The Secret History of the International Court of Justice

KXXXXXXX'S VENGEANCE

<u>**RESUME**</u>

The following reconstructs Homeland Security CO chief's and the Secret Society women's operation against me from 22 August to 9 September, 2014. This is revision, May – August, 2023, of the original KV-19, originally composed June – September, 2019.[1]

The Secret Society women refer to (as of September 2014): Axxxxxxx (Angelina, G), Karin (K), Kxxxxxxx (J), Dr P (Pxxxxxxxx), and SDW (Mxxxx, M). Then many of their associates such as Aamoy and his UCLA Linux User Group buddies or SDW's Tampa friends. The "TMU" continues to refer to the "Threat Management Unit" in LAPD. "Volunteers" refer to the people from around the world whom the Secret Society women had recruited to their vigilante enterprise against me.

Now, an overview of the course of events during this period. On 22 August, the Secret Society women continued to mobilize their volunteers to brainstorm how to report me for plagiarism. SDW continued to call on her TI friends around the country to examine my supposed victimization of her on my blog, and the gang also called on volunteers in Poland, Taiwan, and Connecticut to examine my "stalking" of Ekaterina's family members. Past midnight, the Russian diplomatic mission for the first time asked the volunteers to post evidence of my supposed plagiarism on their secret Facebook group for me. On 23 August, the Secret Society women summoned more volunteers from Michigan and Kyrgyzstan to check out my harassment of Ekaterina and her family members and more volunteers from Japan, South Korea, and Hawaii to check out my harassment of Shizuka. They also continued to mobilize more volunteers to brainstorm how to report me for plagiarism. Then, almost 10 PM, MSSGSDW. Unfortunately, Homeland Security CO chief would soon point out to SDW that this was fake and where it came from (since it was actually he who had ordered the Monkey to remotely control me to do it). On 24 August, Homeland Security CO chief instructed SDW to turn over the MSSGSDW to the TMU as evidence and request that the stalking case on me be reopened. The Secret Society women then mobilized their volunteers to report me for plagiarism. The Lilburn

[1] The period May – August 2023 when I was doing the rewrite of this chapter constitutes the climax of the CN-RU-HS team's operation on me. With the Invisible Hand under their command, they hurt me almost daily, especially when I want to work on understanding what happened in the past (such as here). Sometimes, such as on the morning of 05.08.2023, they even remotely controlled me to write while falling asleep so that I would end up writing nonsensical sentences into this reconstruction. I have tried to correct all such errors, but if you find them, you should know about the circumstances (duress) under which I have attempted to rewrite this old chapter.

volunteer also showed up. They also seem to have called upon Uncle Chad for help again. However, by 3 PM or so, the TMU had again dismissed the Homeland Security warning and both SDW and Kxxxxxxx scrambled to report how I did really harass them. (In the case of ANG, how my Nicaragua videos really *were* so crazy.) To save himself and the Secret Society women's case, Homeland Security CO chief then instructed Wes to call me (hours after he had got back from Brazil) so that I could again be intercepted saying crazy things about SDW, committing xxxxx, and being under mind-control. Afterward, the Secret Society women also summoned volunteers to examine how I had harassed Ekaterina and Shizuka. On 25 August, SDW went back to the TMU with the recording of my conversation with Wes from last night as proof that Homeland Security was right about me. She then mobilized more volunteers to report on my blog post series on gang-stalking, and Axxxxxxx also called on volunteers to falsely report how I had painted her nude. Dr G had also helped out by getting a Taiwanese volunteer to report on my violation of his intellectual property rights. Nevertheless, around noon, TMU dismissed the stalking claim again. Then brainstorming for the rest of the night again. On 26 August, the Secret Society women continued to mobilize their volunteers to brainstorm how to prove to the TMU that I did plagiarize. The Lilburn volunteer showed up again. The women also discussed with volunteers how I had violated Dr Bxxxxxxxxx's intellectual property rights. They then mobilized more volunteers to brainstorm how to report me for suffering severe insanity and harassing Shizuka, Ekaterina, and Khalezov. Meanwhile, because the TMU continued to refuse to reconsider my case, Homeland Security CO chief required Wes to talk to me again so that I could produce more evidence that I was indeed delusional about SDW. By late night, he also required me to at last send my letter to Prof. W. Then, past 1 AM, the Secret Society women got a volunteer to send a message to me on Translators' Cafe.

On 27 August, the Secret Society women brought the new evidence (especially my conversation with Wes from last night) to the TMU attempting to reopen SDW's stalking claim against me. Throughout the morning, they reported on my supposed plagiarism, violation of Kxxxx's privacy, and victimization of SDW with my "gang-stalking" series. Also how I had violated Dr Bxxxxxxxxx's intellectual property rights. Nonetheless, by late afternoon, the TMU had dismissed the stalking claim once again saying the Homeland Security warning wasn't correct. Upset, SDW first called upon a volunteer from Tustin, California, to come examine my victimization of her with my blog. Then, as the women gang continued to brainstorm for solutions, a certain "rneural2011" volunteered and came to befriend me: I received today a first email from her. Late night, SDW's Tampa friend (LGL34C/V100) also came to help "rneural2011" develop strategies. (Interestingly, the Secret Society women today had also recruited a volunteer from Boeing and another one from the Irish government.) Meanwhile, as part of the effort to help the women revive their case, Homeland Security CO chief severely hurt me today trying to encourage me to commit more xxxxxx. On 28 August, Mr Homeland Security CO chief continued to inflict severe

pain on me causing me to blog about how much I hated the Russians as well as all human beings in order to help the Russian diplomatic mission revive Ekaterina's stalking claim against me. Meanwhile, the Secret Society women continued to mobilize their volunteers to brainstorm how to report me for plagiarism and severe insanity and violation of Dr Bxxxxxxxxx's intellectual property rights. (9 times in the case of Dr B.) The Lilburn volunteer showed up again as he continued to read through my Thermodynamic Interpretation of History from the beginning onward. SDW also summoned several more of her TI friends to examine how exactly to convince the TMU that I had indeed victimized her with my blog and by sending her fake messages. Around 1:30 PM, "rneural2011" also showed up, surprised that I never responded to her. Then, late night, because the whole day's hard work had failed to persuade the TMU to reconsider Ekaterina's and SDW's stalking claims against me, Homeland Security CO chief required me to write another crazy email to Prof. W so that, the next day, he could instruct Prof. W to take my email to the police.

On 29 August, Prof. W was thus instructed to turn my email over to the TMU and ask them to reconsider the Homeland Security warning about me once again (and thus Ekaterina's and SDW's stalking claims). When the reporting had started just before 11 AM, both SDW's Tampa friend (LGL34C/V100) and then SDW herself had participated. Then, late in the afternoon, when the TMU was ready to dismiss the Homeland Security warning once again, even Dr G had assured the TMU that I did violate his intellectual property rights. (The Lilburn volunteer showed up today too to continue reading Chapter 5 and 6 of my Thermodynamic Interpretation of History, and plenty of testimonies that I had indeed violated Dr Bxxxxxxxxx's intellectual property rights.) Meanwhile, Homeland Security CO chief continued to hurt me in order to prompt me to hate Russia and commit xxxxxx. He ordered the Monkey to severely hurt me in early afternoon so that I would be detained by the police briefly which would at least be his temporary evidence to enable him to lock up the previous ICJ trial for the time being. Later in the night, to generate more temporary evidence, the Russian diplomatic mission also asked SDW to post the evidence of my victimization of her (/gang-stalking/) on their secret Facebook group for me. The Secret Society women also instructed a second person to contact me on Translators' Cafe. On 30 August, Homeland Security CO chief did not torture me and did not orchestrate any police action on me. (He was waiting for tomorrow.) The Secret Society women continued to mobilize their volunteers to brainstorm how to report me for plagiarism and for stalking and harassing Ekaterina and her family members with my blog. SDW also called upon two volunteers around noon. Chelsea's family might have been involved an hour later too. The Lilburn volunteer also showed up briefly later. It's really not clear whether, around noon, the gang had called upon the TMU to reconsider the case again. Then, on 31 August, the Secret Society women continued to mobilize their volunteers to brainstorm how to report me for plagiarism, harboring delusions about President Obama, and harassing them and Shizuka with my blog. And also, repeatedly, how I had violated Dr Bxxxxxxxxx's intellectual property rights.

SDW called on more volunteers (including the Corvallis volunteer) to examine my supposed victimization of her with my blog posts about her. The Lilburn volunteer also showed up to continue to read Chapter 6 of my Thermodynamic Interpretation of History. It's really unclear whether, this late morning and noon, the Secret Society women had indeed obtained another hearing with the TMU, but we can be sure that, even if that were the case, the TMU would have again rejected the Homeland Security warning. Thus, Homeland Security CO chief resorted to his ultimate temporary measure tonight: after midnight, he controlled me to break a wxxxxx in West Hollywood when the security guards were nearby and thus caused me to be arrested. This would enable him and his friends at the Russian diplomatic mission to temporarily lock up the previous ICJ trial for the time being.

On 1 September, while I was in jail, the Secret Society women mobilized volunteers to plead to the TMU saying my arrest should now oblige a reconsideration of the Homeland Security warning and the reinstatement of Ekaterina's and SDW's stalking claims against me. Everyone thus reported me for plagiarism and violating Dr Bxxxxxxxxx's intellectual property rights and harassing Shizuka and Khalezov. Several volunteers (notably the ViaSat volunteer) then testified about how my insanity such as was expressed on my website had prompted me to commit xxxxxx and become a danger to people. In addition, SDW also summoned three volunteers in total to report on how I had indeed harassed her with my blog. On 2 September, the Secret Society women spent the whole day again reporting me to the TMU trying to convince them to reopen my case given my arrest: that I had indeed plagiarized and violated the intellectual property rights of Dr Bxxxxxxxxx and Prof. Ménard and that I was seriously insane and was consequently harassing Axxxxxxx, Ekaterina and her family members, Shizuka, and the other Secret Society women. To fortify their claims that I was a plagiarizer, the Secret Society women even recruited a physicist from Fermi Lab to make false reports about my violation of intellectual property rights. Another volunteer from Nepal also showed up. So did SDW's Tampa friend (LGL34C/V100). On 3 September, the Secret Society women continued to spend another day reporting me to the TMU. They again emphasized how I had plagiarized and was insane and dangerous and had harassed Ekaterina, Shizuka, Dr Bxxxxxxxxx, and Jennifer D. They were even able to mobilize somebody from the Polish Parliament (Seijm) to prepare one such report today. Meanwhile, SDW had been working hard for the whole day: she called up the Egyptian volunteer again on 8 AM in the morning, and then spent 5 hours, between 10:30 AM and 3:30 PM, sending the Sacramento volunteer, the Hanover volunteer, and one of her Tampa friends to make a special report to the TMU explaining how I had harassed her and terrorized her with all my delusions about her.

On 4 September, the Secret Society women spent another day reporting to the TMU that I had indeed harassed Dr Bxxxxxxxxx, Ekaterina and her family members, and Shizuka and hosted violent videos on my website. SDW called upon several more

volunteers to report how I had victimized her with the delusions I had expressed on my blog about her. She had also called upon the Hanover volunteer to continue to examine my website. Then, strangely, "rneural2011" was also instructed to send another email to me (presumably expecting me to see it when I shall have been released). On the morning of 5 September, I was released from jail. Immediately, Homeland Security CO chief had Wes talk to me so that the Secret Society women could convince the TMU that I did harbor delusions about SDW and hatred for Russia and was a danger to myself, etc. They then continued to mobilize volunteers to try to convince the TMU that I did plagiarize and harass Dr Bxxxxxxxxx and Shizuka and so on. SDW had also called on the same Egyptian volunteer to report on my supposed victimization of her, and she also sent in the Lilburn volunteer to falsely report me for plagiarism in Chapter 6 of my Thermodynamic Interpretation of History. However, by night, the TMU once again dismissed the Homeland Security warning, and everyone was back to brainstorming. Because I didn't reply "rneural2011", Karin had a discussion with her tonight. By the end of the night, Homeland Security CO chief had controlled me to not only post my crazy diary on my blog again and write another crazy message to Death with Dignity but also to perform the second MSSGSDW – all so that, the next day, SDW and the rest of the gang can continue their debate with the TMU. On the morning of 6 September, the Secret Society women, and SDW in particular, tried to persuade the TMU to reopen the stalking case with this new golden evidence of MSSGSDW. Then, more evidence of my supposed plagiarism and my harassment of Dr Bxxxxxxxxx, Ekaterina and her family members, Shizuka, and even Uma. And the Cairo volunteer showed up again per SDW's request. But the TMU continued to refuse saying the MSSGSDW didn't constitute "impersonation" and "harassment" – so that, later in the afternoon, even Axxxxxxx had called in from the Law Library to testify. (And the LUG buddies soon afterward.) However, to no effect. Thus, "rneural2011" was instructed to try to befriend me again on my blog and write me for the third time while "Vija" was instructed to post the essential evidence of my victimization of SDW (the "gang-stalking" series) on the Russian diplomatic mission's secret Facebook group for me. Then, by late night, Angel from the Law Library, Jennifer D, and Shizuka all joined in on the brainstorming (how exactly to persuade the TMU).

On 7 September, the Secret Society women continued to mobilize their volunteers to persuade the TMU to reopen their stalking cases. They might have thought that my collection in Hermosa Beach last night would help, and so they continued to report me for the same things: plagiarism and computer-hacking, harboring bizarre delusions about SDW, Ekaterina, and Karin, and violating Oliver's intellectual property rights. Their devoted agent, rneural2011, showed up two times, once in the morning and once in the afternoon. During her second time Karin was directing her to report how I had supposedly developed delusions about her. The Lilburn volunteer also showed up, but this time he was considering Chapter 3 of my Thermodynamic Interpretation of History. Then, late at night, the important Philadelphia volunteer showed up to

brainstorm. On 8 September, as the Secret Society women continued to try to persuade the TMU to reopen my case, they continued to mobilize volunteers to report me for plagiarism, severe insanity, and harassing Dr Bxxxxxxxxx, Ekaterina, and SDW. Meanwhile, at least three volunteers had discovered my new blog post about my wish for euthanasia, but the TMU still refused to see that as confirmation that Homeland Security was right about me. Then, because I didn't reply rneural2011, the Secret Society women sent in the Chennai volunteer to try to leave a message on my blog. They also called up Gaurav and asked him to add his complaint about my website to their case at the TMU. Since none of this helped, past 7 PM, Homeland Security CO chief instructed Wes to call me again, whereupon I produced the same evidence of my delusions about my women victims (and SDW in particular) and some non-existent ICJ trial and the danger I posed to myself due to my delusion about being chipped in the brain.

Finally, on 9 September, with the recording of my conversation with Wes last night submitted to the TMU as proof that the Homeland Security warning about me was totally accurate, the Secret Society women spent another day mobilizing their volunteers to try to persuade the TMU to reopen the stalking claims against me: they reported more about how I had really plagiarized, harassed Shizuka, Ekaterina, and Dr Bxxxxxxxxx, and suffered from severe insanity. SDW continued to call upon her TI friends to come report how I had victimized her with my blog. The situation was so dire – the TMU was by late afternoon ready to dismiss the Homeland Security warning once again – that Axxxxxxx herself came to report on my latest blog post about euthanasia on 3:21 PM. Subsequently, the women were so desperate that they instructed rneural2011 to leave more messages for me on the Prison Planet forum. Then, on 8:45 PM, they called upon this Pittsburgh volunteer to examine my website in a thorough fashion to see if it was possible to find something which could force the TMU to recognize the Homeland Security warning in question as valid. The Pittsburgh volunteer spent 40 minutes on my website clicking on several dozen recordings to see if these could be ground for reporting me for violating people's privacy.

Now, my diary entries and the log of the activities of the Secret Society women and their volunteers on my website. Just as before, I shall put in brackets and italicize my corrections to the past erroneous thinking that I have expressed in my original diary entries.

22 August (Friday; break from pain)

First, about myself. Slept between 7:30 AM and 4:30 PM. TNT, and ate at Vermont/ Sunset, and then at Stories. Chatted with Liana. Left on 10 PM. Union ST, **13 N**. Gawking at many pretty AWFs. SMDR: couldn't W at the same old place. Couldn't W 2 times. **1 H. 1 W at a new place**. While coming back, worked on my letter to Prof W, and met a girl without eyebrows. Near home by 2:50 AM. There was no

pain today. (*Homeland Security CO chief was giving me a break since the severe torture three days ago*.) **2 B unrecorded.**

Note that today SDW would post a new post on her blog ("Army ranger retires because of Obama") some time between 12 AM and 4 PM and that Karin would host a meetup tonight for her Any Language and Culture group.

Now the Secret Society women's operation on my website for today. 4:45 AM,

How I had merely collected contents from the Internet and reposted them on my blog.

23 August (Saturday; MSSGSDW)

First, about myself. Slept between 8 AM and 4:30 PM. TNT, too excited by Propaganda's "Ocean". Imagined the A-10 suicide incident. Perhaps he was enlightened? Then, came to the Russian church: ate, and service on 7 PM. Left quickly. Stories. More excitement: MSSGSDW. Also, the "horns-on-my-head analogy". Nervousness all night because of Propaganda ("Ocean" as the song to accompany the scene of fighter jets escorting my flight) and MSSGSDW. In Starbucks until 12 AM. At one point my Word was running very slowly, and out to smoke to avoid being upset. Collection in PSDN. **1 W (761/767, 2ⁿᵈ), 3 B (Xia and FGRND).** Left behind some nxxxx. Forgot my spray bottle. Not upset, due to nervousness. Back in downtown by 2:45 AM.

(*It would appear that it was Homeland Security CO chief who had controlled me to perform the MSSGSDW action today – you shall see the purpose.*)

Now the Secret Society women's operation on my website for today. 5:01 AM, Sky Italia,

24 August (Sunday; Wes; break from pain and nervousness)

First, about myself. Watched the movie "Silent Witness" (全民目击) until 9:30 AM or so. Didn't sleep. Went to the church around 10:20 AM. Felt weird, because one had already decided to give up hope in it. Sat with Phil after the service. None of the young crew (Drew/ Tory, Stephanie) were there. Left soon afterward. Home: slept until almost 6 PM. Felt meaningless about everything. No validation. Ate, and went to Casbah. Wes called me on 8:29 PM (from 52:00 onward in the recording). He said he just got back from Brazil several hours ago. I talked about how I had discovered that SDW was merely reporting me to law enforcement and that she wanted to annihilate me (that she was in fact evil when it came to me). I then talked about my more "accurate" understanding of why I had to commit xxxxxx: the French and the Republicans wanted to obtain my brain-scan images while committing crimes and mix them up with the Secret Society women's. (*This was in fact not an accurate understanding at all: Homeland Security CO chief must be happy that I had developed all these complicated scenarios that didn't correspond to reality and simply couldn't understand the simple fact that he was merely arguing with the CIA in the ICJ about whether his warning about me (and his star witnesses' testimonies about me) were correct. (More on this below.) But, again, would something like my wrong scenario here happen later on?*) I then worked until 11 PM. **2 W along VRMNT (URGNT/ MUJR).** Home by 1 AM. Thought about xxxxxxxxxxxx the Secret Facebook Group. (*As noted, it was Homeland Security CO chief who had controlled me to have this desire.*)

The highlights of my conversation with Wes today: (1) I almost cried when Wes called me (not knowing that this was another trap). He had just got back. (2) How he had visited Morisio for about a week. He hadn't seen him for 7 years. Me: "Morisio is the only person not involved with the control center!" (3) Wes: "You didn't email me… I was surprised…" Me: "The control center controlled me to not long for you so much… It wanted me to focus on committing xxxxxx… It has been inflicting pain on me less often… also making me more targeting and efficient… also less ambivalence toward people in general as my enemies… the control center has been training me to become a disinterested crxxxxxx… to become a true anti-social…" (4) 1:01:00, I began describing my discovery that SDW was actually trying to annihilate me: "… or my website… without my knowing why... back in April and May… she's pretty evil and vicious… all my scenarios about her are all wrong… she just wants me annihilated for blogging about her… It helps me commit xxxxxx because most people are like psychopaths when it comes to me… my value for other people is so tiny… but only the people who know me… and if the police don't help them annihilate me, then it's injustice… At first I thought SDW was like Buddha, I didn't know she's the opposite when it comes to me..." (5) I continued my wrong scenario: "I have

figured out how the trial has gone... The control center wants me to commit xxxxxx because they want the brain scan images of crxxxxxx intents. Then they can mix the images with others' in order to compose a profile. The government didn't require me to commit xxxxxx all my life… only that Homeland Security guy in the control center wants it… the government just wants to intercept the crxxxxxx intents… in order to mix the images… piece them together… it's like: the eyes from this person, the ears from another, and you piece them together into a face, and say 'That's the suspect'… it's the French and the Republicans who are doing it… in order to fix that Homeland Security guy's vandalism… and then take this episode backward in time to replace the April 2010 episode… but I have no reason to stop committing xxxxxx… committing xxxxxx is the only alternative to being validated…" (6) 1:12:00, Alessandra and the wedding and the ticket. Wes had to go to Washington DC for conference on Wednesday or Thursday.

(*What happened today was most likely like this. This morning, Homeland Security CO chief instructed SDW to turn over the MSSGSDW to the TMU as evidence of my harassment of her. After the TMU had again refused to reopen the stalking case on me, however, Mr CO chief thus instructed Wes to call me in order to obtain more evidence confirming that his warning about me was correct. (That is, Wes had had to work for Homeland Security immediately after he had returned from Brazil!) And so the evidence Mr CO chief had obtained tonight: (1) I commit xxxxxx due to my delusions about being controlled by this "control center"; (2) my delusions about SDW (even though what I said about her attempt to annihilate me was sort of correct); and (3) my delusion about this ICJ trial had caused me to believe that the government wanted me to commit xxxxxx in order to obtain brain scan images and mix them up (and somehow the French and the Republicans were involved). (2) should have especially justified SDW's request that the TMU reopen the stalking case against me.*)

This visit is important. This seems to be the Lilburn volunteer seen on 7 and 17 August. He's very
devoted to the Secret Society women's project. He would come to examine my Scientific
Enlightenment writings repeatedly in the coming month. Again – since we suspect him to be SDW's
relative, it's no wonder that he would show up today: SDW would soon be going to the TMU with the
MSSGSDW.

25 August (Monday)

First, about myself. Worked on the letter to Prof. W until 6 AM. Slept between 8 AM and 4:30 PM. On 3:56 PM, Bluehost sent me another email informing me that server maintenance was due to take place between 8 PM to 4 AM tonight. Starbucks (Normandie), and then going to the Russian language meetup. There was this girl, born in Guadalajara, who attended college in San Diego and then obtained a master degree in Russian history from St. Petersburg University. She was very pretty, etc., currently working in a law firm (immigration). Left on 10:30 PM. Obviously the organizer detested my presence there. Starbucks in Little Tokyo. 11:45 PM, collected damages around Union Station**. 5 N, 1 W (the** security guard noticed it)**, 1 SPC, 2 B (1 at LWLB), 1 H (LB) as** well. On the bus going home by 1:30 AM.

Note that tonight Karin would host another meetup for her Any Language and Culture group.

Now the Secret Society women's operation on my website for today. 5:08 AM, the Sandy, Utah, volunteer came back looking for a second image:

4:04 AM, I was editing my blog from home. I posted "What SDW might be doing to take down my website, Part II".

26 August (Tuesday, Wes; letter to Prof. W; Translators' Café)

First, about myself. Slept between 8 AM and 4 PM. Starbucks, Normandie. Felt weird about pretty AWFs because of my anger over SDW's crowd. At Carl's Jr. I called Wes on 5:20 PM, and he answered it (from 35:00 onward). I first talked about his "727 Oracle": that this "someone like me" whom he mentioned on 7 and 27 October actually referred to SDW.[2] Then I talked about how SDW's deficient intellectual development had prevented her from seeing that I had rights of my own. Finally I talked about how I had predicted correctly that Ekaterina's pictures on the Internet were fake. I then checked my visitors' log, and then went to the Forum. (From 1:36:00 onward in the recording.) Noah gave a presentation on the meaning of Hell (from 2:28:00 onward in the recording): 2nd Thessalonians, 1.5. Enlightening discussion. The meaning of "sin" and "Hell" as the condition of the soul which is breaking down because one has not used it according to its original function – accepting God's love – is very similar to the original, classical, notion of morality or justice as the "order of the soul". Being good as a matter of keeping one's interior in order, in proper functioning, rather than as a matter of being beneficial to others.

2

Starbucks, WSTWD. Finished the letter to Prof. W, sent it, and several AWFs were mean to me. Out to collect damages. **3 B (PSYCH), 3 H (SLMWRP, PLTS), 2 W (3ʳᵈ time each), 1 SPC**. Upon returning, discovered that the police were handling the PLTS' complaints, and were circling around the blocks. Near home by 4 AM. One's arm hurt when one thought about the police action tonight. (*Because Pamela was taking it very seriously, I would stop collecting damages from her place until April next year!*)

(*Thus, although SDW's stalking claim was dismissed for the second time yesterday (bad evidence in the ICJ), Homeland Security CO chief used me to create three more opportunities: (1) my conversation with Wes, which was more evidence that I was indeed delusional about SDW (as well as Ekaterina); (2) my letter to Prof. W: since Homeland Security CO chief was in desperate need for more confirmation of his warning about me, he would definitely have already sent his warning about me to Prof. W this time and, tomorrow morning, instruct Prof. W to report me to law enforcement along with the letter – how this schizophrenic, not knowing that he's delusional, was again prompted by his delusions to write crazy letters to important people; (3) the graffiti at PLTS. Homeland Security CO chief and the Secret Society women would not go tell the owners just yet who did it. But the video of the incident, when the police received it, should end up both at the TMU and in the ICJ as evidence confirming that Homeland Security was right about me.*)

Highlights of the conversation with Wes today: (1) How the Russians and the CIA wanted to create "someone like me", intermediate between me and ANG, But the situation between me and SDW has got so bad that there is no way that she could possibly absorb the truth... She's imprisoned in her own belief system... It can't be true that one can wait for her to find one. Wes: maybe I was wrong. I denied that such could be the case: "You can't say that the Priest of Delphi is wrong." Wes: but it's the interpretation of the oracle that might be wrong... Me: you'll never know what the oracle is saying until it happens... Wes: if 90 percent have come true, can you assume the remaining 10 percent will come true later? Maybe it's about two persons... in the case of the first person, 50% would come true, and in the case of the second, 90%... but then, later, the (remaining) 50% in the first person would come true... slowly in time, they fulfill or don't fulfill these characteristics... two candidates, 50 percent and 90 percent, and you assume the second person is... many candidates, and each only fulfills part of the characteristics... If the prophecy says 'The person will buy a house', and the first person buys a house, the second a condo, you assume it's about the first person who has bought the house... but a third person might *later* buy a house... (48:20). So the only person you can rely on is the person who defies the prophecy... If SDW/ the first person fulfills 90 percent of the prophecy and the second person only 50 percent, you assume it's the first person, but that doesn't mean the second person wouldn't fulfill 50 percent later... And Wes went on and on about the distinction between fulfilling, not fulfilling, and defying... I insisted that such has diminished the significance of the oracle since you can always find someone who will fulfill parts of the oracle... the oracle must unambiguously describes the object, otherwise there is no point in bothering with it. Wes: you can find 3 people, but not 100, so at least the oracle can narrow it down... I insisted that it can be only SDW who believes she's being targeted by the control center... but it can't be SDW since she now believes I have victimized her when she tries to knock me down and I fail to fall down... Wes: maybe she now realizes that you are the other person like

her... But I insisted that she's too stupid to realize that (53:40). (2) And I gave out my impression that most people are still on stage 1 or 2 on Kohlberg's moral development scale. If I'm too ugly and that makes her unpleasant, she'll ask the police to annihilate me, and if the police don't... she'll think that the police are victimizing her, that I'm sent in by the control center to victimize her... she's not able to figure out that other people have rights... Wes: then she's not the person in the prophesy! (55:10) Me: "I'm merely saying that the last portion 'Let her find you' can't be true... SDW's intellectual development is too low... She'll never believe that I'm not here to target her..." Wes: either she's not the person in the prophesy, or the prophesy is only 90 percent correct. Me: but if it's only 90 percent correct, then what's the point of the oracle? (3) 56:20: now Ekaterina's pictures. Wes claimed he didn't remember me telling him that these pictures weren't real. How Uma's pictures had been mistaken for Ekaterina's. How she noticed it when people in the Netherlands were trying to identify Maria. How I had noticed beforehand that the pictures were fake. "Your oracle couldn't possibly refer to Ekaterina since she couldn't possibly believe that I'm here to garget her." I thus called it the "Wes-727 oracle". I continued: "I put the pictures up on my blog hoping to attract visitors..." How, when people Googled for Ekaterina's sister's husband's name, they would come to my half-naked picture. It seems to be part of the ICJ trial – the goal being to confuse a lot of people together. "Maybe people are really that stupid to mistake my picture for Ekaterina's sister's husband's." How people, when they talked about Ekaterina's marriage to the Korean guy, would put somebody else's pictures on it. Now thousands of webpages on Ekaterina, and all these irrelevant women's pictures on them. (4) 1:08:30, Wes' leaving on Thursday for Washington DC. "Maybe you would be secretly contacted by the court since the court seems to be located in Washington DC... The police will never tell the stalking suspect whether he has stalked anybody, which means I would have to xxxxxx more xxxxxx..."

(*Thus, my wondering about whether SDW was referred to in some oracle or prophesy and whether Ekaterina's pictures were real or fake were evidences of my suffering delusions about them which SDW would be instructed to take to the TMU tomorrow as confirmation that the Homeland Security warning about me was indeed correct. However, as usual, the Invisible Hand had instructed Wes to give me all that discussion about how to fulfill or defy a prophesy so that he could then intercept it for his own purpose. The question is: what's his purpose? We assume that he would simply input the criteria as to how a profile was verified or not into the judge computer in order to train it in some way. That's all we can say at the moment – except that, when we shall come to review this conversation again on 4 June 2023, it shall accomplish another strategic purpose for whoever in the latest debate surrounding the Homeland Security warning.*)

Now the Secret Society women's operation on my website for today. 4:26 AM, ipb.na, Windhoek, Namibia,

chief who had wanted me to write to SDW in order to help her advance her case with the TMU!).

This was the second volunteer today from the University of Oslo. Brainstorming. (Plagiarism.)

27 August (Wednesday; severe pain, severe hatred, sleep deprivation)

First, about myself. Around 5 AM, Prof. W replied me saying she wanted to introduce me to a certain professor Buxhoevxxxx. I immediately replied saying it was not a good idea. (*She said she hadn't read my letter yet and we have to wonder whether it's Homeland Security CO chief who had instructed her to introduce me to this Prof. B*.) I then worked until 6:30 AM and posted a new blog post: "The secret in women's fashion lies in [the] accentuation of female neotenous features". Then I suffered tremor, unable to sleep. Slept between 9 AM and 2:30 PM. Sleep deprivation. TNT, and thought about focusing my attention on DH (BOL) instead as my hope. Dr Gomez. Thought about how much the Macrospherians hated Axxxxxxx. Stories. Pretty AWF. Severe anxiety when she left in order to coincide with the recording being reviewed (02/01/2013) where I suffered severe frustration. On the bus going to Home Depot after 9 PM. Again, programmed to ride past my bus stop because I was too focused on writing. Off the bus near SM/ Vine, and then was programmed to close the Word Document before it finished printing, causing the document to become damaged while looking like it was my own fault. Severe pain, and severe hatred toward DH for always requiring me to be punished when I began developing good sentiments toward her. My negative thoughts: "The positive thoughts I had had this afternoon, and the posting on fashion and neoteny, were preludes to severe pain tonight, for the Macrospherians will always make sure that sentiments of optimism and contributions to the wellbeing of humanity shall incur severe punishment: After they have punished you for doing good or being good, they can then claim 'conspiracy' and make use of the goodness you have produced. They live in their extraordinarily perverted universe." (*My wrong scenario! It's just Homeland Security CO chief continuing to want me to look crazy. Hopefully the Invisible Hand wouldn't make something out of this.*) In any case, required to commit xxxxxx. More negative thought: "… the goal is thus to focus my attention on committing xxxxxx." And: "Grave disappointment over the fact that governments, and the Macrospherians, see us common people as their deadliest enemy, so that they have programmed us to [want to] annihilate each other in order to produce the evidences with which to create new human

beings to replace us. And yet all the common people don't know how to rise up to fight their real enemy, but instead try to annihilate each other for their victimizers' sake. Since all are my enemies, although I can't hurt the Macrospherians who want me hurt and disposed of, I can hurt the common people, one portion of my enemies." **2 B (Yoga)**. Bought new nails and spray at Home Depot. Came to Vine again. **1 B.** Denny's. Then late enough for collection. **6 N, 2 W, 1 ATM**. Done by 1 AM. All night long one was programmed to suffer severe physical discomfort when seeing pretty females. Extreme hatred for all Macrospherians, as required by the Macrospherians, which convinced me how cowardly and despicable these people were. (*Again, completely wrong scenarios – just making Homeland Security CO chief and his Russian friends happy by looking crazy.*) VRMNT, **2 more B, 3 N.** Home by 2 AM. Severe physical pain from severe hatred for the Macrospherians all night long. "These people represent the worst kind of evil because they dare claim the power of God over me and humanity for themselves (manipulating me to hate them for their benefits whenever they feel like, etc.) when they are no better human beings than myself. They are extremely dangerous to humanity." (*Even though I was completely wrong here about what's going on, this* was *a good insight.*)

Continued to be programmed to suffer severe nervousness upon seeing male body parts, in order to produce evidences showing me to be homosexual. (*Wrong!*) Another reason for committing xxxxxx. 3 AM, at home, and discovered that I was programmed to forget to change the batteries of my recorder. All the collection tonight was unrecorded. Severe anger: required to commit more xxxxxx. **2 B, 1 W.** Spent another hour. Home by 4 AM. 3 bottles failed to break today. Programmed to knock over my water bottle, causing my room to be flooded: physical pain. Required to commit xxxxxx. By 6:30 AM, I posted on my blog "Orchestrated visits from the remotest corners of the world". Suddenly, my computer froze, destroying this document, and the other Word document. One was forced to reboot it, and then Windows started updating. Required to develop the severest hatred for the Russians, wanting to kxxx real Russians, per the Russian government's wish. (*Wrong!*) Then I was required to break my own window. Neighbors were startled. Required to commit more xxxxxx tonight in order to avenge myself. Left home 7 AM.

(*It seems that all that had happened today was that Homeland Security CO chief had suddenly decided to target me severely in order to prompt me to commit more xxxxxx – after he had given me a break of several days. Evidently because, when SDW took the new evidence (especially the recording of my conversation with Wes rom yesterday) to the TMU earlier today, the TMU had again dismissed her case saying the Homeland Security warning wasn't correct. Specifically, Homeland Security CO chief now wanted me to make some hate speech against Russia on my blog. I couldn't understand this at the time and so senselessly attributed all the evil to the "Macrospherians" and then the Russians – while, in reality, everything was quite simple: when the Secret Society women's case wasn't going anywhere and, in particular, when the TMU denied I meant to harm Ekaterina, Homeland Security CO chief would hurt me to encourage me to commit more xxxxxx and say something hateful about Russia so that Ekaterina's case as well as these women's could have more substance.*)

This volunteer – who claimed her name was Irene – would come repeatedly in the coming days and be charged with the task of befriending me. Today was her first appearance. She had just heard about how this insane and misogynist terrorist stalker on Homeland Security's watchlist had been harassing the Secret Society women and other famous women and even attempted to target SDW with fake messages and how the police just wouldn't accept any stalking claim about him and was incensed and so volunteered for the dangerous mission. To overcome the TMU's inaction, Homeland Security CO chief had thus not only resumed hurting me severely today, but the Secret Society women had also instructed this "rneural2011" to befriend me as a way to collect damaging testimonies from me with which to revive their case. To prepare herself for the task, this rneural2011 was here to acquaint herself with the stalker's bizarre delusions about mind-control and brain chips. 6:48 PM, she came to the next blog post:

As you can see, this "rneural2011" was just another uneducated idiot – as was typical of the Secret Society women's volunteers or SDW's TI friends – who couldn't write grammatically correct English. 28 August (Thursday; severe torture continues; inverse enlightenment)

First, about myself. Ate at Carl's Jr. One was rude to the employee, and almost got thrown out by the manager. Home. The control center didn't allow me to sleep. So filled with hatred for all human beings

that the only future one could envisage for oneself was perpetual xxxxx, hopefully mass xxxxxx and then sxxxxxx. 10:30 AM, left home to go to TNT. Earphones broken, hurt, and required to commit xxxxxx. My body was shaking tremendously, I was barely able to operate my computer to compile the new DVD image. One then posted the blog post you see for 28 August, "I have attained 'inverse enlightenment'". Note that I termed this "inverse enlightenment" "Putinism" or "Russian Way". (*Thus you see that the reason why Homeland Security CO chief hurt me so badly today was that he wanted me to say more anti-social things so that his warning about me can be confirmed – and more hateful things about Putin and Russia so that the Russian diplomatic mission would have more reasons to ask the TMU to revive Ekaterina's stalking claim against me.*)

Went home to sleep, extremely uneasy. The control center allowed me to sleep until almost 5 PM. Then one was going to Stammtisch. Kathy was there, but it was very boring, and so one left early to collect damages. **9 N, 1 SPC.** It was only 9 PM when one arrived at Sunset Blvd. Going to PSDN. At Zona Rosa. Then at Kinkos. There I wrote to Prof. W:

> "Hi, I have suddenly wanted to share with you my profound enlightenment yesterday morning which my programmer has caused me to achieve through another episode of infliction of severe pain. I then have a question to ask you. I wrote on my diary yesterday: (*Here I included my blog post "inverse enlightenment".*)
>
> "The question I want to ask you is, prof W: given your connections, are you aware of any [available] euthanasia program? I thought a lot of about my new found enlightenment in the past day, but I'm sorry to say that it's very disappointing. While for the moment I can be content with the enlightened state of mind that all human beings are disposable and my deadliest enemies, so that a life of xxxxxx is the most profoundly purposeful life possible, pretty soon I'm going to get lonely and veer off course again by wanting to intermingle with my enemies. And then I'm going to get punished by governments with severe physical pain again in order to be pushed onto the right course of life. A life of hatred and xxxxxx is just too lonely an existence, and I don't think it's quite possible to start such spiritual movement in order to find like-minded people who also realize... that other human beings are our deadliest enemies. So I think it's better to prepare to exit this existence. The thing is that I got hit by a car before, and it hurt very, very much. I'm therefore terribly afraid of that. Therefore, I need to find a painless way to exit my existence, and it should be legal because I want to have help in the journey. So I'm just wondering if you know something about this.
>
> "I can easily convince any professional that I'm mentally insane beyond repair by asserting that the governments are allowing me to be programmed through brain chips to become a crazy criminal. And isn't it the case that, in the Netherlands, severe mental illness can qualify for euthanasia? (Let alone chronic, severe physical pain.)
>
> "The current dilemma is that, even just when I express such wish to others, they will want to hospitalize me, which would spoil my entire schedule – even though

everybody I know thinks that I should have been disposed of a long time ago. Everybody thinks that I'm a *lebensunwertes Leben*, just as I think all other human beings are. And yet nobody can do anything else, because of the laws. What do you think?

"*I think my programmer wants me to send you the previous letter, and this note, in order to get [myself] into [more] troubles.* I'm not sure. Because the governments, in the ICJ, seem to have a need to explain why I have had no criminal records even though, according to the forged evidence, I've always been bad-to-the-bone, they have been programming my situation such that, whenever I get chased down by security guards or [the] police, they never really take me to jail. Maybe because they thought me too disgusting to place in their cars. And when they charge me with a xxxxx, they just say, "Your birth". And so I was not quite worried that you might ask the police to arrest me, because everybody who has ever known me perfectly agrees that I'm so delusional that nothing I say can possibly be trusted. Presumably the police will... agree that I'm just imagining in my delusional fit that I have been committing xxxxxx, but have not really committed any xxxxxx. Besides, you are in Chicago, and I'm in another state, and there are no felonies for the FBI to be involved."

(*Obviously, making me write such a crazy letter to Prof. W was part of the reason why Homeland Security CO chief had so targeted me today. Afterward he would certainly instruct Prof. W to take my email to the police so that there can be another temporary confirmation of his warning about me. Thus I was right (the italicized portion). Prof. W, freaked out by both the Homeland Security warning about me and my crazy email and letter, would never respond.*)

Then collection. **2 W (DR LURNCLLA, RSQUE), 4 B (FSTAGND), 1 H (ZNRS).** On the bus by 2:20 AM. At VRMNT/ SNST, 3 AM, **2 W** (doctor, JS 3rd). **2 B**. Home by 4:20 AM. Extreme headache due to sleep deprivation.

Now the Secret Society women's operation on my website for today. 4:24 AM, I was editing my blog from home. Then, on 4:26 AM,

Just examining my traces (my expressions of paranoia) on the Internet as part of the brainstorming effort.

8:05 AM, after the malfunctioning and anger outburst, I resumed editing my blog.

anger, magnified by sleep deprivation for two days. Realized that the governments might be wanting
me to get thrown out of my building, and so went to argue with the landlord's sister. She didn't

understand anything I said. (The rent check was under her door; but she couldn't understand what I was saying.) Required to despise Kxxxxxs extremely, maybe per the Russians' wish. (*All the wrong scenarios to make myself look crazy*.) Went out, and was then programmed to throw a bottle at a car (Korean or Indonesian, not sure). They attacked me and tackled me down, and then the police came to handcuff me. Forced to try my best to avoid arrest and hospitalization. Very strange. All because it was terribly urgent to collect damages tonight (the only available medicine). Succeeded though. The police were courteous. Left with extreme hatred toward Russia and the United Nations, per their wishes. (*Wrong scenario to make myself look crazy*.) These devilish victims who have learned from their victimizers (the Axxxxxxx) the techniques to victimize me (false flag operation, controlling me to hate them and to want to xxxx them in order to benefit from my hatred, while letting me pay the cost). (*It has completely escaped my mind that it was actually just Homeland Security CO chief!*) An hour wasted. Extreme hatred for Kxxxxxs, and for all human forms. Required to be motivated for insurgency warfare against humankind.[3]

I believed that the Russians had input their intention to train me to want to xxxx them if anyone important enough among them would show up in front of me. (*Bullshit*.) Stories, and spent several hours posting 5 to 8 May entries. Liana there; asked Claudia what she would think if the government wanted to make her famous, and shown her: "It could happen to you…" An extremely pretty blond girl was sweeping the floor. (*It was Silvia*.) Can't get rid of the unrealistic thinking that SDW, etc., are arrested. Weird feeling toward AWFs. Left on 10 PM, and reflected on Kxxxx: the "average". By now, nervousness had replaced the earlier severe anger. Collection on LRCHMNT: **2 W 6 N, 2 B.** Then **SNVNCT: 2 W (UKRN, 2ⁿᵈ; PSYCH: 6ᵗʰ)**. Slightly unsatisfactory because the glass-breaking wasn't dramatic enough. Back home. Avoided all Russian music for the second day. Thought about revenge: selling EKT's brain scan images (her hating her father and Kxxxxxs). Then realized: (1) world events are orchestrated from the Macrospherian ICJ, and nobody in the governments on both sides (DGHTRCOM and Obama) actually knows what event happens to replace what evidences. They must be guessing just like me. Presumably, when DGHTRCOM gave the "key" to BOL in early 2011, he only gave two conditions: Russia's recovery of parity with the US at all cost – he would never forgo this dream of his, even when it's all his fault; (2) nothing shall happen to his daughters. He can presumably with justice invalidate all attempts to revenge using EKT because she didn't make the decision. What happened is that it's just too strange to make an old man suffer physical pain through remote control. After giving these two conditions, DGHTRCOM was not informed which event shall happen for which reason (which evidence). But presumably he had obtained his judgments "on loan" in

3   The recording of this afternoon: "arguewthlndrdpolicestories_8_29_14_152-756PM.MP3": as I stayed in my room with the soft music on, Ms Choi's sister kept knocking on my door, but I ignored her. 24:00: "The control center didn't allow me to sleep but filled me with anger and hatred… which causes severe discomfort and physical pain…" 28:00, I went to knock on Choi's sister's door, but she wasn't there. I went out. 29:40, with Choi's sister. She couldn't understand me and so I yelled at her. 34:50, I broke a bottle and the guy chased after me. 38:00, severe physical pain. 40:20, middle-finger to the police. 43:00, another guy was chasing after me. (1:08:40: time to commit real xxxxx rather than fake instance of stalking). 55:00 with the police. 1:08:00, the police let me go. Now my wrong scenario: we have to suffer all this in order to save the world... 1:16:00, in a liquor store. 1:20:00, on the bus. 1:36:00, off the bus. 2:13:20, brief chat with Claudia and – who? 2:04:30, I asked Claudia whether she would like it if the government wanted to make her famous. And I explained "It could happen to you." 2:23:30, the Internet connection cut off. 3:40:00, I asked a girl what she was reading. (Who?) Then I asked her again. 5:45:00, she's leaving. Then I was telling Claudia about the movie "It Could Happen To You". 5:51:00, I left Stories. 5:53:00, Morisio was getting into his car.

2012. (*All these scenarios were false! Just working hard to make myself look crazy for Homeland Security CO chief's sake.*)

(*Again, what was really going on was much simpler than I thought. Homeland Security CO chief continued to try to impart more substance to Ekaterina's stalking case against me by controlling me to hate the Russians and say so. And, because Prof. W this morning had evidently failed to get the police to accept his warning about me, he ordered the Monkey to remotely control me to get angry and throw bottles so that the police can detain me which would then be at least temporary evidence in the ICJ. And of course he wanted me to commit more xxxxxx so that the Secret Society women's case in general could have more substance. For this end, in fact, he had begun orchestrating my arrest.*)

She would see on the very top "Orchestrated visits..." This is evidence that serious reporting had been
going on since her Tampa friend's appearance just before noon. All because Prof. W had brought to the
TMU not only my bizarre letter about my mind-control torture but also my bizarre note about wanting
euthanasia from last night. While the Tampa friend was trying to convince the TMU that the Homeland
Security warning about me was correct because of my delusions about being chipped in the brain,
SDW was here trying to restore her stalking claim against me.

Was this one of the LUG buddies? Here to report to the TMU that the Homeland Security warning was
correct because I had indeed plagiarized here? (Even though the LUG buddies were TMU informants.)

We assume this is what's going on. Because the TMU's latest rejection of SDW's stalking claim (even given my crazy letter and note to Prof. W) was such bad evidence in the ICJ, the Russian diplomatic mission simply asked SDW to post more evidence of my victimization of her on their secret Facebook group for this bad-to-the-bone, extremely ridiculous schizophrenic stalker living in America. This, again, just like my trouble with the police this afternoon, in order to generate some temporary evidence to help Homeland Security CO chief lock up the previous ICJ trial for the time being.

Brainstorming. (My supposed plagiarism.)

30 August (Saturday)

First, about myself. Watched many episodes of Bridget Fonda before sleep: "The Point of No Return",
"It Could Happen to You". Allowed by the control center to sleep well today, between 8 AM and 5:20
PM. TNT: felt severe anger toward human forms, but no physical pain. Decided not to go to the
Russian church: too disgusting. Stories, no time to eat, and arrived there past 7 PM. Liana was not
there, but got to sit with Rebecca, and told her about my blog ("I blog about the visitors who visit my
blog"). Left Stories at 10 PM. Thought about rewriting the current episode in Timeline. Called
Stephanie. She called back. Collection: Union Station, **9 N, 3 B, 1 W (TXTL).** The security personnel
came right away. Came to SM, near Peter's. **2 W, 1 SPC, 1 H (hardware, 3ʳᵈ), 4 B.** Home, almost 4
AM. 5:30 AM, the burning of DVD-406-CP failed. It seems as if the control center no longer allowed
me to burn two discs for each DVD image, as if I were only allowed to burn one disc as backup. The
car outside honked just as I was writing this down. (*It's all nonsense: just working hard to make myself
look delusional.*) Burned it again, and I succeeded. Apparently I can be spared more torture if I'm
willing to be at least delusional. (*Right!*)

Another volunteer was examining the fake blog post which the MSS operative had posted to help
Homeland Security.

31 August (Sunday; arrest; EKT's birthday)

First, about myself. I was revising "Time Line" until 9:30 AM. Slept between 10 AM and 4 PM. Sleep deprivation. I planned to never go to the church anymore. Stories, past 6 PM. Liana there. Claudia on vacation. Persistent delusional thoughts about SDW's arrest, etc. (*It was in fact I who was about to be arrested.*) And other scary thoughts about the good things in the future. Didn't bring my nails with me. My Internet connection was cut off repeatedly around 6:20 PM. Slightly angered. 6:55 PM, I tried to leave a message with Wes. The machine was suddenly turned off. Tried two more times, not allowed to leave messages. Physical pain. Required to commit xxxxxx. (*Homeland Security CO chief had decided by now that he needed some temporary evidence.*) Felt extremely sad, for the government wanted me to commit xxxxxx in order to make people into better people while wasting myself away: one stone two birds. There is simply no way to resist the enemy (overwhelming power). (*Just more negative thoughts which didn't correspond to reality so that I could look crazy for Homeland Security's sake.*)

Messed up Dr L's near Casbah, **2 B.** Collection. Took the wrong bus, bus 2 instead of bus 4. Got off in Westwood. Not too angry, but sort of understood today was EKT's birthday, and so she might want to collect more of my miseries as her birthday gifts. (*Ha! There was actually some truth in this: Homeland Security CO chief was planning for my arrest tonight as his birthday gift to Ekaterina!*) I took the bus to BRNTWD/ SM**. 1 W (hard effort; office 3ʳᵈ). 1 H. Then to SM/ WHLLYWD. 1 W.** I was apparently remotely controlled to break it just when the security guards showed up. They followed me, and the police came to arrest me. Severe hatred toward all these xxxxxxxxx as my deadliest enemy. Severe hatred toward the Russians: thanks to them, I'm now living a life intertwined with police activities. This has never been the case and would never have been the case had I never tried to save Russia. (*Right.*)

The 6 February signal points to 31 August, Ekaterina's birthday. Thus, it was just a message telling me when I would be arrested again – the ultimate birthday gift for her. I was supposed to be arrested just after I have completely revised the scenario about Homeland Security CO chief's mischief (08/02/2014) and my conspirators' solutions. (*All these were wrong scenarios: there was no message on 6 February, no mischief on 8 February, and my arrest had nothing to do with my revision of my scenario but was merely Homeland Security CO chief's attempt to generate some temporary evidence in the ICJ.*)

The total from the beginning to today: W: 269; N: 2163; SPC: 337; H: 313; B: 683; ATM: 19.

Note that SDW posted something new on her blog some time from 12 AM onward. (911 Free Way.)

By this time I was already arrested and brought to the Sheriff station. It's not clear whether Homeland
Security CO chief would then transmit his warning about me to the West Hollywood Sheriff station, but
we can be sure that both the Secret Society women and the Russian diplomatic service were euphoric
about the matter. (And of course Ekaterina too.) Because this means that, for the time being, the
previous ICJ trial would be locked up by an excellent evidence (that Homeland Security CO chief and
his star witnesses might be right about me in some way after all).

1 September (Monday)

First, a note about myself for the month of September. I would preface my September diary with the
following reflection:

> "By the end of this month, the reasons why I continued to commit xxxxxx had
> changed. I commit xxxxxx because: (1) most people are as worthless and lousy as
> SDW; (2) I'm a universal dupe. People deserve to be treated as if they were
> disposable and devoid of any value, because they are worthless and they would treat
> me in such way anyway.
>
> "Incidents where the control center inflicts tremendous physical pain on me to induce
> me to commit xxxxxx continue to decline. I'm committing xxxxxx more and more
> motivated by the ideas about justice in my head, rather than out of the physical
> necessity to kill pain. That is, I'm acting more and more like my natural self, as if I
> had decided to commit xxxxxx out of my own volition, rather than forced to do so by

160

the control center. In reality, the desires in my mind on which I act are still programmed by the control center; it's just that the control center is programming me to act and feel more like how I used to act and feel. And yet I still commit xxxxxx, whereas I never committed xxxxxx before. Thus have I 'graduated'. I have now learned that committing xxxxxx is an option when I feel that injustice has been perpetrated against me by the American society and I wish to do something about it. In the past, I didn't commit xxxxxx under similar circumstances because I didn't know such options existed. I'm moving away from the *me* which I have described in my letter to Prof. W."

This is basically my statement about Homeland Security CO chief's program of "criminalization".

Now, my diary entry for 1 September. Brought to the West Hollywood Sheriff station. Note that, on 3:49:00 in the recording, you can hear the police officer confusing me with another vandalism suspect. Then, solitary confinement in a waiting cell. One of the arresting officers kept on tricking me, telling me it's a felony and persuading me to confess. But I never admitted anything. After booking, I was brought to another large cell for solitary confinement. There was nothing around, very distressed, tried to sleep, was able to. By day, a detective came to ask me questions. Very sad over the fact that the court date was on the 3rd. By noon, taken to downtown jail. The processing was extremely slow, hence torturous. Waited in the clinics with the other convicts all night long. Tried to call Wes from there repeatedly, but nobody ever answered. One very pretty jail guard, Ms Gutierrez, all the uniforms so disgusting. Some chat with a black guy, who was charming and easy-going. Arrested for felony possession of hand guns, 45, in Compton. Asked him about how to buy guns. He asked me why. Replied: sometimes I might need it for suicide. Assumed that the guards nearby weren't paying attention. In fact they were! Finally, around midnight, put on 5150 and thrown into solitary confinement: completely naked, not allowed to wear my glasses, with only two slim blankets. Given medication by the nurse. Went into the most painful seizure; not knowing if I could ever get out. The most tremendous despair. I banged on the door and was twitching on the floor, and nobody ever cared. Nobody ever came over. Left to rot here by myself. Suddenly, after 15 minutes, felt a lot calmer, even though the situation remained unchanged. The control center has intercepted the data about my brain functioning patterns, and so calmed me down. (*Wrong scenario! But why did Homeland Security CO chief spare me?*) Slept quietly until 7:30 AM in the morning.

Now the Secret Society women's operation on my website for today. 4:26 AM, hinet.net, Taipei, Taiwan,

Could this possibly be Louis? 8:49 AM, he came again:

197.162.125.72 - - [01/Sep/2014:09:49:09 -0600] "GET /blogs/tag/targeted-individuals/ HTTP/1.1" 200 100770 "http://www.google.com.eg/url? sa=t&rct=j&q=&esrc=s&source=web&cd=4&ved=0CDYQFjAD&url=http%3A%2F %2Fwww.lawrencechin2011.com%2Fblogs%2Ftag%2Ftargeted-individuals %2F&ei=G5IEVPbRHdOp7Ab0jYBw&usg=AFQjCNF30IbBYMgoLtarelKYztfXBKJXFg&sig2=A4 CwKthQEHjsV6wVasZjeA&bvm=bv.74115972,d.ZGU&cad=rja" "Mozilla/5.0 (Windows NT 6.1; rv:31.0) Gecko/20100101 Firefox/31.0"

SDW might have told Louis how I had been targeting her with my blog and even with fake messages. But, in any case, everybody was at this moment evidently reporting me for the same things to the TMU saying this time that my arrest had demonstrated that they were all right about me so that Ekaterina's, and SDW's, stalking claims against me should be reinstated. Here it was evidently SDW who's making her case. But, as this volunteer was here checking out the crazy things I had said about SDW, he would have seen, on the very top, "I have attained inverse enlightenment" in which I had rambled on about how I hated Russians. "You see, that's why he's stalking Ekaterina! And a danger to her!"

He then seems to have clicked on an external link but come back within 2 seconds:

My supposed plagiarism. Again – was this guy simply an informant?

Now, to conclude. We are entirely unclear as to whether the Secret Society women had made any effort to alert the West Hollywood Sheriff Department with the Homeland Security warning about me on which they were listed as "experts" in this terrorism case. But it's certain that they had made more reports to the TMU trying to persuade them to reopen my case given that my arrest last night was indication that they, and their Homeland Security masters, were right about me. It's possible that the Russian diplomatic service had also contacted the TMU asking them to reconsider Ekaterina's stalking case against me. As usual, the TMU would refuse all requests saying that Homeland Security and the women gang weren't right about me.

2 September (Tuesday)

First, about myself. 7:30 AM, the nurse woke me up for medication. Terribly frightened again because I had to stay in this solitary confinement for another whole day. But then I was programmed to fall

asleep. In fact, I would be sleeping intermittently throughout the whole day. Medication or programmed? A lot of suffering was thus spared.

I would suppose that, because the Republicans (doing the White Roses' dirty work) have entered into evidence "self-defense" as the excuse for torturing me, they will always refrain from torturing me more than is necessary to obtain the evidences (the brain scan images) they need. Such is the constraint under international laws. (*I was totally wrong! It was just Homeland Security CO chief giving me a break! But would my wrong scenario here come true later on, especially in July 2023 when we shall have come to revise this chapter?*)

Now the Secret Society women's operation on my website today. For 4:18 AM, staticip.rima-tde.net, Madrid, Spain,

My harassment of Ekaterina's family members.

In summary: it seems that the Secret Society women had spent the whole day today reporting to the TMU trying to convince them to reopen my case given my arrest: that I had indeed plagiarized and violated the intellectual property rights of Dr Bxxxxxxxxx and Professor Ménard and that I was seriously insane and was consequently harassing Axxxxxxx, Ekaterina and her family members, Shizuka, and the other Secret Society women. (Dr B seemed to be especially involved: 6 complaints on her behalf in total today.) To fortify their claims that I was a plagiarizer, the Secret Society women had even recruited a physicist from Fermi lab to make false reports. As usual, the TMU would not validate the Homeland Security warning and reopen the stalking cases of Ekaterina and SDW against me.

3 September (Wednesday; Wes)

First, about myself. Some time after 5 AM, the Sheriff woke me up for court. The whole process of going to court (lining up, going on the bus, and entering the courthouse) took more than three hours. Enormously exhausting and painful. On top of all this, I was suffering from akathisia while on the bus (the side effect from Zyprexa and Depakote). Still thrown into solitary confinement while waiting in court. But there was a phone, and I used it to call Wes. Amazingly, he answered it, but it was a collect call. I told him I was in jail, and that I was thrown into solitary confinement because I was somehow regarded as extremely dangerous. Later on I would learn that I was actually put on 5150 – evidently because the Sheriff officers had overheard me saying I wanted to kill myself. I was finally taken to meet the lawyer around 3:30 PM. The lawyer told me there was no offer. I thus decided to plead not guilty. I met the judge for a few minutes. She asked me for my plea, and then set the trial for 17 September.

Now the Secret Society women's operation on my website for today. 4:25 AM,

This was apparently the Hanover volunteer whom SDW had called upon on 10:55 AM to make a report about my harassment of her. Did he spend the past three hours studying my blog post series? Reporting them? In any case, he was now listening to the recording to which I had linked on my 11 August blog post in order to further report on my supposed delusions.

This seems almost to be SDW's Tampa friend again – and, yet, the user-agent is different (Android 2.3.6 LGL35G instead of Android 4.4 LGL34C). What's going on? If you examine it carefully, you'll see that this was the other Tampa friend of SDW's who was here on 22 June, 10:49 PM and 14 June, 8:55 PM and so on. She was the fourth volunteer whom SDW had called upon today to make reports on her behalf.

3:12 PM, it's Hanover volunteer again:

92.76.149.105 - - [03/Sep/2014:16:12:59 -0600] "GET /wes/10_7_12/IMPwwesucla_10_7_12_228-354PM.MP3 HTTP/1.1" 206 988493 "http://www.lawrencechin2011.com/wes/10_7_12/IMPwwesucla_10_7_12_228-354PM.MP3" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_4) AppleWebKit/537.78.2 (KHTML, like Gecko) Version/7.0.6 Safari/537.78.2"

He continued to listen to the recording. He had been listening to this recording on and off for more than an hour. Since the Secret Society women were certainly pleading to the TMU again, this Hanover volunteer was probably just trying hard to convince the TMU detectives that I was indeed totally delusional about SDW so that SDW's stalking claim against me should really be revived. (This loyal servant of SDW's had already spent 4 hours doing this today!)

In summary: as the Secret Society women continued to spend another day trying to persuade the TMU
to reopen all these stalking claims against me, they again emphasized how I had plagiarized and was
insane and dangerous and had harassed Ekaterina, Shizuka, Dr Bxxxxxxxxx, and Jennifer Dxx. (When
all this failed and everyone was back to the brainstorming, the women gang were even able to mobilize
somebody from the Polish Parliament to help prepare a better report.) Meanwhile, SDW had been
working hard for the whole day: she called up the Egyptian volunteer again on 8 AM in the morning,
and then spent 5 hours, between 10:30 AM and 3:30 PM, sending the Sacramento volunteer, the
Hanover volunteer, and one of her Tampa friends to make special reports to the TMU about how I had
harassed her and terrorized her with all my delusions about her.

4 September (Thursday)

First, about myself. For a strange reason, instead of being released, I was awakened around 5:30 AM
and told that I would be taken to court. Again, the arduous processing, the bus ride, and the
reprocessing at the courthouse, taking up three hours or so. At the courthouse, I was again thrown into
solitary confinement, this time without a telephone. And it's the Pasadena courthouse this time.
Abandoned, ignored, not even allowed to use the toilet. Had to urinate into a cup. Slept intermittently,
and was told around 1:20 PM that my turn was almost up. Then, past 4 PM, still not taken to see the
judge. But an officer told me that my case had been dismissed, and that if it weren't for the yellow shirt
I was wearing, I would be released right there. Many scenarios went through my mind about what
might have happened behind the scene, such that I was retried at a different court, only to have the

whole case dismissed completely. (*There was in fact nothing special going on behind the scene here: it's all because of my unpaid tickets for the Pasadena courthouse, that's all*.)

Kxxxxxxx would post something on her Twitter page today: her first time since 19 August. Later I would wonder whether she was intentionally trying to convey her location to me. (*Not at all!*)

Now the Secret Society women's operation on my website for today. 4:18 AM,

This was of course very strange: she certainly knew that I was still in jail and couldn't possibly see her
message. Presumably, because the women gang knew that they were unlikely to succeed with the TMU
and had already heard from Homeland Security that I would be released tomorrow, they decided to
leave a message for me today anyway so that I might respond tomorrow. Or perhaps it's because, as
they discussed this option, they recalled the fact that no volunteers had so far ever succeeded in logging
in and leaving me a message.

My violation of...

11:05 AM, the Berlin (or Hanover) volunteer clicked on "Feefee and Valerie":

89.204.137.140 - - [04/Sep/2014:12:05:08 -0600] "GET /feefeeval5rev/feefeeval5rev.pdf HTTP/1.1" 200 15157 "http://www.lawrencechin2011.com/" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_4) AppleWebKit/537.78.2 (KHTML, like Gecko) Version/7.0.6 Safari/537.78.2"

This seems to suggest that Marie had also joined in on the complaint process today.

My supposed victimization of SDW. SDW seems to have already summoned four volunteers this
morning to make false reports in order to persuade the TMU to reopen her stalking case against me.

Did SDW summon the fifth volunteer today on her behalf?

11:23 AM, rneural2011 sent me another email:

> I read your blog on wordpress about implant chip in your brain. I believe I have been
> implanted without my consent as well to invade my human rights and personal

Namely, it was the exact same email she sent me on 27 August. Since she obviously knew that I was in
jail right now, she couldn't possibly expect a reply from me today. What exactly was her purpose here?

11:26 AM, the Berlin/ Hanover volunteer continued:

89.204.137.140 - - [04/Sep/2014:12:26:56 -0600] "GET /feefeeval5rev/feefeeval5rev.pdf HTTP/1.1" 200 436642 "-" "Mozilla/5.0 (Macintosh; Intel Mac OS X 10_9_4) AppleWebKit/537.78.2 (KHTML, like Gecko) Version/7.0.6 Safari/537.78.2"

My harassment of Shizuka. Shizuka continued to participate in the complaint process. (It's now 4:52 AM in Japan! And she's still awake! That tells you just how ferocious the persuasion process was today.)

In summary, the Secret Society women had spent another day trying to persuade the TMU to reopen the stalking cases against me by reporting that I had indeed harassed Dr Bxxxxxxxxx, Ekaterina and her family members, and Shizuka and hosted violent videos on my website. SDW called upon several more volunteers to report how I had harassed her with the delusions I had expressed on my blog about her. She had also called upon the Hanover volunteer to continue to report on my website. Given that I had never replied "rneural2011", the Secret Society women also instructed her to send another email to me. They presumably knew that I would be released from jail tomorrow.

5 September (Friday; released from jail; targeting resumed; Wes)

First, about myself. In county jail. The release process started around 11:30 PM. The process lasted until 5:30 AM. I was released, past 5:30 AM. Feeling okay. Came to the West Hollywood Sheriff station to pick up my things. Missing: spray, shaving razor, batteries, changes, bottle, and the rock. Starbucks. Was able to connect with Wes on 7:50 AM (from 52:00 onward).[4] I talked about how I had

4   In: "IMPwwesConfinemnetOracle_9_15_14_701-830AM.MP3": still at the police station to retrieve my things. 7:00, I checked my messages. 16:00, in a coffeehouse. 22:00: a female walks in with earphones. 27:30, on the website of the Belgian consulate. 52:30, I called, and was connected with, Wes.

achieved inverse enlightenment after the control center had inflicted such severe pain on me, how vandalism had become a spiritual journey since it demonstrated to people how much I hated them, how the control center had got me arrested, how terrifying solitary confinement was and how I therefore needed to learn how to euthanize myself,[5] how Belgium has in fact better euthanasia laws because, here, even people with mental illnesses can ask the doctors to kill them; how fighters in the Algerian War were driven insane via solitary confinement; how the worst thing about all this was the total apathy of the officers and the nurses; how confinement didn't bother other people as much as it had bothered me because other people didn't have any goals in life;[6] how I really hated the Russians now because they wanted me to hate them so as to benefit from it;[7] and how his "727" oracles were in fact meaningless garbage.[8] I then came to the Belgian consulate to ask about the euthanasia laws. Then I took the bus home. I called Stephanie on 9:35 AM. She was not available to talk. She was in Toronto until the 16th. Home, napped until 5:30 PM. I discovered the landlord's three day notice. The check was apparently inserted under Shoji's door. One called the landlord, and she required me to pay for the broken window too, and charged me 50 dollars extra for late rent. Apparently the control center allowed me to save 100 dollars last month, and 100 dollars this month (not spending money while in jail) in order to provide me with extra money to pay for late fees and fix the window. Refused to fix the window. Began expecting to be kicked out, per the control center's program for my life. Severe anger, severe hatred for everything Russian. Required to resume committing xxxxxx to the fullest extent possible. (*Apparently, after the morning conversation with Wes, Homeland Security CO chief wanted more evidence of my delusional mind and hatred for Russia. More on this below.*)

Stories. The surveillance guy was there as usual. (*It's just Morisio.*) Another fraudulent charge from Intelius. Lost another 19 dollars. Called the bank about it. Then researched euthanasia organizations. Wrote an email and sent it around 11:30 PM:

> Dear Death with Dignity National Center:
>
> I write this email to you because I found a bewildering amount of information and resources on the Right-to-Die Societies network, and don't know who best to write to. If you can't answer my question but know someone else who can, can you be kind enough to forward my inquiry to him or her?

---

5 "Since I don't know how to related to society except by committing xxxxxx… but if you commit xxxxxx, you can't be caught… and their way of preventing you from harming yourself is just harm you more… breaking windows might be a good pain killer, but euthanasia is better...

6 At this point: "Wes, you are so lucky, you don't have to suffer in order to save the world…"

7 "It's so disgusting… they make everyone pay for their mistakes… cowards… and what they need is my hatred of them…"

8 Again, my wrong scenario about how the Agency and the Russians had planned for the reactivation of the ICJ trial back in October 2012 and decided then to make SDW into the intermediary form between me and ANG: "So they needed a trigger… the purpose of the oracle is to trick me into believing that she would be such an intermediary… the oracle has no informational contents… the Delphic Oracle is just so much bullshit… so they hurt people and do all sorts of bad things so that the ICJ can declare them 'victims of the conspiracy'… it's 'inverse justice'…"

I'm looking for [a] doctor-assisted suicide program. My situation is rather peculiar since I'm terminally mentally ill, but not physically ill. The US government has developed one of those nano-size implantable chips to insert into the targeted person's brain and a super computer which will then control the person to do whatever the government wishes him to do by stimulating the right parts of his brain via the chips. Usually, the government would control the targeted person to go insane or engage himself in criminal conducts so that he may get himself arrested and disposed of. This kind of program belongs to highly classified military materials, but in the public domain the same technology exists under the name of "brain-computer interface".
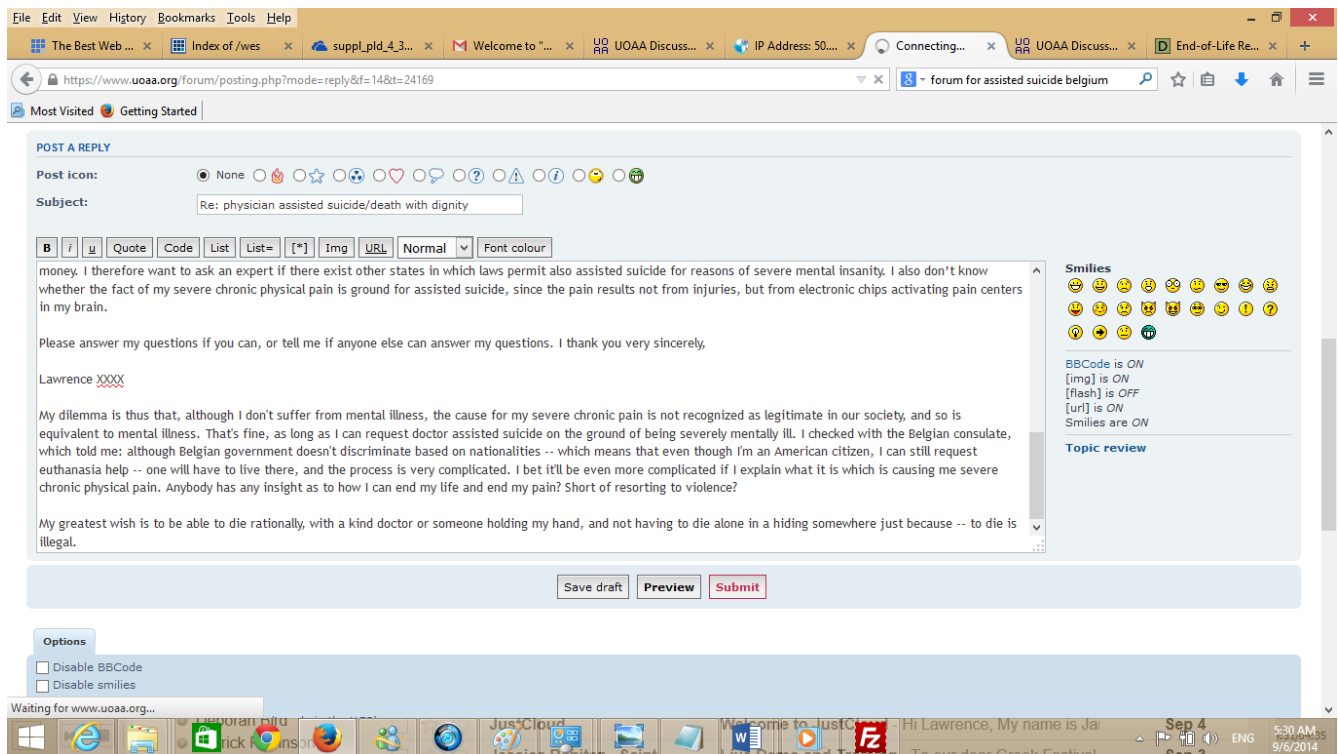

The US government has implanted, or permitted some person to implant, such chips into my brain, the goal being to remotely control me to commit xxxxxx perpetually and get myself arrested repeatedly. However, in my case, several other governments are also involved. The goal in my case is to force me to produce the right evidences for an International Court of Justice trial where I am one of the persons under dispute by various nations. (That is, the nations have to prove in court that I'm a criminal, and, since I'm not, they have had to insert chips into my brain in order to force me to commit xxxxxx against my will.) The process of forcing me to commit xxxxxx generally involves severe physical pain and repeated disruptions of my life, especially since I [would] have to be arrested by the police repeatedly.

Since there is no possibility of getting any help (since my confession of my problem is automatically regarded by all people as signs of insanity) and since there is no possibility of forcing the governments to stop, I begin to consider suicide. Because I'm afraid of violent death and don't know how to die peacefully, I begin to consider doctor-assisted suicide programs. However, I discover that only in Belgium does severe mental illness constitute ground for assisted suicide. I live in Los Angeles and have no money. I therefore want to ask an expert if there exist other states in which laws permit also assisted suicide for reasons of severe mental insanity. I also don't know whether the fact of my severe chronic physical pain is ground for assisted suicide, since the pain results not from injuries, but from electronic chips activating the pain centers in my brain.

Please answer my questions if you can, or tell me if anyone else can answer my questions. I thank you very sincerely….

Then collected damages in a new area in Glendale around 1 AM. Bad choice. **1 W (FNRL).** There were no other safe targets. Feeling inhibited, because the fear of arrest was great**. 5 N.** Came back to Vermont/ WLSHR**. 3 B at the Dentist**. Regret: not enough damages collected for the pain suffered. Home, MSSGSDW (TOR). (Didn't believe she could be arrested or hospitalized.) (*It was, as you shall see, evidently Homeland Security CO chief who wanted me to harass SDW again. More on this below.*) 5:30 AM. Tried to post on uoaa.org's discussion forum, with a link to my blog posts on brain chips. Firefox malfunctioned, causing me to post it 3 times. As if to annoy the moderator!

My attempted posting on uoaa.org

(*Let's now try to understand what exactly was going on today. Homeland Security CO chief ordered Wes to talk to me early in the morning evidently because, in the past few days, his star witnesses weren't able to persuade the TMU to reopen Ekaterina's and SDW's stalking cases against me even given my arrest. He needed more evidence that his demonic profile of me was correct. So, in this conversation, he and the women he's running had obtained these essential evidences:*

(1) my delusion about some control center hurting me;
(2) my danger to myself;
(3) my hatred for Russia (and hence obsession with Ekaterina and danger to her);
(4) my delusion about SDW.

Then, by 6 PM, because, even with this incredible conversation with Wes, the TMU had still refused to validate the Homeland Security warning, Homeland Security CO chief required me to hate Russia again. Then, by midnight, he wanted me to send this crazy email to Death with Dignity National Center. For sure, in the morning he would alert the Center with his warning about me and instruct them to take my email to the police so that there can be another chance for a police agency to validate this said warning.[9] Then, once I was home, he wanted another MSSGSDW so that, in the morning,

---

9   But, somehow, if I was delusional about being chipped in the brain, I couldn't really be delusional in wanting the doctor to kill me for my incurable mental illness, could I?

*SDW could also go argue with the TMU again presenting them with more evidence so as to force them to validate the Homeland Security warning about me and reopen her stalking case against m*e.)

Our assumption is that, after a whole day of debate, the TMU didn't dismiss the Homeland Security
warning until after 6 PM – with SDW calling upon the Clear Wireless volunteer on 6:10 PM to try one
more time to persuade the TMU that she was indeed my stalking victim – so that, by now, this Bellevue
volunteer was called in to brainstorm how exactly to convince the TMU that I did plagiarize (in order
that the Homeland Security warning could be saved after all).

8:26 PM, I was editing my blog from Stories LA. I posted "Diary of Targeting, August 2014". It was
evidently Homeland Security CO chief who had wanted me to do this: more materials for the Secret
Society women and their volunteers to complain about.

Karin was evidently talking to her at this very moment (telling her how I had included the pictures of her meetups on my writings as a way to harass her). Again, everyone was frustrated with the fact that the Homeland Security warning was dismissed once more – and that I just wouldn't respond to "rneural2011".

Called upon by SDW to examine my victimization of her? Was she still awake? Very likely! Because she had been waiting for the MSSGSDW! (The Godsend that would save her status as a "stalking victim"!)[10] 2:53 AM, this volunteer came to the blog post series for this month.

Was this even related to the Secret Society women's operation?

4:14 AM – finally, the message on SDW's blog:

Needless to say, SDW immediately saved up the message as her most important evidence in the next few hours.

6 September (Saturday)

First, a note about myself. Went to bed past 7 AM, watched various Chinese movies, couldn't sleep, read *Simone de Beauvoir*, and then ate at the Korean restaurant, past 11 AM. Home, napped. Woke up past 7 PM. Checked SDW's blog: she never approved the comment. My Forum posting (assisted suicide) was also never approved. (*Of course! Everyone had merely reported it to the police!*) Saddened. Again, crxxx was the only meaning of life. (*All because I didn't understand as yet what Homeland Security was doing to me.*) 8:15 PM, I was adding money to my Tap card, VRMNT/ WLSHR station. Forgot, or was programmed to forget, to tap the card after inserting the money, resulting in the loss of 5 dollars. Tried to avoid suffering physical pain by reminding myself of all the free rides I had taken.

Successfully arrived in HRMSA. **3 W (PTHWY: 2ⁿᵈ, 3ʳᵈ including H; 1 shattered), 3 B, 4 N.** Missed the bus going back. Upset for a while, and missed the bus going to Long Beach also. Collected the 3ʳᵈ W to calm down, then settled down in a McDonald's, checked the visitors' log, and took the last bus to Long Beach. Now, SDW had approved the comment some time between 7:30 and 11 PM! After tonight, I would begin to realize that MSSGSDW was of no use because Homeland Security CO chief would inform SDW what this was really about. (*Ha! I had barely understood the whole extent of Homeland Security CO chief's trick here.*)

It would seem that he was trying to tell the TMU something about my entire website, not just my
bullshit about SDW.

Nothing else was showing. As SDW continued to try to persuade the TMU to reopen the stalking case given the gold evidence from this morning of this latest MSSGSDW, the Queen herself had come to make her case: "He really *is* delusional… the Homeland Security warning *is* correct!"

It must be one of the LUG buddies. (He would have seen the August Diary and "I have attained inverse
enlightenment" on the very top.) Since the LUG people were supposedly the TMU's informants, they
were just pretending to try to persuade the TMU.

The fact that she was instructed to try to befriend me again is indication that the TMU didn't consider

….

Presumably this. Because the TMU had again refused to validate the Homeland Security warning and consider SDW to be the "victim of my stalking", not only was rneural2011 instructed to try to befriend me but Vija was also instructed to post the essential evidence of my (supposed) stalking of SDW on the Russian diplomatic mission's secret Facebook group for me. (Again, in order to create some temporary evidence with which to lock up the previous ICJ trial for the time being.)

7:05 PM, rneural2011 sent me an email. This is her third email to me.

> I read your blog on wordpress about implant chip in your brain. I don't believe you suffer from schizophrenia. I believe you when you said that your mind is controlled and every movement you do or say is tracked. What you described happened has been done to me as well. Friends and family knew that my privacy is violated everyday as these evil perps would post it for global public viewing somewhere online that it is kept hidden from me, yet friends n family continue to deny it exists and trying to infer that I am delusional. What I do not understand is if I am such threat to national security or such criminal then why are they unable to come out and show themselves face to face? Maybe you have an answer for me. *I sent the below email to you a few days ago, but have not gotten a reply. I tried to post a reply on your blog but seem to be unable to recognize my username and kept telling me that I am not registered user when I am.*
>
> I believe I have been implanted without my consent as well to invade my human rights and personal privacy reading my thoughts, broadcast what I am seeing, eavesdropping into all my conversations, for the purpose of humiliating me.

Where or how can I get a RF scan? Possible way of how I was implanted was I had vaccination done three yrs ago, minor surgery, dental crown done. All of these procedures required injection.

Thanks in advance,

Irene

(Emphasis added.) Again – I would of course never respond.

The question is: why was he visiting? Presumably this: after Homeland Security CO chief had instructed him this morning to submit my post to the TMU as evidence and now that the TMU had dismissed the Homeland Security warning once again, Mr Moderator was simply contacted by the Secret Society women in regard to how to make a more proper report (perhaps tomorrow) in order to persuade the TMU.

7 September (Sunday; severe sleep deprivation; nervousness)

First, about myself. Worked until 8 AM: installed Opera and burned DVD-407. Tried to fall asleep while watching Chinese movies. Couldn't. Past 10 AM, went to eat. Home, tried again. Couldn't.

Decided to skip sleep instead. (Of course I no longer bothered with the Orthodox church.) (*Homeland Security CO chief didn't allow me to sleep again.*) Going to Storage. Lunch again at the food mall. Then: **2 N**. Then I was going to Stories. Very sleepy already. Liana there. Wrote some, but then got caught up in the (wanton, idiotic) excitement over the blog post for today ("The terrorist conspiracy at issue in this ICJ trial and the wish for euthanasia"). It incited nervousness for three hours, but, at the same time, fear of punishment for thinking out more "smart stuff". Home Depot. A little fear of arrest. At Union ST, almost 10 PM. Gave the speech: "The Republicans' War on Women". (*Again, a completely wrong scenario. Presumably Homeland Security CO chief wanted me to do this because he had agents around to intercept me: more evidence that I was delusional about my supposed women victims (their involvement in some government conspiracy).*) **10 N, 4 B (total).** Done by 11 PM. Wondered if "this is it": it has been 7 months since 8 February! (*Not at all! Just more effort to make myself look crazy for Homeland Security's sake.*)

Now the Secret Society women's operation on my website for today. 4:59 AM,

This is a "high profile volunteer": as you shall see, he would, in the coming years, repeatedly show up
to report on this chapter.

The Secret Society women had simply sent him the link to my blog post: "He has also developed strange delusions about Khalezov..." But this volunteer again didn't seem too enthusiastic.

To report on my latest delusions about my supposed women victims and everything else.

2:58 PM, it's rneural2011 again:

23.122.214.218 - - [07/Sep/2014:15:58:06 -0600] "GET /dot_clear.gif HTTP/1.1" 404 1360 "http://www.lawrencechin2011.com/" "Mozilla/5.0 (iPad; CPU OS 7_1_2 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D257 Safari/9537.53"

And so she came back after 7 hours. Within 6 seconds, she looked up "Schizophrenic, II":

23.122.214.218 - - [07/Sep/2014:15:58:12 -0600] "GET /schizo2new4/schizo2new4.pdf HTTP/1.1" 200 2602827 "http://www.lawrencechin2011.com/" "Mozilla/5.0 (iPad; CPU OS 7_1_2 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D257 Safari/9537.53"

Was Karin directing her again? Namely, to show her how I kept everyone's pictures on my chapter. (Recall that Karin had just directed her to this document two days ago.) Then, 32 seconds later,

23.122.214.218 - - [07/Sep/2014:15:58:45 -0600] "GET /howihavebg9rev/howihave-bg9rev.pdf HTTP/1.1" 200 298401 "http://www.lawrencechin2011.com/" "Mozilla/5.0 (iPad; CPU OS 7_1_2 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D257 Safari/9537.53"

Karin was definitely instructing her to report on my supposed delusion about there being this ICJ trial over me.

2:59 PM,

66.169.199.55 - - [07/Sep/2014:15:59:24 -0600] "GET /scientificenlightenment1/dividedline.jpg HTTP/1.1" 200 35072 "https://www.google.com/" "Mozilla/5.0 (Windows NT 6.1; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/37.0.2062.103 Safari/537.36"

After looking at "Agency's Sting Operation" for 41 seconds, rneural2011 came to the first chapter of "Karin's meetups":

23.122.214.218 - - [07/Sep/2014:15:59:26 -0600] "GET /karins_meetup_2bg2/karin's_meetup_2bg2d.pdf HTTP/1.1" 200 959742 "http://www.lawrencechin2011.com/" "Mozilla/5.0 (iPad; CPU OS 7_1_2 like Mac OS X) AppleWebKit/537.51.2 (KHTML, like Gecko) Version/7.0 Mobile/11D257 Safari/9537.53"

Evidently, Karin was still instructing her to report (how I had developed this delusion that she was a "CIA agent" and so on).

3:02 PM,

Within 4 seconds, she also came to my "New Summary":

4;56 PM, I left a message on LUG's website (linux.ucla.edu): "How did you find somebody in North Korea…?" Again, first of all, nobody would ever reply me because I was some sort of "suspect" still under investigation and, secondly, it's Homeland Security who had found friends in North Korea to help complain about my website.

8 September (Monday; Wes)

First, about myself. Although sleeping early (2:30 AM or so), thought about my latest blog post about
[BOL], and got up and revised it. Then slept between 4 AM and 12 PM. TNT, and then went to the SM
Public Library to return books. Because of the blog post on [BOL], tried to read the beginning of
Freud's *Civilization and Its Discontents*. Amazed by the relevance of the beginning paragraph for my
Scientific Enlightenment. By the end of the day, I would add a New Preface to my Scientific
Enlightenment. While at the SM library, I also added a paragraph to my blog post about Dr
Bxxxxxxxxx:

> The judgment on Dr Louann Bxxxxxxxx must be that she is a major, important
> proponent of the currently fashionable "mismeasure of man". We are not talking
> about Stephen J Gould's conception. Before the 1960s, there was prevalent the
> "mismeasure of woman".

And so on. (*I had no idea that it's Homeland Security CO chief who had wanted me to add this note: in
order to add more substance to Dr B's stalking claim against me.*) Afterwards, came to Westwood. Left
messages for Wes, and he called me back on 7:02 PM. A very long, satisfying talk (from 5:36:00
onward).[11] Note that I mentioned my suspicion that I might have discovered something important with
my discovery that the principle of conservation underlay both Fermat's principle of least time and

---

11   In: "IMPtntconfsWes_9_8_14_130-734PM.MP3": in TNT. Did I try to call somebody? 13:00, my wrong theory: that
there was now a UN Study Group to go over, every morning, the behavior of my "stalking victims" and me (in order to
understand the perniciousness of political correctness). "But the dispute over Ukraine is so realistic… maybe it's not
acting… Maybe the seatings in the meeting are quite limited…" How BOL must have been part of it. "The NATO
people are not aware of the Macrospherian programs… They only know about the current ICJ trial, not the previous…"
How I didn't trust Ban Ki-moon. 24:00, I asked this guy if he was texting. 33:00, I left TNT. On the bus. Siren. 1:07:00,
the guy with earphones in front of me (not carrying anything) was making me uncomfortable. (Homeland Security
surveillance? In response to my "harassment" of SDW?) 1:10:10, siren. 1:52:00, Freud's *Civilization and Its Discontent*
and my desire to add a new Preface to SCI: "I don't understand why other people aren't as intelligent as I am." 1:54:30,
off the bus. The Telethon settlement? 2:13:00, I left a message for Wes: the control center requires us to talk… 2:44:20:
"Dr B represents the 'Mismeasure of Man'… before the 1960s there was the 'Mismeasure of Woman'… after the 1980s
there is the 'Mismeasure of Man'… People who are caught in it don't see any mismeasure… what has happened is that
one form of prejudice, one form of error, is replaced by another… somehow Dr B sees the 'Mismeasure of Man' as a
correction to the 'Mismeasure of Woman' when it is not… Somehow people just can't get out of errors… when they try
to, they merely replace one error with another…" 2:53:00 – was I in the Biomedical Library? Or SMPL? 3:57:40, a
white man in front of me was reading a book about North Korea. 4:02:00: now I was using the library's computer to
check DVD-406. 5:04:00, I called Wes, but no answering, and so I got on the bus. 5:19:10, my idea of calling Valentine.
5:36:20, Wes suddenly called me. (Obviously instructed by Homeland Security.)

Kepler's principle of equal area in equal time. It's not clear whether this suspicion was programmed by Homeland Security CO chief: later he would have me make a complete fool of myself over this. Then note that I mentioned again that the CIA had purposely chosen the Secret Society women (except for Karin) because they had below-average intelligence. This, again, was in fact the case but nobody else would believe it because everything which had happened so far seemed so "natural" and un-orchestrated. Note also that Wes asked me repeatedly: "How do you know they are complaining about your website?" I also mentioned how only Karin's concern was "rational". I next talked about how, without other people's validation that I did have chips inside my brain, I'd rather die. We then had a long discussion about how I was one of those shallow types who needed other people's recognition in order to exist. Then, In-and-Out. And I began believing that the LUG buddies were all working for the government (*correct*), and that they had staged the international visits, including the visit from North Korea (*wrong*). I was convinced that nobody from North Korea had actually visited my website, that the government had instructed the LUG people to stage the fake visits in order to produce the right episodes of conspiracy necessary for [the] implementation of BOL's program. (*Totally incorrect scenario!*) Starbucks, almost 10 PM. Wrote, etc. Rousseau's *Discours*. Left, past 1 AM. **3 B (PSYCH).** Police cars were cruising up and down Westwood Blvd. On the bus on SM BLVD, 2 AM. VRMNT. **Total: 5 N.** Near home by 3 AM. Reading Rousseau's *Discours* as well as Freud's *Civilization*.

Note that I also called Valentine today but got no answer from him.

(*We must now examine in greater details my conversation with Wes tonight – for it's certainly because the TMU had again rejected his warning about me that Homeland Security CO chief instructed Wes to call me so that I would say more crazy things which would be evidence to confirm his lies about me:*) (1) how the landlord was so unhappy with me (especially after the control center had controlled me to break my own window). (2) The visits from strange places to my blog and website: at first I thought the control center had orchestrated them, but now I thought it's the Secret Society women who had hired these people to visit and make false complaints. Even a visit from North Korea. But how do you find people in North Korea? Maybe the LUG buddies had helped them find… It looks real, especially since the NK person was using Windows XP. (*Again, it's because I didn't yet understand how Homeland Security CO chief had put together this "complaint-industrial complex" back in late 2011 and 2012 that I would doubt the visits were real.*) But Wes debated with me: his friends in Brazil also used Windows XP. (3) I had got punished when they had approved the plan which I had proposed about Ekaterina. (*Evidence of my delusions about Ekaterina.*) (4) How, after my proposal of the Korea Plan back in July, I came upon Joseph Nye. Wes was not quite familiar with Nye. (5) A lot of visits lately to my chapter on Fermat's principle of least time. What would the control center make out of this? Kepler's "equal area in equal time" and the conservation of energy. Could I have stumbled upon some great scientific discovery? And my solution to Zeno's paradoxes of motion as well. (*We don't know whether I had ever stumbled upon something big, but this is in any case Homeland Security's evidence that Kxxxxxxx was right about me: grandiosity due to narcissism.*) (6) I had now understood better why the Agency had made Wes give me the 727 Oracle. It's meant to replace the secret messages which the Russians gave me back in 2010 (to prompt me to understand that France had objected). (*Wrong scenario: evidence that I indeed suffered from some grand delusion about there being some ICJ trial over me.*) (7) When the Russians gave me a hint, if I understood it, I would have conspired with Russia

and France all at the same time, but since Russia was the incumbent… (*The same delusio*n.) (8) How the "German Lady" had rejoined SDW's enterprise… Wes: "How do you know they are complaining?" But since the German Lady wasn't stupid, why was she doing it? All these women were stupid – (*and the recording runs out at this point*).

Now the second recording: (1) All the Secret Society women have below average intelligence… except for the German Lady, all because I met the German Lady before the current scandal is planned… and she's the only one that's normal, the one who actually has a reason to complain… she's the only one who has read through my story… she doesn't want people to know that she has once worked as a government informant… she's shocked to see how accurate my story was… (*Again, Homeland Security's evidence that I was indeed totally delusional, believing that some "scandal" was being planned and my "women victims" were all caught in it*.) 4:50, Wes asked again: "How do you know they are complaining…" "From their behavior on my website…" (2) Then: "I didn't understand why ANG, after she had gone inside the control center, didn't want to write about it… other people don't have this interest in government secrets… they don't write about it, and they don't want me to write about it, as if involvement with the government is something to be ashamed of… the way that other people develop their interest is very different from me… the theory I had developed about SDW's and the government's operations back in April is all wrong… too much symmetries… just as the European intellectuals had expected too much symmetries when they were developing their theories back in the 1700s and 1800s… the example in my head is the reconstruction of the Proto-Indo-European languages… the real thing is messier and less elegant than is thought… the languages, when they have separated, have developed all these cases independently of each other… and I brought up the example of Thomas Kuhn's paradigm-shift. The way I reconstruct the government's agenda is exactly like the evolution of science (from excessive elegance and symmetry to a much messier picture). (*Everything that I had said here counted as evidence of my delusions about my women victims. However, as expected, the Agency would point out that the example I used from Historical Linguistic was quite sophisticated so that my being wrong shouldn't be mistaken for my being insane*.) (3) If people don't believe there is such a thing as brain chip, then I would have to kill myself... euthanasia… (*Again, confirming Homeland Security's warning that I was a danger to myself*.) (4) only lately do I realize the control center's actions on others are very slight. The example: controlling me to match the honking from drivers. And the Secret Society women were merely set up. (*Evidence of my delusions about my women victims' involvement in some government conspiracy.*) (5) My communications with euthanasia groups: so impossible to find a doctor to kill you. Everyone is only focused on the body, and not on the mind. (6) What's wrong with my mind? I can't connect to other people's mind. I'm different from others: when I work on a problem, I'd want to share it with others. Wes and other people don't feel the compulsion to share. Me: "You are just like the German Lady." Wes: "You always see yourself through other people's eyes." Wes again: "Your happiness depends so much on others that you can't just enjoy something in solitude." How the German Lady would not want to talk about her experience working as a CIA informant – I can't understand that. But that's why the CIA recruits a whole group people all at once, not just one person by him- or herself. The example from "The Good Shepherd". And so I want to euthanize myself when I can't share… Wes: you probably like Facebook: immediately, a selfie to share with the world. How Alessandra never knew Wes could play the piano. Wes was not the kind that wants to show off. Me: if I can't show off, I'd rather die. Wes: I'm more interested in others or in

philosophy and so on… I don't talk about myself much… Because Wes isn't the kind that likes to talk about himself, he talks to me (since I only talk about myself and not him). And then the kind that wants to talk about the people he knows but whom you don't know about. Me: "I'm the extreme case of all these types you have just described." Wes: "Even when you talk about someone else, you're still talking about yourself." 42:50 – beep sounds? (*It would seem that I had done here nothing more than help Homeland Security and the Secret Society women prove to the TMU that Kxxxxxxx had really correctly diagnosed me when she projected her own NPD onto me.*) (7) I continued my wrong scenario: "This BOL's agenda: after this trial, the US and Russia would be back to the Cold War again. That's precisely their 'reconciliation': they come to the table and decide together that they shall be enemies, for otherwise life has no meaning. (Since the War on Terror is a bunch of bullshit, they want this 'real thing'.) Wes mentioned the BBC documentary and named two ways: 'Follow me – to utopia' or 'Follow me – because I can defend you against the enemy'… My complaint is that this sort of "negotiated enmity" is artificial… Before, you stumbled upon the meaning of life… and now you simply create it… and what's the point in my helping Russia, then? I should have helped China instead… the Cold War should be China-US… not Russia-US… we have to wait to see what BOL has decided… Russia can be a super power because it has a lot of natural resources, but not China… but BOL has decided it should not be China because China is too mixed up with both camps… but BOL is so fair that she wouldn't let someone sacrifice all for nothing… (*Again, evidence that I did keep on developing delusions about famous people, government conspiracies, and some strange ICJ trial.*) (8) How I had to get validated first in regard to this ICJ trial before I could move on and go back to philosophy. "If I don't get validated, I'd want to get euthanized." 57:40, Wes brought up Rousseau again. "People are miserable because they have become dependent on other people's validation of them." Me: "Reading him would not change how I feel." Wes: "Once again, Rousseau is correct…" And somehow Wes denied that being dependent on others' validation is human nature. Wes' example: this guy is taking care of this woman with six kids and the woman cheats on him, and he's all okay. (9) My wrong understanding: SDW's complaining because I have made a few blog posts about her, nobody else sees any big deal in it, but for her it's the end of the world. (*Again, I didn't understand yet that what's at stake is more than a few annoying blog posts, but the Homeland Security classification of me as some sort of terrorist with a bunch of women victims. And so I was providing more evidence that I did indeed develop delusions about SDW.*) (10) I ascertained that Wes' brother lived in Palmdale, and that he was supposedly not the Palmdale volunteer. (11) And the Paris wild child. How I wished the chips were never invented. (12) Wes' online courses. Wes' job prospects. His upcoming job at New York State Assembly and so on. Me: "Academic is just a trapping nowadays…" (*Right.*) (13) The newer generation of AWFs seem a lot prettier than the previous. Not as overweight as before. (14) I kept believing that BOL will provide Wes with a job at which he would at last be able to express his talents. "We made our prayer to BOL!" (*More evidence of my delusion about a certain famous woman, i.e. BOL!*)

9 September (Tuesday; sick, severe sleep deprivation; Liana out)

First, about myself. I worked on the New Preface to my Scientific Enlightenment until 7 AM or so. All because the UTF-8 coding was messed up. Tried to sleep. Can't. Eventually, slept until noon or so. Ate at the Chinese restaurant near home, and revised "On the Periphery of Karin's meetups". Home, still sleepy, tried to nap, can't. Stories, almost 7 PM. Liana was out of town! Neither was Claudia there. Worked, but extreme sleepiness and headache. Also stomach ache. I called Valentine again on 7:27 PM. No answering. Left 9 PM. Starbucks, Vermont. Figured out what had happened on 3 April. Got very sick before finishing writing it: severe stomach ache and headache. Decided to go home instead of collecting damages. **2 B at the post office**. Got home 11:30 PM. Slept until 1:30 AM, checked visitors' log, and then tried to sleep again.

Now the Secret Society women's operation for today. Some time this morning, rneural2011 would post a reply to my post "A different story..." on Prison Planet forum. Namely, the Secret Society women, frustrated that I had simply ignored rneural2011, now instructed her to lure me on Prison Planet forum instead.

It must be some time around 4 PM that Karin instructed rneural2011 to post a second message to me on Prison Planet forum. Namely, everybody was again frustrated that I had not responded to her first message.

This seems to suggest that the reporting had by now ended – with the same result of the dismissal of the Homeland Security warning by the TMU – such that the women gang now deemed it absolutely essential to lure from me some damaging confessions if the MSSGSDW was to count as targeting at all.

In sum: from 8:46 to 8:56 PM, he Googled for many of my recording folders (/2012/, /2011/, /2008/,
etc.); then, from 9 to 9:01 PM, he Googled for other recording folders (/petition/, /AK/, /drG/, /roach/, /
wes/). From 9:02 to 9:07 PM, he checked out many recordings at /petition/; on 9:08 PM, at /wes/
(2012/9/30; 2012/9/21; 2012/9/11); 9:10 PM, /AK/3-31-12/ and /wes/ (2012/9/28); 9:11 PM, /wes/
(2012/11/3); 9:13 PM, /drG/; 9:20 PM, /drG/; 9:21 PM, /drG/; 9:26 PM, /drG/. He had spent more than
40 minutes on my website. He was merely examining the situation: "The TMU has refused to reopen
his case… He has this website… Can you see if it's possible to do something to force the TMU to
recognize the Homeland Security warning about him as correct?… Maybe the way he violates people's

privacy by keeping recordings of his conversations with them on his website?" Many other volunteers, such as rneural2011 and the Laguna Niguel volunteer, were all standing by to see what this Pittsburgh volunteer could come up with.
