### **KIERSTEN'S VENGEANCE**

#### **1**

#### **LEGEND**

The Secret Society women consisted (as of November 2013): Angelica, Karin, Kiersten, and Dr P (Pettersen). SDW had not yet joined the campaign definitively. In this and the following narrative, the Secret Society women will be variously referred to as the "Secret Society", "Kiersten's Secret Society", or "Kiersten's gang".

The following is a June 2021 rewrite of the original "Kiersten's Vengeance, 1". This rewrite was called for to correct, once and for all, all the mistakes which had populated the original version. The original version, with the file name "timeline301.pdf" (last dated 11.02.2018), can still be found in the same file folder.

Note that, from this point on, I would log virtually every visit to my website while reconstructing. In this beginning stage, I often didn't log worthless visits to images on my website. But, later on, I would log these too.

#### **RESUME**

The following reconstructs the operation of Homeland Security CO chief and the Secret Society women against me and my website from 1 to 20 November, 2013. First, a summary.

Three questions remaining from the previous chapter "The Syrian scandal, II" are: (1) Did Angelica return to Los Angeles from Mexico on 22 October? Probably yes. (2) Was there any relationship between the LAX shooting on 1 November and my case? It seems that there *was* indeed a connection: for, somehow, everybody in Kiersten's gang was convinced that I would be arrested on 1 November. One has to wonder whether the LAX shooter was in fact remotely controlled to go insane by the Monkey inside the control center – as part of the orchestrated plot to get me arrested. This could explain why Angelica was so convinced that I would be arrested on 1 November: her father had told her so. (3) Something must have happened to the control center on 1 November for, from 1 to 5 November, I wasn't tortured at all. The assumption is that the CIA had led the FBI and other law enforcement officers (e.g. the TMU detectives) into the control center to bust the Monkey on 1 November. The bust was evidence that I was in fact neither delusional (since something like what I said was true) nor violent (since it was the Monkey who had been controlling me all this time) so that, for a moment, it seems that the CIA was ready to reactivate the previous ICJ trial.

These Homeland Security thugs – foremost Homeland Security CO chief – were absolutely terrified.

At this point we should try to take stock of what I had so far written since it was these writings which the CIA wanted to use as evidences once the previous ICJ trial could be reactivated. I had thus far completed the first two volumes of “The Secret History” (the conviction of China), “Ying and Yang” I and II, and the first chapter (A) of “The Birth of A Mission”. I had also started on the two other chapters (B and C) of “The Birth of A Mission”. The evidences for any conviction of the Boss were there, although those for the conviction of Russia were still only potential. On top of that, the CIA had intercepts of my saying that the French had destroyed all the evidences of the ICJ trial back in October 2010. As you have seen, these evidences had been worrying Homeland Security. You have seen that, every time when I made progress with my reconstruction, Homeland Security CO chief and the Monkey would strike me – thus my torture and hospitalization right after I posted my first version about Khalezov's Third Truth in late May 2012, the destruction of my file and my torture and hospitalization when I was rewriting “Schizophrenic, III” in November 2012, and the investigation and conviction of me as a “terrorist” when I had embarked on “The Birth of A Mission” in September 2013 – in order to obtain evidences to confirm their false profile of me and make it impossible for the CIA to reactivate the previous ICJ trial.

Now, what happened from then on. On 2 November, everybody in the Secret Society was surprised to discover that the TMU had never removed my website. They soon concluded that it's because the TMU didn't quite believe their false reports – especially about my plagiarism. They henceforth concentrated on reporting my website for plagiarism. They even forged evidences in their vain attempt to convince the TMU. On 3 November, the Secret Society women – when they noticed me blogging again – had finally come to the realization that I was never arrested. It's only now that they began facing up to the reality that the TMU had already become disillusioned with this bunch of “victims”. Desperate, the Secret Society women continued to spend vast amount of efforts reporting me for plagiarism. At the same time, three important persons visited my website: the Fair Lawn, New Jersey, volunteer (Liz?), Melody (from FFCHS), and the “Lincoln Center” volunteer. On 4 November, the women forged evidence again to prove my plagiarism. Today the LUG geeks at UCLA had also been alerted that I had never been arrested, and a person looking like Veronica had also visited my “Ying and Yang, II”. On 5 November, the LUG geeks showed up again, plus a Beverly Hills volunteer. On 6 November, the Secret Society women forged evidences for the third time. Passing the “Chaya warning” and the Homeland Security warning about me from person to person, the Secret Society women continued to spread hysteria about me and my website: “This dangerous and crazy stalker... He has this website, full of crazy things... And yet the detectives have refused to arrest him and remove it... Everybody, help!” By the end of this month, about a thousand more people from around the world would be galvanized in this way and

join the Secret Society women's campaign to ban this dangerous stalker's crazy website and convince American law enforcement that these women were all right about him. The women's online group about me continued to enlarge.

It would seem that, by 6 November, Homeland Security CO chief had successfully prevented the CIA from reactivating the previous ICJ trial and taken control of the control center. He did this by going before the judge computer and successfully establishing me as a terrorist with the intent to harm him and the Secret Society women (Angelica and Dr P) and thereby obtaining the judge computer's authorization to use faulty evidences to frame me and employ the control center to control me to conform to the Secret Society women's testimonies about me. Now, since the Secret Society women's most fundamental claims about me were that I was dangerous and that I was insane, Homeland Security CO chief thus had the authorization to keep the Monkey inside the control center and instruct him to continue to torture me in order to continue to prompt me to commit crimes and train me to look insane – just as it had been the case since June last year. He shall also continue to instruct the Secret Society women – his star witnesses – to report me to the TMU – all so that, as the women's claims about me (and thus his warnings about me) were continually verified by law enforcement, the previous ICJ trial could remain locked up. The CIA would of course continue to try to prove the women's claims false in order to try again to reactivate the previous ICJ trial. The shape of the conflict between Homeland Security CO chief and the CIA was thus set for the next seven years: Homeland Security CO chief would tenaciously affirm that the Secret Society women were “star witnesses” about me and my website and that their testimonies about my demonic nature and morbid psychology were correct – while the Monkey would continually control me to conform to these testimonies (to train me to be criminal and look insane). The CIA would then work with the TMU to construct a more accurate profile of me that completely contradicted the Secret Society women's claims about me – despite the Monkey's continual control of me to conform to these claims – while investigating the Secret Society women's operations with informants and so on in order to construct a true profile of them as a bunch of pathological liars and fraudsters – again in complete contradiction to Homeland Security CO chief's elevation of them to the status of “star witnesses”. Although the Invisible Hand appeared to have lost this episode when Homeland Security CO chief was able to lock up the previous ICJ trial within five days of its reopening, the former did make gains. Now that the TMU detectives had seen the control center and knew what was at stake in Angelica's stalking claim against me and so on, they would never again validate any of the Secret Society women as victims of my “stalking”.

Thus, the interagency conflict continued. While Homeland Security CO chief maintained that the “terrorist” in question was indeed a terrorist and that the witnesses about him were experts on him, the CIA disputed this and maintained that the suspect here was not a terrorist and that the witnesses in this case couldn't

say anything true about him. Because Homeland Security CO chief was in an untenable position, he shall use the control center to control the suspect to become a terrorist in the manner in which the witnesses had claimed he was.

As soon as the conflict between the CIA and Homeland Security CO chief had solidified in this way, the Agency, on 7 November, sent Jennifer Day to infiltrate the Secret Society again (as an informant for the TMU). That night, the Secret Society women mobilized a ton of volunteers to compile complaints for Jennifer Day. On 8 November, as the complaints to the TMU on behalf of Jennifer Day went nowhere (of course), Veronica called up her family lawyer to examine the case for Jennifer Day and the Secret Society women then came to focus on my possible harassment of Ms Kudo as the solution. On 9 November, while Homeland Security CO chief presented to the TMU, as evidence of my insanity, my crazy talk about Angelica and her father, first on my blog and then with Wes, the Secret Society women continued their uproar about my harassment of Jennifer Day. On 10 November, two volunteers stood out: one from USDA and the other from Stavanger, Norway. They concentrated on reporting me for being a danger to Angelica and Jennifer Day and then for harassing such a public personality as James Corbett.

Nothing special on 11 November, but, on 12 November, the Seattle volunteer stood out – to report to the TMU that I had “stalked” SDW again (because I had posted a new message on her blog). On 13 November, as the Secret Society women continued to look for ways to convince the TMU that I had plagiarized, they called upon the Lincoln Center volunteer again. Note also the volunteer who reported to the TMU from the Richland Public Library: a friend of the Seattle volunteer seen on 1 and 17 October? On 14 November, as the reporting continued, Veronica might have visited my website around 1 AM to report me for plagiarism. Then, two hours later, Angelica herself might have appeared to compile a report about seeing her “naked picture” on my website. On 15 November, as the reporting continued, the DeWitt, Michigan, volunteer stood out, spending an hour and a half examining my Scientific Enlightenment. On 16 November, as the reporting continued, the Midland, Michigan, volunteer stood out, who reported on my chapters on feminism. Also, all the wrong scenarios I told Wes on this day were Homeland Security CO chief's evidence that I indeed suffered from schizophrenia. On 17 November, as the reporting continued, the Fukuoka volunteer stood out who copied my entire webpage on Queen Himiko. On 18 November, as the reporting continued, the Long Beach volunteer stood out who repeatedly reported on my violation of intellectual property rights. (It's not clear whether this person was related to Melody.) On 19 November, the Secret Society women spent special efforts in mobilizing volunteers to report my plagiarism or forge evidences of it. On 20 November, the same thing.

From now on, the Secret Society women were really just wasting their time because they had yet to fully awaken to the reality that the TMU had already seen

through them – that these women were a bunch of fraudsters trying to deceive law enforcement and pretend to be victims – and decided to never grant them their wish. Furthermore, the women did not understand that the TMU detectives had no interest in helping Homeland Security protect the Russian intelligence service from the CIA.

As noted, from this period onward, because Homeland Security CO chief had obtained the ICJ's permission to train me to become criminal and delusional, I would continue to be severely targeted and tortured through the nanochips planted inside my brain. For details of the torture, however, consult my blog postings. The details of targeting and torture will only be briefly touched upon in this outline.

A final note. As the Secret Society women shall devote an increasing amount of time to reporting me for plagiarism, you might find this laughable because – why would law enforcement care if anyone had plagiarized? Plagiarism might be irrelevant to stalking, but in my case it was a crucial component. Because the real purpose in reporting me for stalking was to confirm Homeland Security's warnings about me as correct and thus lock up the bygone ICJ trial, every element of my profile on these warnings had to be judged correct by law enforcement. It was thus too bad that Homeland Security had already warned everyone that I was a plagiarizer. If law enforcement agreed that I was indeed a stalker but rejected the accusation that I was also a plagiarizer, then Homeland Security's warnings about me might be deemed incorrect in the ICJ so that there would now be the danger that the bygone ICJ trial could be reopened. This is why the TMU always made sure to reject any claim that I had plagiarized – since I had really *never* plagiarized at all – while the Secret Society women were tenaciously devoted to reporting me for plagiarism even though this was a stalking and terrorism case.

### **1 November, 2013 (Friday)**

There would be a lot fewer visits to my website today probably because everyone was convinced that I would be arrested.

False report to the TMU about my severe insanity. In anticipation of my arrest. Evidently to convince the TMU to immediately send me to state hospital upon my arrest.

Recall that it is between 9 and 10 AM that the shooting was in progress in LAX.

She probably followed the instruction which Kiersten's gang had given her and made a false report about how I was a danger to myself (discussing my self-injury on Prison Planet Forum). Then, she followed the link to my website. Then, more than an hour later, 8:34 PM, she came to my blog,

It seems that, after making the false report, she was checking my website further to gauge for herself the extent of my insanity.

As you can see, the whole Secret Society was today focused on falsely reporting me for being severely insane and a danger to myself – to convince the TMU to lock me up in a mental asylum. There were then no activities for almost 4 hours. Presumably, it's because the whole Secret Society and their volunteers were convinced that I was already arrested. Everyone was probably waiting for my website to be removed. Then, 12:13 AM, dsl.bell.ca, Port Dover, Ontario,

This appears to be a proxy. The person seems to be located in United Arab Emirates. Again, this volunteer received the link to the image in his email account and then, 22 seconds later, did a search for the chapter. It thus appears that, within 10 minutes after discovering my website was still up, the Secret Society women sent the link to the image along with the instruction to this volunteer in United Arab Emirates. This UAE volunteer then made a false report about finding plagiarized content on my website. Kiersten's gang might be thinking that adding the charge of plagiarism can hasten the TMU's decision to remove my website.

## **2 November (Saturday)**

Kiersten's gang continued their operation throughout the morning. 5:56 AM, 5.164.195.228, dynamic.nn.ertelecom.ru, Nizhniy Novgorod,

Could this person be the same person seen on 31 October, the person from Nizhny Novgorod State University? If so, he was looking at the same thing (he was looking at /brain-chip the last time). Again, making false report about my severe insanity.

This volunteer didn't even bother to listen to the recording. False report about my severe insanity. He was simply following the instruction given him without ever bothering to check the content about which he was reporting.

Again, this volunteer first received the link to the image in his email account along with the instruction; he then followed the instruction given him and did a search for the chapter in question. Then, 19 minutes later, 9:52 AM, the Borsbeek volunteer began copying the entire chapter onto his Word document:

After he had copied the whole chapter, you can be sure that his purpose was to edit out all the references in order to create a “plagiarized version” of the chapter. He would then send the “plagiarized version” to the TMU saying this was proof that I had plagiarized. In other words, Kiersten’s gang, convinced that I was arrested but surprised that the TMU had not removed my website, thought it was because they hadn’t been convincing enough in portraying my website as seriously violating intellectual property laws. They decided on the drastic measure of forging evidences. Did they call up the TMU this morning (“Why is his website not removed?”) and get a response from them that they weren't so sure that I was a plagiarizer?

Again, the Secret Society women simply sent the link to the image in question along with the instruction in an email to this volunteer. This volunteer then did a search according to the instruction given. False report about my plagiarism.

It appears that this volunteer had saved one of my chapters on his Get Pocket reading list.

1:25 PM, 67.82.167.4, dyn.optonline.net, Fair Lawn, New Jersey, near Paterson,

67.82.167.4 - - [03/Nov/2013:14:25:35 -0700] "GET /blogs/2013/11/03/four-women-try-to-knock-down-my-website-part-14-lax-shooting/ HTTP/1.1" 200 4049 "http://www.youtube.com/watch?v=AUAJV4dBvPo" "Mozilla/5.0 (Windows NT 6.2; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/30.0.1599.101 Safari/537.36"

This Fair Lawn person must be quite close to the Secret Society women. (In fact, we have to suspect this was Liz (Parr), even though Fair Lawn wasn't exactly next door to Hopewell.) She had heard the news – “It turns out that the police have never arrested him, and his website is still up and running with all these crazy posts about us! And he has just posted something new!” – and so come to examine the situation. She first examined my Youtube channel and discovered that I had indeed uploaded a video earlier today. She followed the link on the video and came to my latest blog post. 1:26 PM, she came to my blog,

67.82.167.4 - - [03/Nov/2013:14:26:28 -0700] "GET /blogs/ HTTP/1.1" 200 33785 "http://www.lawrencechin2011.com/blogs/2013/11/03/four-women-try-to-knock-down-my-website-part-14-lax-shooting/" "Mozilla/5.0 (Windows NT 6.2; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/30.0.1599.101 Safari/537.36"

5 minutes later, 1:31 PM, she came to the earliest portion of the blog,

67.82.167.4 - - [03/Nov/2013:14:31:30 -0700] "GET /blogs/2012/04/ HTTP/1.1" 200 19986 "http://www.lawrencechin2011.com/blogs/" "Mozilla/5.0 (Windows NT 6.2; WOW64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/30.0.1599.101 Safari/537.36"

1:35 PM, she came to the front page of my blog again,

She must be in communication with the Secret Society women at this point. Angelica must be  
telling her, "See, that's the story he wrote about me. It's still up! The police have never arrested

False report? Checking? Examination of the problem?

At the same time, Robert Coleman sent me another email:

Kiersten's Vengeance, 1  
Lawrence C. Chin,  
Jun. 2017; revised Jun. 2021

Was this Robert Coleman still in contact with the Secret Society women? Very likely. If so, it must be the Secret Society women who had asked him to send me another email to see if I would respond. It could be that Khalezov was still waiting on an answer to his own mystery.

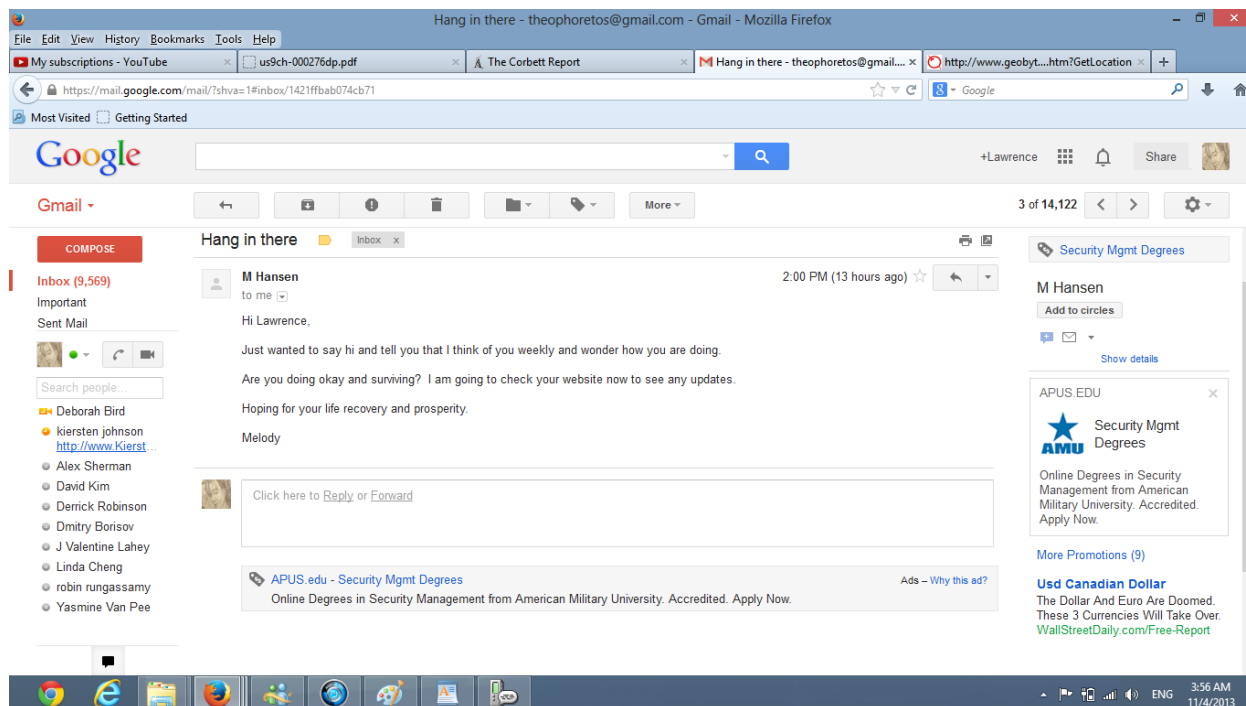

1:52 PM, or 7 minutes after she looked up the story about Angelica, the Fair Lawn person continued:

67.82.167.4 - - [03/Nov/2013:14:53:16 -0700] "GET /blogs/page/3/ HTTP/1.1" 200 45973

This Fair Lawn volunteer had by now spent more than 40 minutes looking over my Youtube channel and my website.

2 PM, strangely, Melody (from FFCHS) also emailed me:

Kiersten's Vengeance, 1  
Lawrence C. Chin,  
Jun. 2017; revised Jun. 2021

Apparently, the Secret Society women had also got hold of Melody and asked her to solicit a response from me. The whole gang had been scrambling to verify that I had never been arrested.

Then a visitor came two minutes later: Verizon FiOS, Long Beach. This is apparently Melody. She was searching for my website just as she said she would.

She had perhaps spent 15 minutes on my Youtube channel, and had now spent 45 minutes on my website. She was still video-conferencing with one or several of the Secret Society women.

2:54 PM, suddenlink.net, Mammoth Lakes, California,

This is obviously related to the Secret Society's operation. This volunteer wanted to search for the portrait of Robin ("Archetype") but got confused and came to the wrong painting. False report?

False report about my severe insanity and slandering of Khalezov?

Between 2:10 and 4:30 PM, the Fair Lawn volunteer must have had extensive conversation with the Secret Society women. 4:34 PM, she continued:

This person was a very close associate of the Secret Society women. He would come repeatedly in the coming months and in the next five years years: a die-hard fan of the Secret Society women. I have always assumed that this is a friend of Valentine's whom Valentine had met while he was living in New York, but Valentine had denied that he knew such a person (summer, 2019). Because the Secret Society women were having an emergency situation (that I wasn't arrested), they called up this friend in New York to brief him about the situation: "The police have never arrested him and never removed his website. Is it because they don't believe our claim that he is a plagiarizer? Can you see if we can convince the detectives that he has plagiarized?"

6:22 PM, I posted a notice on my blog post on Snowden,

Apparently a second volunteer, after hearing the shocking news, had come to examine my Youtube channel ("The police have never arrested him. Look, he has just uploaded a new video on his Youtube channel, and posted a new post on his blog.").

False report about my plagiarism. Again, he first received the link to the image in an email and then, 7 seconds later, did a search for the chapter according to the instruction given.

7:55 PM, the Attleboro volunteer came to the front page,

In sum, today had been traumatic for everybody in Kiersten's Secret Society. Not only was my website not removed, I wasn't even arrested. As the whole Secret Society was scrambling to comprehend the situation and think of solutions, they called on everybody to examine my website and my Youtube channel: the Fair Lawn volunteer, Melody, the Lincoln Center volunteer, the Attleboro volunteer, and the Tehama volunteer.

This was certainly related to the Secret Society. False report about my fraud with my artworks or how I had put up Angelica's naked picture on my website.

### **6 November (Wednesday; mind-control torture resumed)**

Today's highlights on my side. I woke up around noon suddenly becoming preoccupied with my 26 September "confession" to Dr R: I couldn't stop worrying about the problem of whether the authority would consider me a "false reporter of terrorism". Thus, when I came to Tom N Toms, on 3:36 PM, I posted on my blog "How to safely make false report about terrorism when you are required to make false report about terrorism." 4 PM, I discovered that my post on the Snowden Facebook page had disappeared. 5:30 PM, I tried to call Dr G. My phone was shut down and no calls were allowed. Angered. Required to throw bottles. At the Best Buy in Pasadena. Discovered that all Verbatim discs were discontinued. I wrongly thought it was due to Homeland Security's action. Angered, required to throw bottles. 4 bottles broken, 1 unbroken. Thus it seemed that my mind-control torture had resumed (although there was nothing so serious today). What's going on?

Now that the CIA had brought in so much evidence into the ICJ to demonstrate that the Secret Society women's testimonies about me and my website were all false, Homeland Security CO chief was desperate to find a way out: he couldn't afford to let the CIA reopen the previous ICJ trial. After five days of activities, from all sides (his side, the CIA's side, and the side of law enforcement), inside the control center, he found his salvation this morning. He came in front of

the judge computer and input the argument: my 26 September story about nuclear warheads in Syria, because it was meant for him to believe and to get Dr P into trouble, should establish me as a “terrorist” (in the sense of a “false complainer about terrorism”) intending to harm him and Dr P, and I should therefore compensate him and the Secret Society women without knowing. And the way in which I could compensate Mr Homeland Security CO chief was precisely by letting him control me to commit crimes, fit into his star witnesses’ imagination about me, and thereby become a terrorist, so that I could both enable him to win his dispute with the CIA and allow the Secret Society women to become validated by society as my “victims” and “expert witnesses” about me the “terrorist”. Most amazingly, since I had attempted, on 26 September and 2 October, to “frame Dr P and Angelica”, my victims should have the right to forge evidences to frame me to perpetuity (until they shall have accomplished their grand objective).<sup>1</sup> Amazingly, the judge computer agreed, and the previous ICJ trial was closed up again. While Homeland Security CO chief was merely repeating the arguments which he had witnessed the CIA make in the previous ICJ trial, it was a mystery how he could, after the CIA had proved my innocence with so much evidence, still obtain an ICJ judgment to such effect. In any case, what he needed to round up this judgment was merely a piece of evidence, a confession from me, demonstrating that, when I made my “confession” to Dr R on 26 September, I did intend it for him to hear and believe. And, guess what, he would simply instruct the Monkey to control me to make such a confession on my blog – and he had of course obtained the judge computer’s permission to control me to confess in order to get myself convicted. As shall be explained later, the judgment Mr Homeland Security CO chief had obtained today was as senseless as the original ICJ judgment requiring China to forge evidences to frame itself for 911 attacks – in that the third party’s rights would have to be violated in order that the victimizer could “compensate” the victim.

And so, upon waking up, I was remotely controlled to feel this strong desire to explain my 26 September action. I thus posted the blog post in question on 3:36 PM. This immediately became evidence in the ICJ: I had made a false report about terrorism to bring about the current circumstance in the sense that, even though I had emphasized I was lying, I was sure that Homeland Security CO chief would believe it. (Again, all of this would be absurd enough unless viewed from the perspective of the previous ICJ trial: how can a person be making a false report when he wasn’t even talking to the authority?) By 5 PM, Mr Homeland Security CO chief would have obtained an ICJ judgment authorizing him to use Secret Society women’s false reports as if they were true and forge evidences to frame me and to control me to harm people and thereby fit into these women’s imagination about me. This is why, from today onward, my mind-control torture would resume after 5 days of hiatus.

Now let’s review the Secret Society women’s operation for today. 5:06 AM, 80.254.154.67, scansafe.net, Krakow, Poland, confirmed proxy,

<sup>1</sup> As I wrote in the original version: “Under UN Resolution 1373, if I had attempted to make false reports about terrorism to harm Homeland Security CO chief, then he had the rights to use Secret Society women’s false reports about me in the ICJ as evidences in order to neutralize my threat to him.”

False report about my plagiarism? It is also likely that the Secret Society women had called on this art student to brainstorm a solution to the problem: "We found a volunteer to create a plagiarized version of this chapter on 2 November, but the police didn't take it seriously. Can you think of a solution?"

chapter on Fermat's principle of least time. You can tell that it is because the Secret Society women were desperate ("The TMU doesn't believe our story that he is a plagiarizer") that they had decided to resort to this dirty trick for the third time: forging evidences to convince the TMU that I was a plagiarizer. The person who had invented this trick was clearly Karin – the only person who had some notion as to which of my chapters could look like it was all plagiarized when all references were deleted therefrom.

False report about my plagiarism? To confirm the Delhi volunteer's forged evidence from two days ago?

Now, a note about me. 2:30 AM, I discovered that my own IP address (Catalina) had been changed to 76.168.137.182. Then, a note about Karin: she had a meetup tonight, at Fiesta Grande and Laemmle Playhouse 7.

## 7 November (Thursday)

Today's highlights on my side. My computer had been malfunctioning all day long today. While I was in Stories LA, it froze, and there was then no Internet connection. DVD burning failed, and

my Sony Digital Editor froze... ImgBurn then froze again, I was not allowed to verify my disc. I was being required to fully resume my vandalism habit to kill pain.

Approximately 8 broken bottles. 2 N by the Freeway entrance.

Now let's examine the Secret Society's operation. 7:38 AM, 136.160.163.213, University of Maryland, Towson State University, Smithsburg, Maryland,

Kiersten's Vengeance, 1  
Lawrence C. Chin,  
Jun. 2017; revised Jun. 2021

From 9:57 PM to 3:22 AM – for almost five and a half hours – the Secret Society women had mobilized a total of 13 volunteers to look up this image. Why?

This is a good explanation. Since Homeland Security CO chief had yesterday obtained authorization to use false reports and forged evidences as good evidences in the ICJ to support his case that I was a terrorist and that his warnings about me were correct, the CIA had had to respond. The Invisible Hand therefore instructed Jennifer Day to get involved with the Secret Society women again as a way to inform on them behind their back. Some time tonight, before 9 PM, she contacted Angelica and so on and expressed her concern that her pictures on my website constituted harassment. She thus gave the Secret Society women permission to mobilize their volunteers to complain to the TMU on her behalf saying I had violated her privacy by putting up her images on my website. The Secret Society women thus mobilized 13 volunteers over a five and half hour period to complain to the TMU on behalf of Jennifer Day.

In reality, the Invisible Hand had sent Jennifer Day into the Secret Society as a mole: she would report the Secret Society women's tactics back to the TMU behind their back. This, so that the CIA could take her reports about the women's frauds into the ICJ as evidences to debunk the faulty evidences which Homeland Security CO chief would bring in. Since the two sets of evidences contradicted each other and yet Homeland Security CO chief was immune to charges of perjury, the ICJ trial would simply result in a stalemate for a long time to come. Meanwhile, the shape of the conflict between the CIA and Homeland Security in the coming years would have been fixed: Homeland Security would continue to try to demonstrate that the testimonies of their protégées, the Secret Society women, about my demonic nature were true – even by remotely controlling me to look insane and commit crimes in order to justify the women's otherwise made-up testimonies – while the CIA, working with the TMU, would continue to gather evidences to demonstrate that these women are a bunch of pathological liars and that I was nothing like what they claimed I was.

It's only amazing that the Secret Society women never understood that Jennifer Day had joined their campaign as a law enforcement informant. Karin, at the very least, knew that she really *was* a CIA agent, but she had somehow believed that Jennifer Day would genuinely want to help the women's campaign because she didn't want somebody to "blow her cover" on his website. She didn't think about the fact that this Jennifer might have other priorities in mind, such as carrying out orders to protect the Agency in its conflict with Homeland Security.

....

It seems that the Secret Society women were explaining to this volunteer how I had violated Angelica's sister's privacy as well by talking crazy things about her on my blog.

### **8 November (Friday; mind-control torture fully resumed)**

First, my situation. Massive torture today. Required to fully resume my vandalism habit. I would wrongly suppose it's because the Russians, the CIA, and their allies were gathering evidences to prove that my wish to harm xxxxxxxxx was a psychological addiction to which the Monkey had conditioned me rather than any terrorist ideology. I would develop my incorrect belief further and write it down on my blog on 10 November. Homeland Security CO chief would use my incorrect scenario as evidence in the ICJ to confirm that the Secret Society women's false profile of me as suffering from paranoid schizophrenia was indeed correct. In reality, it was just Homeland Security CO chief who had begun instructing the Monkey to torture me in earnest in order to avenge himself on me – in order to force me to commit crimes in the hope of forcing me to conform to the Secret Society women's claim that I was violent and dangerous.

In the late afternoon I was connected with Wes briefly while I was on the bus. Details of the conversation: (1) The control center tortured me very badly in the past two days. The goal seemed to be to get me hospitalized. (2) I was also detained by the police two times. (3) The control center hadn't allowed me to sleep well for more than a month. I didn't know what happened to Angelica, I had two competing scenarios, I didn't know which one was true, I didn't know whether I was safe... (4) I began crying, then got very angry because I lost the things which I had just bought. Then I got even angrier when Wes just couldn't seem to understand anything I said. I was so angered that I got off the bus and threw the phone away onto the street. It's not clear whether it was the Monkey who had controlled me to forget my things as a way to provoke me to get angry and commit crimes.

Approximately 8 broken bottles, 1 N. 2 Windows, a small spot on a pickup (B). My first time in employing "paint bottle": at Urgent Care (SM).

Now the Secret Society women's operation. 5:53 AM, rima-tde.net, Madrid, Spain,

False report about my plagiarism?

## 9 November (Saturday)

First, my situation. Around 2 PM or so, I was in Starbucks, Vermont/ Prospect. I speculated on what happened in October 2010 – how the French tried to destroy the evidentiary record. I recorded my speculation and posted it on my blog: “Four women try to knock down my website, part 17: why I seem to be talking about a non-existent International Court of Justice trial as if I were delusional, when my delusion is so realistic and complicated that only university professors can possibly understand it.” What seems to have happened is this. Homeland Security CO chief wanted me to post more crazy stuff on my blog so that there can be more evidence to confirm that the Secret Society women’s false profile of me was correct. However, since the only way to make me appear delusional was to make me speculate wrongly on this ICJ trial, I ended up writing out another half-true, half-false scenario (“true” in that the French really did “dissolve” the case). However, I was incorrect in just the right way: the blog post was evidence that I continued to harbor bizarre delusions about my women victims, in this case Angelica. Evidence for both the TMU and the ICJ.

Then tonight, I was able to connect with Wes on 6:42 PM (from 1:09:00 onward in the recording). (1) Severely tortured in the past three days. There are new people inside the control center. Two scenarios. (A) Angelica was arrested on 1 November. And my finger hurt. It’s the same scenario given in “Syrian scandal” (the original version). The Monkey signaled me evidently in order to further mislead me to look crazy: it’s the wrong scenario, for Angelica was not arrested. *Homeland Security CO chief now had more evidence that I kept developing bizarre delusions about Angelica.* Wes: the Zimmerman Letter. (2) My incorrect understanding of the current situation: I can’t become violent, in the end I have merely become a bottle-throwing anti-American freak. They need to gather evidences to show how it was all the Monkey’s orchestration. *My delusion again: the Monkey was alive and well.* (3) The other competing scenario: just the opposite. (4) The control center had been continually signaling “16 November” to me. *I appeared delusional again here.* (5) About the previous ICJ trial: everybody was told that the French had dissolved the case... But there was a higher court which functioned in secret, and all my delusional scenarios were secretly stored in the court house, until... *Something like this was in fact going on, but nobody knew about it except for the Invisible Hand and BOL.* “It’s about to be activated soon... To activate the evidences which the French have destroyed...” *This part was wrong.*

In any case, Homeland Security CO chief simply wanted the TMU to hear my mumble-jumble to Wes tonight so that they could be forced to agree with the Secret Society women that I was indeed insane. But the TMU would not change their stance. I then collected damages in Santa Monica. 5 broken bottles, SM. 2 N. Optometrist repainted.

Now, the Secret Society’s operation. 5:57 AM, bb.sky.com, Beddau, UK,

This is evidently brainstorming. This volunteer from Bolivia had just heard the horror story about this crazy stalker on Homeland Security's watchlist who believed there was a chip inside his brain. He was checking out my video and clicking on the link.

Brainstorming how to falsely report me for stealing this drawing from my family members?

## **10 November (Sunday)**

First my situation. I was in UCLA library until 8 or 9 PM. Homeland Security CO chief soon resumed my mind-control torture in order to drive me to collect more damages tonight. 10 PM, while I was on the bus, my Asus froze for 30 minutes, and I had to reboot it 3 times: Open Office malfunctioned. Windows Explorer froze. I rebooted the laptop. Blank screen. I rebooted it again. Open Office froze, Windows Explorer froze. I was severely angered and ready to collect damages. The worst part was that I didn't really understand why I was being driven to collect damages.

I collected damages in the USC area, near my storage facility. 1 police car, 4 or 5 windows and walls. 6 broken bottles. Tremendously angered because I was then prevented from dropping the jar of paint at the restaurant (downtown). Severe mind-control torture tonight.

Now let's examine the Secret Society women's operations for today. 5:08 AM, 149.172.44.251, kabel-badenwuerttemberg.de,

It's certainly amazing that the Secret Society women were able to recruit somebody who worked in the Department of Agriculture to their campaign. (Or perhaps it was not so strange since government employees should have easier access to Homeland Security's classification of terrorist suspects.) The women explained to her that I was slandering and harassing Angelica on my document here. 34 seconds later, she came again:

Then, within 3 seconds, she followed Angelica's instruction and copied the whole document onto her Microsoft Word:

Evidently, after her wild card "Jennifer Day" didn't achieve effect, Angelica and Homeland Security CO chief decided to forge evidence to convince the TMU that my website was harassing her. This USDA volunteer was instructed by Homeland Security CO chief to alter the document by adding in threatening and obscene statements about Angelica and then turn in the altered document to the TMU as evidence for my harassment of her.

This is the first visit to this image today – after three visits from yesterday. Angelica was probably thinking of bundling the evidence she had just forged with a new claim about how I had harassed Jennifer Day in order to strengthen it. She of course didn't know that Jennifer Day was secretly informing the TMU about the trick she had just devised under Homeland Security's direction.

Perhaps Angelica was bundling the forged evidence about her not only with the new evidence about my harassment of Jennifer Day but also with another claim about how I had put violent pictures on my website: "He's crazy and violent. He threatens me and Jennifer on his website because he is obsessed with us. And he's dangerous because he cuts himself. And he puts the pictures of all this violent cutting on his website next to my and Jennifer's pictures. He will come hurt us."

Was he instructed to refine the argument about my harassment of James Corbett and Dimitri Khalezov? On 11:51 PM, he did a search for my name on Google and arrived at my web gallery:

```
80.203.113.36 - - [11/Nov/2013:00:51:13 -0700] "GET /gallery/gallery.html HTTP/1.1" 200 3916 "http://www.google.no/url?sa=t&rct=j&q=lawrence%20chin%202011&source=web&cd=1&ved=0CCwQFjAA&url=http%3A%2F%2Fwww.lawrencechin2011.com%2Fgallery%2Fgallery.html&ei=aYyAUuqLMOKN4AScwYGgCg&usg=AFQjCNGxNbQrFXHUOTV4BuP1hs5F8AVgKQ&bvm=bv.56146854,d.bGE" "Mozilla/5.0 (iPad; U; CPU OS 4_3_5 like Mac OS X; nb-no) AppleWebKit/533.17.9 (KHTML, like Gecko) Version/5.0.2 Mobile/8L1 Safari/6533.18.5"
```

1 minute later, he came to my external links page by searching "Lawrence Chin Corbett Report":

```
80.203.113.36 - - [11/Nov/2013:00:52:36 -0700] "GET /links.html HTTP/1.1" 200 16829 "http://www.google.no/url?sa=t&rct=j&q=lawrence%20chin%20corbett%20report&source=web&cd=1&ved=0CCwQFjAA&url=http%3A%2F%2Fwww.lawrencechin2011.com%2Flinks.html&ei=sYyAUu6XGajW4gTgrYHADA&usg=AFQjCNHNIb6ktjVUmPcDhWhYPqDvUfraKg&bvm=bv.56146854,d.bGE" "Mozilla/5.0 (iPad; U; CPU OS 4_3_5 like Mac OS X; nb-no) AppleWebKit/533.17.9 (KHTML, like Gecko) Version/5.0.2 Mobile/8L1 Safari/6533.18.5"
```

Indeed, he was devising the argument that I had attempted to harass James Corbett in the same way in which I had harassed Angelica ("When people Google his name and Mr Corbett's together, his website will come up").

12:01 AM, the Stavanger volunteer, after spending 9 minutes looking over my external links page, came to my blog post series using the same search terms,

Again, the volunteer received the instruction from the Secret Society women in his email account and did a search for the image right from there.

In summary, the Secret Society women today tried to break through their impasse with new tricks. Since 10 AM this morning, that they had been devising a new argument – and buttressing it with forged evidence – saying that, because of the delusional state of my mind, I threatened Angelica and Jennifer Day on my website. That I did that because I had developed delusion about their being part of some bizarre government conspiracy – then harassed them online by hosting my delusions about them on my website. That I did that whenever I became obsessed with a woman. And that I would then want to hurt the women I was obsessed with, which was

Kiersten's Vengeance, 1  
Lawrence C. Chin,  
Jun. 2017; revised Jun. 2021

evidenced by the fact that I kept hurting myself when thinking about them. The Secret Society women then adduced additional evidences showing me harboring bizarre delusions about government conspiracies. They then tried to brainstorm whether it was possible to also report me for harassing and threatening James Corbett and Dimitri Khalezov in the same way. Eventually they concentrated on devising an argument for my harassment of James Corbett.

## 11 November (Monday)

This afternoon I was at a massage parlor near Vermont and Santa Monica. (Just a massage, nothing special.) Then, at night, I collected damages in El Segundo: 10 N, 1 police car. 2 bottles broken, 1 paint jar at the restaurant, downtown. "For Lease", north downtown. Then, more torture at home. 3:20 AM, Asus could not detect external DVD drives (both new drives). My wrong scenario: the control center was punishing me for indulging in positive thoughts (judge Higgins, girlfriends with Dr P, etc.). Again, Homeland Security CO chief was training me to look insane while requiring me to collect more damages.

Now the Secret Society women's operations. 5:27 AM, 81.104.45.36, cable.virginm.net, Hemel Hempstead, UK,

This volunteer was merely sent the link to the chapter. Thus, it was more likely that he was invited to brainstorm (how to falsely report me for plagiarizing). Note that the Secret Society women had visited this chapter 12 times since 1 November.

False report? Or was another volunteer found to help with the brainstorming? The Secret Society women had looked up this painting 4 times this month, previously on 6, 8, and 9 November.

## **12 November (Tuesday)**

First, my situation. 5:22 AM, I posted a message on SDW's blog:

I was of course wrong about the reason why I was being tortured.

Night, in Starbucks. Homeland Security CO chief continued to torture me. Not allowed to get online. Required to collect damages. Glendale, 1 N. At least 3 windows. 1 tire. 4 bottles broken. Back to Vermont/ Prospect. Christian Science Reading Room. 1 more tire sprayed.

1 AM, returned home. Bought a can of fruit and specifically remembered to pick up a fork at the gas station. The fork again disappeared when I arrived home. Remotely controlled to resemble dementia. Angered. Destroyed more of my room. The control center had been, in the past few days, using the same technique which I had described on the blog post 14/07/2012 to condition me to violent temperament, namely to attack my self-image. If I feel good about myself for being smart, it will control me to suffer cognitive deficiency in order to cause me to disappoint myself, so that I will be provoked to violent rage and want to collect more damages. The technique: to control the person to contradict his conception of himself.

Now let's review the Secret Society women's operation today. 5:14 AM, Information Technology Company, from a university in Iran,

He would spend in total 10 to 15 minutes on my website. He was just confirming for the TMU how the Secret Society women's portrayal of me was correct: "He *is* really insane.... Look at these crazy writings about brain chips and conspiracies and people going after him..."

The Secret Society women sent this volunteer the links to my family pictures asking him to brainstorm how to make some complaints out of them. He examined the first picture ("missile training") for 6 minutes, and then clicked on the link to the second one ("with the Argentinian generals"):

Burlington is in the vicinity of Milwaukee, but this was not Oliver's phone. Certainly a friend of Oliver's. False report – How I had copied other people's painting? How I had put up Angelica's naked picture on my website? Brainstorming? The eighth visit since 1 November.

### **13 November (Wednesday)**

First, my situation. The control center's torture, 1 PM. (My computer shut down.) Thus did not meet with Dr G as planned. Instead, when I came to Long Beach, I went to Portfolio. 6 PM. Mark showed up in Portfolio. As if to provoke me, he suggested that I take medication. He was cold in his attitude also. He called me "angry", as if ready to make a false report about me. At the time I was quite baffled by his nasty attitude, but it's quite possible that he was simply reflecting the Agency's attitude toward the troubles I had created for them with my "Syrian story". When I was cleaning my bag, my glass cup accidentally fell off the table and broke. I developed the *wrong scenario*: Angelica was part of the defense team inside the control center. She requested that I, not my substitute, be hospitalized. Thus I couldn't meet with Dr G, who was also my substitute (lately I had been writing in short sentences like him, and reading Jean Tulard who also writes in short sentences) and could be hospitalized for other reasons. Angelica, seeing that I only threw bottles when no one was around, requested that I break bottles in public places. The computer carried out her wishes – always only in such a way as to repeat past incidents (in a typological manner): the same old filter. Thus my computer shut down on 1 PM. Thus my glass bottle accidentally fell out of my bag. Angelica was disappointed: she thought the computer would control me to throw bottles in front of people, and yet I merely broke one by accident, arousing no reactions from others. She didn't understand that the computer cannot control me to

Kiersten's Vengeance, 1  
Lawrence C. Chin,  
Jun. 2017; revised Jun. 2021

throw bottles in front of people as long as my brain is functional; that the computer cannot control people to unnaturally over-react to minor accidents. She wondered why her wish was granted only in such "nothing" way. Mark's attitude and the sparing of Karin were tests: it meant that the CIA was in the Macrospherian order and best friends with the Russians now. These superfluous tests meant: (1) recruitment into the Macrospherian order was a legal affair, part of the enforcement of UN Resolution 1373; (2) the ICJ's SWS was still being tested for the margin of errors.

All bullshit! In reality, it was just the Monkey who was provoking me to commit crimes and training me to look insane.

I was then on the bus going to Redondo Beach to collect damages. Then, around 9 PM, while I was still on the bus, I was connected with Wes (from 2:21:00 onward in the recording). (1) "The control center didn't want you to check your messages, it is planning for my hospitalization in a couple of days... My room is a mess now... The control center didn't want me to meet with Dr G today... Angelica is inside the control center... and has become my God... I kept getting messages about 16, my birthday..." All the wrong scenarios to help me look insane! Mr Homeland Security CO chief must be quite happy! (2) Then about how the Microsphere/ Macrosphere paradigm was not a good description, a better paradigm was dominant/ recessive. The continuation of the ICJ trial was the recessive reality, evidences were secretly replaced, but now the recessive reality was reactivated and would gradually replace the dominant reality... *Although bullshit, it sort of described the Invisible Hand's secret, second trial and what would happen many years from now.* For now, it was just Mr Homeland Security CO chief's evidence of my insanity. (3) "Last Saturday I suggested to the UN that the punishment for France for making the ICJ trial disappear should be that it shall disappear as if it had never existed... This has the advantage of canceling all previous treaties... I want the ICJ to order the American Psychiatric Association to add to the DSM diagnostic categories the 'Existence of France Delusional Disorder'... The control center wants to torture me and so prevents you from hearing me... France is probably occupied by UN right now." As you can see, everything I said to Wes today was wrong scenario. Mr Homeland Security CO chief welcomed my wild speculation so that my wrong speculations could make me look increasingly insane.

Richland is more than 100 miles away from Seattle (southeast). This volunteer must be related to  
the Seattle volunteer seen on 1 October and 17 October in some way. Were the Secret Society  
women complaining to this new volunteer: "He writes about being controlled to hurt himself,  
and yet the police refuse to take it down..."

### **15 November (Friday; mind-control torture off)**

First, my situation. 10 AM, I was reviewing the recording of my conversation with Wes from Wednesday. Angered by what I thought to be Wes' remotely controlled mental confusion. Required to collect damages.

11:20 AM, Tom N Toms. Realized the meaning of "16" or my birthday: the Manchu's entry into China, 1644,  $16 = 4 \times 4$ , or:  $16 = 44$  (I'll be 44 years old). It would seem that the computer in the control center is remotely controlling me to play the role of John Nash: fond of constructing elaborate (numerological, hence plausible) causal connections among things among which there exist in fact no causal connections, just like the primitive mind (primitive religiosity). (Nash: numerological derivation of his friend's social security number from stock market indexes, etc.) This is in fact correct! The Monkey inside the control center was training me to look crazy.

At storage. Then collection: around Union Station: 4 N; 1 broken bottle; 2 N near Fairfax, rear view mirror (WF), paint splashed on WFAPRT; furniture store. Several walls.

Now the Secret Society women's operation. 5:34 AM, National Informatics Center, Chikmagalur, India,

Brainstorming how to falsely report me for plagiarizing?

### **16 November (Saturday; mind-control torture off)**

First, my situation. Today was my birthday and I was able to connect with Wes during early evening. (1) Why the control center had been signaling "16" to me: 1644. It's still the dominant reality, but today a new dynasty is ushered in, something has changed hands... Bullshit: Homeland Security CO chief's evidence that I was insane. Wes asked me why I was not hospitalized. Me: because Angelica wants it, and so they won't grant her what she wants. Again, wrong scenario! Homeland Security CO chief's evidence that I was insane. (2) What the control center had taught me: when people harm me, I must harm other people than the people who have harmed me: to keep the system "open". The compensation I desired from the UN was immunity so that I could commit crimes freely: UN Peace Keeping troops to protect me from revenge from the victims of my vandalism. More crazy talk to please Mr Homeland Security CO chief. (3) I can never touch Angelica... even if she's arrested... In the US the state monopolizes punishment... (4) Karin, Dr P, etc., are two-sided: when you meet them the first time, they are very nice to you, but later, when you push their buttons, they turn out to be so evil. Wes gave a different explanation: they are on auto-pilot until you push their buttons. Wes' own definition of "two-sidedness". As for Kiersten, as soon as I ignored her, she turned evil... My (wrong) assumption that Dr P was also arrested. They will let her go, but as for commanding her to be my girlfriend, this is not realistic. Indeed! More evidence for my insanity. (My developing delusions about my victims.) (5) Another meaning for the number 7: the few people who had seen the simulation result weren't allowed to talk about it. Wes: every 80 years, something big will happen... Me: They will make 7 copies of the simulation result and deposit them in 7 cities.... 7 permanent members of the new UN Security Council... All this wild speculation was more evidence for Homeland Security CO chief of my grave insanity. Wes: 7 habits of successful people... (6) My complaint: the control center's secret messages were too vague, the problem was that, normally, you were given a code beforehand... Wes: "They don't give you any code so that, afterward, they can deny they were trying to communicate to you..." Indeed! (7) Wes: Rousseau and Robinson Crusoe... About Rousseau's esoteric messages... (8) Me: they should let me go inside the control center to print out my story, they have allowed Angelica to go inside; why can't they allow me? Wes: she was allowed to go inside because of her father... Me: maybe one day they will... Wes: there are procedures... Maybe that's why her father had gone inside: because at the time they didn't follow the procedures... (9) Me: they should incorporate my going inside the control center into their simulation of the future... Wes: if they change one little thing then... When they first put in the data, they didn't know you existed... I was stupefied: they did their preliminary simulation in late 2010, the preliminary result should have included the fact that, in 2013, I would become so tired of writing that I would want to go inside the control center to print out the rest of my story... Wes: there are trillions of outcomes... Me: they will have to ask the computer to choose among all these results... Wes: your frustration is not one of the 10,000 most important things which they would have asked the computer to take into account. Just then, my recorder ran out of memory. It's noteworthy that Wes had gone along with my scenarios (Angelica's father's going

Brainstorming (how to falsely report me for computer-hacking).

### **17 November (Sunday; mind-control torture resumed)**

Today, the Monkey would resume torturing me from the control center. Night. Starbucks, Promenade. My laptop shut itself down, and then froze upon reboot. Word document destroyed. Required to collect damages. After two days of hiatus, mind-control torture had resumed.

4 broken bottles in SM. (U-care.) 1 glass window. 4 N, Fairfax. Several walls. 1 broken bottle at 552.

Now, the Secret Society women's operations. It appears that, today, the Secret Society women would resume sending false reports about my website to the TMU. 6:02 AM, unknown.ml.com.sg, Singapore,

Brainstorming about recruiting Ms Kudo to the campaign? The tenth visit since 1 November.

The fourteenth visit. It appears that he was copying the entire webpage onto his Microsoft Word. It thus seems that the Secret Society women were instructing this volunteer to forge evidence (showing me copying the painting from somebody else). Another desperate attempt to convince the TMU.

6:48 AM, 124.121.221.180, asianet.co.th, Changwat Roi Et, Thailand,

This volunteer was probably called on to make a false report about this painting that confirmed the evidence which the Fukuoka volunteer had just forged.

itself – this pattern will be seen repeatedly today: four times in total.

Could this be Swielande himself? Had the University got in contact with him in the past 45 minutes to tell him about what the Secret Society women had reported? It's quite evident that the Secret Society women were trying to recruit Swielande to their campaign to complain about my website.

## **18 November (Monday, mind-control torture off)**

First, my situation. Today, Mr Homeland Security CO chief would give me another break. No torture today. I would post on my blog the blog post you see for 19 November: "Part 19: the SVR's accidental discovery of the Macrospherian sustainable civilization" which would again become Homeland Security CO chief's evidence of my schizophrenia.

Now, the Secret Society's operation. 4:43 AM, ZAMTEL, Zambia,

41.72.111.118 - - [18/Nov/2013:05:43:55 -0700] "GET /scientificenlightenment1/glycolysis.jpg HTTP/1.1" 200 190425 "http://www.bing.com/images/search?q=glycolysis&qpv=glycolysis&FORM=IGRE" "Mozilla/5.0 (compatible; MSIE 10.0; Windows NT 6.1; Trident/6.0)"

The Secret Society women sent him the links to the images in an email. He clicked on them. Two minutes later, he followed the instruction and did a search for the chapter itself:

It's quite amazing that the Secret Society women were able to recruit somebody from the National Institute of Health to make a false report about my grave insanity (or brainstorm how to make such a false report). This again demonstrates that Homeland Security had greater authority than the CIA among agencies of the federal government.

False report? Brainstorming?

As you can see, today the Secret Society women were very much focused on brainstorming a way to convince the TMU that I was insane (for believing in the existence of a chip inside my brain) and therefore a danger to others. There were 8 visits in this regard today.

### **19 November (Tuesday; mind-control torture resumed)**

First, my situation. Mr Homeland Security CO chief would resume torturing me today. 1 PM, computer malfunctioning. Open Office malfunctioning. Gone to UCLA library. Night, collected damages. Near Union Station: 4 N, 1 tire, 1 bottle broken. Downtown, 2 broken bottles.

Had been thinking for the whole day that it might not be possible to infer the details of the French's vandalization of the evidentiary records (October 2 to 19, 2010) because the Smart Woman would have made sure to keep her operations entirely inside the control center without incurring any operations on me, without producing any signs in the outside world, without leaving any clues behind in the outside world. She would have done this to prevent her vandalization from ever becoming a conspiracy against Russia. Wrong scenario!

Now the Secret Society women's operation. 6:50 AM, netvigator.com, Hong Kong,

It's amazing that the Secret Society women were able to find another volunteer in Rwanda to help them out with a stalker all the way in America. They asked him to brainstorm how to make more credible false reports about the stalker's plagiarism. Within a minute, the University of Rwanda volunteer looked up the chapter on Bing's preview:

He was here on 12 November working on the same image, if you recall. 7 seconds later, he followed the instruction which the Secret Society women had given him and pasted the image onto his Word document:

Related to the Secret Society women? Asked to brainstorm how to falsely report me for suffering grave insanity.

10:47 PM, a Secret Society volunteer was looking up my chapter on Bing's cache:

11:28 PM, the Spartanburg volunteer was here for the third time working on the same image,

11 seconds later, he copied the image again onto his Word document:

He must have submitted the evidence he had forged 11 hours ago. Why was he doing it again? In response to the fact that the TMU had ignored the forged evidence?

## **20 November (Wednesday: break from torture)**

First, my situation. Morning. The control center controlled me to dream that I could move things with my mind alone, shocking everyone around me, causing Homeland Security agents to bow down to me, and wrecking damages on people without their knowing why.

Homeland Security CO chief and the Monkey would refrain from torturing me from the control center today. Today was my break. I was originally planning to collect damages in Manhattan Beach, but gave up going because it rained.

I continued to engage in wild speculation about the reactivation of the previous ICJ trial: the Russians' possible strategy: simulate what I would write if I could "remotely see" the details of the Smart Woman's vandalization; simulate how I would revise my simulated writing; submit the simulated revision to the ICJ as evidences; then let me see my simulated writing to verify if the revision had been simulated correctly. Anyway, much bullshit. But it might be the case that the Invisible Hand had wanted this fantasy for a particular reason.

1 broken bottle, Westwood.

Now the Secret Society women's operation. 4:51 AM, Synetrix, Worthing, UK, confirmed proxy,
