36"

The SS women now explain to her how the suspect has been using this website to terrorize them. All this delusion about their going after him as part of some government conspiracy! After a minute and a half, the SS women direct the Norwalk Lawyer to click on /petition-/E/ (Karin’s meetups), then, 6 seconds later, on the video “Lawrence draws Ala”.

Is Karin explaining to her how the suspect has feigned artistic talents by asking his twin brother to draw portraits in his stead? The Norwalk Lawyer spends only 30 seconds watching the video. 6:02 PM, the SS women direct her to /vol-6-/ (but it is no longer there), and then, 14 seconds later, to “Open Letter to Sibel”.

The Norwalk Lawyer spends almost a minute on it. The SS women are explaining to her: "Because he suffers from this delusion about the intelligence agencies' going after him, he actually believes he has government secrets to share with people and would act on his delusions by reaching out to famous whistleblowers." Then, 6:03 PM, the Norwalk Lawyer looks up "Preface":

This is merely the summary of “American response”. It’s not clear what bad story the SS women have concocted about this. Perhaps about the suspect’s dangerous obsession with the Le Pen family. Perhaps about his “delusion of grandiosity” (“Right wing parties will save the world”). The SS women have by now been talking to the Norwalk Lawyer for more than two and a half hours and the Norwalk Lawyer has been examining the suspect’s website for 16 minutes. It’s now past 9 PM in the east coast. It would appear that, after hanging up with the Norwalk Lawyer, the SS women continue to work throughout the night directing their volunteers to send reports to her email account about how the suspect has committed a variety of plagiarism on his website. It also appears that the SS women are reporting to her that the suspect has been impersonating strangers on Internet forums. Thus the visit on 9:46 PM to “PP-184178” (73.33.224.160, hsd1.nj.comcast.net, Long Branch, New Jersey). And also the visits on **12:05 AM: 68.96.198.223, lv.lv.cox.net, Las Vegas,**

This volunteer has clicked on “next” to arrive at the suspect’s post. This is very likely the same Las Vegas volunteer seen on 28 July, 10:20 AM. (He was using a Windows computer at the time.) 12:17 AM, or 12 minutes later, he comes again:

Thus, throughout the night, the SS women have been submitting reports to the Norwalk Lawyer saying the suspect has been impersonating strangers to write about his delusions about their going after him on the PP forum as a way to harass them and terrorize them. It's expected that Kiersten would have also submitted to the Norwalk Lawyer the negative review she has composed about herself on Dating Psychos, saying (lying) that the suspect has been impersonating strangers to write sexually explicit

reviews of her both to express his sexual longing for her and to slander her. The fact that the suspect has used a different handle to comment upon his old postings on the PP forum is now used by Kiersten to convince the Norwalk Lawyer that he was indeed the author of the sexually explicit review which she has composed about herself on Dating Psychos to frame him.

04.10 T

This morning, the log will not be archived until 5:57 AM. The suspect thus suspects that Angelica has again visited his website some time between 1 and 4 AM in order to submit false reports to the Norwalk Lawyer about all the delusions he has expressed about her on his website. (Is this really so?)

Then, 5:13 AM, a Partisan (109.209.116.203, abo.wanadoo.fr, Olivet, France) looks up the suspect's portrait of "Marine" in order to report to the Norwalk Lawyer his attempt to harass her by putting up her portrait on his website.

Throughout the whole day, the SS women continue to mobilize their volunteers to submit false reports about the suspect's violation of intellectual property laws, either to the Norwalk Lawyer or to the oversight entity the Norwalk Lawyer is appealing to. We should however expect the oversight entity – whoever it is – to reject the Norwalk Lawyer's petition by tomorrow.

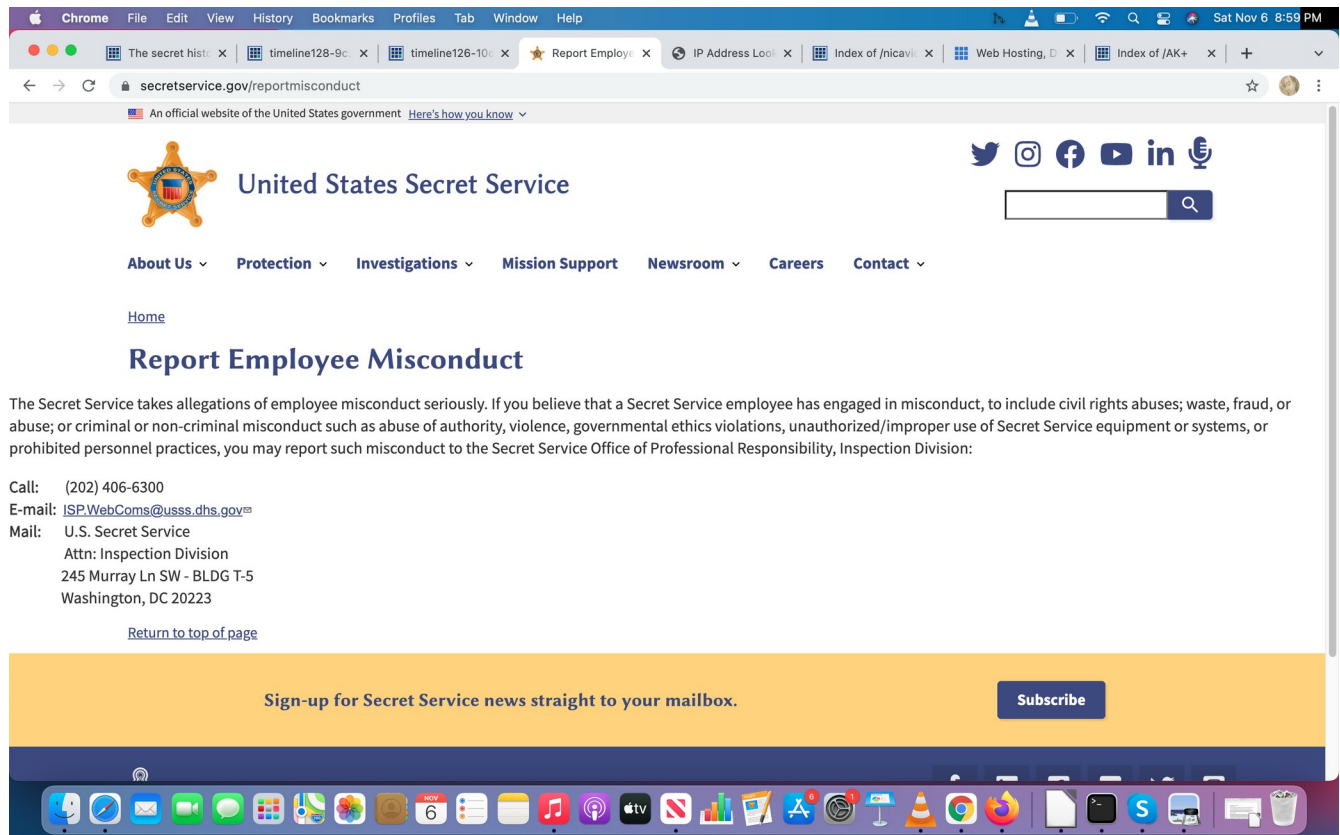

05.10 W

Today, Antonio Guterres has been named the new UN Secretary General. Ha!

Early morning, the SS women instruct their volunteer "Angela Hill" to post one more post on the fake lawrencechin2011.com. This will be the last time anything is posted on this fake website. This fake website has presumably also been reported to the Norwalk Lawyer.

Throughout the day, the SS women continue to submit false reports about the suspect's violation of intellectual property laws on his website. Since yesterday, the Norwalk Lawyer must have already submitted the SS women's complaint about the Secret Service's "misconduct". But, again – who is this oversight entity? Since it's not a violation of the law when a Secret Service officer, while investigating a suspect, dismisses the witnesses' testimonies about him as not credible; since it is also unlikely a violation of the law if the Secret Service officer in question has decided to ignore the witnesses' "victim confidentiality", the oversight entity to which the Norwalk Lawyer appeals, while still inside the Secret Service, is probably not the Inspection Division. It should be the official superior to the officer being complained about, or even the director of the Secret Service himself (Joseph Clancy at the time).

Take note of the Tallinn volunteer who will be active next month (from 12 November onward) with the PP post.

When, past midnight, the suspect discovers the news about the new UN Secretary General, he realizes that he has been wrong about the meaning of the operation on the night of 20 September. He is nervous for a while – *worried that he might have harmed Russia*. He has no clue as yet as to what the Russians are doing inside the ICJ right now!

A report to the Norwalk Lawyer? To the oversight entity? Perhaps – now that the oversight entity has declined to honor the Homeland Security warning about the suspect (together with the endorsement on it of the SS women as “expert witnesses”) – the SS women are arguing with him at the moment: “He really did develop delusions about all the famous people! Here, his delusions about Russia’s First Daughter! The warning is correct!” Perhaps even the Russian diplomatic service is on the phone with him.

Somehow the SS women are wondering whether the Norwalk Lawyer’s complaint has already forced the Secret Service to retract their decision and ban the suspect’s website. But no. Disappointed, the SS women continue to mobilize their volunteers to submit false reports about the suspect’s plagiarism.

6:39 PM, the SS women send a volunteer to look up softappende.pdf (Total Server Solutions, Los Angeles, confirmed proxy).

198.8.80.221 - - [06/Oct/2016:19:39:34 -0600] "GET /softappend/softappende.pdf HTTP/1.1" 200

The third ICJ trial over the suspect, X

Obviously, the SS women have discussed the failure of their appeal with the Norwalk Lawyer. To strengthen their testimonies about the demonic nature of the suspect's website, they ask their two volunteers to submit more reports about softappende.pdf and slp.pdf attesting to the suspect's delusions about Russia, hate-speech against womankind, and violation of intellectual property laws. Then, there are no activities from the SS women from 9:15 PM to 4 AM – probably because they are brainstorming or taking a break while the Norwalk Lawyer sorts things out.

1:04 AM, the suspect posts on AVFM: his half-correct, half-incorrect, but definitely vague scenario about the SS women's current appeal process, and then a correct tally of the SS women's operation.

2:29 AM, multilingualservices.nl sends the suspect a job offer via ProZ (182.71.163.198, airtel.in, India). Is this the SS women's helper? It's possible that, desperate, the SS women now want to make use of the "David Chin" document again. (They want concrete evidence indicating that the suspect is *currently* conducting translation service fraud under false identity. This, to demonstrate that their profile of the suspect is correct and to enable the Russians to have temporary evidence in the ICJ to lock up the previous ICJ trial for the time being.)

After 4:30 AM, the SS women must have already discovered the suspect's new post on AVFM. Angry with the suspect's discovery of how they employ decoys, one of them (maybe SDW) instructs a volunteer from Absecon, New Jersey, to continually visit a single image as "decoys". Thus, from 4:47 AM to 4:50 AM (comcastbusiness.net):

07.10 F

Today, the SS women will continue to gather their volunteers to make false reports about the suspect's plagiarism. This, despite the fact that the oversight entity has already definitively rejected the Homeland Security warning about the suspect as valid.

9:42 AM, the SS women send in a volunteer from Laramie, Wyoming, to look up "Prelude D-4". This is the first visit ever to this new chapter (bresnan.net).

69.146.97.191 - - [07/Oct/2016:10:42:39 -0600] "GET /prelude_D_4/prelude_D_4k.pdf HTTP/1.1" 200 3502704 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.1; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36"

It might be that the Russians have ordered them to check out this document. Unable to tell them directly what is going on in the ICJ because they are "terrorist suspects", they decide to use the suspect's reconstruction to enlighten them. While the SS women have already knowledge that the TMU has inserted a warning about them in the terrorist database – which has forever foiled their ability to deceive law enforcement officers under the cover of "victim confidentiality" – they are still unaware that, in the ICJ, whereas the Russians are trying to prove them right, the CIA is trying to prove that the TMU's warning about them (as pathological liars) is correct. It might of course also be that the CIA has used this document as evidence as well, so that the Russians, again, need a counter-evidence (that this document is a bunch of nonsense) to cancel out the CIA's evidence. (D-4K is completed on the night of 6 September.)

12:31 PM, is this volunteer related to the "Quantil Group volunteer" from yesterday?

There are three visits to the PP post today.

08.10 S (Wes)

1:18 PM, the suspect is connected with Wes. (1) About the Norwalk Lawyer. The SS women's goal should be to repeal law enforcement's decision rather than removing his website. The suspect is quite

The third ICJ trial over the suspect, X
Lawrence C. Chin,

correct here. This will be evidence in favor of the CIA in the ICJ. (That he doesn't quite suffer from any schizophrenic delusion about his women victims' going after him.) (2) Angelica was never arrested on 1 November, 2013. Right! Wes continues to try to dissuade the suspect from reconstruction. (Why is he doing this? Under Homeland Security/ Russian instruction?) The suspect: Wes is cruel, he wouldn't help even though he knows what is going on. The SS women have visited the suspect's website 36,000 times in total. Guinness World Records. People need to know about it. "I'm the 'Mother of all Victims'." (3) The suspect's decision to delay taking TestDaf until February. Wes: go to Humboldt. (4) About the new UN Secretary General. About the cigarette box. The American choice or the Russian choice. The suspect communicates his wrong scenario: his words and actions have been excluded from the ICJ evidentiary process. (5) About Syria: the State Department had reached an agreement with the Russians, but the (national security) Establishment didn't want it (all this is correct), the US and Russia are required to reach an agreement because they are both victims of the suspect's terrorism. (All this is the suspect's wrong scenario.) But the Pentagon pretended to accidentally bomb the Syrian army. "I hope I'm right, my case at the ICJ is coming to an end..." The suspect is wrong! (His case will in fact go on for at least 5 more years.) In any case, this is again the CIA's argument: the suspect is not insane; he has noticed that the negotiation over Syria has something to do with his ICJ trial, but he couldn't quite figure out what it is. And so he guesses wrong. That's not "true" insanity. (6) About Stein's rally. The suspect: "I dislike Trump more and more... I feel ambiguous about the Green Party because they want 'more rights for women'. Should I join the Green Party to meet people...? Maybe Black Lives Matter..." Perhaps the suspect's confession about "feeling ambiguous" will become evidence in favor of the Russian side confirming the SS women's false profile of him as "loving and hating at the same time". About "Clowns' Lives Matter". (7) About the conflict between the Assembly and the Senate (New York State). About Daniel. (8) The suspect's wrong scenario: there is an ICJ judgment requiring that the US not interfere with European rightwing parties' campaigns, that the US come to an agreement with Russia. (9) Another wrong scenario: Angelica and SDW are the main motors of the Secret Society, Karin lacks the time, and Kiersten is only in it for the excitement. In fact, all four women are currently heavily involved in the "appeal process" – plus Dr P as well. (10) Again, how the suspect's story should be advertised.

6:09 PM, the SS women send in a volunteer from Myrtle Beach, South Carolina, to look up "My experience..." (midsouth.biz.rr.com):

```
96.10.138.20 - - [08/Oct/2016:19:09:08 -0600] "GET

AppleWebKit/537.36 (KHTML, like Gecko) Chrome/53.0.2785.143 Safari/537.36"
```

This must be related to the current "appeal process". A testimony to strengthen the SS women's claim that the suspect is completely insane believing everybody he meets is part of some government conspiracy to go after him? (Or even the Homeland Security claim that the suspect keeps imagining Homeland Security going after him and so on?) It might also be that the SS women are striving to produce evidences which the Russian side needs in the ICJ.

The suspect would download Babylon RAT onto his Asus today. It will be evidence in Russia's favor. The stalemate in the ICJ continues – with the Russian side barely able to prevent the CIA from proving the SS women's testimonies completely false.

It appears that SS women are asking him to brainstorm how to falsely report the suspect for rambling hate-speech against women on his website. Again, after the failure this morning, the SS women are asking their volunteers to fix their testimonies so as to oblige the Secret Service to retract their decision. After this, there will be no activities until 5 AM. The SS women have also accessed the special section on their Secret Facebook Group on 1:28 AM. They are brainstorming.

There are today also 5 visits to the PP post and 1 visit to the other PP post. The SS women continue to spread hysteria over the suspect's PP postings.

It seems that the SS women are looking for new materials to complain about while continuing to brainstorm how to report the suspect for plagiarism. Meanwhile, the Russian intelligence service SVR remains stranded in the ICJ.

Then, more reports about the suspect's plagiarism.

In the afternoon, the suspect fails to learn how to operate Babylon RAT while in Starbucks.

The SS women continue to make false reports about the suspect's plagiarism. This element in the Homeland Security warning about the suspect – that he's a plagiarizer – is certainly the most difficult to prove to the Secret Service: they have spent the entire past week working on this.

3 visits to the PP post today, and 2 visits to the other PP post.

15.10 S (fewer visits; Wes)

The SS women will send very few volunteers to the suspect's website today. They are probably conferencing in view of the fact that, even when they have got a physicist from a European facility to report the suspect's plagiarism, the Secret Service still refuses to validate Homeland Security's warning about the suspect.

8:35 AM, the Russians, because they lack evidence day after day in the ICJ, command Homeland Security to instruct the SS women to send in a volunteer to make a false report about the suspect's "Political Correctness" – one of the CIA's key evidences since April. The SS women send in a volunteer from Salem, New Hampshire, to perform the task (myfairpoint.net).

“How do we prove to the Secret Service that this is plagiarized?” 2 visits to the PP post today.

Meanwhile, 7:44 PM, the suspect is connected with Wes. (1) His switch to the Green Party. “Feeling ambiguous about it.” The Russians’ evidence? (2) “The business with the SS women can’t go on...” (3) How did people choose their goals? Parson. How the suspect has chosen this goal of reconstructing: to become equal to others. Analysis of why the suspect has chosen his goal. About the desire to know what others think and say about you. (4) How rationalization makes people dumb: the first principle. Wes mocks the suspect’s analysis and mentions Mill. (5) About the Green Party: the guy who joined it only to meet women. (6) The suspect can’t get a recommendation letter. (7) About inequality: Wes possesses “secret knowledge”. Wes asserts that the Secret Society doesn’t exist! The suspect: “Why are you trying to convince me?” Wes: “They [like the suspect] don’t receive the information because they are not ready...” “Why am I not ready? Did the SS women forge far worst evidences to frame me? Why wouldn’t people tell me?” Wes: “You might mistake friends for enemies and enemies for friends...” It’s not clear why Wes is saying this. Clearly, nobody will tell the suspect anything because he is currently a suspect being debated about in the ICJ, but what does it have to do with “mistaking friends for enemies and enemies for friends”? Perhaps Wes is hinting at the fact that, while the suspect continues to be pro-Russia, Russia wants nothing but his destruction while it is the CIA which is fighting for his innocence. Along this line, perhaps Wes’ advice that the suspect isn’t ready for the knowledge he seeks refers also to the fact that he can *safely* receive the knowledge *only when the CIA shall have already reactivated the previous ICJ trial and convicted Russia*. (8) About Valerie Solanas. Wes mentions Simone Weil.

4:53 AM, the SS women send in a volunteer from Breaux Bridge, Louisiana, to look up “Prelude-17D” (lf.br.cox.net).

16.10 Sun (fewer visits; Wes)

Today Karin would upload to the Meetup website the pictures of her meetup from 9 October – her first time since 30 April! Could Karin be hoping to enable the Secret Service to intercept the suspect “cyberstalking” her?

The SS women continue to mobilize fewer volunteers today.

3:44 PM, the SS women send in a volunteer from New York City (WestHost) to look up peniswomen.jpg; he then looks up xper3.html on Google’s cache.

To testify that the Gliwice volunteer’s forgeries are genuine?

10:22 PM, SDW posts a new message on her Facebook group: “UFO expert found dead days after a mysterious text-message to his mother.” Her first time since 15 September. Just like Karin, she might also be hoping for the Secret Service to intercept the suspect “cyberstalking” her.

4:27 PM, the suspect is connected with Wes. He wants Wes to clarify why Wes told him yesterday: (1) If people tell him the truth (how he has imagined up the whole thing?), he’ll get angry; (2) he will mistake fiction for truth and truth for fiction; and (3) he’s not ready for the knowledge he seeks. Now Wes says it was just random talk yesterday or he was trying to make him think or he doesn’t know whether the SS women’s operations have ever existed.

4:44 AM, the SS women send in another volunteer from Kensington and Chelsea, UK (Vodafone), to

17.10 M (still fewer activities)

6:19 AM, FCI Multiple Services sends a job offer to the suspect (linguist). The email is sent directly to the suspect’s Gmail account, without going through ProZ: fcitle.com, Easton, Pennsylvania. Because things are not going well in the ICJ nor with the Secret Service, the SS women seem to be looking for evidences again to validate their claim that the “David Chin” document is the suspect’s genuine confession. They probably want the suspect to apply for a translation job so that they might have an opportunity to forge evidence showing him using computers to fraudulently create translation. This would also be evidence that the suspect is really David Chin and didn’t write “Political Correctness”. But the suspect never falls for the trap.

9:13 AM, a volunteer from Enschede, Netherlands, looks up “eee_youtube.pdf” (virtu.nl). Some sort of false report about how the suspect is a computer expert and uses computers to conduct frauds, etc.

18.10 T (the SS women resume operation)

The SS women, examining the cache of 1.html, have noticed that the suspect has put up a "New Summary". They want to know what he has written in it. 5:11 AM, they send in a volunteer from Pellenberg, Belgium, to fetch the document for them (isp.belgacom.be):

```
81.244.175.232 - - [18/Oct/2016:06:11:36 -0600] "GET /summary2016_8/summary2016_8g.pdf

The SS women will resume operations today. Since early morning they have begun mobilizing their volunteers to make false reports about the suspect's plagiarism. The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

Past midnight, the suspect is chatting on ANONOPS. This is again evidence in Russia's favor. Since the CIA has raised its claim on 16 September, things have been going less well than expected. The suspect has so far managed to exhibit some vague resemblance to the SS women's profile of him, even while the CIA continues to come up with plenty of evidences demonstrating that the SS women's testimonies are false. The stalemate continues in the ICJ.

4:22 AM, a very strange visit: Zayo Bandwidth, Hypoluxo Village, Florida, network sharing device:

Again, Russia's temporary evidence in the ICJ to discount the CIA's 3 August evidence and keep the previous ICJ trial locked up for the time being.

Another testimony that the suspect has indeed impersonated on the PP forum.

This afternoon, the suspect writes a message to crytohackers.com and is on ANONOPS for a while. Again, evidence in Russia's favor.

Throughout the day, the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism. Two visits from the "Iowa City Group" to thermh6d222.html.

11:08 AM, the fourth visit to thermhch6d222.html from the University of Iowa. All of them to make false reports about the suspect's plagiarism, of course.

In the afternoon, the suspect chats again on ANONOPS. He also sends a message to Central Hacker. He's looking for a hacker to penetrate the SS women's operation. Although he's aware that this would help confirm Homeland Security's warning, and the SS women's testimonies, about him as a computer-hacking, he really has no other options if he wants to know what exactly is going on.

From 8 PM onward, the suspect is at Googlies: French Conversation Friends, where he meets Quentin.

Four volunteers in total have visited the PP post today. One volunteer from Leominster, Massachusetts, has visited it twice (6 and 9 PM).

21.10 F (DRP; MSSGSDW)

5:53 AM, the SS women resume operation: a volunteer from Waltham, Massachusetts, looks up [bensongoddesscloseup.jpg](#).

6:19 AM, a volunteer from Mater Dei High School, Evansville, Indiana, looks up [bensongoddesscloseup.jpg](#). Are the SS women calling on Oliver to testify to the Secret Service that they have been right about the suspect?

10:13 AM, a third volunteer from Leyden High School, District 212, looks up “[krebcycle.jpg](#)”. The SS women will then refrain from activities until 5 PM! What is going on? Today, a general outage has occurred in the east coast which is paralyzing a lot of Internet networks. It seems that the SS women are also affected by it in their operation.

12 PM or so, the suspect is blocked from entry into his Bluehost account. Bluehost would claim it’s due to the outage in the east coast.

4:40 PM, the suspect is at DRPOFF to pick up the key for the restroom. He is shocked to discover that a camera has been installed on the door to the office suite. Of course! Given that Dr P is a “safety fanatic”. In fact, the SS women and their Russian overlords have been waiting for this: there is now evidence that the suspect indeed conforms to Homeland Security’s warning, and the SS women’s testimonies, about him (that the SS women are indeed victims of his stalking).

6:44 PM, after two decoy visits, the SS women send in a volunteer from Jamestown, California, to the suspect’s website ([lightspeed.frokca.sbcglobal.net](#)). First, [yixuai3333.html](#).

What is he doing? It seems that the SS women, seeing that they now have new evidence to convince the Secret Service that the suspect indeed stalks them (now that the suspect is seen appearing in DRPOFF), are eager to submit more false reports to convince them that the suspect indeed also plagiarizes. They thus do so as soon as the outage is over.

7:09 PM, MSSG on SDW's blog. Hoping to get somewhere: it would never work.

10:52 PM, SDW posts a reply to Xixi. She has not yet been alerted by Homeland Security:

Xixi I am sorry to hear this but knowing what it is gives you an advantage. But once they [know] you know [...] things can change dimensions quickly. Homeland Security and InfraGard are heavily involved in this program and that's why law enforcement, neighborhood watches and "community policing" [are] so heavily involved. I wish I could be more helpful but there are tons of blogs, videos and books now on the topic. There are also conference calls for TIs on talkshoe.com almost every night. *Don't go to law enforcement unless you have a legit complaint about someone or something. Watch for the perps that break rules and violate boundaries and report them, document their patterns.* Derrick Robinson used to be the president of FFCHS, he may be able to connect you to other TIs in your area. It is very helpful to have another TI in your area to hang out with, but watch out for "infiltrators". There are tons of perps that pose as TIs.

The italicized portions in her reply probably reflect her anger with the TMU and the Secret Service. She has believed for a long time that the suspect is part of the "gang-stalking enterprise" which the government has formed to target her among other innocent women. (Hence she believes the suspect is a "perp" posing as a TI: *she's the one who suffers from paranoid delusions about her victim's going after her!*) The Secret Service's deletion of her "victim status" and obstruction of her gang's complaints about a website which "harasses her" are indication, for her, that the US Establishment is trying to protect the gang-stalker they have sent out to harass innocent citizens (the suspect). Of course they want to protect their own agent! Hence "Don't go to law enforcement" – since they want to protect their own – but "Report them when it is legitimate" – just as she and the rest of the SS women have continued to report the suspect's website which has "violated her boundaries" even though law enforcement naturally wants to protect it. She is completely lacking common sense: (1) her reports about the suspect's website are false; and (2) *if she has her way, the United States would be convicted of conspiring with a terrorist to harm Russia and its allies!*

The SS women continue to brainstorm for new strategies for the rest of the night. 12:33 AM, a volunteer from Augsburg, Bavaria, does a search for "Frauke Petry, Sarah Wagenknecht" on Bing and arrives at irrelevant portraits on the suspect's website (pools.vodafone-ip.de).

Again, now that there is new evidence to present to the Secret Service, the SS women naturally want to present more testimonies to them to demonstrate that the rest of the Homeland Security warning, that is to say their testimonies, about the suspect is also correct (that the suspect indeed keeps obsessing over famous women in politics).

22.10 S (fewer activities)

6:14 AM, a volunteer from Vasanello, Italy, looks up bensongoddesscloseup.jpg. Again! Oliver in the discussion?

Very few visits today, very few decoys. Probably because the SS women are busy submitting yesterday's new evidence to the Secret Service. Homeland Security CO chief (under Russian command) might have notified SDW today about yesterday's MSSG. If so, SDW would for sure also submit this as new evidence to the Secret Service (that the suspect indeed constantly impersonates to harass people). Meanwhile, both the MSSGSDW and the restroom key incident would have become evidences in the ICJ to temporarily save the Russians from a conviction as well as lock up the previous ICJ trial: evidences that the suspect is indeed "stalking" the SS women. The SS women are thus discussing three important topics today: the suspect's website, the MSSGSDW, and the restroom key incident. They must be happily expecting the Secret Service to be forced to restore their "victim" status.

Perhaps they are wondering whether the Secret Service might have already acted upon the MSSGSDW and the restroom key incidents, restored their “victim” status, and removed the suspect’s website – whether the ICJ might have already declared the Russian side victorious, affirmed them as “victims” of the suspect’s terrorism, and issued a judgment requiring the Secret Service to remove the suspect’s website.

5:45 PM, the second MSSGSDW incident.

7:57 PM, the suspect is connected with Wes. (1) About Mill's “On Liberty”. About how people harm the suspect by not telling him what is going on behind his back. He has grown up having a distorted notion of how society works. It’s law enforcement’s fault. About how Daniel could have known the SS women. The philosopher who walks around not knowing he is a terrorist while everyone else knows he is a terrorist. That’s the fate to which the suspect is condemned! (2) Note that, in the end, the suspect expresses his conjecture that the US Establishment has been continually shrinking the authority of Homeland Security’s operational units in order to curb the Russians’ continual infiltration into the interior of the US government. This is probably indeed the case. At the very least, Homeland Security CO chief’s team no longer has the authority to nominate any candidate to terrorist databases! In any case, tonight’s conversation is certainly the CIA’s (and so the Secret Service’s) evidence that the Homeland Security warning, and the SS women’s testimonies, do not describe the suspect at all.

11:51 PM, the suspect is fighting back again and posts on his Facebook page a notice about Kiersten’s fake review of herself at Dating Psychos.

The third ICJ trial over the suspect, X
Lawrence C. Chin,

In total, 2 visits to the PP post, and 2 visits to the other PP posts. Very few visits today. Once again, the SS women are probably busy reporting the second MSSGSDW incident to the Secret Service tonight: it's probably because the Secret Service has not acted on yesterday's evidence that the Russians have ordered Homeland Security to remotely control the suspect to do MSSGSDW again!

24.10 M

5:45 AM, an associate of the SS women – could it be VJ? – has discovered the suspect's notice about Kiersten on his Facebook. She sends an email to Kiersten.

8:14 AM, Kiersten wakes up to find the message and, immediately, checks the suspect's Facebook page. She's incensed: how dare Lawrence expose my scheme on his Facebook page! What if other people see it? They will know that this obscene fake review is actually posted by myself!

Throughout the morning, the SS women appear to be mobilizing volunteers to falsely report the suspect for plagiarism. They are not just counting on the Secret Service. Since the MSSGSDW and the restroom key incidents are a tremendous boost to the Russians' case in the ICJ, the SS women are probably also busy supplying evidences to the ICJ trying to help the Russians win.

12:50 PM, a volunteer from Vijayawada, India, searches for 1.html. Is he conducting another status check? No, the website is still visible.

Perhaps the SS women are wondering whether the second MSSGSDW incident could have obliged the Secret Service to take action.

5:17 PM, a volunteer from Zurich (cust.swisscom.ch) looks up “The Cheney Plan”.

Again, the SS women are pulling out their horror story about this essay whenever they are frustrated by the Secret Service’s inaction.

6:59 PM, the SS women also make a complaint about the suspect’s chapter to Microsoft (Drake Holdings LLC),

1&qsn&sk=" "Mozilla/5.0 (compatible; MSIE 9.0; Windows NT 6.0; Trident/5.0; Trident/5.0)"

Recall that, on 17 May, the SS women were also complaining to Microsoft about this chapter. (At that time the Microsoft personnel was instructed to search for this chapter with different search terms.) Perhaps the SS women are instructed by the Russians to do this: any action which Microsoft should decide to take will become evidence in favor of the Russians in the ICJ. With the MSSGSDW and the restroom key incidents in place, the Russians are fixing their evidences.

False reports about the suspect’s plagiarism continue. Three visits today to “whyshouldwebejust.html” (two from St John's College in New York). There is also a visit today from Cal State Fullerton. 1 visit to the PP post, and 1 visit to the other PP post.

2:29 AM, a volunteer from Oslo (Bayonette AS) has heard the horror story (“The Secret Service has

25.10 T (the SS women resume heavy visitation)

Today the SS women will resume mobilizing a vast number of volunteers to visit the suspect’s website. 7 visits to Scientific Enlightenment chapters. Two visits to bensongoddesscloseup.jpg, one of which comes from Madison, Wisconsin. Are they still sending false reports to the Secret Service? Still supplying evidences to the Russians in the ICJ? 5 visits to the PP post.

A very notable visit occurs on 8:26 PM: shawcable.net, Calgary, Alberta,

By this time, Kiersten has also thought out a new story to tell the Secret Service and the volunteers – saying the suspect first posted the sexually obscene review about her on Dating Psychos and then posted a notice on his Facebook to slander her saying she posted it herself to frame him. When it came to the volunteers, she must have incensed them.

She is most likely looking over Kristin's Facebook page. Namely, to report to the Secret Service that the suspect indeed keeps becoming obsessed with famous women and stalking them on cyberspace.

From 5:30 PM onward, Karin is hosting her Any Language and Culture Meetup at the Amigo's restaurant.

Throughout the day, a lot of visits to the Scientific Enlightenment chapters from universities. The SS women are still capitalizing on the restroom key and MSSGSDW incidents by sending in lots of false reports about the suspect's plagiarism to the Secret Service – they still hope to convince the Secret Service that the Homeland Security warning, and their testimonies, about the suspect are correct and thus alter the dynamics in the ICJ.

Note that, 10:32 PM, SDW posts a reply to "Love Others"" message: gang-stalkers "received government support like welfare/ disability/ social security". Angry with the Secret Service's inaction even given the MSSGSDW incidents, she is again mocking the suspect, whom she presumes to be a

It seems that the Russians need another evidence in the ICJ suggesting that the suspect’s writings on the ICJ trial are a bunch of frivolous nonsenses. Perhaps in response to CIA’s new evidence. And so they instruct the SS women (via Homeland Security) to do this search in order to produce the necessary evidence. This, however, is a chapter on the previous (the first) ICJ trial. Why was the CIA introducing this chapter on the previous ICJ trial into the ICJ as evidence? This is a sign that the Homeland Security warning about the suspect has already been so sufficiently proven false and the SS women so indisputably demonstrated to be pathological liars that the CIA is ready to reopen the previous ICJ trial and introduce new evidence (the suspect’s “Secret History”) into it: the Russians thus have to present evidence demonstrating that the suspect’s “Secret History” is in fact about his love of videotaping people in violation of their privacy and not about anything intelligent such as pretending to harm Russia in order to save Russia. All this of course means that the Secret Service must have already dismissed the restroom key and the MSSGSDW incidents by arguing again, like the CIA, that *the suspect has the tendency to help the SS women by pretending to stalk them in order to enable them to complain about him.*

7:21 AM, the SS women look up the suspect’s Facebook page. This is the third time since he has posted the notice about Kiersten.

By noon, 3 visits to the PP post, and 1 visit to the other PP post.

From 2:30 PM onward, there are only 6 visits. Dr P is conferencing with the rest of the SS women. It’s now quite obvious that the SS women’s attempt to repeal the Secret Service’s decision (and regain their “victim” status) is going nowhere – even given the two MSSGSDW incidents and the “violation” of Dr P’s space (i.e. even given the suspect’s continual “stalking”). “He continues to stalk us and yet the Secret Service continues to conclude that our testimonies that he has harassed us and threatened us are not credible!” (The SS women have never understood the Secret Service’s conclusion that *the suspect frequently pretends to stalk them in order to help them.*) But, it’s all okay, for Dr P has developed another strategy. In the past four days, she has been talking to lawyers, police officers, and investigators. She has made an appointment for tomorrow. Tomorrow afternoon, she is taking everyone to meet with a detective (about the suspect’s fetching of the restroom key). Is it Detective Glorioso?

No. It's most likely the same detective from Hawthorne Police Department who was persuaded by the women to issue a ban on the suspect's website on 21 January this year. The SS women are now going to ask her to issue a ban again on the suspect's website. In this way, even though the Secret Service has proven to be a dead-end, the Russians can still obtain the evidence they need in the ICJ from the local police. The SS women are conferencing for the rest of the day about what arguments and what evidences to present tomorrow. You might think that the MSSGSDW and the restroom key incidents are such minor affairs that it's strange that Dr P should want to make such a big deal out of it. One must remember that Dr P is a hard-core practitioner of "safetyism" with the same old feminist double-standard: when she inflicts harm on others, it's nothing to be concerned with. But if other people dare tap her lightly on her shoulder, it's "violence against women" or "violation of women's space" and the most drastic measures are justified to neutralize the threat. One must also remember that the SS women are encouraged by the Russians via Homeland Security to resort to drastic measures: any positive response by the detective would become evidence in the Russians' favor in the current ICJ trial.

The suspect is at Stammtisch tonight. Then, afterwards, he is back in Westwood and staying at Denny's around midnight. He signs up hackerslist.co. He has produced another evidence to save Russia.

12:35 AM, the suspect has posted the link to his "Third ICJ trial: II" below his notice about Kiersten on his Facebook page.

3:28 AM, the SS women access the suspect's Facebook page for the fourth time: they would have seen the new link. It would appear that the SS women are still conferencing at this late hour. They have been discussing the matter on and off for almost 13 hours! They are checking the suspect's Facebook page one more time. Kiersten has requested that she be given a chance tomorrow to tell the officer her new made-up story about how the suspect has been harassing her on his Facebook page. She is determined to avenge herself on the suspect. It's her right to forge evidence to frame the suspect, but the suspect has no right to clarify and defend himself!

28.10 F (the SS women go to the police)

7:56 AM, the SS women access the suspect's Facebook page for the fifth time. They have had very little sleep. They are checking the suspect's Facebook page one last time in preparation for their "moment" this afternoon.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

The appointment is on 4 PM. Kiersten is very excited. If the detective takes the SS women's case and bans the suspect's website and Facebook, she will receive official police document to validate her as a "victim" of the suspect's continual "stalking". Again! She can then advertise it to everybody online to prove that guys *do* lust after her. Again! To perfect her persona as an "attractive woman with great intellect whom guys lust after", she uploads onto Vimeo the old film she has helped edit: "Partition". (Her *only* intellectual accomplishment in her life.) She then immediately announces it on Twitter. It is 12:30 PM or so. She's waiting anxiously at home for the appointment.

After 1 PM, there are no more visits to the suspect's website. So far, 6 visits (mostly decoys) and 1 visit to the PP post. It can be ascertained that, after 1 PM, the SS women have left their house and met together in a restaurant and so on. There are Karin, Angelica, Kiersten, Dr P, and SDW. SDW has come all the way to Los Angeles from Encinitas. By 4 PM, they are at the police station meeting with the detective. They give their argument. Dr P shows the detective the video of the suspect's entry into her office suite. They then present the volunteers' testimonies about the suspect's website and his other online postings: how the suspect expresses everywhere his delusion about their going after him as part of a government conspiracy in order to embarrass them. How he uses his website to violate their privacy by exhibiting on it recordings of his conversations with them without their consent. How he uses his website to plagiarize and exhibit drawings he has stolen from other people. Finally, Kiersten gives the detective the new story she has made up in regard to the suspect's Facebook posting about her: "He posted this obscene review on Dating Psychos to slander me, and then announced on his Facebook that I posted it to frame him." 4:24 PM, Kiersten shows the detective the suspect's Facebook page:

173.252.88.94 - - [28/Oct/2016:17:24:04 -0600] "GET /gallery/kickedoutdetail.jpg HTTP/1.1" 200 78305 "-" "facebookexternalhit/1.1 (+http://www.facebook.com/externalhit_uatext.php)"

The SS women spend the next 20 minutes not only requesting that the suspect's website and Facebook be banned, but also that special measure be taken to remove him from society. Dr P: "I'm a licensed psychologist. I can say, based on my expert experience, that he is extremely dangerous to us. He suffers from very severe paranoid schizophrenia and, as a consequence, believes in his delusional mind that we are going after him as part of some government conspiracy. Due to his severe delusion, he can never be awakened to the truth that he has imagined up the whole thing. He will never believe that our going after him is all but his imagination. Consequently, he will seek vengeance against us, not knowing that he is merely acting on his delusions. For this reason, he's extremely dangerous – especially since he lives in denial that he is delusional at all. You must remove him to jail/ mental hospital at once." To demonstrate the suspect's denial that he is delusional, 4:44 PM, the SS women call up their volunteer from Camden, South Carolina, to report to the detective what she sees him writing on his website (myvzw.com).

“He is saying that the psychiatric professionals have been mis-diagnosing him out of stupidity... He claims that believing people are going after him is not a sign of mental delusion...” Again, the SS women want a third party to report to the detective because, if the detective sees the suspect’s writing for herself, she is going to notice that this writing is in fact an academic exercise and couldn’t possibly constitute support for the claim that he is dangerous. By 5 PM, however, the detective has dismissed the SS women’s case on the ground that evidences are insufficient. The SS women are absolutely shocked – they were sure that they will succeed because Dr P is giving her “professional judgment” as a licensed psychologist and because Hawthorne Police Department has always been sympathetic with them. They somehow didn’t think of the fact that, because any law enforcement validation of their claim will become evidence in the ICJ to enable the Russians and their allies to escape conviction and then convict the United States of conspiring with a terrorist, the CIA cannot possibly allow them to successfully deceive the detective. The CIA must have ordered the TMU and the Secret Service to communicate to the detective beforehand their warning about this group of women. A group of fraudsters who like to pose as “victims” of this monstrous, misogynist “stalker” under the cover of “victim confidentiality” in order to scam law enforcement! The detective is surprised to learn this. She puts up an act of listening to the SS women’s pleas only because she is obliged to hide from them the fact that law enforcement has already investigated them as a gang of fraudsters.

There are no activities, from the SS women, on the suspect’s website between 5 and 11:30 PM. And only two decoy visits afterward. This indicates that the SS women are out all night tonight conferencing. They go to eat together after the meeting with the detective and then spend the rest of the night in Angelica’s house (or in Rolf’s house, for example) reflecting why they have failed so miserably. Kiersten is especially upset – and probably breaks down crying: her life-long dream of becoming officially validated as a victim of male sexual aggression is so close to fulfillment – and yet it falls apart once again. She has, in the past four years, invented so many lies and forged so many evidences to frame the suspect for stalking her, obsessing over her, and harassing her, and yet she could never get law enforcement (beside Homeland Security) to believe her. Dr P is equally incensed: somehow her “professional judgment” no longer means anything to the detective with whom she has developed a good working relationship. “This guy has been harassing us online and violating our space, and somehow the police just wouldn’t care! What a sexist country!” For SDW, what has happened today is again proof that the suspect is a “gang-stalker” under government’s employment and so protected by the government. The women somehow don’t understand that they are asking the United States to make a major sacrifice just to validate their fraudulent victim fantasy. The meeting is adjourned and the SS women return home only after 11 PM.

11 PM, noticing that the SS women have gone to the local police, the suspect posts a message on his Facebook page explaining that Kiersten must have changed her story about the fake review at Dating Psychos and then giving an outline of Dr P’s argument to the detective this afternoon. This would again become the Secret Service’s evidence enabling them to never accept any stalking from the SS women.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

From 6 AM onward, the SS women have resumed sending decoy visits to the suspect's website.

10:01 AM, another visit from the "Indian Group".

139.167.179.40 - - [29/Oct/2016:11:01:09 -0600] "GET /1/thermhch2.html HTTP/1.1" 200 38317 "-"

12:07 PM, the suspect is connected with Wes (from 2:05:00 onward). (1) About what happened yesterday: JTTF (wrong: it's the Secret Service!) didn't accept the SS women's appeal, and so the women have gone to local law enforcement. Dr P is involved this time. At DRPOFF to use the restroom (a week ago). By Monday the SS women have planned their new assault. Monday, Wednesday, conference, they are in court or with the police yesterday, and Dr P... The SS women are worried about his revenge. (Incorrect. They are pissed off at their loss of their "victim" status.) Kiersten has changed her story. What exactly has happened in court? The suspect is worried: when the women try local police, the local police don't have access to the terrorist databases. About Detective Glorioso. The suspect has correctly understood enough of the SS women's operation yesterday that the CIA is going to use his understanding as evidence in the ICJ to disprove the women's claim that he suffers from paranoid delusions about their going after him. Wes: "Does Dr P really believe you are a serial stalker... or is she making it all up?" "She's making it all up..." It seems that it's the Invisible Hand who has instructed Wes to ask this question: the CIA has already presented the entire episode of the SS women's blunder yesterday at the police station to the ICJ as evidences confirming their claim that these women are a bunch of tricksters and false complainers, and now they also want to use the suspect's assessment of Dr P as evidence in their favor (that Dr P, a licensed psychologist, doesn't have a clue about the suspect's psychology while the suspect, without any degree in psychology, has a far better understanding of Dr P's personality and mindset). (2) Will the SS women continue to pass around Homeland Security's warning about him? The suspect doesn't yet know that the ICJ judgment from 3 August has effectively prevented the SS women from further utilizing the Homeland Security warning about him in any official communication. Wes: "The fact that you have campaigned for Trump, that doesn't help you either..." The suspect: "... and so I continue to suffer from US government actions, that Homeland Security profile is still circulating... More than 25,000 people have seen it..." This is more or less correct. (3) About Habermas and Luhmann, digitalization as McDonaldization of communication, and dummification (from 2:35:00 onward). Wes' examples (from 2:43:00 onward). The "objectification of the mind". (4) The suspect: "My preconception impedes my understanding of the current situation..." Wes' puzzle (3:04:00). Wes: "What if your assumption is wrong? What if the German Lady [Karin] is the Mexican girl [Angelica]?" It's not clear why Wes is saying this. (Probably something to be taken backward in time to be pasted somewhere in the evidentiary record of the previous ICJ trial.) (4) The suspect: "I have wasted 9 years on this ICJ trial..." Wes: "Don't waste more..." The suspect: "I'm going to achieve equality with everybody else..." Wes' story about the pope: you might be lucky that you don't know; how do you know you really want to know? Perhaps Wes is hinting at the situation: if the suspect knows *why* there is this debate about him – because the CIA wants to reactivate the previous ICJ trial – then the CIA would not be able to do so and he will be

condemned to forever *be* Homeland Security's horrifying conception of him. When the suspect hangs up, it's 1:33 PM. As usual, all the philosophical exchange between the suspect and Wes will probably become evidence in the ICJ in the CIA's favor.

There are no activities from the SS women on the suspect's website between 10 AM and 2:30 PM. It's possible that they have met up with Homeland Security CO chief again and gone with him to Homeland Security's control center. They would then be able to listen to the suspect's conversation with Wes in real time between 12 and 1:30 PM. This would help them brainstorm new strategies.

Between 2:30 and 9 PM, there are only two decoy visits. This indicates that, after they have met with Homeland Security CO chief, they then stay somewhere to continue to conference about their current predicament: their inability to repeal the Secret Service's removal of their status as victims of the suspect's terrorism and their inability to petition any other authority about removing the suspect's website. And they couldn't do anything to avenge themselves on the suspect for the recent acts he has performed to provoke them. And, most important of all, they couldn't help Russia win in the ICJ.

By 9 PM, the SS women have returned home. Conclusion: continue to report the suspect's website to the Secret Service to prove that their profile of the suspect, and the Homeland Security warning about him, is correct (and, in this way, to help the Russians and their allies win this ICJ trial). They really have no other option.

message “Kiersten has now changed her story”.

7:10 AM, the SS women instruct a volunteer from Kolkata, India (a member of the “Indian Group”?), to forge evidence for the suspect’s plagiarism (Reliance Jio Infocomm).

12:09 PM, the SS women send in a volunteer from Montreal (dsl.bell.ca) to look up “My experience...” – presumably to gather a testimony about how the suspect has harassed people (Gaurav and Angelo) by writing about their being part of a government conspiracy,

69.157.189.162 - - [31/Oct/2016:13:09:53 -0600] "GET /correlate_revised_no_summary_126-/correlate_revised_no_summary%20126_(secure).pdf HTTP/1.1" 200 931526 "https://www.google.ca/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_12_1) AppleWebKit/602.2.14 (KHTML, like Gecko) Version/10.0.1 Safari/602.2.14"

Again, in the hope that this testimony might somehow substantiate for the Secret Service that their testimonies about the suspect (and so the Homeland Security warning) are correct.

6:55 PM, Kiersten posts on her Facebook page – the first time since 30 September: a temporary profile picture: “I heard a distress signal coming from your planet, so I have beamed myself here to help. What can I do?” (A picture of herself in Halloween makeup.) It appears that this is unrelated to the current operation: she’s trying to build up her persona for her online friends before going to some Halloween party tonight.

Throughout the day, the SS women continue to gather testimonies about the suspect’s plagiarism. Two visits to the PP post today.

A strange visit on 12:31 AM: myvzw.com, US, Google search gives “Aliso Viejo, California”,

In the early afternoon, the suspect is in the courthouse checking the case summary index to see if the SS women have been granted a temporary restraining order against him. He wrongly suspects that they have gone on Friday to the courthouse to request a restraining order on him. But no.

Everybody is working hard to brainstorm how to prove to *any* law enforcement authority that the SS women are all right about the suspect – since the Russians are waiting desperately for good evidence in the ICJ to save themselves.

11:07 PM, Kiersten posts on her Facebook again (she has just posted last night).

Late in night, the suspect downloads DRP's picture. 12 AM or so, he also writes a message to a hacker (hebru71). Before 1 AM, the hacker has already responded. This is again evidence in the Russians' favor in the ICJ, enabling them to temporarily avoid being convicted and lock up the previous ICJ trial.

3:13 AM, the Val-d'Or, Quebec, volunteer looks up the PP post (cablevision.qc.ca). He was last here on 12 October and 1 August. (And also before that.)

24.212.38.230 - - [02/Nov/2016:04:13:07 -0600] "GET /2012/61812-39.png HTTP/1.1" 200 225868 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 6.2; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.71 Safari/537.36"

As the SS women make intense efforts today in mobilizing their volunteers to report the suspect's plagiarism to the Secret Service, the Val-d'Or volunteer, having heard the SS women's latest blunder ("How sexist the police are in America!"), comes to look at the same PP post to which he is assigned to see if he can help in any way.

02.11 W

5:45 AM, the Val-d'Or volunteer clicks on "New Summary" from the PP post. He has been examining the thread for two and a half hours! He is trying hard to come up with ways to prove to the Secret Service that everything the SS women have said about the suspect is correct.

24.212.38.230 - - [02/Nov/2016:06:45:28 -0600] "GET /summary2016_8/summary2016_8g.pdf HTTP/1.1" 200 577595 "http://forum.prisonplanet.com/index.php?topic=260320.0" "Mozilla/5.0 (Windows NT 6.2; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.71 Safari/537.36"

Then, another noteworthy visit from the SS women today on 9:48 AM: Hormouud Telecom Somalia, Turkey,

41.78.75.37 - - [02/Nov/2016:10:48:26 -0600] "GET /soft/soft.pdf HTTP/1.1" 200 636597 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/43.0.2357.124 Safari/537.36"

There is quite a lot in this document which can be used to confirm for the Secret Service that the Homeland Security warning, and the SS women's testimonies, about the suspect are correct: "delusions" about Ekaterina, hate speech against the SS women, and racist comments about Mexicans.

Between 12:25 and 12:50 PM, the suspect is in communication with hebru71. Scared, the suspect decides in the end not to hire him. Otherwise the Russian side would have obtained a most important shield against being convicted, in both the current and the previous ICJ trial.

Meanwhile, throughout the whole day, the SS women continue to mobilize their volunteers to make false reports about the suspect's plagiarism. An interesting instance is this: 3:15 PM, Quantil, Pasadena,

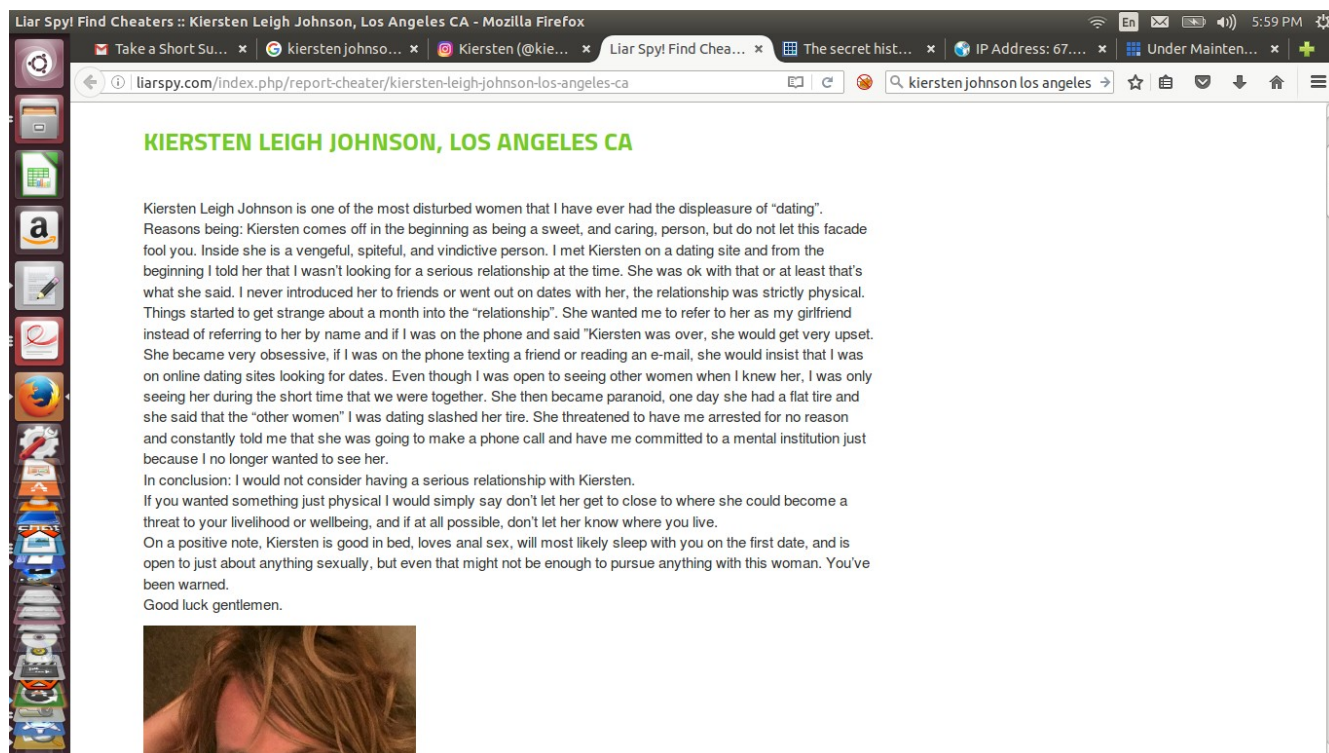

8.37.234.211 - - [02/Nov/2016:16:15:06 -0600] "GET /scientificenlightenment1/yixuai222.html HTTP/1.1" 200 5955 "https://www.google.co.id/search?hl=id&ie=ISO-8859-1&q=diagram+qian+xun+gen+ken" "Mozilla/5.0 (Linux; U; Android 6.0.1; en-US; MI 4LTE Build/MMB29M) AppleWebKit/534.30 (KHTML, like Gecko) Version/4.0 UCBrowser/11.0.5.850 U3/0.8.0 Mobile Safari/534.30"

All the members of the "Quantil Group" are Indians (in India or in the US). But this person from the "Quantil Group" is apparently in Indonesia (note however the "en-US" in the user-agent). The "Indian Girl" from November last year has advised this volunteer as to which proxy to use.

Some time today, Kiersten would remove her negative review of herself at Dating Psychos. The past five days must have been difficult for her: she's so worried that other people might find out that she has posted it herself. She would then repost the review on liarspy.com. She has invented a new story about it for her audience.

7:30 PM, the suspect is at LA2600 meeting. The CIA might be debating with the Russians in the ICJ about whether the suspect really constitutes a “hacker”.

The SS women’s volunteers look up the PP post 5 times today.

After 7 PM, SS women seem to be conferencing. Very few visits since late afternoon. Apparently, after spending half of the day reporting the suspect’s plagiarism to the Secret Service, they decide to take a break. The burning question remains: how to prove to the Secret Service that the suspect plagiarizes?

10:33 PM, the SS women check on the suspect’s Facebook page and discover his message from last night: “Kiersten has removed her fake review at Dating Psychos”.

1:30 PM, the suspect is at Null Space Lab. More instances of the suspect’s “computer-hacking” for the CIA and the Russians to debate over.

7:23 PM, a volunteer from Elmhurst, New York, discovers “Timeline-02-14” (nycmny.east.verizon.net). The SS women have at last discovered this new document.

06.11 Sun (Wes)

Kiersten would tweet 8 times today. Her first time since 3 November.

10:10 AM, the suspect is connected with Wes. (From 19:55 onward.) (1) Abducted by creepy Trumpers, clowns, and the Russians. Is Wes trying to convey something to the suspect? (2) The SS women tried to file a TRO. No success. (Wrong scenario.) "They gained access to our conversation and decided not to use local resources. The ICJ trial has never finished, and so the Russians continue to need evidences. That explains why the SS women will never stop." Correct! The suspect complains: Other people don't need to spend 4 hours a day tracking visits to some website and reconstructing the operations behind their back. "They have visited my website 37,000 times. The Russians are more humane, they don't use the control center to torture me. My presupposition is incorrect, which has hampered my understanding of the current situation." All correct. (3) About Ritzer's McDonaldization thesis. The Internet. The suspect wants to study under Honneth. Wes: children in affluent families do better at schools because their homes are quieter which allows them to concentrate better. (4) The suspect complains that his previous writings were not as well written as he has thought. (He is now rewriting his chapters on the previous (the first) ICJ trial.) These dumb women's operations are harder to reconstruct than the intelligence agencies' operations during the previous ICJ trial. "They beat me because they enjoy overwhelming superiority in time and money. They are able to waste their money." (5) The suspect wants to be at the center of the Frankfurt School. (6) Wes went to a concert last night. (7) The suspect says to Wes again: "You possess the secret knowledge I'm seeking." Kiersten has removed her fake review of herself. (The suspect is as yet unaware that Kiersten has already reposted it elsewhere.) The SS women have been passing out the Homeland Security warning about him as a "terrorist" like baseball cards. "Although it's pleasurable to see people being duped by them like this, I'll have problems later in my life when so many people have seen the warning... They use me to make friends, Kiersten needs to pretend to be a victim of sexual violence against women in order to make friends... That ties in with the McDonaldization thesis, they can convince people because their lies are simpler... In a McDonaldized world, it's easy to slander people, but difficult for the victim to recover from slanders..." Wes: People are not simply becoming more stupid, it's the elites who are becoming stupid as well. The suspect: You don't want to run into Kiersten, she is a sociopath always looking for people to victimize. The suspect needs to go back to academia. What if he runs into people who have seen the Homeland Security warning? Daniel and Nathan. Wes continues to try to persuade the suspect that, in academia, people will not be affected in their attitude toward him even after seeing the Homeland Security warning about him.

Two comments are in order: (1) It is of no small matter that the suspect, after discovering that the chapters he has already written of the Secret History – from China's conviction to the day he left for Nicaragua, although not so much his two "Ying and Yang" chapters – are badly written, has decided to rewrite them. In order for the CIA to reactivate the previous ICJ trial and introduce his chapters as new evidence, he needs to be as far away from the Homeland Security warning about him as possible: the better the literary quality of his writings (not simply his confession that he has conspired with Russia),

the better they are as evidence. Somehow, from 2011 onward, the suspect's English writing skill has declined, and only lately does he start recovering it, and he will soon improve vastly upon it. (2) The suspect, if he knows what's going on, will definitely give up any hope of returning to academia: no professors will take him seriously as soon as they shall have seen the Homeland Security warning about him. That's how bad the warning is!

1 PM, the suspect is at Amber's Political Cafe. He is surprised to discover that she has apparently nothing to do with Karin.

7:37 PM, Kiersten is showing the suspect's Facebook to another volunteer: the third view since he has posted the new message about Kiersten's fake review of herself. Kiersten continues to broadcast her new story about this fake review to anybody she can find.

Far fewer visits today. The SS women are conferencing today.

Kiersten goes to vote in the morning. 11:30 AM or so, she tweets about it. She would retweet other people's tweets many times today. 19 Tweets in total. After Trump has declared victory, she would retweet other people's anti-Trump tweets – and yet she is about to love Trump very much.

The suspect would vote as well: for Stein.

This is a testimony about how the suspect is dangerous because he denies that he is delusional (Dr P’s 28 October argument) and how he has set up this large website with thousands of pages describing his bizarre delusions about the government conspiracies against him in which he believes his women victims (the SS women) are intimately involved.

The SS women are virtually inactive on the suspect’s website between 7 PM and 1:30 AM.

It’s most likely the case that, on 9 November, Wednesday, representatives from National Front and the Russian government are discussing with Trump’s team about the current ICJ trial over the suspect. The discussion could be indirect, via Homeland Security CO chief. The Trump team is made aware of the predicament of the Russians and their allies: they are debating with the CIA in the ICJ about whether the SS women’s testimonies about the suspect are correct or whether the TMU’s and the Secret Service’s conclusions about the SS women and the suspect are correct. If the Russian side could prove that the SS women’s testimonies are correct – if they could prove that Homeland Security’s profile of the suspect is correct – then they could convict the United States and obtain an ICJ judgment requiring the United States to help Marine Le Pen come to power in France while locking up this “previous ICJ trial”. If, on the other hand, the CIA could prove that the TMU’s and the Secret Service’s conclusions are correct – that the SS women are a bunch of pathological liars and that the suspect is not what they have described at all and has never intended to harm the National Front – then they could convict Russia and its allies of conspiring with a bunch of “terrorists” (the SS women) to fraudulently bring Marine Le Pen to power via an ICJ judgment *while reactivating the previous ICJ trial and convicting Russia there one more time*. Although the Secret Service has already months ago communicated to the Trump campaign that the suspect is not a threat to Trump and removed his status as a “terrorist” and the SS women’s status as victims of his “terrorism”, the Trump team, emboldened by their victory, decides

to help the Russians. The Trump team thus affirms that Homeland Security's warning about the suspect is correct – that the suspect has joined Trump's campaign back in March in order to destabilize it. That is, contrary to the Secret Service's conclusion, the Trump team affirms that the suspect's words about being an "unreliable bigot" should be taken literally rather than as sarcastic remarks designed to save Trump's campaign. Yesterday and today, the Trump campaign thus begins communicating with the SS women to obtain their "expert testimonies" about this "misogynist and racist schizophrenic and plagiarizing and impersonating terrorist stalker" who has supposedly joined Trump's campaign intending to harm Trump. The SS women are absolutely jubilant: they have been living in a limbo since 28 October and are clearly going nowhere – who could have predicted that Trump will win the presidency and then come to their aid!¹⁶ On 10 November, the SS women are talking to the Trump campaign between 11:30 AM and 2 PM – the Gnarrenburg volunteer and the Hong Kong volunteer are third party witnesses whom the SS women have summoned to tell the Trump campaign about this demonic website. Then, today, the SS women are talking to the Trump team from 5 to 6 PM, and have summoned this volunteer using a proxy to report to President-Elect what he sees on the suspect's website. (As usual, the SS women have requested "victim confidentiality": "Please don't look at his website in order to protect our privacy. Let us find third parties to tell you what's on it.") The SS women repeat the same old story that the suspect uses his website to terrorize them by expressing on there bizarre delusions about their being part of some government conspiracy to go after him (10 November), that he pronounces hate speech against white women on his website, and that he is dangerous because he doesn't believe he suffers from schizophrenia and all that government conspiracy stuff is merely his imagination. You can expect that, tomorrow morning, the Trump team, with the SS women's testimonies as evidences, will request to become a party to the current ICJ trial on the side of Russia, the National Front, and the AfD, claiming (1) that the suspect has also attempted to harm them by trying to entrap Trump in a terrorist conspiracy with him (by using his terrorist status to harm him) and (2) that the suspect's motive is supplied by the expert witnesses in his case, namely the SS women, that, whenever he becomes obsessed with somebody, he would want to hurt him or her (again, as if Trump were some sort of delicious meat). The Trump team, in other words, now officially disputes the results of the Secret Service's investigation and is making itself the enemy of the CIA.

The SS women are also sending along all the "expert testimonies" about the suspect's plagiarism to the Trump team – this is why there are so many visits from universities and respectable academic institutions to Scientific Enlightenment images in the past three days. The last report is made on 6:51 PM tonight: 165.123.184.12, rodin11.labs.collegehouses.upenn.edu, University of Pennsylvania, Philadelphia. (This might be the computer lab in the Rodin College House, Room 102).

16 You must recall that, on 27 February, Wes said to the suspect that Trump will save him when he becomes the president. Ha! It must be the Macrospherians who have instructed Wes to say this – for Wes was evidently communicating a "secret message" to the SS women while talking to the suspect. In other words, producing evidences for the previous (the first) ICJ trial. In the evidentiary record of the previous ICJ trial, as noted, the suspect was interchangeable with any of the SS women.

There are few activities after 7 PM because the SS women, after spending two days supplying testimonies to Trump's team, are taking a rest.

Trump's motive is pretty obvious (of course he doesn't actually believe that the suspect is a danger to him nor that the SS women's descriptions are anything other than bullshit). He knows that he will run into severe resistance from the national security Establishment when he enters the White House and begins implementing pro-Russia policies. He wants an ICJ judgment *requiring* the United States to help Russia and the National Front so that the Establishment couldn't oppose his plans. By becoming a party to the current ICJ trial on the Russian side, however, Trump has severely offended the CIA. In the eyes of the CIA and the US national security Establishment, he is committing treason – just when the CIA is about to convict Russia two times, *both* in the current *and* in the previous ICJ trial, this man suddenly saves Russia with evidence that Homeland Security is right about this suspect after all; in fact, *he is trying to convict the US Establishment of conspiring with a terrorist (the suspect) to harm Russia and its allies while locking up the previous ICJ trial.* This is the true origin of the upcoming conflict between Trump and the intelligence community (the “Deep State”).¹⁷ Of course the news wouldn't report that the conflict in fact traces its origin to Trump's dispute of the results of the Secret Service's investigation concerning a “terrorist stalker” who has joined Trump's campaign at one point.

Meanwhile, the SS women want to add to their “expert testimonies” the claim that the suspect has also been harassing famous people and ordinary citizens by putting up their portraits on his website without their consent. 11:59 AM, a Manchester volunteer looks up “drawla15.jpg”:

¹⁸ Perhaps this is about re-registering the suspect in California’s terrorism database as Homeland Security CO chief has tried to do on 14.11.2014.

The third ICJ trial over the suspect, X
Lawrence C. Chin,
15.06.2017; later corrections; rev. 12.11.2021.

It seems that, following the suggestions of the National Front and the AfD, the Trump team wants to invite Geert's Freedom Party to join the current ICJ trial on the Russians' side. On Homeland Security's order, the SS women therefore order their volunteers to forge evidence showing the suspect becoming obsessed with Geert, trying to harass him, and wanting to hurt him with his terrorist status. The debate about the suspect in the ICJ – whether he is really this “misogynist and racist schizophrenic and plagiarizing and impersonating terrorist stalker who wants to hurt whoever he loves” – continues to enlarge to ridiculous proportion.

It seems that somebody in Tallinn, the “Tallinn volunteer” (elisa.ee), has just been mobilized to join the SS women's latest campaign. She might be related to the Tallinn volunteer from 5 October – thus another friend of Ekaterina's. In any case, the SS women also assign her to the PP post. 2:31 PM, she shows up for the first time:

```

We also have to wonder whether this might be the same Tallinn volunteer seen for the first time on 1 November, 2013. (The Tallinn volunteer from November 2013 was also assigned to the suspect's postings on the PP forum.)

Then, minutes later, on 2:37 PM: mycingular.net, Silver Spring, Maryland,

We have to suspect whether this is in fact the Baltimore Lawyer – of whom we shall see more momentarily. Recall that, whenever she goes to Washington DC, her ISP will change from Verizon to AT&T MyCingular. This means that, now that Trump has reaffirmed the Homeland Security warning about the suspect, Dr P quickly sends her best friend to Washington DC, probably to the National Counter-Terrorism Center again, to re-register the suspect into the terrorist databases. While the previous volunteers are reporting and proving how the suspect keeps becoming obsessed with famous politicians, both the Tallinn volunteer and the Baltimore Lawyer are testifying that the suspect has indeed developed bizarre delusions about his women victims.

The SS women are mostly inactive on the suspect's website between 4 PM and 12 AM. Only one decoy visit. It appears that today continues to be a very busy day for them. The SS women are busy all night communicating with the Trump team, the Partisans, the AfD members, and also Geert's followers.

12:15 AM, they send in a volunteer: lv.lv.cox.net, US,

Could this volunteer be related to the Las Vegas volunteer seen on early morning, 4 October? It seems that the SS women are supplying another testimony about the suspect's supposed habit of impersonating other people on the Internet. This is to support the Russians' use of the old Homeland Security document saying the suspect is his twin brother David Chin pretending to be himself Lawrence Chin.

13.11 Sun (Wes)

The suspect is connected with Wes on 10:34 AM. (1) Wes immediately makes a comment about Trump, saying the suspect has wanted Trump to win because he wants to use Trump to destroy this country. The suspect retorts: "What I'm really concerned about is whether Trump's winning is related to my ICJ trial." Wes: "Probably not". The suspect affirms that he doesn't see how Trump is going to destroy America. Wes is evidently passing along the Secret Service's questions for the suspect – the Secret Service has wanted Wes to talk to the suspect in order to gather evidences for the newly emergent debate. The Invisible Hand knows why the suspect is pro-Trump – he has heard his reasoning a dozen of times. The suspect's reasoning is entirely rational calculations on the basis of an anti-neoconservative and pro-Russia ideology, which itself is the result of his natural inclination to protect the weak and the victim from the strong and the victimizer. In other words, the suspect is pro-Trump because he has a strong sense of justice and belief in equality. By distorting the suspect's reasoning into something perverse and malicious, the Invisible Hand is trying to provoke him to defend himself – frustrated with being misunderstood, the suspect will then explain his reasons again. The CIA will then take his reasons to the ICJ as evidence to discredit the SS women's analysis ("He wants to harm Trump because, whenever he loves somebody, he wants to hurt him") and Homeland Security's profile ("He constantly wants to hurt America") and to disprove the case which the Trump team, the Russians, and the growing number of their allies are making in the ICJ. However, the suspect doesn't bother to explain his reasons again. Nevertheless, the CIA is expected to use the suspect's suspicion that Trump's winning has something to do with his ICJ trial as evidence to disprove any claim that the suspect intended to destabilize Trump's campaign back in March: he *knows* that, if he tries to hurt Trump with his terrorist status, he will enable him to win. (2) The suspect laments about his discovery that his ICJ trial story was badly written. He is currently revising it again. "The way Mr Chertoff has neutralized my 'threat': so much anger, so much injustice... I want to get validated for that... Now I don't even know whether Trump's victory is related to my ICJ trial... We have to wait for May next year to see whether Marine Le Pen will win. Trump can't go against all the Republicans with his pro-Russia agendas..." Then about the uneven quality of the suspect's writings. (3) "The SS women never quite believe there is a warning about them." This is the suspect's false understanding. (4) About the suspect's new McDonaldization thesis. The Internet has eroded his writing skill. Also, people's greater dependence on established wisdoms. (5) Wes is criticizing Trump: an elite who has duped the working

class. Wes might be saying this per the CIA's and the Secret Service's instruction. The Invisible Hand is still trying to provoke the suspect to defend Trump, and yet he says nothing. (6) About the Electoral College. (7) About the alert which Homeland Security had broadcast about the suspect in Frankfurt in 2008, and the copy of "My experience..." which the suspect has secretly deposited on the shelves in the University of Frankfurt's library. Honneth might have seen the alert about the suspect. (8) Wes talks about his spelling and writing. (9) The suspect's fantasy. (10) Is Wes plagiarizing the suspect's commentaries about the "sacralization of victims"? "You don't have to do anything special to become a victim, I know that, I wrote about it... I feel so sad, I'm the mother of all victims, and yet it's not known... In the future I will run into people who have seen the warning about me..." Wes: "Worry about it when it happens..." "I'm not getting power from being a victim because nobody knows I'm a victim..." (11) The suspect: "It will be strange that the Russians couldn't get the results they want in this ICJ trial..." Indeed! (12) The suspect: "You are so lucky to be in possession of the secret knowledge I'm seeking." Wes plays dumb and denies it all: "The secret knowledge is that I don't really possess it... You don't really know how little I know... They just want to make you suspicious of me... Your calculation is often very wrong..."

Between 10 AM and 12:30 PM, SS women send in three volunteers to look up the PP post – including one from Los Angeles on 11:30 AM: T-Mobile USA,

Thus more volunteers are coming to confirm the SS women's claim about how the suspect has terrorized them by spilling out on online forums his bizarre delusions about their going after him.

2:32 PM, SS women send in a volunteer from Astoria, New York, to look up meetup_fake_memb_1.pdf. One more time (nycmny.fios.verizon.net):

108.6.112.207 - - [13/Nov/2016:15:32:55 -0700] "GET /petition-/attachment23/fake%20profiles%20at%20meetup.com/www.meetup_fake_memb_1.pdf HTTP/1.1" 200 164724 "https://www.google.com/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_12_1) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/54.0.2840.71 Safari/537.36"

The SS women continue to consolidate their claim about the suspect's supposed habit of impersonating other people online.

5:49 PM, the Tallinn volunteer from yesterday comes to check on the PP post again. Her second time.

8:54 PM, the Tallinn volunteer checks on the PP post for the second time today. All these visits to the PP post today are indication that the CIA is fighting back and (for example) the NCTC is voicing skepticism about re-registering the suspect in terrorist databases.

We must also assume that the Secret Service is getting ready to deny the SS women's request for "victim confidentiality". It seems that, by monitoring the SS women's communications and receiving reports from confidential informants, they already know what the women are up to tomorrow. They are making preparation to ward off the women's assault tomorrow. Trump might have used his power as President-Elect to order the Secret Service to respect the SS women's "victim confidentiality" – this is the only possible way for the Russian side to win – but, clearly, allied with the CIA and the rest of the US national security Establishment, the Secret Service is not about to comply. Meanwhile, the CIA is submitting the first round of evidences to the ICJ – the debate over re-registering the suspect in terrorist databases – since Trump's team has become a party to the trial.

9:40 PM, the Tallinn volunteer comes to check on the PP post for the third time today.

10:07 PM, the Tallinn volunteer comes to check on the PP post for the fourth time today. Again, this is a sign that yesterday's attempt to re-register the suspect in terrorist databases has been reversed today.

8:30 AM, Language Mark sends the suspect a job offer via ProZ: 196:207.74.92, Ani Network Pvt, Delhi. This might mean that the SS women want to make use of the "David Chin" document again: under Russian order, they are looking for concrete evidences again confirming that this is the suspect's genuine confession.

10 AM, the suspect can't log into Bluehost because it's "under maintenance". Is the Secret Service checking the suspect's website to obtain proof that it contains none of the bad things which the SS women have ascribed to it?

The third ICJ trial over the suspect, X
Lawrence C. Chin,

Now that the Trump team has joined the ICJ trial and declared – with the power of President-Elect – Homeland Security’s false warning about the suspect as a terrorist to be correct and valid, the SS women are ready to pursue their next step in forcing the Secret Service to restore their status as “victims of terrorism” and the suspect’s status as a “terrorist”. For this, they need to send the Baltimore Lawyer to Washington DC again. This time, to go meet with the Secret Service agents to file a complaint about the latter’s violation of their “victim confidentiality”, to file a stalking claim on behalf of all of the suspect’s “victims”, and to request the restoration of the women’s victim status and a ban on the suspect’s website. In this way, the Russians can intercept again evidence into the ICJ to enable them to not only preserve the conviction of Homeland Security CO chief and NULND but also to lock up the previous ICJ trial. The SS women might have connected up with the Baltimore Lawyer around 12 PM. 12:26 PM, they direct her to the suspect’s website: 68.134.23.247, bltmmmd.fios.verizon.net, Elkridge, Maryland. Just like two days ago, the Baltimore lawyer is using her iPhone.

The SS women discuss this “Secret History” with her for 6 minutes. 12:32 PM, they direct her to click on links.html.

The SS women direct her to click on the link to Marine Le Pen’s website while explaining the task to her: “We must also get the Secret Service to acknowledge officially that he is stalking and harassing Ms Le Pen. He links to her in order to use his bad reputation as a terrorist to defame her.” By 12:37 PM, the Baltimore Lawyer has clicked on the “back” button on her browser and returned to the external links page:

By 1 PM, the Baltimore Lawyer has left home and is now driving to Washington DC. It’s 4 PM local time. By 4:16 PM, or 7:16 PM local time, the Baltimore Lawyer is with the Secret Service filing the claim on behalf of the SS women, the Trump campaign, the National Front, and all the other famous victims of the suspect’s, requesting them to retract their August decision on account of their violation of the women’s “victim confidentiality”, to respect it this time, and to ban the suspect’s website. Kiersten, not wanting to be left out – wanting to emphasize that the suspect is also obsessed with her and wants to devour her out of sexual lust for her – instructs a volunteer using Google proxy (Crawfordville, Florida) to call in to report that the suspect threatens her on this document out of obsession with her

The Baltimore Lawyer discusses the matter with the Secret Service for another hour. The SS women must be participating in the discussion as well via video conferencing. Karin is so involved that she has canceled her meetup tonight. 5:30 PM, whether or not it is due to the Secret Service’s resistance, the SS women need the Baltimore Lawyer to reinforce their case. They direct her to look at the suspect’s website again:

166.216.165.17 - - [14/Nov/2016:18:30:15 -0700] "GET /1.html HTTP/1.1" 200 10682 "https://www.google.com/" "Mozilla/5.0 (iPhone; CPU iPhone OS 10_1_1 like Mac OS X) AppleWebKit/602.2.14 (KHTML, like Gecko) Version/10.0 Mobile/14B100 Safari/602.1"

Note that the Baltimore Lawyer’s IP address is now traced to Alexandria, Virginia – mycingular.net as usual – two miles south of Washington DC. This reveals that she might be at the Secret Service’s office south of Capitol Hill.

Within 8 seconds, the SS women direct her to:

They want her to tell the Secret Service that the suspect also talks about committing crimes on his website – for which reason the Secret Service should never look at it. But the blog postings they are looking for are no longer there. And so, 30 seconds later, the SS women direct her to do another search for the suspect's website:

5:32 PM, the SS women direct her to “American response”:

This is the evidence which the SS women direct the Baltimore Lawyer to submit: “He has been obsessed with the Le Pen family and writes about them here. Here he describes ways to harm them. He's also aiming to defame them by associating his name with their name on Google search results and so on.” 5:33 PM, the SS women direct the Baltimore Lawyer to click on links.html again.

It's past 9 PM in Washington DC, and the Baltimore Lawyer has been discussing the suspect's case with the Secret Service for two hours already. To round up their case, the SS women direct the Tallinn volunteer to report to the Secret Service that the suspect has also been terrorizing them on the PP forum (by spilling out his delusions about their going after him, which makes him a danger to them because he denies believing people are going after him constitutes insanity).

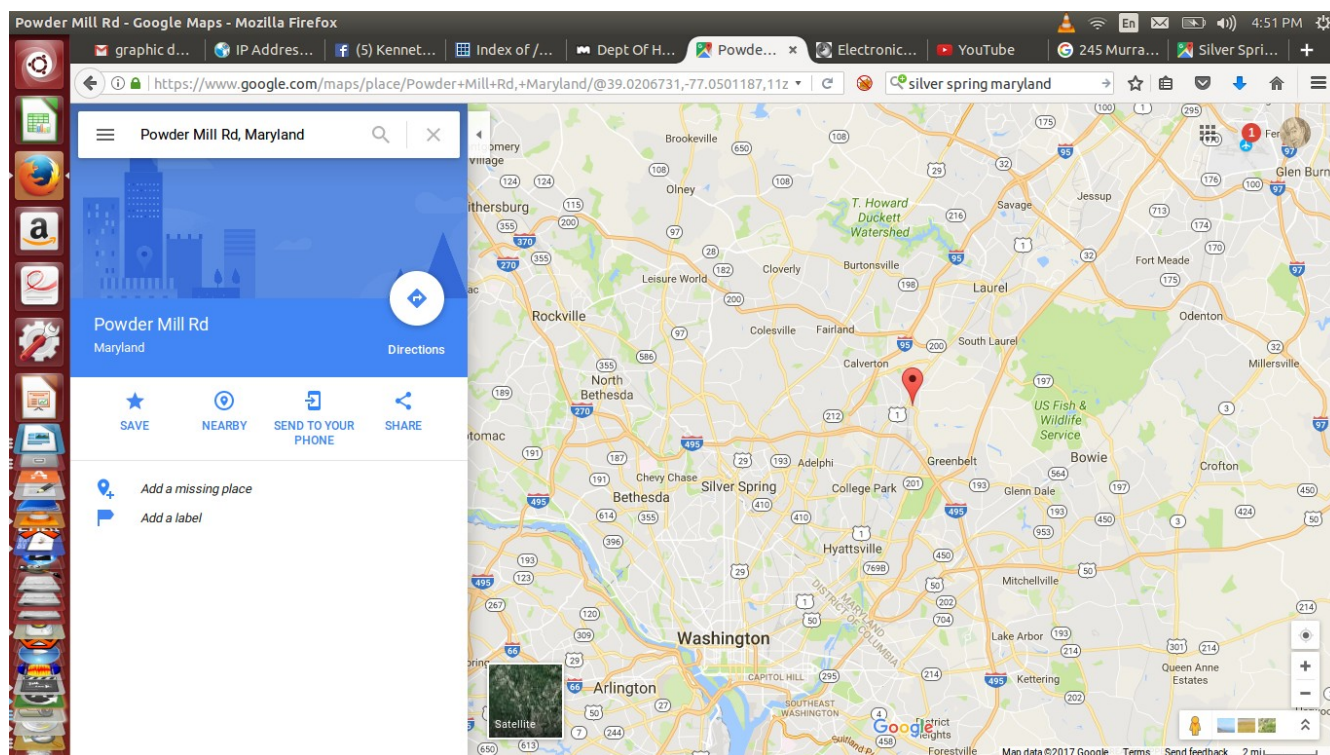

Some time past 7 PM (or 10 PM local time), the Baltimore Lawyer has left the Secret Service's southern field office. By 8 PM, or 11 PM local time, she is in another location north of Washington DC.

The third ICJ trial over the suspect, X

8:02 PM, the SS women direct her to look at the suspect's external links page again:

166.137.240.60 - - [14/Nov/2016:21:02:02 -0700] "GET /dot_clear.gif HTTP/1.1" 404 1322

This time her IP address (mycingular.net) is traced to Silver Spring, Maryland. This indicates that she is probably at the Secret Service's northern field office (Powder Mill Road, Laurel, MD 20708). She is now directed to file the case on behalf of the SS women, the Trump campaign, the National Front, and all the other "victims" with a different Secret Service division.

Then, 8:05 PM, the SS women direct the Baltimore Lawyer to look at the other PP posting:

166.137.240.60 - - [14/Nov/2016:21:05:34 -0700] "GET /2012/rosen.jpg HTTP/1.1" 200 77097 "http://forum.prisonplanet.com/index.php?topic=166020.0" "Mozilla/5.0 (iPhone; CPU iPhone OS 10_1_1 like Mac OS X) AppleWebKit/602.2.14 (KHTML, like Gecko) Version/10.0 Mobile/14B100 Safari/602.1"

The SS women direct her to submit this as evidence: that the suspect likes to surf the Internet under false identities and that he suffers from such severe paranoid schizophrenia as to believe in the existence of electronic chips inside his brain. This makes him very dangerous. After discussing this with the Secret Service agent for 13 minutes, the SS women direct the Baltimore lawyer to come back

The SS women also want the Baltimore Lawyer to submit this as evidence: that the suspect utters hate
speech against white women on his website by comparing them to chimpanzees and denying they are
disadvantaged in the legal system. Then, three minutes later, 8:23 PM, the SS women direct her to
"Synopsis of the CIA's argument":

The SS women also want the Baltimore Lawyer to submit this as evidence: that the suspect suffers
from such severe paranoid schizophrenia as to believe that he is entangled in a government conspiracy
which involves the CIA and the International Court of Justice and so on. 9:29 PM, or 12:39 AM local
time, the Baltimore Lawyer comes again to the index page.

It's a good estimate that, while the Baltimore Lawyer is in the southern field office for about three
hours, from 7 to 10 PM, she spends approximately two hours in the northern field office, from 11 PM
to 1 AM (local time).

Throughout the whole day, the SS women continue to send decoys to the suspect's website. 3:48 AM,
they access that special section on their Secret Facebook Group.

The search terms could very well be "Lawrence C Chin Donald Trump". Namely, a report to the Secret Service about how the suspect harasses Trump with his website by associating his name with Trump's on Google searches (how he uses his terrorist status to harm Trump).

counter-evidence in the ICJ to deny the CIA's claim that the suspect, given his knowledge about how the ICJ trial works, cannot have intended to harm the National Front back in February?

The SS women then submit several false reports about the suspect's plagiarism to the Secret Service.

12:40 PM, the SS women direct a volunteer from Iran to look up "New Summary" (Mobin Net Communication Company):

Then, a few decoy visits. The SS women are waiting for a response – now that they have confirmed the accuracy of every bad characteristic they have attributed to suspect on the Homeland Security warning about him. More than four hours later, it's time to check whether the Secret Service has been obliged by the foregoing false reports to remove the suspect's website. 6:27 PM, the SS women direct the Long Keng volunteer to conduct a status check (hinet-ip.hinet.net, Taiwan):

12 PM, Bluehost is shut down. It's probably the Secret Service which has shut down Bluehost in order to examine (again) the contents of the suspect's website and gather evidences to dispute the SS women's claims. The CIA needs this evidence to counter the Trump team's claim in the ICJ.

False reports about the suspect's plagiarism continues throughout the whole day.

8:19 PM, the suspect is connected with Wes (from 2:44:30 onward). Wes has called to wish the suspect “happy birthday”. But it would not be a pleasant conversation. The suspect announces: the SS women have launched a major operation on Monday, they have found the Baltimore Lawyer. Wes: “How do you know all this?” The suspect describes the Baltimore Lawyer’s behavior and movement. “Since the JTTF [wrong, it’s the Secret Service] has eliminated the SS women’s status as ‘victims’ of my ‘terrorism’, their priority should be to recover that...” While this is sort of correct, the suspect then

comes up with the wrong theory. “They tried to tell her about my connections with rightwing parties....” Wes: “How do you know all this? All speculation! How do you know they are looking at your website?” “Her IP address....” “How do you know it’s her IP address?” “I’ve seen it before...” “How did you know it the first time?” Annoyed, the suspect shouts: “I don’t want to explain it.” Then, more of his wrong theory: “They are telling the Baltimore Lawyer that this is an opportunity to bring down Trump.” The reality is however just the opposite: the Trump campaign is complaining that *the suspect* has wanted to bring him down, not the SS women. *The Russians could use this as evidence to confirm the SS women’s claim that the suspect likes to project his own evils onto others* (which is the SS women’s projection onto him of their tendency to project their own evils onto him). No wonder that Wes suddenly intervenes: “Maybe she gets the information from the Trump campaign that you have volunteered...” Indeed: the Baltimore Lawyer is hired by the SS women and the Trump campaign together. Wes is actually providing a hint to the suspect! The suspect continues: “7 months ago she regarded the SS women’s case to be frivolous, but not this time... Something has changed her attitude, it must be Trump....” Again, the suspect is wrong: he doesn’t yet understand the Baltimore Lawyer’s intimate relationship with the SS women, especially Dr P. Wes: “You can’t defame him...” The suspect: “This time they have shared Homeland Security’s warning with the Baltimore Lawyer...” The suspect again does not quite understand the situation: the Baltimore Lawyer has seen the Homeland Security warning about him since a long time ago. Wes refutes the suspect’s theory and claims: David Duke is a terrorist! (2) The suspect asks Wes why he falsely claimed the suspect wanted Trump to win in order to destroy America. “Who told you to say that on Sunday?” Since the suspect wasn’t provoked on Sunday to explain himself, Wes is going to provoke him again today. “Why would anyone vote for Trump? Are you stupid, or are you ignorant?” “Neither.” “Then why would you vote for Trump? Putin likes Trump because he wants to destroy America.” “No, he wants America to stop pressuring Russia. Trump is not going to weaken America. I in fact voted for Jill Stein, because she really *does* want to weaken America. I didn’t vote for Trump because I live in California. Trump is going to increase America’s defense budget. Jill Stein on the other hand will close down America’s overseas bases and cut America’s defense budget by half.” The suspect then reiterates the three good aspects about Trump. “But these three facts mean America is changing direction. Putin would in fact support Jill Stein if she had a chance....” Wes: “But one can also weaken America economically....” *The CIA has tonight at last obtained the evidences they need: that the suspect’s endorsement of Trump is based on rational calculation rather than on obsession – that the suspect is a different kind of creature than the SS women’s portrayal of him. Furthermore, the suspect’s knowledge that the SS women have hired the Baltimore Lawyer and sent her to Washington DC on Monday is evidence that, contrary to their claims, the suspect doesn’t suffer from any paranoid delusion about their going after him – that the suspect has simply discovered their operation by checking his visitors’ log, that, because he is guessing, his scenarios are often vague, wrong, or distorted, and that the SS women’s claim about his delusions about their going after him actually just refers to his inadequate guesses or wrong inferences, which are not the same as real delusional disorder. However, Wes will continue to try to dissuade the suspect from his discovery – accusing him of wrongly identifying the Baltimore Lawyer’s IP addresses and so on – probably per Homeland Security’s order because the Russians want to use Wes’ skepticism as their evidence that the suspect does indeed suffer from paranoid delusions about the SS women’s going after him and, because of his delusions, always does indeed mistake the visits to his website* (since, in the intercept which the Russians will bring into the ICJ, the suspect’s side of the conversation will be

blacked out). Thus: (3) The suspect: “The Baltimore Lawyer took the case in order to have a chance to weaken Trump. [*Wrong!*] Her movement... She probably went to Washington DC to talk to other lawyers.... I’m really sick and tired of this, having to devote 30 hours a week to tracking their visits... And yet the SS women themselves are in bed with these rightwing parties... They can succeed in banning my website only if they use local resources... They victimize me by insisting on becoming my victims...” Then the suspect explains his envy of Wes: “You are in possession of secret knowledge, please give me a ‘birthday oracle’...” The suspect then uses the example of the security guard’s incorrect speculation about how he had broken a window to explain how he might be wrong. Wes suddenly provides an oracle: “Each of our acts aims at a certain insertion of our will in reality...” The suspect is dumbfounded: “It sounds like Habermas’ definition of strategic action.” What’s this about? It’s quite likely that it’s the Invisible Hand’s oracle and that the purpose is, again, to simply cause the suspect to speculate on its meaning *so that the process of his speculation can become evidence in the ICJ proving that he is not insane* (that he has come up with his so-called “crazy scenarios” through logical reasoning rather than through hallucination and so on). Then, in order to provide evidence of the suspect’s insanity and stupidity to the Russian side in the ICJ, Wes continually provokes the suspect by denying he possesses any secret knowledge and using sophism to make the suspect’s discovery of the Baltimore Lawyer’s movement on Monday appear like idiotic speculations. “Wild speculation! I don’t know how you can come to such conclusions...” The suspect gets very angry in the end – anyone who has been tracking visits on infrequently visited personal websites for decades will have acquired the knowledge and experience to track this repeated visitor to his website; yet, ordinary people, because they are ignorant and stupid, assume this is impossible and laugh at the expert! And yet there is no way to rebut the ignorant and the stupid! What’s more, Wes simply hangs up after he has, unfairly and through tricks, made the suspect look like a fool. The suspect would be angry all night long. Some kind of birthday gift!

Both the Russian side and the CIA have tonight obtained the evidences they have wanted. When the Russians submit the intercept of tonight’s conversation to the ICJ as evidence, the suspect’s side will be censored, so that the intercept will be evidence suggesting that the suspect is both insane and tremendously stupid. The CIA will then present the intercept without any censoring which would reveal that the suspect has in fact correctly identified the Baltimore Lawyer’s visits, that he is not insane at all but quite smart, and that it’s Wes who is (or is pretending to be) ignorant. (And also that the suspect is rationally motivated to endorse Trump and has no intention to hurt him or any Russian allies.) The two sets of evidences will then cancel each other out. Thus, once again, a stalemate will result between the two sides. Unless the SS women’s “victim confidentiality” is respected – so that the suspect may become a black hole – it will always be like this.

11:31 PM, the same volunteer from Val-d’Or looks up “The Cheney Plan”.

3:45 AM, the SS women are again accessing the special section on their Secret Facebook Group (athd2.jpg).
